Statistics Given in Regard to Business and Recommendations Made-The Decline Before Noted Continues-Entries Appear to Have Fallen Off 19.095-Total Cash Receipts \$2,033,454.

Land Office Report.

WASHINGTON, Oct. 5 .- S. W. Lamoreaux, commissioner of the general land office, in his annual report to the secretary of the interior, declares that the decline of land office business noted in the last report still continues. Compared with 1894 there has been a decrease in land entries of 19,095, and of 6,016,685 acres entered upon, a decrease of final entries of 6,584 and 356,059 acres entered upon, and a decrease of cash receipts of \$734,370. The business of the office for the fiscal year ended June 30 was as follows: Cash sales. 417,378 acres; homestead entries, 5,00 9,491 acres; state selections, 626,169 acres; railroad selections, 1,967,479 acres; swamp land patents, 244,774 acres; Indian allotments, 85,455 acres; Indian lands sold, 42,548 acres; total cash receipts, \$2,033,454; patented or certified with the effect of patenting to radroad companies, \$,184,326 acres, surveys accepted by the land office, 10,127,653 acres.

The commissioner recommends that appropriations for the survey of public lands be made continuous instead of annual, as under the rules of the treasury department it has been found that where extentions have been made upon a contract an extension operates as a new contract and must be paid for out of the appropriations for the year for which it was made. He also re-news his suggestion of last year that surveys of public lands be made by the government direct, instead of un der the contract system, as at present, under the supervision of the director of the geological survey upon recommendation of the commissioner. He refers to the fact that large surveys have been made under this system in Indian territory with success.

The total area of vacant public land in the United States is as follows: Surveyed, \$13,837,888; unsurveyed, 285,-245,607. The land office has examined and has in process of adjustment twenty-two land grants to railroads. The interior department has approved the findings of the land office regarding the land grant adjustments in eleven cases, and ten other cases for final adjustments have been submitted to the

the sub-adjacent states. The commissioner recommends a law to compel the attendance of witnesses at land offices in contest cases; an appropriation of \$50,000 annually for making examinations necessary for the establishment of forest reservations and for the protection of reservations already existing.

Indians Out for the Money. ARDMORE, I. T., Oct. 5 -The Chickasaw tribal authorities are understood to be favorable to allowing the Corbett-Fitzsimmons mill to take place in this nation for a satisfactory pecuniary consideration. With them it is a question of revenue. Kilgore, the federal judge at Ardmore, claims there are no legal impediments so far as his juris-diction is concerned. There is no tribal law prohibiting physical culture exhibitions. Expedition. London, Oct. 5 .- Considerable anxiety is beginning to be felt in scientific circles regarding Dr. Donaldson Smith's African expedition, news of which is long overdue. According to the latest advices Dr. Smith had been stopped by the Abyssinian army, and it is feared that he has had to retrace his steps and go in a southwesterly direction. He may thus have got be direction. He may thus have got be-hind the district where the British are now fighting, at Mwell, on the British East African coast, and have been caught by the natives. It is hoped, however, that when he heard of the fighting, Dr. Smith made a detour, in which case he would be heard from in the neighborhood of Lake Tanganyiki,

or along the German or English lake Dr. Smith, who is a resident of Philadelphia, started from England in the latter part of May, 1894, for the Someli coast, with the object of reaching lakes Rudolph and Stefanie from the northeast. A FAMINE IN CUBA.

Great Distress Predicted in Case the War

Continues. NEW YORK, Oct. 5.-A local paper prints extracts from a private letter from Cuba which predicts a famine if the war continues. "The troops in the interior part of the island are suffering unheard of hardships. They are famished, clothesless, shoeless, and without medical attendance. The very officers confess the total demor-The alization of the army and pronounce the difficulty insurmountable. The departments of Santiago Puerto Prin-cipe, Santa Clara and Matanzas—that is to say, nearly all the island-are being devastated. Everywhere small parties of rebels patrol the country with perfect impunity, robbing and firing property.'

EPISCOPAL MISSIONS.

Report on the Embezzlement of Henry Oakley and Rev. William Newbold. MINNEAPOLIS, Minn., Oct. 5 .- In the

Episcopal house of bishops one of the principal reports presented to the poard of missions was the report of the executive committee of the American Church Missionary society, read Secretary J. Thompson Cole. It was the first public and official utterance as to the embezzlement of \$41,000 by the former treasurer, Henry Oakley, and the former secretary, the Rev. William A. Newbold. It had been hoped to avoid all public reference to the affair, but this was found impossible. The amount taken by Oakley was computed at \$21,823.24 and by Newbold at \$19,034.16 from September 1, 1887. The defalcation was made possible by the fact that there was no check on the accounts of either save by the other, and upon this they relied for safety. The treasurer has reimbursed the society, but the secretary has no money nor anyone suffic-iently interested in him to make it good. It would be impossible to prosecute the treasurer without returning the money made good as it came from another source. No promises had been made, but prosecution seemed impossible. The secretary was old, penni-less and disgraced. To proceed against him and not against the treasurer would justify the charge that the prosecution was not because he took money but becave he had no friend to pay it

Violated Treaties. WASHINGTON. Oct. 5. - William F. Cody was at the Indian office with a large delegation of Indians connected with his Wild West show. They were given a hearing by Acting Commis-sioner Smith, to whom they com-plained that their treaties were not being carried out according to agreement, all of them saying that if he should stop to tell all that the government had promised them that it would occupy him two days. He said that they were short of rations, clothing and blankets on the reservations. All those that spoke said that they were being treated well by Colonel Cody.

LOST IN DARKEST AFRICA. DAYS OF DEPRESSION.

HOW THEY ARE FELT BY THE RAILROADS.

Commissioner Hampton Makes His Report of the Pacific Lines-He Thinks the Thurman Act Will Be Found to Justify the Expectation of Its Framers if Several Amendments. Which He Suggests, Are Made-Railroad Legisla tion Reviewed.

WASHINGTON, Oct. 4 .- Wade Hampton, commissioner of railroads, has made his annual report to the secretary of the interior. He says that during the hard times the gross receipts of the Union Pacific system was reduced \$1,000,000 a month below the normal. He also says that a cast-iron rule as to payments cannot be observed, and thinks there should be a flexible adjustment of annual payments to correspond with diminished earnings. He thinks that the Thurman act will be found to justify the expectation of its its framers, if the

following amendments are made:
First—To embrace within its provisions all Pacific roads which have received from the United States a loan of its bonds in aid of construction. Second—To provide that 50 per cent instead of 25 per-cent of the net earn-

ings be retained.
Third—To extend the debt till it shall have been discharged as pro-

Fourth-To further provide that if any of the companies abandon any por-tion of the subsidized lines or divert their business from a subsidized to an unsubsidized road, the company shall, in such cases, be required to transfer the lien and condition which attached to the old or subsidized line to the new and unsubsidized line, in order that the rights and interests of the United States may be proceeded.

The commissioner believes that such

legislation will hasten the payment of the companies' indebtedness, as they are anxious to be freed from governmental supervision.

The commissioner also renews his recommendation relative to a revised system of accounting by the Pacific

If the recommendations previously made that the Thurman act be amended be not accepted as an alternative, he recommends that a com-mission be appointed by the president to settle the indebtedness of the bond-

aided railroads.

The commissioner further recommends the order of the treasury de-partment which directs that compensation services rendered the government by the non-aided and leased lines of the Union Pacific company be paid to the receivers of the roads in cash and not retained in the treasury as formerly.

The commissioner refers to the fact

that there has been great improvement

in conditions since his last annual

report, and that there is an increase of earnings of roads under his supervis-ion. He reviews the financial condition of the Union and Central Pacific railways and says the debt of the Union Pacific to the United States is \$53,005,063, with a total liability of \$187,873,500; the debt of the Central Pacific to the United States is \$57,784,-983, with a total liability of \$185,033,-152. The commissioner says that the bonds of the Central Pacific, which fell due on January 16, 1895, were to have been paid by the company, but as a matter of fact, were paid out of the general funds of the United States treasury. He said that this payment may be reimbursed from the sale of bands in the sinking fund but there in bonds in the sinking fund, but there is not sufficient market for the sale of such bonds to cancel one-tenth part of the debt. The properties of the two roads are reported in good condition. Commissioner Hampton, reviews the results of the past two years have shown that during a period of finan-cial and industrial depression, it would be impossible for the Union Pacific company to meet the annual fixed charges, in addition to other necessary and inevitable expenses, of such an amount as would be required to discharge the debt of the United States in fifty years at 3 per cent, as proposed in the Reilly bill, or even 2 per cent, which the representatives of the com-

Mather, Lashes Her Husband. MILWAUKEE, Wis., Oct. 4.—Mrs. Gustave Pabst, formerly Margaret Mather, the actress, created a sensation near Twenty-ninth and Cedar streets yesterday afternoon by striking her husband, a son of the wealthy brewer, several times with a horsewhip. What was the cause of the trouble no one seems to know, but numerous residents in the vicinity were eve witnesses to the attercation which began in a buggy in which the couple were riding, and which ended at the corner of Twenty-fourth and State streets, where Mr. Pabst wrenched the whip from his wife's hand as the latter struck her husband

a blow full in the face. Gustave Pabst and Margaret Mather were married in November, 1892, but the wedding was kept a secret for several months, creating a great sensa-tion when it finally became known The bride soon after left the stage and has since lived quietly with her

Friends of the couple give no explanation of the trouble and Mr. Pabst has not been found since the encounter.

Insurance Tax Money.

JEFFERSON CITY, Mo., Oct. 4 .- State Auditor Seibert apportioned the \$107,-608.84 county foreign insurance tax moneys for 1895, now in the state treasury, to the various counties and the city of St. Louis upon the basis of 11.3928 cents per capita of school children, as shown by the last enumeration. This money is in lieu of county and municipal taxes on the net premi-ums collected by foreign insurance companies in 1894, and will, when paid to the counties, be divided between the revenue funds of the counties and incorporated cities and towns.

PUGILISM KNOCKED OUT.

There Will Be no Corbett-Fitzslmmons

Fight in Texas. Austin, Texas, Oct. 4.-There will be no prize fight at Dallas October 31 between Corbett and Fitzsimmons. This fact was settled yesterday afternoon by the Texas legislature in exactly three hours by the watch. The two committees, one in the senate and the other in the house, gave an audience to the Dallas attorneys all the morning to ascertain their objections and protests to the passage of the law. After hearing the gentlemen until

noon, the two committees adjourned. When the two houses met at 3 o'clock, both committees were ready to report and the senate bill was very promptly considered. From the time the bill was placed before, the senators to the time it passed was exactly fifty-five minutes. During this time Senator Dean opposed the bill and Senator Lasker spoke in its favor. There were only two gentlemen who spoke on the bill, the balance satisfying themselves by voting. The vote on the final passage of the bill was 27 ayes and 1 no, Dean being the negative voter. The bill was immediately sent over to the house and at 4 o'clock that body began discussing it, substi-tuting the senate bill for the house bill. After several gentlemen had spoken on the bill and the emergency feature, pro and con, a final vote wa reached at 6 o'clock precisely and the bill passed the house by a vote of 110 ayes to five nays. Thus, within three hours, did the Texas legislature forever put an end to prize fighting in Texas. Governor Culberson's friends con-

sider it a great victory for him, and lost no opportunity to congratulate his excellency on the outcome of one of the hottest and, it might be safely termed, one of the bitterest, as well as the shortest, political fights ever brought up in the Lone Star state on any one single man.

The bill that will prohibit prizefighting in Texas in future, as passed, reads

Section 1. Be it enacted by the legislature of the state of Texas, that any person who shall voluntarily engage in a pugilistic encounter between man and man, or a fight between a man and a bull, or any other animal, for money or other thing of value, or for any championship, or upon the result of which any money or anything of value is bet or wagered, or to see which any admission fee 's charged, either directly or indirectly, shall be deemed guilty of a felony and upon conviction, shall be punished by im-prisonment in the penitentiary not less than two nor more than five years.

Section 2. By the term "pugilistic encouter," as used in this act, is meant any voluntary fight or personal en-counter by blows by means of the fist, or otherwise, whether with or without gloves, between two men for money, or for a prize of any character, or for any championship, or for any other thing of value, or upon the result of which any money or anything of value

is bet or wagered. Section 8. That all the laws and parts of laws in conflict herewith be and the same are hereby repealed.

Section 4. The fact that there is now no adequate penalty against prize fighting or pugilism, or against fights between man and beast, creates an imperative public necessity and emergency requiring the suspension of the constitutional rule requiring bills to be read on three several days, and that this law should take effect and be in force from and after its passage, and it is hereby so enacted.

WAGNER'S CONFESSION.

The Fallen Priest of St. Joseph Makes a Clean Breast.

St. Joseph, Mo., Oct. 4. - The Father sensation in this town. The priest has made a clean breast of the whole

He admitted that he had been intimate with Miss Steidel and stated that the intimacy had extended over a period of eighteen months. He period of eighteen months. He claimed that it was his intention to resign from the priesthood and assoon as that was accomplished he had intended to marry the girl and get out of the country. He said that he had several thousand dollars of his own which had been left to him as a legacy, his possession of which was not known to the public, and with this money he had intended to take care of his wife and engage in business. The confession was made in the presence of the uncle of the girl, Alexander Podvant, and at its conclusion the priest begged Podvant to intercede with the mother of the girl and allow him to make what reparation was possible by marriage to the girl, whom he said he dearly loved.

The mother of Miss Steidel is utterly opposed to the union of her daughter with the disgraced priest, and declined to listen to any overtures of that character. The young woman is said to favor the proposition, and it is understood that all of her relatives favor the idea and will see if they can not get Mrs. Steidel to look on the matter favorably. Father Wagner asked Miss Steidel and relatives to assist him in stopping the prosecution against him, and from indications he will probably succeed.

Maude Steidel said her relations with the priest began about a year ago. She is willing to marry him, and says in the event of a wedding they will go to Chicago to reside.

SARCASTIC "TRUTH."

Suggests a Way for American Girls to Get Titles Without Marrying Noblemen. London, Oct. 3 .- Truth said yesterday, commenting upon the duke engagement between of Marlborough and Miss Van-derbilt: "British mammas and their daughters will soon be clamoring for protection if all the prizes in the marriage market are to fall to the American damsels. The mania for title inherent in the Anglo-Saxon it is in vain to contend aganist. But the matter is somewhat serious to the United States, That country must be a great loser through much of its wealth crossing the ocean. The United States will do well to manufacture the coveted titles at home, for it is a wooden nutmeg that is easily bought. The existence of titles, it is true, is not in accordance with the simplicity of republican institutions, but in view of the heavy drain this might be overlooked and the parents of any girl might be allowed to buy her a title, say for \$200,000 (1,000,000.) The public treasury would thus be filled with dollars and the girl would remain at home. But there would still be the difficulty of finding husbands in the home market, for the Americans are as strongly opposed that is easily bought. The existence the Americans are as strongly opposed to becoming rich through their ladies as the British noblemen are in favor of this mode of enrichment."

Those who know only the finished miniature, and have no acquaintance with the method of its production, cannot conceive of the labor that it represents. Each of these tiny masterpleces—these ornaments with human identification, these concentrated fication -these concentrated expression of pictorial art--stands for more to of a peculiarly exacting sort, than the largest canvas. The brushes, some of them containing scarcely half a dozen hairs, make strokes so fine that most of the painting must be done under a magnifying glass. And the touches on the frail bit of ivory must be as unerring as they are light, for the smallest mistake may destroy the characteristic translucence that constitutes the mini-

sture's greatest charm.

Appropriate to the election season is an article written by Mr. Edward J. Mr. McDermott has gathered many anecdotes of amusing experiences at the polls, but he laments the decline of public speaking, which he declares is by no means up to the old-time standard in Kentucky.
