CONTEST papers were filed in the county judges office by E. R. Banks, who contests the election of John E. Neel, whom the returns show was elected sheriff of Red Willow county by six votes. Fraud is alleged in every precinct. The trial is set for January 7.

The farmers around Sutton who grow sugar beets this year, have been permitted to ship about one-third of their crop to the factory at Grand Island. The remaining two-thirds have been allowed to await the graciousness of that company. This course on the part of the Oxwards has resulted in a great deal of loss and dissatisfaction, and the prospect is that very few beets will be raised there another year.

"Let me raise potatoes and I care not who makes the laws," said F. Y. Robertson of Kearney. "On a forty-acre tract in the Platte river valley, under irrigation, I got a yield of 8,000 bushels, an average of 200 bushels to the acre. At the present low price of 30 cents the crop is worth \$2,400. It probably cost \$25 an acre to produce the crop, which means at least a profit of \$23 an acre."

At York the jury in the case of Anthony Yost vs. the C. B. & Q. railroad company rendered a verdict in favor of the plaintiff, placing the damages at \$11,000. Yost was run down by a switch engine at Belgium, Wyo., September 6, 1894, and badly mangled. His right arm and the side of his body are paralyzed and he is almost helpless from the effects of the accident. He sued for \$50,000.

At Lincoln the jury in the Rock Island wreck case brought in their verdict, finding G. W. Davis guilty of murder in the second degree, with a recommendation to the mercy of the court. The crime with which Davis was charged was the displacement of the rails on the Rock Island bridge over Salt creek, just south of Lincoln, and causing the wreck of the passenger train on the night of August 9, 1894. Eleven persons were killed in the wreck.

At Platte Center the night before Thanksgiving Rev. Henrich retired to bed at his usual hour, as usual did his wife, but as they did not appear about their house next morning and no response was made to knocking at the door a son-in-law forced open the house and found both Mr. and Mrs. Henrich asphyxiated by gas escaping from a hard coal stove. Mr. Henrich was found dead and his wife unconscious, with little hope of recovery.

W. C. PARRISON of Dodge county experimented making syrup from sugar beets. He made a temporary apparatus at Fremont and succeeded in producing a syrup which in taste and appearance and general properties closely resembling that made from cane. From the results of his experiment he estimates that seventy gallons of syrup can be made from a ton. The expense of making it is not heavy, and if a market can be obtained for it, it will help to dispose of the beet crop.

Be careful and fill the certificate with the names of all the representatives and alternates, all past post commanders in good standing. Your attention is called to the literal provisions made for reinstatement of members dropped from the rolls for non-payment of dues, as published in general order No. 3, national headquarters.

Young Lady in Disgrace.

Beatrice dispatch: An unusual case of shoplifting was developed here today. A few days ago a young lady, Theresa Severance by name, living with her parents at Virginia, while in Samish's millinery store, opened her satchel and disclosed to the view of one of the clerks a valuable bonnet which had been stolen from the store nearly a year ago. The proprietor was informed of the fact and in due time the young lady was accused of the theft. She admitted her guilt and on making restitution, was permitted to return home. Today Chief Hershman went to Virginia and arrested her on a charge of having stolen valuable trimmings from the store of Begole & Van Arsdale about two months ago. She broke down and confessed to the charge, was arrested and brought here for trial. She was arraigned before Judge Enlow and as a plea of guilty was entered no trial was necessary. The court assessed a nominal fine and restitution of the property, which was paid. Miss Severance lives with her parents at Virginia and the fact of her arrest caused a big commotion. She says she does not know why she stole the things.

Judicial Contests.

Lincoln dispatch: This morning the State Canvassing board met in the office of the secretary of state, but, acting in accordance with instructions from the supreme court, adjourned until tomorrow. This plan will be pursued from day to day until the counties involving the judgeships of the Fourteenth and Fifteenth judicial districts have been decided. So far as the Westover-Bartow case is concerned, it is practically ended in favor of Westover, the populist candidate. The referee appointed to take testimony reported to the supreme court today and the case was argued. It was shown that Westover has a clear title to the office on the face of the returns, and Bartow concedes his election. The proceedings in court, however, cut down Westover's plurality from eleven to six.

In the Welty-Norris contest case the supreme court granted the application for a writ of mandamus to compel the clerk of Furnas county to canvass the vote of Union precinct. This is considered a victory for Welty. A stipulation was filed this morning by which the contestant, Welty, withdrew all charges of fraud. In this case Referee Cornell reported and the case was argued, submitted and the writ allowed as prayed for.

The State vs Hill.

A supplemental answer has been filed in the case of the state against ex-Treasurer J. E. Hill, whose trial is set for December 2. This answer is in the form of statements from the principal, Hill, and six of the bondsmen sued for the \$336,000, alleging the following facts, which have occurred since the previous trial of the action:

That on or about the 4th day of September, 1895, Joseph S. Bartley, treasurer of the state of Nebraska, acting in his official capacity as such treasurer and under and by direction of the state of Nebraska, commenced against Kent K. Hayden, receiver of the Capital National bank of Lincoln, Neb., in the circuit court of the United States for the district of Nebraska, an action to recover of the said receiver as the representative of the said Capital National bank, which had become gone into the hands of said receiver for liquidation, the identical money sought to be recovered in this action, to-wit: The sum of \$336,361.83, with interest thereon at 7 per cent per annum from the 20th day of January, 1893, being the identical moneys appearing as a credit in said bank in favor of the plaintiff, and the same money sued for in this action.

Attached to this is a copy of the petition in the action commenced in the United States circuit court at Omaha.

Election Contests Filed.

Chadron dispatch: C. A. Ribbins, supreme court referee of Lincoln, was today in the city hearing the testimony of County Clerk O. K. Eastman, republican, J. M. Robinson, democrat, and I. Karbaugh, populist, who comprised the Dawes county canvassing board, in the case of Alfred Bartow, republican candidate for judge of the Fifteenth district, applying for a writ of mandamus to compel the board to canvass Chadron precinct. His report will be filed upon his arrival at Lincoln. The bill books were reopened and only a possible discrepancy of five votes could be seen by outsiders, this being the first ward. This would leave, if allowed, W. H. Westover of Rushville, still six votes ahead of the district.

HOUSE CHAIRMANSHIPS.

DINGLEY OF MAINE SELECTED FOR THE PLACE OF HONOR.

WILL BE PARTY LEADER.

Fitness and Not Seniority of Service the Probable Policy of the Next Speaker—Two Other Maine Men Favored—Iowa and Other States Well Cared For—Late Washington News.

NEW YORK, Dec. 2.—A special to the Herald from Washington says: "Representative Dingley of Maine is to be chairman of the committee on ways and means and leader of the House of Representatives. Mr. Reed, who has been very secretive as to his intentions in regard to committee appointments, has allowed this information to get out finally. It is of the highest importance as indicating that the new speaker does not intend to be influenced so much by seniority of service in making up the committees as by the fitness of men for the places which he has to fill.

"Other important chairmanships that are understood to have been definitely decided upon by Mr. Reed are: Mr. Pitt, of Illinois, committee on foreign affairs; Henderson of Iowa, committee on interstate and foreign commerce; Walker of Massachusetts, committee on banking and currency; Mr. Bingham of Pennsylvania, committee on postoffices and postroads; Mr. Boutelle of Maine, committee on naval affairs; Mr. Milliken of Maine, committee on public buildings and grounds; Mr. Hermann of Oregon, committee on rivers and harbors; Mr. Daniels of New York, committee on elections; Mr. Harmer of Pennsylvania, committee on District of Columbia.

"As Mr. Reed's selection as speaker was a foregone conclusion, he had ample opportunity during the recess to block out the committees and decide upon the various chairmanships. The members themselves generally wrote to him their aspirations. It is believed that before he arrived here almost all the important places had been decided upon. It is understood, though, that a few of the important assignments are yet in controversy. It was for a time proposed to make Mr. Payne, of New York, chairman of the ways and means committee, and Mr. Dingley had consented to give way in order not to embarrass Mr. Reed. Now, however, that plan has been changed and Mr. Dingley will have the place of honor, with Mr. Payne second."

Bids for New Battleships.

WASHINGTON, Dec. 2.—When the bids for building the two big battleships authorized by the last Congress were opened at the navy department today, it was found that the Newport News, Va., Ship Building Company had underbid all competitors, North and West, and that Mr. Cramp had offered to build two battleships with armor for the hulls and throw in another ship of like type, but without armor, if allowed to use his whole plans, for the sum fixed upon by Congress as the ultimate cost of two ships. These boats will really be larger than the Iowa, the largest of the present battleships.

Preferences of the Missourians.

WASHINGTON, Dec. 2.—Five of the Missouri Congressmen have informed Mr. Reed of their preferences regarding committee assignments. The indications are that most of them will get about what they are asking for. These preferences are as follows: Rivers and harbors, Mr. Clark; invalid pensions, Mr. Crowther; military affairs, Mr. Tracey; immigration, Mr. Bartholdt; judiciary, Mr. Burton.

Oklahoma Bankers Indicted.

PERRY, Okla., Dec. 2.—J. V. N. Gregory of Michigan, former president of the First State bank of Perry; Fred W. Farrar, former cashier; Fred Gum, former clerk, and L. M. Richardson, jr., son of L. M. The Richardsons sold out the bank to Farrar and associates June 11 and the bank failed September 13.

WESTERN EXPOSITION

OMAHA THE PLACE AND 1898 THE TIME FOR HOLDING.

Some of the Things Done in the Trans-Mississippi Congress Held in Omaha—A Memorial in Behalf of the Nebraska Delegation in Congress—A Proposition Presented by Ex-Congressman Bryan Received With Great Enthusiasm—A Resolution Unanimously Adopted.

The Trans-Mississippi Congress.

OMAHA, Nov. 30.—At the Trans-Mississippi congress held in this city resolutions were adopted in favor of a congressional appropriation for defending the harbor of San Diego by water vessels and fortifications, for the improvement of waterways and for a deep water harbor at San Pedro. A long resolution urging the various state governments to take legislative action relative to irrigation was submitted and referred.

The committee on ways and means recommended that the sum of \$3 be assessed against each member of the congress for general expenses. Adopted.

President Bryan asked unanimous consent to introduce the following memorial in behalf of the Nebraska delegation:

Whereas, We believe that an exposition of all the products, industries and civilization of the states west of the Mississippi river, made at some central gateway where the world can behold the wonderful capabilities of these great wealth-producing states, would be of great value, not only to the Trans-Mississippi states, but to all the homeseekers in the world; therefore, be it

Resolved, That the United States congress be asked to take such steps as may be necessary to hold a Trans-Mississippi exposition in Omaha in the months of August, September and October in the year 1898, and that representatives of such states and territories in congress be requested to favor such an appropriation as is usual in such cases to assist in carrying out this enterprise.

In explanation of the motion Mr. Bryan spoke briefly on the advantages which such an exposition would create for the west. The people of the east had no conception of the resources of the west. When they visited Chicago they thought that that was as far west as civilization extended. Such an exposition as was projected would bring thousands of these people to view the actual possibilities of the Trans-Mississippi states.

Colonel John Doniphan of St. Louis urged the adoption of the resolution. He said that no more appropriate place than Omaha could be selected at which to give an exposition of the growth, the products and the weather of the western country. Omaha was in itself a realization of the fondest dreams of the early statesmen of this nation. He briefly related the history of Nebraska and the surrounding states of which Omaha was one of the grandest triumphs. He urged unanimous action by the congress in favor of the resolution. His eloquent tribute to the west was received with hearty applause.

Mr. Cannon said that fifty years ago he had roamed over the hills where Omaha now stands. Then the Indians occupied the territory undisturbed, and now he marveled to see the structures that had grown on the then barbarous soil in this half century. He declared that the city hall and the Bee building had impressed him with the enterprise of Omaha, and the disposition of its citizens to build up a great city on the banks of the Missouri.

Other speakers expressed similar sentiments, and then the resolution was unanimously adopted by a rising vote, and amidst prolonged applause.

Resolutions were adopted declaring in favor of a strict enforcement of the Monroe doctrine and the completion of the Nicaragua canal under the direct supervision and control of the government; demanding the recognition of the Cubans as belligerents; the admission of New Mexico as a state; the appropriation of \$500,000 by the next national congress for the purpose of an irrigation survey of the arid and semi-arid regions of the west; declaring for the immediate foreclosure of government mortgages on the Pacific roads, or else a reorganization on such lines as would only allow the railroads a reasonable degree of profit. W. J. Carlson of California presented a minority report on the latter resolution, in which he pointed out the utility of the railroads in developing the west, and urged that a settlement be effected on the merits of the case. The resolution was championed by President Bryan, who had originally introduced it.

Mr. Carlson spoke at length in favor of the minority report, and after some further discussion and a general ventilation of opinions, both reports were referred back to the committee to see if it could not agree on a compromise report.

THE COST OF BAD ROADS.

Hundreds of Millions Wasted Every Year in America.

WASHINGTON, Nov. 25.—The road inquiry bureau of the Department of Agriculture has received returns from about 1,300 counties, showing the average length of haul from farms to markets or shipping points to be twelve miles, the average weight for a load for two horses 2,003 pounds and the average cost per ton per mile twenty-five cents. Estimating the farm products at 219,824,227 tons in weight, and making estimates on other articles carried over the public roads, it is calculated that the aggregate expense of this transportation in the United States is \$946,414,665 per annum.

Reports have been asked from the United States consuls abroad of the expense of hauling where the roads are good, so as to render possible a calculation which will show how much of this vast outlay is rendered useless, upon information in the reaching markets, the enforced idleness and the wear and tear to the live stock and hauling machinery caused by poor roads, that two-thirds of the cost might be saved by improvement of the roads.
