For Senator: L. P. GLASSBURN, of Wheeler.

COUNTY REPUBLICAN TICKET.

For Representatives: JOHN THOMMESHHAUSE, of Ewing. J. A. RICE, of Stuart. For County Attorney: E. H. BENEDICT, of O'Neill.

McKinley, McColl and Cady will carry the big Sixth.

The republican state ticket will have a majority of 25,000 over the combined opposition this fall.

BRYAN is beginning to realize that McKinley is the man who is going to be inaugurated president next March.

It is about time for Senator Stewart to deny that he has a personal interest in the free coinage of silver at 16 to 1.

No country has ever obtained prosperity by debasing its currency, although the attempt to do so has been frequently made.

The silver republicans of the west do not seem to have received much consideration at the hands of the democratic-populist combine.

Tom Watson's "kicking" is causing Nebraska populists to do some thinking. If they keep it up Bryan, Holcomb and Green will be numbered among the Salt Creek excursionists, November 4.

I want to state, as emphatically as words can state, that I consider it as false in economy and vicious in policy to attempt to raise at a high price in this country that which we can purchase abroad at a low price in exchange for the products of our toil.—W. J. Bryan, in January 1894.

Ross L. HAMMOND, the talented young editor of the Fremont Tribune, was nominated by the republicans of the Third district, for congress, last Thursday. The people of the Third district want an able and vigorous representative and Mr. Hammond fills the bill. He will be elected by a large majority.

SENATOR DUBOIS seems to have miscalculated the strength of his Idaho enemies. He repudiated the republican platform and candidate and declared for Bryan. When the democrats and pops held their state convention they decided to support a populist for senator. The path of bolter Dubois is not among roses.

If the American people are wise they will attribute the cause of our present depressed condition to that to which it belongs, and that is to the unwise financial legislation of 1890, and a lack of sufficient revenue under a democratic administration to pay our government expenses. In such times as these the country is full of statesmen (?) and untried financiers who may be in earnest in thinking they know what is needed but who, if placed in responsible positions, who prove hopeless failures.

One of our citizens received a letter from a real estate firm in Birmingham, Iowa, last Monday, who express themselves as follows upon the political situation:

How is Bryan coming on up in your neck of woods? Will he carry Nebraska? There will be no silver issue here by October 1. Of course a few who never yet voted on the winning side will keep talking. It is making lots of trouble for us who want to do business.

If MEN would stop and think and not be led astray by political demagogues, posing as great national saviors; if they would do a little figuring for themselves and endeavor to arrive at the truth without the influence of blinding prejudice, they would readily conclude that they want no free silver nor the election of men to take the reins of government who are pledged to such a policy.

In 1878 our legislators passed a silver law which provided for the purchase and coinage of not less than \$2,000,000 worth of silver per month, and under that law we purchased and coined \$378,000,000. This was a law made directly in favor of silver, and the expectation of the silver men at the time was that it would not only arrest the fall in the price of silver but that it would raise the price and hold it there permanently. It raised it for a few months but within a year it fell again. The temporary raise in the price and the belief, by silver men, that the price would hold up caused a greater production of it. By 1889 the actual value of the silver in a dollar was only seventy-five cents. In 1878 it was ninety-three cents.

Another effort was made by silver men for more favorable legislation, arguing this time that there was not enough of it being bought and that if we would increase our purchase and monetary use of the metal, buy an amount equal to the output of the American mines and put it into the currency of the country as fast as we bought it, that it would certainly increase the value of it so that the value of the metal in a silver dollar would be worth at least one hundred cents. Our law makers concluded to try the experiment and in 1890 passed the Sherman law which compelled the purchase of 54,000,000 ounces per year, at the market price at the time of purchase, even though the price be falling from day to day. For the silver interests this was surely very favorable legislation. It was so favorable that old silver plates, silver spoons, silver forks, etc., sought the melting pots and were coined into American silver dollars. The value of silver rose for a time, but the tendency of such legislation was to increase the production of silver and the increased production of silver, like that of anything else, is bound to cheapen it. Under this law the value of the silver dollar never rose to one hundred cents, but as the increase in production continued it began to fall and today it is down to about fifty cents. Here was a law calculated to cover the entire American product, but it proved inefficient to hold up the price of silver.

Now, when these laws have disappointed them and the law of 1890 succeeded in doing less for silver than that of 1878, they tell us we must open our mints to the silver of the world, although in the same breath we are informed that we should pay no attention to any other nation on earth.

Losing Flesh

You naturally lose flesh in the summer and running down is so easy. You get a little weaker each day without hardly noticing it. There is loss of appetite, headache, weakness of the muscles, disturbed sleep, weakness of memory, and these are the beginning of nervous prostration. Iron and tonics and bitters may afford some temporary relief, but what you need is a food for body, brain and nerves.

Scott's Emulsion of Cod-liver Oil with the Hypophosphites, furnishes just the nourishment needed for those who are run down and pale and thin and weak. If you lose flesh in summer take Scott's Emulsion now. Don't wait till fall or winter before beginning. For sale at 25c and 50c by all druggists.

RIPANS TABLETS REGULATE THE STOMACH, LIVER AND BOWELS AND PURIFY THE BLOOD. THE RIPANS CHEMICAL CO.

DON'T STOP TOBACCO

HOW TO CURE YOURSELF WHILE USING IT. The tobacco habit grows on a man until his nervous system is seriously affected, impairing health, comfort and happiness. To quit suddenly is too severe a shock to the system, as tobacco, to an inveterate user, becomes a stimulant that his system continually craves. "Bacco-Curo" is a scientific cure for the tobacco habit, in all its forms, carefully compounded after the formula of an eminent Berlin physician who has used it in his private practice since 1872, without a failure. It is purely vegetable and guaranteed perfectly harmless. You can use all the tobacco you want while taking "Bacco-Curo." It will notify you when to stop. We give a written guarantee to cure permanently any case with three boxes, or refund the money with 10 per cent. interest. "Bacco-Curo" is not a substitute, but a scientific cure, that cures without the aid of will power and with no inconvenience. It leaves the system as pure and free from nicotine as the day you took your first chew of smoke. GUARDED BY "BACCOCURO" AND GAINED THREE FOUNDERS.

From hundreds of testimonials, the originals of which are on file and open to inspection, the following is presented: Clayton, Nevada Co., Nev., Jan. 25, 1895. Eureka Chemical & Mfg. Co., La Crosse Wis.—Gentlemen: For forty years I used tobacco in all its forms. For 25 years of that time I was a great sufferer from general debility and heart disease. For fifteen years I tried to quit, but couldn't. I took various remedies, among others "No-To-Bacco," "The Indian Tobacco Antidote," "Double Chloride of Gold," etc., etc., but none of them did me the least bit of good. Finally, however, I purchased a box of your "Bacco-Curo" and it has entirely cured me of the habit in all its forms, and I have increased 20 pounds in weight and am relieved from all the numerous aches and pains of body and mind. I could write a quire of paper upon my changed feeling and condition. Yours respectfully, P. H. MARSH, Pastor C. P. Church, Clayton, Ark. Sold by all druggists at \$1.00 per box; three boxes, (thirty day's treatment), \$2.50 with iron-clad, written guarantee, or sent direct upon receipt of price. Write for booklet and proofs. Eureka Chemical & Mfg. Co., La Crosse, Wis., and Boston, Mass. Oelcltem.

THE SAFE STORE

O'Neill, Neb. There isn't a store in the whole country that sells clothing as "The Nebraska" does. It is an exceptional store, it is a reliable store, it is an absolutely safe store. The price today is the price tomorrow and the next day, and the price to one is the price to all. We have no favorites, we make no discounts, and we never resort to catch penny methods of marking some goods low in order to sell you other goods high. Our practice of instantly refunding money when goods don't suit is the best proof you can have that our goods and prices are all right. For eleven years we have been building up a vast business on these principles and our business was never so large, our prices never so low, as they are this spring. Send for our catalogue. It contains samples of goods and will save you a great many dollars above what you have to pay for the same qualities at home. It is a book that ought to be in every clothing buyer's hand. Get our prices on Bicycle Outfits.
