For County Attorney: **E. H. BENEDICT, of O'Neill.**

HILL appears to be in danger of losing control of the New York state democratic machine.

What's the matter with Senator Tillman? There was a fight in South Carolina and he wasn't in it.

An honest policy has always characterized the republican party. That's why it is now fighting for honest money.

BRYAN will have the double cross and the thorny crown of defeat placed upon his brow by the intelligent and law abiding citizens of the United States.

Tom Watson isn't a Solomon, but he has sense enough not to waste any time studying parliamentary tactics. He knows he will never preside over the senate.

The man who read the proceedings of the populist convention must have been convinced, if he had never been before, that these men are unfit to govern anything.

The political position of the administration relieves it of any unjust suspicion on account of its preparations for a large supply of the new one and two dollar silver certificates.

If Bryan is shrewd he will take advantage of his present notoriety to negotiate with the publishers of that Omaha paper for an increase of salary and a permanent position. He will need both after election.

SPAIN must think there is something in that Cleveland Bluff about a war just before election. That is the only theory that would account for the reckless extravagance of the Spaniards in the purchase of war vessels.

EX-CONGRESSMAN BURLING, of New York, is willing to back his judgment with his money that McKinley and Hobart carry New York by 100,000 majority, and that they carry Iowa, Illinois, Indiana, Missouri, Nebraska, Ohio, New Jersey, and Connecticut.

NEITHER the republican party nor the country wants any tariff truce; on the contrary, they want a protective tariff put on the statute books at the earliest practicable moment. The men who are now advocating a tariff truce are the men who have for years been advocating free trade.

MR. SELAH appears to be very anxious to learn who it was that gave it to him so hard in the last issue of THE FRONTIER, in order that he may make reply. It seems to us that Mr. Selah does not grasp the situation. It makes no difference who writes an article, it is the article

that talks and it is the article that should receive reply and not the author, unless the author's name is desired in order to make excuse for personalities. Now if Mr. Selah really wants to espouse the cause of free silver through the medium of the press, we will suggest a way in which he can get an argument. As his party has filed a complaint before the people, it is necessary that he, as counsel, should also file a bill of particulars and state specifically the grounds upon which they rely for a verdict. Let him draw up his counts and number them in order that a starting point may be had, and a cross to nail him to, and we assure him that ample opportunity will be made for him to air his erudition.

AS TO SILVER.

It is a striking fact that prior to 1873 the world's product of silver increased only 52,394,929 ounces in one hundred and eighty years, while subsequent to 1873 it increased 97,844,986 ounces in twenty years.

It is generally stated that the fatal blow was struck at silver in 1873, but it did not diminish the output, says a much-quoted authority. On the contrary the world's product of silver rose from an annual average of 68,000,000 fine ounces in 1873 to 78,000,000 ounces in 1878, and there was a rapid and steady increase until 1883 when it reached a total of 89,000,000 ounces. In 1884 there was a slight decline, but it was only temporary, and in 1888 the product was 108,000,000 ounces, and from this it rose to a maximum of 161,000,000 ounces in 1893.

Thus it is seen that "the crime against silver" had the effect of increasing the annual production of that metal to the extent of 98,000,000 ounces in twenty years, while in twenty years preceding the "crime of 1873," or from 1853 to 1873, there was an increase of only 85,000,000 ounces. So that for a period of twenty years under "demonization" the yearly silver product actually increased 63,000,000 ounces more than it did during a like period under the "money of the constitution."

Worthington Ford says it is impossible for laborers to force their wages up to keep pace with a depreciating currency, and we now have a distinct illustration of this in the wages paid in Mexico by the Mexican Central Railway Company, which have been kindly furnished by C. A. Browne, the treasurer. He writes: "In the first part of 1890 we were paying Mexican laborers from fifty to seventy-five cents a day, according to the location on the road; brakeman from forty-five to fifty dollars a month; machinists from one to five dollars a day; masons from one to three dollars, and carpenters from one to three dollars. At the present time laborers are receiving the same rates." Here we have the plain fact that laborers are getting just the same wages in silver today that they received in 1890.

Silver men tell us that free silver will double the price of everything we have to sell. If it does that it will double the price of everything we buy. They do not tell us that it will double our wages, hence, every man who works for wages and every old soldier who draws a pension must vote against free silver to prevent having his salary and his pension reduced by one-half.

Poor Blood

It is starved blood. It shows itself in pale cheeks, white lips, weak digestion, no appetite, exhaustion, lack of nerve force, soft muscles, and, chief of all, weak muscles. Your doctor calls it Anemia. He will tell you that the weakening weather of summer often brings it on.

Scott's Emulsion

of Cod-liver Oil with Hypophosphites, will make poor blood rich. It is a food for over-taxed and weak digestion, so prepared that it can easily be taken in summer when Cod-liver Oil or even ordinary foods might repel.

SCOTT & BOWNE, New York

DON'T STOP TOBACCO

HOW TO CURE YOURSELF WHILE USING IT.

The tobacco habit grows on a man until his nervous system is seriously affected, impairing health, comfort and happiness. To quit suddenly is too severe a shock to the system, as tobacco, to an inveterate user, becomes a stimulant that his system continually craves. "Bacco-Curo" is a scientific cure for the tobacco habit, in all its forms, carefully compounded after the formula of an eminent Berlin physician who has used it in his private practice since 1872, without a failure. It is purely vegetable and guaranteed perfectly harmless. You can use all the tobacco you want while taking "Bacco-Curo." It will notify you when to stop. We give a written guarantee to cure permanently any case with three boxes, or refund the money with 10 per cent. interest. "Bacco-Curo" is not a substitute, but a scientific cure, that cures without the aid of will power and with no inconvenience. It leaves the system as pure and free from nicotine as the day you took your first chew or smoke.

CURED BY "BACCO-CURO" AND GAINED THIRTY POUNDS.

From hundreds of testimonials, the originals of which are on file and open to inspection, the following is presented: Clayton, Nevada Co., Ark., Jan. 28, 1895. Eureka Chemical & Mfg. Co., La Crosse Wis.—Gentlemen: For forty years I used tobacco in all its forms. For 25 years of that time I was a great sufferer from general debility and heart disease. For fifteen years I tried to quit, but couldn't. I took various remedies, among others "No-To-Bac," "The Indian Tobacco Antidote," "Double Chloride of Gold," etc., etc., but none of them did me the least bit of good. Finally, however, I purchased a box of your "Bacco-Curo" and it has entirely cured me of the habit in all its forms, and I have increased 30 pounds in weight and am relieved from all the numerous aches and pains of body and mind. I could write a quire of paper upon my changed feeling and condition. Yours respectfully,
P. H. MARBURY,
Pastor C. P. Church, Clayton, Ark.

Sold by all druggists at \$1.00 per box; three boxes, (thirty day's treatment), \$2.50 with iron-clad, written guarantee, or sent direct upon receipt of price. Write for booklet and proofs. Eureka Chemical & Mfg. Co., La Crosse, Wis., and Boston, Mass. Ocl10tem.

THE SAFE STORE

O'Neill, Neb.
There isn't a store in the whole country that sells clothing as "The Nebraska" does. It is an exceptional store, it is a reliable store, it is an absolutely safe store. The price today is the price tomorrow and the next day, and the price to one is the price to all. We have no favorites, we make no discounts, and we never resort to catch penny methods of marking some goods low in order to sell you other goods high. Our practice of instantly refunding money when goods don't suit is the best proof you can have that our goods and prices are all right. For eleven years we have been building up a vast business on these principles and our business was never so large, our prices never so low, as they are this spring.
Send for our catalogue. It contains samples of goods and will save you a great many dollars above what you have to pay for the same qualities at home. It is a book that ought to be in every clothing buyer's hand.
Get our prices on Bicycle Outfits.
