## COUNTY REPUBLICAN CONVENTION.

The republican electors of Holt county, Nebraska, are requested to send delegates from their several townships and wards, to meet in the city of O'Neill on Saturday, June 13, at 10 o'clock a. m., for the purpose of placing in nomination candidates for the following offices:

Two representatives.  
County attorney.  
Eleven delegates to the state convention.  
Nine delegates to the senatorial convention.  
And to elect a county central committee and a chairman and secretary thereof.  
And to transact such other business as may properly come before the convention.

**THE APPOINTMENT.**  
The several townships and wards are entitled to representation as follows, being based on the vote cast for Hon. M. P. Kinkaid for district judge in 1895, giving one delegate at large for each township and ward, and one for each 15 votes and fraction thereof:

It is recommended that no proxies be admitted to the convention, and that the delegates present be authorized to cast the full vote of the delegation.

It is also recommended that the several townships and wards hold their primaries for the election of delegates on Saturday, June 6, 1895.

Clyde King, S. J. Wrecks, Chairman, Secretary.  
Geo. Eckles, of Chadron, candidate for auditor, will develop considerable strength in the state convention. Holt county will probably support him, and it should. Dawes county instructed for Judge Kinkaid for congress, and turn about is fair play.

What are the gold bug democrats going to do about it, anyway? Can they now repudiate the arguments they have advanced during the past two years and shout for free silver at 16 to 1? It is a good way to find out if men love principle more than party. There is one thing as certain as any earthly thing can be, and that is that the sage of Arbor Lodge will vote for no free silver candidate. J. Sterling will follow his convictions even though they lead him without the pale of his party. We admire him for it.

Kem's objections to the concurrent resolution directing the secretary of the interior to issue patents to the Union Pacific railroad company to all lands sold to bona fide settlers, deprives over five thousand farmers in his district from getting good title to their lands. His objection was purely a matter of spite because the speaker would not recognize him to enable him to call up his Fort Sidney bill. Well, the district begins to breathe easier, for the days of Kem are numbered, and it will never be possible again to get so useless a piece of humanity as this district has been compelled to endure for six years.—Kearney Hub.

M. P. KINKAID, of Holt county, evidently has a lead-pipe cinch on the nomination to congress from the Sixth district. He is being urged on the plea that he is the strongest man in the district, but the fact ought not to be overlooked that this is a republican year, and whoever the republicans may nominate is foreordained that the red-headed ignoramus Kem is defeated—Blair Leader.

This may be a "republican year," but the people don't want to get the idea into their heads that just anybody can be elected in the Sixth district, simply because he happens to get his name on the republican ticket. The figures of the last election refute the statement. The man who is elected here must have something to recommend him; he must be well qualified and popular with the people. It is a fact that almost any patriot could defeat Kem, but Kem will not be a candidate this year.

AT LAST, says the American Economist, the democratic administration is forced to execute the laws of the country after months of deliberate and dishonest attempts to cheat the American sugar producers. No such disgraceful effort to tamper with national legislation has ever been witnessed. Evasions, shiftiness, quibbles, humbug and hypocrisy have been the marked characteristics of this piece of democratic financial jugglery which has wrought ruin and hardship, principally to democrats in a democratic state. With the sole object of attempting to bolster up the depleted treasury, the democratic administration has resorted to unparalleled meanness and subterfuge, but it is at last forced to play the part of honesty by order of the supreme court. Even when this proper act of justice has been discharged, the recipients of the bounty will be injured far more than the amount of money that they receive. We congratulate the sugar producers upon the success of their long and hard fight against a dishonest democratic administration. A word of praise is due to Senator Manderson for his efforts on their behalf, while odium will ever be attached to the two Louisiana senators who could, nearly two years ago, had they wished, have prevented all this trouble by preventing the enactment of a tariff devised to ruin the American sugar producing interest.

IT SEEMS to be of no use for the people of O'Neill to attempt to control the school board. For three successive years now the school meetings have been well attended, a fight made to elect men who it was thought would act for the best interest of the school and be careful to not allow their prejudice or favoritism to cause them to do anything not calculated to advance school interests. THE FRONTIER has always taken a lively interest in these contests, because it wanted to see men elected as members of the school board who had no friends or relatives dependent upon them for positions as teachers; men who could act without fear or favor and men of good judgment, who would select teachers of ability and disciplinarians. But we are through with it now; our confidence in human nature has been jarred again. We do not wish to be understood as casting any reflection upon the teachers employed, they are all that their certificates represent them to be, but the fact remains that the school board did not in all cases elect teachers with the best certificates. We can think of no excuse for the board electing a teacher with an inferior certificate and rejecting another who has a high grade certificate. No man would conduct his own affairs in that manner, and the board should be as conscientious with the public's affairs as its individual members are with their own.

JUDGE WOOLSON, of the United States district court, sitting at Boone, Io., the other day made quite an innovation in the manner of handling juries. The case, in which a brakeman was suing a railroad company for \$15,000 damages, had been on trial over a week and the jury retired just before 6 in the evening. They did not readily agree upon a verdict and at 11

o'clock the judge called them into the court-room and asked the foreman if there was a prospect of their coming to an agreement soon, and upon being answered that there was not, announced that he would take the responsibility of permitting the jury to go home, directing them to meet again at 8:30 the next morning. The judge said he took this for the purpose of having it settled on appeal, if necessary, as to the legality of the innovation; that the locking up of a jury in a small close room all night created ill-feeling and irritation, and that a verdict thus arrived at was not so likely to be just and equitable as when men were calm and refreshed by a night's rest, and further and more important, it removed one of the most prominent reasons why substantial business men shirk jury duty. If the relic of the past practice of locking up a jury all night was abandoned, one of the most unpleasant features of jury duty would be removed and business men would not so seriously object to serving. THE FRONTIER believes this method of handling a jury would be the means, eventually, of working a great reform in the jury system.

# storms

The Weather Bureau employs a skilled force of men, supplied with the most delicate scientific instruments, to foretell the weather. Perhaps you know when a storm is brewing without any word from the papers. Your bones ache and your muscles are sore. Your chronic muscular rheumatism gives sure warning of the approaching storm. Scott's Emulsion of Cod-liver Oil, with Hypophosphites, would be a most valuable remedy for you. The oil, with its iodine and bromine, exerts a peculiar influence over the disease, and the hypophosphites render valuable aid.

SCOTT'S EMULSION has been endorsed by the medical profession for twenty years. (Ask your doctor.) This is because it is always palatable—always uniform—always contains the purest Norwegian Cod-liver Oil and Hypophosphites.

Put up in 50-cent and \$1.00 sizes. The small size may be enough to cure your cough or help your baby.
