

Cultivating the Palm Indoors.

Eben E. Rexford in a practical article in February Ladies' Home Journal, explains in detail how the palm can be successfully cultivated (in the house). In summarizing the essential points to be observed he says: "The hot, dry air of the living room lacks that vital principle which the air of the greenhouse had in it, and encourages the development of insect enemies which rapidly sap the impoverished life-blood of the palm."

The Ideal Husband.

An article in the current number of an influential review bears this rather portentous title: "Does the Ideal Husband Exist?" Despite the weightiness of the doubt implied, the answer is really easy. It depends on the ideal. The trouble with the modern woman is that she wants too much. In this she is in strong contrast with the modern man. He doesn't want too much. In fact, he would often be glad to take less than he gets. But she, if she is very modern, wants earth and heaven combined, and varying in combination according to the requirements of the moment.

"This she can't get, and she never will be able to get it." The best consolation for her is to rest in the conviction that the ideal wife is more likely to be found than the ideal husband. Thus her sex will be left with the advantage. Philadelphia Times.

MILLIONS OF DOLLARS ANNUALLY. And more could be made by the farmers if they would plant Salzer's big cropping seeds, because Salzer's seeds sprout, grow and produce, giving you from 4 to 6 tons of hay per acre, over 200 bu. of corn, 116 bu. of barley, 1,200 bu. of potatoes, 209 bu. Silver Mine Oats and the like per acre. These are positive facts, all of which can be substantiated by oath. Now, the editor asks why show poor seeds and get poor yields, when such big, bountiful yields are possible? Salzer's catalogue tells you all about it.

An elephant's skin, when tanned, is over an inch thick.

"BROWN'S BRONCHIAL TROCHES" are unrivaled for relieving Coughs, Hoarseness and all Throat Troubles. Sold only in boxes.

You can do more for yourself than any man can do for you.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

It is the Direct Line.

The difference between the Burlington and all other lines to Montana and the Pacific Northwest is the difference between a direct line and a line that isn't direct.

The Burlington is the direct line. It is from 50 to 325 miles shorter than any other line to Helena, Butte, Spokane, Seattle and Tacoma. A fast train for those and all other northwestern points leaves Omaha at 4:35 p. m. daily. Go west on it if you want to reach your destination quickest and most comfortably.

J. FRANCIS, Gen'l Pass'g't Agt, Omaha, Neb. LEGGINS! Fine Army Leg with side strap, \$1.00. Good Heavy Duck with Buckles, 65c. Sent prepaid on receipt of price. Send size of shoe and measure of calf of leg. L. C. HUNTINGTON & SON, Omaha.

W. N. U., OMAHA—11—1895

THE FREE TRADE LIAR

HE LETS HIMSELF LOOSE AND FALSIFIES FIGURES.

The British Editor of the New York Herald Claims that Our Exports for 1895 Beat the World—What Do We Get for Them?

The labor and capital employed in all American manufacturing industries should ponder very deeply just now the cheering fact, which the latest returns of the Bureau of Statistics bring to light, that the exports of our manufactured goods in 1895 have beaten all previous records.—New York Herald.

The suggestion of the New York Herald's editorials that the distortion of the results shown by our trade statistics arises because that democratic paper is not furnished with brains to comprehend the compilations, may be the correct one. Assuming that this is so, and that the policy of the paper is directed by its proprietor, it is some satisfaction to know that the "cheerful idiot" is a resident of Paris and not the United States. His latest bit of flim-flam was the following:

Exports of domestic manufactures for eleven months ending November:

Table with 2 columns: 1894 and 1895. Rows include Iron and steel, Chemicals, drugs and dyes, Leather and manufactures, Machinery, Glass and glassware.

The extent of the "era of trade prosperity that is now being enjoyed by American manufacturing industries" can be ascertained by placing, side by side, the increase in our exports and the increase in our imports of these different classes of goods.

Table with 4 columns: American exports, Foreign imports, Loss to American manufacturers, Total. Rows include Iron and steel, Chemicals, drugs and dyes, Leather and manufactures, Machinery, Glass and glassware.

The "cheerful idiot" shows that our exports of these four classes of American goods were \$8,057,933 larger in eleven months of 1895 than in 1894.

The other side of the national ledger shows that our imports of similar foreign goods increased by \$16,032,331. The balance of trade against us was \$7,974,398 in the eleven months. This is "the cheering fact." The increase in what we bought is practically just double the increase of what we sold.

Demographic newspapers should make the country ring with the announcements of these statistics. We don't believe they will. "The cheering fact" will be too much for them.

Lost \$125,000,000 Last Year.

The advance statement of our imports and exports for 1895 enables us to present the democratic balance sheet of our foreign trade:

Favorable balance, \$130,999,175 & 6,149,211 In 1894, with four months of the free-trade tariff bill, we still had a balance of trade in our favor amounting to \$130,999,175.

It confronts the President. A "delicate predicament" is a condition, not a theory

try \$6,000,000. Note that our exports were practically the same in each year, but the wiping out has been done by an increase of \$125,000,000 in our 1895 imports.

When Markets Were Captured.

The bureau of statistics of the treasury department enables us to show how we have been capturing the markets of the world. Here are our exports of American products and manufactures for six years, 1890 to 1895.

That "Comfortable Surplus." Outlook for the Treasury—Belief Entertained that the Deficit Will Soon Disappear.

Barley Value in Sugar. Barley growers will recollect that on Jan. 1, 1892, the market price of No. 2 Milwaukee barley was 57 1/2 cents a bushel.

Poorhouse "Object Lesson." The poor we have always with us under a democratic administration. The eleventh annual report of the bureau of labor statistics of Connecticut shows that \$866,787 were distributed for the relief of the poor in that state in 1892 and \$994,615 in 1894.

Free Wool and Carpets.

We hear very little about the carpet trade nowadays from the New York Times. That free-trade sheet used to be continually explaining what a "good thing" it was for our carpet manufacturers to sell carpets in England.

Revenue Is Necessary

What we want and must have are adequate tariff laws giving protection to our labor interests and industries, while affording revenue not only to support the government, but to reduce and ultimately extinguish the public debt.

Grover's Great Record.

Grover Cleveland will go into history as the president who doubled the national war debt in four years. If the principal on this loan were added to the principal of the national debt left by the Harrison administration would be almost doubled.

The Democratic Record.

The free-traders are getting in their ruinous work on the big concerns that they left over from the crash of 1893 and 1894.

Revolutions and Revelations.

It is a revolution, and no Republican can ever hope to see his party again in power for a long term of years.—N. Y. Times, Nov. 10, 1892.

Cheese Trade Falls Off.

The way we captured the cheese markets of the world last year is represented by a decrease of 26,865,000 pounds in our shipments as compared with 1894, and a money loss of \$3,134,000.

"THE WOODEN HEN"

Hatches chickens from hen's eggs. It is 10x15x8 inches; will take care of 38 eggs. Write to Mr. Geo. H. Stahl, Mr. Quincy, Ill. for a copy of his book "W." describing the "Wooden Hen," also large catalogue. Both sent free. Mention this paper.

The Census of Berlin.

Berlin has just been having her quinquennial census taken. Then the statistician produced statistics and made out the night of November 1st last Berlin had 1,040,000 souls in it.

Catarah Can Not Be Cured

With local applications as they cannot reach the seat of the disease. Catarah is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarah Cure is taken internally, and acts directly on the blood and mucous surfaces.

Sold by druggists; price, 75c. Hall's Family Pills, 25c.

Artists ply their vocation with difficulty in Constantinople. Sketching is forbidden except under the strictest regulations. When F. Hopkinson Smith sought to transfer to canvas some of the charming views in the neighborhood of the Golden Horn, an official from the ministry of police was in constant attendance upon him.

FATTENING HOGS COSTS ONE CENT

The editor recently heard of a farmer fattening hogs at less than one cent a pound. This was made possible through the sowing of Salzer's King Barley, yielding over 100 bu. per acre.

Salzer's catalogue is full of rare things for the farmer, gardener and citizen, and the editor believes that it would pay everybody a hundred-fold to get Salzer's catalogue before purchasing seeds.

Don't be jealous. There is no room in the same house for love and jealousy, and when the latter comes the former will not stay.

Farmers Make Sure

Of an abundant yield of grain if they use the Campbell Sub Surface Packer, manufactured only by the Sioux City Engine and Iron Works, Sioux City, Ia. This packer will put the bottom of the plowed ground in condition to gather and retain moisture to such an extent as to assure a crop.

Hepburn's Camphor Ice with Glycerine.

The man who quarrels with his lot makes it harder. For lung and chest diseases, Piso's Cure is the best medicine we have. Mrs. J. L. Northcott, Windsor, Ont., Canada.

The Reviving Power of Parker's Ginger Tonic

Conduct will never be right while convictions are wrong.

WILK AKAHABIAN CO.

WILK AKAHABIAN CO. does half the world's business, because it has reduced the cost of wood work to 1/3 what it was. It has many branches, and supplies its goods and repairs at your door.

Almost a Collision. "Speaking of narrow escapes," observed Mr. Chugwater, reaching for his second cup of coffee, "did I tell you I was on a train the other day that came within three feet of being run into by another train going at full speed?"

Stop Thief! Stop a small malady, which is stealing your strength, before it outruns your power to arrest it and recover what it took from you.

If the Baby is Cutting Teeth. Be sure and use that old and well-remembered, Mrs. WISLLOW'S SOOTHING SYRUP for Children Teething.

If men could realize the importance of honesty, all men would be honest.

Filliary table, second-hand, for sale cheap. Apply to address, H. C. AKIN, 211 S. 12th St., Omaha, Neb.

Hosts of people go to work in the wrong way to cure a SPRAIN. when St. Jacobs Oil would cure it in the right way, right off.

Best Quality! Largest Size! Lowest Price! St. Jacobs Oil advertisement.

Battle-Ax Plug advertisement with illustration of an axe.

ALABASTINE advertisement for wall paper and decorative materials.
