

MORE DOCTRINE TALK

SENATOR BLANCHARD SETS FORTH HIS VIEWS.

He says the Monroe Doctrine Must Be Enforced—Believes the Time has Come for Legislative Enforcement of the Declaration of Congress—Broad, Bold, Comprehensive, But Not in Anger or to Menace.

The Monroe Doctrine Again. WASHINGTON, Feb. 12.—When the Senate convened this morning Senator Blanchard of Louisiana spoke for the passage of the Davis resolution.

Senator Blanchard commended the president for the reassertion on an enlarged basis of the Monroe doctrine and advocated that it be given legislative endorsement. He believed the time had come for such a declaration by Congress—broad, bold, comprehensive, not made in anger or menacing, but firm.

The United States is expected to stand aloof from entangling alliances with Europeans. We are to have, it seems, nothing to do with European, Asiatic, African or Australian concerns. We have heretofore steadily adhered to this line of policy.

Shut out of participation in European politics, neither asking nor being invited to take part in the same, we are to be deprived of the right to prescribe and dominate an American policy? On this point the people of the United States are especially sensitive.

The Monroe doctrine, even in its present proposed enlarged scope, is not to be extended to interfere with the business relations between the American republics and Europe.

The Central and South American states desiring our aid to prevent acquisition by conquest of any of their territory by stronger powers, can not object if we insist that neither shall they dispose of their territory to foreign powers by treaty or other negotiation.

It has been said that the appointment of the Venezuelan commission was an offense to the people and government of Great Britain. Happily the government does not take that view.

Hon. A. J. Balfour, first lord of the treasury, and Conservative leader in the house, was loudly cheered when he arose to reply to the Liberal leader.

"IT WAS NOT SO."

AND IT APPEARED IN THE COLUMNS OF THE "SUN."

The Prediction that Cleveland's Election Did Not Mean Business Disaster Has Been Refuted by Sad and Dreadful Experience.

DISASTER? POOH! POOH!

BUSINESS MEN CONFIDENT THAT THEIR INTERESTS ARE SECURE.

Immediately after the election of President Cleveland, on Nov. 11, 1895, the above headlines appeared in a democratic paper, the New York Sun.

We know only too well how business men fared during 1893 and 1894. For 1895, Dun's Review, Jan. 1, gave the aggregate liabilities of trade failures at \$173,196,060, against \$172,992,856 in 1894, and the average per failure at \$13,124, against \$12,458 in 1894.

At this point the Senate adjourned.

On Object Lesson for Manufacture

Advertisement for Bradford Woollen Goods. Includes text: 'Woolen Goods Made in Bradford England and Marketed in the United States - £334,454'. A vertical scale on the right shows 'Value of Wool Sold to the United States by Great Britain' for the years 1894 and 1895.

administration, especially as the failures grew greater toward the end of the year, Dun's Review saying that they showed "a heavy increase, 66 per cent, in liabilities of manufacturing failures for the past quarter." The totals for the year were:

Table showing Manufacturing Failures. Columns: Section, 1894, 1895. Rows: New England, Middle, South, Southwest, Central, West, Pacific, and Total.

Total \$67,363,775 1894; \$73,920,073 1895.

An increase of \$6,556,298 in the liabilities of manufacturing concerns that failed last year does not permit us to pooh pooh disaster, especially when we recollect that the democrats wiped out all the weak concerns in 1893, immediately after they assumed control of the administration.

It is the big republican states that they are after now. "In seven states the increase in manufacturing failures for the year was \$18,570,596, or 62.6 per cent," says Dun's Review. Note the seven:

Table showing Manufacturing Failures for Seven States. Columns: State, 1895, 1894. Rows: New York, New Jersey, Connecticut, Rhode Island, Michigan, Ohio, Illinois.

Total \$48,218,448 1895; \$29,637,862 1894.

How New York, New Jersey, Connecticut and Illinois are being punished for going republican since 1892! The lumber and mining men of Michigan are feeling the lash, and Ohio is being whipped up for its back sliding.

"The excess of manufacturing failures is found within a very narrow district. More than the entire increase appears in New York \$8,000,000, Illinois \$4,300,000, Rhode Island \$2,300,000, Connecticut \$800,000, New Jersey \$600,000, Ohio \$1,100,000, and Michigan \$1,400,000.

000, Rhode Island \$2,300,000, Connecticut \$800,000, New Jersey \$600,000, Ohio \$1,100,000, and Michigan \$1,400,000. A few other states show a small increase, but the rest a decrease. In these seven states the increase is no less than \$18,570,596, or 62.6 per cent over last year.

It is getting worse. There was an increase of \$7,785,000 in the liabilities of the manufacturing failures during the last half of 1895 over and above the amount of liabilities in the last half of 1894.

"Men actually believed that the country, with part of its working force unemployed, and with wages considerably below those paid before the panic, was going to consume more largely than it ever had in the most prosperous years.

"And what about all that talk of "higher wages," "returning prosperity," "greater activity in the factories," "increased demand for goods," "good times," that every democratic paper in the country was falsely reporting during 1895? Ananias and Sapphira must hang their heads with shame and blush from very modesty at having had the effrontery to pose as masters in the art of falsifying. But democratic editors

decrease has been considerably more than this.

Reason Enough.

The English papers have already found fault with the new tariff revenue bill as it has passed the house of representatives. This is reason enough for its becoming law.

Dear Dear!

Mr. Cleveland finds that he has got the country into a "delicate predicament."
