WATTERSON'S VIEWS.

TALKS ABOUT THE RECENT ELECTION.

He Says the Election of McKinley Doer Not Settle the Monetary Question-Gold Democrats as Much Against Protection as Ever-Presidential Elections are a Menace to the Country.

Watterson Not Optomistic.

PARIS, Nov. 20.-Hon. Henry Watterson has remained in this city since the election. His views upon the result of the national campaign just closed have been furnished. in a revised interview.

"The election of McKinley is but the beginning of the end of the struggle which, one way or another, has been going on in the United States for twenty years. Mr. McKinley's election settles nothing. It merely re-moves flat money and depreciated silver dollars from among the rocks ahead.

Mr Watterson was asked if the union between the gold Democrats and the Republicans could last. He replied: "I do not see how it can. The dif-

ferences are too doctrinal and radical. Mr. McKinley is an extreme protectionist; the sound money Democrats are sincere revenue reformers. Cer-tainly, statesmanship is largely an affair of compromises. But to be effect-fair of compromises. But to be effect-fal and beneficial, the compromise must be logical and just. Nothing could be more desirable than a union among all law-abiding, order-loving citizens against whatever and whoever threatens the interests of the country.

"I think the country is safe for the present. That the future of the country will be equally assured I devoutly hope. But thoughtful men should not hope. But thoughtrui men should use be lulled into fancied security because we have overcome the dragon of repudiation. The gorgon of agrarianism is yet abroad. The Bryan movement was most dangerous because it affected to speak in the name of the people. The whole people must come that there have been mighty changes going on in the world before such a government as ours can be both safe and free.

"In 1900 we shall have to face the same general question in a new form, and the issue will be, under existing conditions: 'Are orderly government and popular government concurrent possibilities?' If we are to have many presidential elections like the one just ended they are not.

Unless the body of the people can be brought to realize the changes of a century of progress, every four years will witness a party taking the field in support of the alleged rights of humanwhose very existence is a menace to the public order, the peace of society, the just balance between the sec-tions of the Union, the money of the people, the credit of the nation, and every other good and perfect thing supposed to emanate from our repub-lican system."

"What would you advise the Democratic party to do. Mr. Watterson?" What I would advise it to do and what it is likely to do are different natters. Perhaps it could do nothing better, by way of a starter, than to ap point the next sth of January as a day of fasting and prayer.

A DENVER MAN DEAD.

The Probability Being that He Was Mur dered.

NEW YORK, Nov. 20 .- Frank P. Arbuckle, one of the most noted men of Colorado, chairman of the Democratic state committee and a leading business man of Denver, was found dying in an obscure place on a vacant lot just off the sidewalk, in a lot of weeds, on the west side of Eighth avenue, between One Hundred and Fifty-second and One Hundred and Fifty-third streets, at 2:45 o'clock this morning, and died in the patrol wagon on the way to a station house, without regaining consciousness

Charles Horstman, barkeeper of the Atlanta Casino, near which Arbuckle's body was found, said that a man answering the description of the dead man entered the place about an hour before the time he was found uncon-scious and called for a drink of whisky. He appeared at the time to be partly He appeared at the time to be partly under the infinence of liquor. In pay-ing for the drink he displayed a large roll of bills and then pulled from his pocket a heavy gold watch which was attached to a large gold chain. After taking the drink he left. That is the last known of his movements until he was found in the weeds nearly dead. No more exceent the small amount of No money except the small amount of change was found in his pockets, and he had no watch or chain.

It is surmised that Arbuckle got on an train somewhere down town and, falling asleep, rode to the end of the line, then got off the train, walked down stairs and entered the Casino saloon, which is at the foot of the "L" stairway. After leaving the Casino he was probably set upon by thugs, knocked down and robbed, though no marks of violence were found on the body except a slight abrasion on the head, which might have been caused by a blow from a sandbag or have been received in a fall.

The neighborhood where Arbuckle was found has an unsavory reputation. There are a number of Raines law saloon hotels, frequented by boatmen and women of low charater. Nearly every week the police receive a report of some robbery or knockout case in the locality.

DENVER, Col., Nov. . - Frank P. Arbuckle was born at Erie, Pa., in the early part of 1852. He had the advantage of an excellent education and early evidenced the business capacity which has led to his success. In 1870 he became connected at Russell, Kan., with the telegraph service of the Kansas Pacific railway company, whose railroad had been completed to Denver. Sometime afterward he organized the American District Telegraph company in this city, was its superintendent for a number of years, and showed marked executive ability in its management. Other organizations perfected and successfully operated by Mr. Arbuckle were the Beaver Brook Water company and the Mountain Water company, which for many years supplied the citizens of High-lands, until consolidated with supplied the citizens of High-lands, until consolidated with the Denver Union Water company. He was also president of the Cripple Creek and Central Consolidated Mining company. The Denver-Highlands Electric company was another of his prosperous business ventures. He was receiver of the land office at Lamar during President Cleveland's first administration and was appointed to the same position in the Denver office under the present administration. He was chairman of the state Democratic committee during the last campaign. He was married to Miss Emma Swift of Fond du Lac, Wis., a number of years ago. His home was at Highlands, a suburb of this city. He left a wife and two sons. aged 18 and 16.

REJOICING OVER THE DEFEAT OF SILVER.

Annual Banquet of the New York Chamber of Commerce-Speeches of a Congratulatory Character - President Cleveland Writes a Letter-Leaders of the Gold Men Lionized by the Orators.

The Annual Banquet.

NEW YORK, Nov. 91 .- The 128th annual banquet of the chamber of commerce of the state of New York, which was held last evening at Delmonico's, was the most notable yearly gathering that has been held by that great organization. Considered in view of the outcome of the national election, it might justly be called a "commercial glorification," by the 400 members and the 300 guests who attended the dinner.

Many of the speeches were distinctly of a congratulatory character, and those who led the fight against free coinage were given unstinted praise, while every mention of their names was greeted with applause.

President Cleveland and Governor Morton were unable to attend the banquet, but they wrote letters which, when read, were received with wild cheering. President Cleveland said:

"Recent events may well cause those who represent business interests to rejoice in their escape from threatened peril. But while they have abundant reason for rejoicing and can view with the greatest satisfaction the support they have given the cause of sound money in the contest lately waged against it, earnestly hope that in this time of congratulation it will be remembered that constant vigilance and continued effort are required even to maintain present conditions; but that absolute safety will only be secured when our financial system is protected by affirmative and thorough reforms. "When our business men are habitu-ally alert and watchful, and when they

are, moreover, fully aroused to the importance of such legislative action concerning our finances as business methods approve and the welfare of the entire country requires, much good may be confidently anticipated, not only in the accomplishment of practical results, but in the removal of hurtful prejudices, through an assurance to the people that business and patriot-ism are becoming more and more united."

The main hall in which President Alexander E. Orr and the guests of honor were seated was tastefully decorated. Large golden eagles amid groups of flags hung over the mirrors and windows

Seated at the guest's table were the Rev. Dr. David R. G. Greer, Charles S. Smith, Samuel D. Babcock, Seth Low, Mayor Strong, General Nelson A. Miles, Whitelaw Reed, Governor John W. Griggs of New Jersey, Postmaster General William L. Wilson, Secretary J. Sterling Morton, Senator Joseph R. Hawley, Comptroller Eckels. Joseph H. Walker, W. Bourke Cockran, Admiral Henry Erben, Commodore Montgomery Sicard and Murat Halstead.

WEYLER NOT DOING WELL.

SPAIN IS GROWING TIRED OF GEN. WEYLER.

There Must be Quick Action or He Will Be Recalled-Hopes to Score a Decided Victory Before Congress Meets-Presi dent Cleveland's Action Depends Much Upon Events of the Next Two Weeks.

Spain Tiring of Weyler.

WASHINGTON, Nov. 18 .- It is learned here on authority that the Spanish government has given General Weyler to understand that he must push his operations against the insurgents aggressively and vigorously. Unless he soon achieves a decisive victory over the Cubans it is believed he will be recalled. General Weyler, it is understood, is aware of the alternative and his present campaign in Pinar del Rio is expected to result in an engagement that will put a new aspect on the Cuban situation one way or the other. General Weyler has all the troops that he can use. There are over 200,-000 Spanish soldiers in Cuba and the force under the captain general in his present operations in the field in per-son is over 60,000 men. Maceo, against whom he is now operating, has under him, it is estimated, about 7,000 men.

Spain having fulfilled all of General Weyler's wishes as to troops, now expects results from him. Consul Gen-eral Lee has acquainted the adminis-tration with these facts and the President is at present simply awaiting events and will shape his course by the developments.

It is the hope of General Weyler that he will be able to score a decided vic-tory before the assembling of congress, December 7. Spain fears adverse ac-tion by that body soon after it meets and has urged General Weyler to dem-onstrate his ability to crush the rebellion within the next two weeks, if possible

UNCLESAM'S UNEMPLOYED

Eleventh Census Labor Statistics-Millions Withont Work.

WASHINGTON, Nov. 18.-Hon. Carroll D. Wright, commissioner of labor, in charge of the eleventh census, has transmitted to the secretary of the interior a special report on the statistics of occupations.

The most interesting feature of the report relates to the question of the anemployed. Similar data relative to the unemployed were collected at the census of 1880, but were not compiled, so this is the first time in the federal census that information of this character has been presented in connection with the statistics of occupations.

There were 23,735,661 persons 10 years of age and over engaged in gain-ful occupations in 1890, of whom 18,-821,090 were males and 3,914,571 fe-males. Of these, 3,013,117 males and 510,613 females, or a total of 3,523,730 persons, were unemployed at their principal occupations during some part of the census year ending May 31, 1890.

Of the whole number of persons so unemployed, 1,818,865 were unem-ployed from one to three months, 1,348,318 from four to six months and 336,447 from seven to twelve months. This is equivalent, approximately, to 1,139,672 persons unemployed at their principal occupations for the entire twelve months, and this number would represent 5.01 per cent of the total number of persons engaged in gainful occupations in 1890

Divided as to sex, the approximate number of males unemployed at their principal occupation for the entire ensus year was 972,000, representing 5.16 per cent of the whole number of males at work, while the approximate number of females unemployed at their principal occupations during the same period was 167,672, representing 4.28 per cent of the whole number of females at work.

SILVER AND RELIGION.

Novel Church Project of Chicago White Metal Advocates

CHICAGO, Nov. 19.-The Rev. Flavius J. Brobst, who was an active free silver speaker in the late campaign; Colonel C. A. Crum of the United Silver party, Charles P. Huey, an Episcopa-lian and secretary of the United Silver party; Professor R. M. Johnson, a Presbyterian and a member of the executive committee of the same organization; David Shanahan, who represents the Catholic sentiment in the movement; George A. Williams, who was prominent in the silver movement; J. P. Bishop and Colonel Drake met yesterday and decided to open a church of non-sectarian character, at which silver as well as religion will be con-sidered. It is expected that some theater will be secured, and that Mr. Brobst will become the pastor of what will be called the Church of Humanity.

The founders believe that the recent attitude of some pulpits on the finan-cial question had driven a large number of church people from sympathy with existing organizations. It is not proposed to have Mr. Brobst preach nothing but silver sermons. The founders said yesterday that the pure gospel from the Bible would be preached, and in time it is hoped the church can extend its good influences through humanitarian work and through humanitarian work, and demonstrate the usefulness of a practical religion to those who care little for it now

A survey of the surroundings clearly showed that the murderer had entered the lumber room of the house, secured a shotgun and a bootjack that were always kept there, and returning to the porch, had thrown the boot-jack through one of the windows, with the double purpose of making an opening and arousing the women. When they arose he had unquestionably fired a shot which passed through the lower part of Mrs. Foley's head, slightly wounded her daughter in the back and cut through the bed clothes, striking the wall. The supposition is that the women then fled to the adjoining room and that the murderer broke through the door from the porch and followed them, and then shot the daughter in

The Democrats concede the election of the foremost McKinley elector, S. H. Kash, who ran 244 votes ahead of W. H. Smith, the leading Bryan elector, who in turn ran ahead of his associates by over 2,000 votes, the other eleven McKinley electors receiving a greater number of votes than the other Bryan electors. The grounds of contest are given as irregularity and fraud in a large num-ber of counties. The Republicans make as many charges of irregularity and fraud as the Democrats. The state contest board is composed entirely of Republicans.
