SENATORIAL CONVENTION.

The republican senatorial convention of the Thirteenth senatorial district will be held in the court-house in the city of O'Neill, Neb., on Saturday, July 11, at 2 o'clock P. M., for the purpose of placing in nomination a candidate for state senator from this district.

The basis of representation is one delegate from each county, and one additional delegate for each 100 votes or major fraction thereof cast at the last general election for T. L. Norval for supreme judge.

The counties of the district will be entitled to delegates as follows:

Boyd.....2
Gardner.....4
Holt.....17
Total.....23

It is recommended that no proxies be allowed, but that delegates present cast the full vote of their delegation.

D. C. HARRISON, Chairman.
FRANK PHILLIPS, Secretary.

HURRAH for Casey!

This issue starts THE FRONTIER on its seventeenth year.

The Leigh World warns its readers to beware of everything branded "free," particularly free trade and free silver.

THE FRONTIER would like to read an article from Senator Thurston in answer to the World-Herald's editorial of last Sunday.

A few years ago the Sun was shouting "Repeal the Sherman law and increase the circulating medium." Now it wants free silver.

HAM KAUFMAN advertises himself as "the six-horse editor." We don't know what that means unless it is that he can edit a paper as well as six horses.

Why does the Sun desire Judge Kinkaid to resign? So that its grammatical editor, Mr. Golden, may be given an earlier opportunity to try again?

EDITOR JENNES says that last week he caught two pickersel, one weighing 15 pounds and the other 8 pounds. Isak Walton never told any such stories.

Now vote for the constitutional amendment creating two additional supreme judges. It is just as cheap to hire two more judges as it is to keep two commissioners.

Brooks' greatest strength in the convention was 102. His campaign reminds us of the Irishman's story of the devil shearing the pig: "There was more noise nor wool."

The Omaha Bee truthfully remarks: "Every time any one deserts a political party by which he has been favored and honored he always trumps up the old excuse that the party has deserted him."

The state ticket, while not as much to our liking as it would have been had the matter been left entirely to us, is a good one. No republican can find an excuse to bolt any of the nominees.

A. E. CADY, of St. Paul, was nominated for congress last Friday by the republican convention at North Platte, forty-three ballots being taken. After Judge Kinkaid retired from the race it was generally conceded that Mr. Cady would be the nominee, but few thought the contest would be so close. Mr. Cady is an able man and his election ought to be sure.

The nomination of Judge Kinkaid for contingent supreme judge is an honor to him and our county and a credit to the party. The judge is especially qualified for this particular office. A very small per cent of the cases appealed from his court have been reversed, which shows more conclusively than anything else could that he is "cut out," as the saying is, for that particular branch of public service.

The police judge threatens to prosecute the city marshal for shooting dogs on the street with a revolver. He thinks it is cruel to shoot them four or five times in order to dispatch them, and besides it is dangerous to shoot promiscuously about the streets. His remarks may contain some truth, but we would advise the marshal, if he wants sympathy and defense, to go out and hang a republican.

WE CAN see but one point in this silver question, and that is this: Would remonetization cause silver to appreciate so that the bullion value of our silver dollar would be equal to that of a gold dollar? The silver advocate says that this would be so, but he doesn't know; he is only guessing at it. If this would not be the result then we would be on a single silver standard, because gold would never stay in evidence and circulate side by side with a coin that was worth less and not redeemable in gold. A gold dollar's worth of silver is the amount necessary to make a good silver dollar.

IN THE event of Judge Kinkaid getting the nomination the Sun believes he should immediately resign as district judge, so that the people of this district can choose his successor at the regular fall election. This is but justice to the people of the district, and it is not an unreasonable demand. Should Judge Kinkaid be elected to the supreme bench before resigning, his successor would be appointed by the incoming governor in January, and an election would therefore be deferred for one year.—Sun.

If idiocy can approach sublimity this is simply sublime. Men are not in the habit of throwing up a canary in the hand to chase a will-o'-the-wisp in the jungle. But why dwell upon such puerility?

THE democratic national convention, which convened on Tuesday, is in the hands of the free silver men. The gold bug delegates from Nebraska were seated by the committee but the convention threw them out and seated the Bryan wing. The same kind of a contest from Michigan was decided by seating the silver fellows the better of it. Hill was made temporary chairman by the committee but the convention turned him down and elected Daniels, of Virginia. It is hard to say who the nominee will be but it will probably be Bland or Boies.

REPUBLICANS should be cautious about starting out on a hunt for the end of the free silver rainbow. We know that in some respects the song of the silver man is sweet as that of the siren, but as the song of the siren lured the sailors to death, so may the song of the silver man lure a country to financial ruin. Four years from today will be plenty of time to express a conviction on the money question. After we get a protective tariff we may forget the money question. THE FRONTIER is not prepared to say that there is nothing in the silver question, but it will say that what it doesn't know about the matter it proposes to learn from experience.

Judging from the amount of bluster the World-Herald has been indulging in on account of alleged republicans refusing to support the St. Louis platform, we thought perhaps there was some dissatisfaction in the republican ranks, although none had

come under our immediate observation, but now that the Herald gives us a case right here at home we are in a position to size up the situation intelligently. When a two-column letter from Clarence Selah is given prominent position on the editorial page and commented on in a half-column nonpariel-slugged editorial we consider it fair to assume that the World-Herald is simply engaged in the task of converting insignificant mole hills into mountains. While Mr. Selah is no doubt sincere in his advocacy of free silver, the World-Herald misstates when it says he is a "republican wheel-horse." Fact is the republicans of Holt county have for years questioned his republicanism, and it was only last fall that he supported the populist nominee for county treasurer, and two years ago supported Governor Holcomb. There is no defection among Holt county republicans this year more than other years.

“The Foot of a Fly” says an eminent English doctor, “will carry enough poison to infect a household.” In summer-time, more especially, disease germs fill the air, multitudes are infected, fall ill, die; multitudes escape. These messengers of mischief do not exist for millions. Why not? Because they are healthy and strong—protected as a crocodile is against gunshot. It is the weak, the wasted, the thin-blooded who fall; those who have no resistive power so that a sudden cough or cold develops into grave disease. We hear of catching disease! Why not catch health? We can do it by always maintaining our healthy weight.

Scott's Emulsion.

of Cod-liver Oil, is condensed nourishment; food for the building up of the system to resist the attacks of disease. It should be taken in reasonable doses all summer long by all those whose weight is below the standard of health. If you are losing ground, try a bottle now.

DON'T STOP TOBACCO

HOW TO CURB YOURSELF WHILE USING IT.

The tobacco habit grows on a man until his nervous system is seriously affected, impairing health, comfort and happiness. "Baco-Curo" is a scientific cure for the tobacco habit, in all its forms, carefully compounded after the formula of an eminent Berlin physician who has used it in his private practice since 1872, without a failure. It is purely vegetable and guaranteed perfectly harmless. You can use all the tobacco you want while taking "Baco-Curo." It will notify you when to stop. We give a written guarantee to cure permanently any case with three boxes, or refund the money with 10 per cent. interest. "Baco-Curo" is not a substitute, but a scientific cure, that cures without the aid of will power and with no inconvenience. It leaves the system as pure and free from nicotine as the day you took your first chew or smoke.

ORDERED BY "BACO-CURO" AND GAINED THIRTY POUNDS.

From hundreds of testimonials, the originals of which are on file and open to inspection, the following is presented: Clayton, Nevada Co., Ark., Jan. 28, 1895. Eureka Chemical & Mfg. Co., La Crosse Wis.—Gentlemen: For forty years I used tobacco in all its forms. For 25 years of that time I was a great sufferer from general debility and heart disease. For fifteen years I tried to quit, but couldn't. I took various remedies, among others "No-To-Bac," "The Indian Tobacco Antidote," "Double Chloride of Gold," etc., etc., but none of them did me the least bit of good. Finally, however, I purchased a box of your "Baco-Curo" and it has entirely cured me of the habit in all its forms, and I have increased 80 pounds in weight and am relieved from all the numerous aches and pains of body and mind. I could write a quire of paper upon my changed feeling and condition. Yours respectfully,
P. H. MARSH, Pastor C. P. Church, Clayton, Ark.
