FROM figures in the state anditor's office an interesting showing is made as to the decrease in the assessed valuation of the state. Sixteen counties have made reports on the 1896 assessment valuation. In these the reduction as compared with 1895 is \$1,185.000. In four of these counties there is an increase of \$93,000, making a net degreese in the sixteen of \$1.092.000. At the same ratio of decrease the whole state will fall off \$6,500,000. The total valuation of taxable property in 1893 nounced that the resignations of Cecil was \$194,000,000; in 1894, \$183,000,000. # JUDGE RAMSEY opened district court CONTROL OF NEXT SENATE

# WORKING REPUBLICAN MA-JORITY NOT LIKELY.

MR. GALLINGER'S FIGURES.

The Teller-Dubois-Mantle Cannon-Carter Combine Likely to Be Strengthened by Eadical Silver Wen 'om Colorado, Utah and Other States, and Be Able to Block the Tariff.

CONCORD, N. H., June 29.-United States Senator Gallinger said yesterday: "I fear for Republican control of the Senate. The full senate now numbers ninety members, and weshall need forty-six for a majority, though, inasmuch as the existing vacancy in Kentucky will continue until 1899, we can get along during the next con-gress with forty-five. We have now forty-four senators who are nominally Republicans, but of these, five—Sen-ators Teller, Dubois, Carter, Mantle and Cannon—refused to act with us in the passage of the Dingley emergency tariff last winter, and I suppose we must now add to them Senator Pettigrew of South Dakota, because he left the St. Louis convention with other seceders.

This reduces us to thirty-eight straightout Republicans who are for protection as against protection yoked with free silver, and we shall need seven more to enable us to pass the revenue bill, which the country demands. Some of our gains are already made, as in Maryland and Ohio, and we shall elect in New York, Illinois and Wisconsin. This will already and Wisconsin. This will give us forty-three, or two short of a majority. Among our danger spots we must include North Carolina. Senator Pritchard's seat is likely to be lost, because he was first chosen by a fusion movement, which propably will be hard to effect again. In Utah also, there is danger of losing Senator Brown, who refused to act with the silver men in deadlocking the Dingley bill, and who now has been confronted with an issue in his fight for re-elecion, which will either defeat or cause him to coalesce with Senator Cannon in a policy of opposition. In Colorado Senator Wolcott is in similar danger, as he has been subject to venomous criticism because he would not go so far as Senator Teller in his devotion to the white metal. Add to this the not altogether remote chance of los-ing a Republican Senator in North Dakota and California, and the claims of the Democrats that we cannot elect in either Kansas or Illinois, and the outlook is not rosy. I must admit that I cannot now satisfactorily out-line the method by which we shall be able to hold the Senate for a protec-tive tariff without a free silver rider."

INTENSE SUFFERING FOR YEARS

The Remarkable Testimony of a Husband and Wife to the Virtues of Dr. Williams

Pink Pills for Pale People.

From the Wave, Odell, Nebraska.

A reporter of the Wave having heard of the great faith Mr. and Mrs. I. O. Brace, of Odell, Nebraska, havein the curative properties of Dr. Williams' Pink Pills for Pale People, determined to see the parties in person and ascertain the truth of the reports. With that purpose in view a drive-was taken to their fine farm a few miles west of town, where Mrs. Brace was found busily engaged in assisting, her husband make wire fence. Nodoubt noticing our surprise, she apologized, saying "that the children were old enough to be of much help with the housework, and she thus had time to assist her husband.

"But is it possible that you have re-covered so as to do work requiring the constant use of your arms, without suffering?" asked the reporter.

constant use of your arms, without suffering?" asked the reporter.

This question elicited the following wonderful story: "I do not wonder that you are surprised, said Mrs. Brace, for as every one in this vicinity knows for several years I was nearly crippled and suffered constantly from rheumatism. When I first felt the attack I got medicine from a local physician, but instead of getting better I grew worse, until I suffered intense agony, which no one who has not had the dread disease can understand. In hopes of relief, leading physicians in other towns were consulted, and they all agreed in pronouncing it a severecase of muscular rheumatism, and as their prescriptions were taken month after month without beneficial results, they ceased to give encouragement, and said they I were readed. they ceased to give encouragement, and said that I was gradually becoming paralyzed.

"I had by that time become so crip-pled that I had to give up all work, and the only way I could carry my right arm was in an upright position. Any attempt to lower it caused ex-cruciating pain. Constant suffering caused general debility, and life seemed

cruciating pain. Constant suffering caused general debility, and life seemed too great a burden to bear. It is said a drowning man will catch at a straw, and so it was in my case, as I read a testimonial in a newspaper I happened to pick up, of a case similar to mine, which had been cured by Pink Pills for Pale People, and I determined to give them a trial.

"I admit my falth was weak, for I had always been prejudiced against so-called patent medicines, but by thetime I had taken three boxes the relief was so apparent that I determined to continue their use. In a few weeks my general health improved, and I could move my arm without difficulty, and by the time ten boxes had been used I felt better than I had for years, and I can now say with confidence that I cm cured. I always keep the pills in the house and take a box of them every spring as a blood purifier, and at any time that I take cold and fear a return. Of my cld trouble."

Continuing, Mrs. Brace said: "I give all the credit of my recovery to Dr. Williams' Pink Pills for Pale People, and both my husband and I shall always be ready to speak in their praise. We tell our neighbors on every occasion of their virtues, and if you think this is sufficient interest we will be glad to have this testimonial made public, hoping that it may be of benefit to those who otherwise would be life-iong sufferers."

those who otherwise would be life-long sufferers."

To confirm her story beyond all doubt, Mrs. Brace made affidavit.

Godev's Magazine for July.

Godey's Magazine for July begins the 133d volume of the well-known old publication and is a good specimen of the pioneer in its modern form. The number opens with two timely arti-cles. The first of these is from the penof a traveler in Persia, and describes. with the aid of numerous pictures, some of the characteristics of the coun-

try, which is always an important factor in the Eastern Question, and has recently come into particular prominence on account of the assassination Shah; while no less timely and interesting is a description of the Training and Life in the New York Figs De-partment, from which a delegation went to the International Firemen's Tournament that began in London July 19. The Godey Company, 52 La-fayette Place, New York. The July number of Harper's Maga-

zine (to be published next Monday) will open with a paper on General Washington and the period of the Revolution, by Woodrow Wilson. Rarely has a historic person been made so real and human as Washington here apart of the bettle field. pears, in camp and on the battle-field no less than in the Virginia House of Burgesses or at his Mount Vernon plantation. Mr. Pyle's illustration of historic scenes worthily accompany Professor Wilson's admirable studies of colonial life and politics. In commemoration of the centenarian of Cleveland, the number will contain an illustrated paper on the distinctive characteristics of Ohio; as shown in the development of that state, by President Charles F. Thwing, of the Western Reserve University.

General Fitzhugh Lee, Consul-General to Cuba, has written to the July Century an account of "The Failure of the Hampton Conference," which was held in February, 1865, in the effort to bring about peace between the North and the South. General Lee introduces an unpublished letter from Jefferson Davis, and one from Robert M. T. Hunter, who was one of the three Confederate commissioners.

## LABOR NOTES.

A court in France has decided that it is not unlawful to aid and abet or influence workingmen to strike.

It is proposed to change labor day in Ohio from the first Monday in September to the last Saturday in August. Boilermakers and iron ship builders.

may affiliate with the American Federation of Labor after the next con-

vention. Fifteen hundred employes of thetube works at McKeesport, Pennsylvania, have joined the Iron and Steel
