LYNCHERS UNDER FIRE.

The Ray County Grand Jury Making an Investigation-Confession Ramors.

LIBERTY, Mo., Feb. 6 .- There is considerable excitement in the western part of Ray county over the report that a business man of Orrick has con-fessed that he was a member of the mob that lynched Winner and Nelson. A large number of witnesses have been subpoenaed this week to appear before the grand jury. Judge E. J. Broaddus, in his charge to the grand jury when court convened at Richmond, was very emphatic and de-mounced the lynching in strong lan-guage. He questioned each grand juror as to his views ou lynching.

GOSSIP. SENATE LIQUOR DEBATE.

loon From the Capitol.

WASHINGTON, Feb. 6.-The session of the Senate yesterday was one of unusual activity, with sharp colloquies and vigorous speeches, which drew large crowds to the galleries. The ball was set rolling early in the'day when Mr. Morrill endeavored to pass the bill prohibiting the use of intoxicants in the Capitol building. This aroused the opposition of Mr. Hill of New York, who denounced the busybodies and mischief-makers inspiring this class of legislation. The Senator spoke for the fullest enjoyment of individual liberty consistent with the common good. The speech was not only notable for the vigor which Mr. Hill threw into it, but also for its effect in prolonging the debate until 3 o'clock, when the bill was displaced by the Nicaragua bill.

Regarding the sale of liquor in the Capitol, Mr. Morrill said there was nuch feeling throughout the country against it. He had just received a letagainst it. He had just received a let-ter stating that the writer had seen a man coming from the building drunk. While there was some misapprehen-sion as to the existence of ordinary saloons in the building, yet as the pub-lic feit that an evil existed, Congress should make a strict recention.

should make a strict proposition. Mr. Sherman asked if it was right that any part of this great public building should be used for the sale of liquor. Mr. Sherman did not believe that the public idea that saloons existed here was justified. There was nothing like an ordinary bar. But the laws had been made stringent so that when a man wanted whisky he would have to go outside the Capital to get it. Mr. Hill came into the debate at this point. He had received many letters, he said, protesting against "this abomination in our national Capitol." Such statements were false. No such thing as a bar existed here. Mr. Hill read in sarcastic tones a letter appealing to him to aid in driving saloons from the Capitol and thus "raise the standard of our national honor."

"Has our national honor come to this!" exclaimed Mr. Hill, "that it depends upon whether we take a glass of ale or beer with our meals?"

This appeal to national honor, he added, was becoming a common device overy time some small question presented itself. But there was no qu tion of national honor involved in this matte. "There are no saloons here; there is no drunkenness here; I have never seen a drunken man in the capitol. I state for the benefit of these agitators that it is a libel on Congress to say that saloons are here and drunkenness exists here. It is absolutely false."

The discession next took a somewhat humorons turn, Mr. Chandler, Mr. Gallinger and Mr. Gray exchanging sallies as to the effect of the bill in restricting the personal comfort of Senators. The roll call on Mr Hill's motion to

ABOUT RAILROAD TRAVEL. What it Cost to Carry Passengers on Western Roads.

There is a surprising amount of misinformation among the people regarding the cost of carrying passengers on railroad trains and to this con-dition as a public mind is doubtless fue much of the sentiment in favor of lower rates, which is finding ex-pression through bills for sweeping re-ductions in the legislature of many of

the western states this winter. Mr. P. S. Eustis, General Passenger Agent of the C., B. & Q. R. R., in argument before the house committee of the Missouri legislature last week on the two cent bill gave some valuable and surprising information about the passenger business in the west. His statements were based upon the reports of the Inter-state Commerce Commission and the Railroad and Warehouse Commission of Missouri and are therefore beyond question. Mr. Eustis showed in the first place that the volume of passenger traffic on railroads is dependent upon the density and wealth of population in the territory through which it runs, and then compared the population of Missouri and the traffic resulting from it with the same figures in other states, thus clearly illustrating the theory of his

point The following table showing the relative population and rates is interest-ing in this connection:

Illinois 68 2075.00 1951.00 Ohio 90 1951.00 New York 122 4513.00 New England 200 4422.00 Mr. Eustis made the statement that 100

while the named rate in most of the western states was three cents per mile, the actual amount received is considerably less than that sum. This is due to the fact that the railroad having a long line between two points cannot charge more than the rate fixed by a road having a shorter line, and to excursion rates demanded by the people, all of which reduce the

average rate materially. But the most surprising assertion made by Mr. Eustis was that the western roads, with possibly one or two individual exceptions, carry passengers at an actual loss. The St. Louis, Keokuk & Northwestern was cited as an instance. Mr. Eustis produced a statement of the expense on that road to show that the cost per passenger per mile exceeded three cents, the legal rate.

The report of the Inter-state Commerce Commission referring to the railroads of Illinois, Iowa, Wisconsin, Minnesota and that part of the Da-kotas and Missouri lying east of the Missouri river shows that it cost the railroads two and three one-thousand ths cents per mile to carry passengers exclusive of any charge for taxes, rents, interest on mortgages and other items of the kind. Mr. Eustis declared that a two cent flat rate in Missouri would reduce the average to one and three quarters cents if not lower.

It was shown that lower rates do not largely increase traffic and instances were cited where reductions from four cents and three and one-half cents to three cents per mile did not result in increased travel.

Answering the question as to whether or not rates in Europe were not lower than in this country, Mr. Eustis showed that while the third class rate on some European lines is lower the second class rates, which are paid by the great traveling public, are higher than American rates. The conveniences of second and third class travel in Europe are not to be compared with those of America is point of comfort

and convenience.

Beat Her Husb

Among the curious results of the recent battle of the ballots one of the most interstilug from many points of view is the election of Mattie Hughes Cannon to the state senate of Utah by an immense plurality over her opponent, Angus M. Cannon, who, alas for the future peace and quiet of the Cannon household, is the husband of the senatoress-elect. The advent of Mrs. Cannon into the Utah state senate may. however, exercise a perturbing influence over a wider circle than that which circumscribes the domostic realm of Mr. Cannon.

The prospect of the election of women to the higher legislative assemblies has filled some apparently unprejudiced observers with alarm because of the paralyzing effect which it is feared their presence may have upon debates. The relations which nature and usage have established between man and woman would make rudeness impossible. Men would be restrained from saying what they might have to say in the manner to which they are accustomed among themselves. It would be difficult for a maie debator to say folly is folly if the utterer of the remarks open to such criticism should happen to be a woman. Debate would cease to be an engine for the clucidation of fundamental truths and would become a mere series of decorous and inconclusive declamations.

People Do Read the Papers.

From the Buffalo Courier: Some persons wonder why engaged people generally prefer to keep their engagements as quiet as possible until the day of the wedding. Perhaps the reason lies in the results of a newspaper announcement. The other day an engagement was announced in one of the afternoon papers. It was in the last edition of the paper, but early the next morning several awning makers were at the home of the future bride's parents, soliciting the contract for supplying an awning when the event came off. On the same morning and in the first mail no less than half a dozen printers and engravers sent samples of their work, and quoted prices for which they would be willing to prepare the wedding cards, according to the latest dictates of fashion. During the remainder of the week milliners, caterers, dressmakers, liverymen and dry goods/ merchants made known their desire to supply the future bride and groom with all the outfit they might need or imagine they needed. The young folks are now waiting for bids from ministers who are willing to the the knot at bargain prices.
