PROVISIONS OF THE SENATE INDIAN BILL.

A Step in the Direction of Breaking Up Tribat Relations-The Dawes Commission Given Fall Authority to Allot Equally the Lands of the Civilized Tribes-Federal Courts to Control Appropriations for Incl n Schools.

## Uncle Sam's Wards.

WASHINGTON, Feb. .20-The Indian appropriation bill now before the Senfor consideration is of vast importance to the west, for it aims a destructive blow at tribal severeignty and places the Indian territory in immediate touch with the long excluded forces of development.

After providing the necessary appropriation for the maintenance of the Dawes commission. the Senate committee has inserted:

Provided further, that said commission shall set apart the lands upon which any town is located in the Inwhich any town is located in the In-dian Territory, together with a reason-able amount of land to provide for the future growth of said town; also all lands occupied by any church, ceme-tery, school, charitable or penal insti-tution or public building of any sort outside of the limits of any town; also all mineral lands, including coal oil and natural gas lands now leased, occu-pied and improved for mining purpied and improved for mining pur-poses, that the use of the surface of all other lands in the Indian Territory belonging to the Chickasaw, Choctaw, Cherokee, Muscogee (or Creek) and Seminoic tribes shall be allotted equally among their respective citizens, area and value being taken into considera-tion, such allotments to embrace other Indians and freedmen now living with said tribes according to the provisions of existing treaties and laws in rela-tion to such other Indians and freed-

United States courts in said territory shall have full and exclusive juris-diction and authority to try and de-termine all civil causes for the punishment of any offense committed after the passage of this act by any person in said terrritory, and the United States commissioners in said territory shall have and exercise the powers ard juris-diction already conferred upon them by existing laws of the United States

by existing laws of the United States as respects all persons and property in said territory, and the laws of the United States and State of Arkansas in force in the territory shall apply to all persons therein, irrespective of race, said courts exercising jurisdiction thereof as now conferred upon them in the trial of like causes.

"That said commission shall continue to exercise all authority heretofore conferred on it by law to negotiate with the five tribes, and any agreement made by it with any one of the said tribes, when ratified, shall operate to suspend any provisions of this act if in conflict therewith as to said nation. That no act, ordinance or resolution of the council of either of the aforesaid five tribes hereafter

resolution of the council of either of the aforesaid five tribes hereafter passed shall be of any validity until approved by the President of the United States."

It must follow, if these amendments shall be adopted substantially in the form in which they are presented, that the many conditions which have served to exclude enterprise and block territorial progress must swiftly disappear.

to exclude enterprise and block territorial progress must swiftly disappear. The rest of the bill is much the usual sort. The usual appropriations are made for Indian agents in Oklahoma and the Indian territory.

The appropriations made for the Indian schools will astound those who have not followed governmental endesvor in this direction. For their support \$1,390,000 is appropriated outright and other appropriations amountright and other appropriations amounting to \$215,000 proposed. In addition to this, appropriations at the rate of \$167 per annum for each pupil find place in the bill.

place in the bill.

These paragraphs relating to the schools at Chilocoo, in Oklahoma, and at Lawrence, Kan. may serve as a type of twenty-four others, providing for over 5,000 pupils. For the support of 350 Indian pupils, at \$167 per annum each at the Indian school at Chilocoo, I. T., \$58,150; for the pay of superintendent at the school, \$1,800; for gendial repairs and improvements, \$5,000; in all, \$65,250; for the support and education of 500 Indian pupils at the Indian school at Haskei institute, Lawrence, Kan., at \$167 per annum each, dian school at Haskel institute, Law-rence, Kan., at \$167 per annum each, for transportation of pupils to and from said school, and for general re-pairs and improvements. \$85,500; for pay of superintendent at the school, \$2,000, and for the erection of new buildings, \$15,000; in all, \$102,500.

## ARBITRATION TREATY.

Welson, Teller and Stewart Urge Postponoment Until After March 4.

WASHINGTON, Feb. 20. -The Senate fours had no sooner been closed on the public than Mr. Nelson began an earnest appeal to the Senate for the adoption of his motion to postpone the treaty until March 5. Messrs. Teller and Stewart supported the motion to postpone in brief speeches. Mr. Platt took the opposite view, urging prompt action. He said that while the treaty was new the subject of arbitration was old, and the country was fully prepared to accept with favor the Senate's matification of the present document. st appeal to the Senate for the adop-

Nebraska's Last Treasurer Tied Up Much Money in Aiding Banks.

LINCOLN, Neb. . Feb. 20 .- A statement of the financial condition of the state treasury of Nebraska shows that ex-State Treasurer J. S. Bartley (Republican) has a deficit staring him in the face of over \$500,000. Coupled with this is a little item of \$27,000, which ex-State Auditor Eugene V. Moore, also Republican needs to, account for in order to balance his books.

Mr. Bartley is unquestionably the victim of a too lenient policy in assisting his friends in a financial way. When the panic of 1893 struck Nebraska he deposited large sums in various state banks to help them through the crisis. Several of these subsequently failed and others were so closely pressed that it was impossible to discharge their obligations. Bartley says that in the course of time every cent will be paid.

The shortage in Auditor Moore's accounts has not so far been explained.
Action in regard to the state treasury situation has been delayed ten days by a vote in the senate. During this time special committees will inquire into the alleged shortage.

## A SEXTUPLE MURDER.

Borrible Tragedy in North Dakota

Drunken Indians Suspected. WINONA, N. D., Feb. 20.-A sextuple tragedy was discovered one mile from this place yesterday on the ranch of Rev. Thomas Spicer. The horribly mutilated bodies of Mr. and Mrs. Spicer, their daughter, Mrs. William Rouse, with her 1-year-old twin boys, and the aged Mrs. Waldron, the mother of the postmaster at this place, were discovered scattered about the ranch, and there is yet no positive clue to the perpetrators of the horrible

The appearance about the ranch the condition of the bodies and some other circumstances have led to the suspicion that the murder was com-mitted by Indians, and this suspicion mitted by Indians, and this suspicion was in part started from the known fact that one Indian was seen in the neighborhood of the ranch. Then, too, the bodies were terribly mutilated with axes and clubs, which fact is taken to at least partially corroborate the suspicion of the Indian murderers. The Standing Rock Indian reservation is not far away, and when the Indians from there get away from sight

dians from there get away from sight and manage to get hold of whisky, there is sure to be trouble. If the murders were committed by Indians, the murderers are undoubt edly now back among the reservation Indians. There is much excitement

Cincinnati Colored Lad Knocked Out

for All Time--His Neck Broken. CINCINNATI, Ohio, Feb. 20.-Benny Coleman, a little colored boy, met death in the ring of the Manhattan Athletic club in the first round of his boxing bout with William Wright.
While his limp body was being carried out of the arena and into the dressing room by his seconds the spectators, none of whom suspected the awful truth, cheered lustily for the little black boy, Wright, who had been proclaimed victor over him.

The death blow did not appear to be a second little black boy when the control of the control

be an especially vigorous one and not one person in the amphitheater sus-pected the horrible truth. Coleman's eyes were open and rolling, although his tongue was stilled and his muscles were all relaxed. Some thought it was only a bit of clever acting in order to escape further punishment. It was nearly two hours later that the boy died from a broken neck.

The police have arrested John Simcon the manager of the M

coe, the manager of the Manhattan club; Hudd Lally, the referee; Will Rogers, one of the seconds, and are after the others whom they have not yet arrested.

## INTERNATIONAL COIN.

Congressman Boach Tells Why It Would Bouefit American Commerce.

WASHINGTON, Feb. 20 -- Representative Beach of Ohio made a statment to the House committee on foreign affairs in explanation of a resolution he intro duced for securing a uniform standard of value in commerce by the use of international coins. The measure is particularly designed to bring about closer trade relations between the United States and other countries of this hemisphere and the east. It re-quests the President to begin negotia-tions with Caina, Japan, the republics tions with Caina, Japan, the republics and colonies of the American hemisphere, Canada and the Hawaiian islands, for the purpose of securing a uniform standard of value. All of the countries mentioned in the resolution are silver using countries, and Mr. Beach said that one result of his project, if it succeeded, would be to increase the demand for American silver.

Determining on Work.

WASHINGTON, Feb. 19,-Soon after he Senate went into executive session to-day there was a contest as to whether the arbitration treaty should be considered or nominations taken up. There was a yea and nay vote on the proposition, in which those who desired to consider nominations were desired to consider nominations were victorious by a majority of four. Several senators who favor the treaty voted to take up the nominations because they wished to have the confirmations of persons in whom they are interested made, but the vote was significant in showing that a majority of the Senate do not believe a vete can be reached on the treaty at this session.

## OPPOSE THE CONFERENCE.

Republicans of the House May Kill the International Monetary Treaty.

WASHINGTON, Feb. 19.-When the House committee on coinage took charge of the Senate bill for an intercharge of the Senate bill for an inter-national monetary conference, there was thought to be no doubt that it would be reported favorably, but the opposition has been growing steadily until it seems probable that, if re-ported, the action will be against the wishes of a majority of the Republican members of the committee. members of the committee.
All of the Republicans who have

poken on the measure before the committee have argued that it would be an embarassment to the incoming administration. On the other hand. some senators say that Senator Carter of Montana, who recently held an interview with the President-elect, quotes Mr. McKinley as expressing a desire that the bill should be passed.

Self-abnegation, subserviency to man
—whether he be father, lover or husband--is the most dangerous theory
that can be taught to or forced upon a woman. She has no right to transmit a nature that is subservient and a slavish character, either blindly obedislavish character, either blindly obedient or blindly rebellious, and therefore set, as is a time-lock, to prey or to be preyed upon by society of the future. If woman is not brave enough personally to demand to obtain personal liberty of action, equality of status, extire control of her great and race-endowing function, maternity, she has no right to dare to stamp upon a child and to curse a race with the descendants of such a servile, a dwarfed, a time-and-master-serving character. a \*time-and-master-serving character. We wonder how she dares to face her child and know that she did not fit herself by self-development and by direct, sincere, firm and thorough qualifications for maternity before she dare to assume its responsibilities. We wonder that man has been so slow in learning to read the message that nature has telegraphed to him in letters of fire and photographed with a terrible persistency upon the distorted, diseased bodies and minds of his children and upon the moral imbeciles she has set before him as an answer to his message of sex domination. Do'you know that there is an army of 700,000 defectives in this country? Seven hundred thousand imbecile, insane, deaf, dumb, blind and criminal victims of maternal and paternal ignorance. Our standing army is only 25,000 men—these for our protection; our defective army 700,000—

CHICAGO, Feb. 19 .-- Warrants were yesterday afternoon sworn out for the arrest of five aldermen and two other men on a charge of violating the municipal law regarding the observance of Sunday and the closing of saloons upon that day. Those for whom the warrants were issued were: Alderman John Powers, Alderman John J. Coughlin, Aiderman John A. Rogers, Alderman John J. Brennan, Alderman F. Ward Haas, John Broderick, M. C. Conlin.

The complaints were filed by Rev. W. W. Clark, who, after filing his complaints against each of the persons named, swore out warrants for the ar-rest. The minister then attempted to procure a warrant for the arrest of Mayor George B, Swift, on a charge of malfeasance in office. He argued that Mayor Swift, when he was elected to office, promised to observe and enforce city laws, and had not done so. The warrant was refused by Justice Hoag-land, who granted the warrants for

## HALF A MILLION DEFICIT. TREATY LAID ASIDE. STRONGWORDS TO WOMEN THE RECORD BROKEN.

C., B. & Q. ACCOMPLISHES A GREAT FEAT.

Special Train of the Burlington Route Runs from Chicago to Denver, 1,025 Miles, at an Average Speed of Nearly 58 Miles an Hour.

The Chicago, Burlington & Quincy Railroad has just accomplished the greatest feat the world has ever known for long-distance fast running.

It was made in a race against death to carry Henry J. Mayham of New York to the bedside of his dying son in

The distance from Chicago to Denver, 1,025 miles, was covered in exactly 1,069 minutes' actual running time. This is only a small fraction less than one mile a minute for the longest continuous run ever made by any railroad in the world.

It was a run made in the ordinary course of business. No special preparation whatever had been contemplated for the trip. In exactly fortyfour minutes from the time the order for the train was received the throttle of the engine was pulled open and the train glided out of the Union Depot on a race which surprised railroad men the world over.

The engine which took the train on the first run out of Chicago to Galesburg had just come in from Aurora pulling a regular passenger train. No time was spent in cleaning up, but it was quickly turned around, attached to the special train and manned by the same engineer who had brought it to Chicago. Not more than a half dozen officials or employes of the road knew the trip was to be made. This fact is the most important in the history of the great feat, as it demonstrates the superb physical condition of the road and the perfect management which enables such remarkable time to be maintained for more than a thousand miles

The time made by the record-breaking train is as follows, including all

From Chicago To Galesburg To Burlington		Miles.	. Time.

To	Denver	1,025	18h.	53m

Average time, including stops, 54.3 miles per hour.

Average time, excluding stops, 57.54 miles per hour.

The first stop made by the train after leaving Chicago was at Sixteenth street for supplies, where four minutes were consumed. At Aurora the traveling engineer took one minute to look the engine over and the train ran without a stop until Mendota was reached, when three minutes more were consumed for the same purpose. A total of twentyone stops was made between Chicago and Denver, consuming in all sixtyfour minutes. The longest stop was made at Red Oak, Ia., where engines were changed on account of a hot truck. At this point the fastest run of the trip was made. Soon after leaving Creston it was discovered that a box on one of the engine trucks was heating, but in spite of this fact the run of thirty-six miles was made in thirty-four minutes. At Villisca a PARIS, Feb. 19.—A dispatch received fresh engine was substituted and the here from Athens says that King run to Red Oak, fifteen miles, was

Over long stretches of road between McCook and Denver the frain made more than a mile a minute for distances of forty to sixty miles. Six engineers took the train from Chicago to Denver, making an average of 170 miles to each run.

Mr. Mayham left New York Sunday morning at 10 o'clock on Pennsylvania Limited in response to repeated messages that his son, William B. Mayham, was lying at the point of death at Denver. At Fort Wayne Mr. Mayham became convinced that the erdinary trains would not take him to the bedside of his son in time to close his eyes in death, and he promptly wired the Chicago, Burlington & Quincy read to have in readiness a special train to carry him through to Denver in the

shortest possible time. The Pennsylvania arrived in Chicago ten minutes late and thirty minutes making necessary preparations for the were consumed by Mr. Mayham in
