

## Periodical Sick Headaches.

Of Interest to Women, Because in This Case They Proceeded From an Allment Peculiar to the Sex.

From the Herald-Democrat, Huron, S. D.  
A few years since, J. W. Kelley came to Huron, South Dakota, from Osceola, Iowa, and purchased an interest in the Huron City Mill, an immense structure, having a capacity of 200 barrels of flour per day. Soon after his arrival Mr. Kelley's family removed here and some months later they were joined by their son Elmer and family, he having purchased an interest in the concern, and the firm became known as J. W. Kelley & Son. Since their arrival they have built up an immense trade for their patent roller flour, and ship many carloads every month to eastern and other markets. When they came to Huron, Mrs. J. W. Kelley was in very delicate health and the change of climate and conditions seemed to benefit her. But the relief proved only temporary, however, for after a few months residence here she lapsed into the same infirm physical condition that had been her lot for then nearly twenty years. Her ailments were those peculiar to women, and which women alone can best understand. In addition to these troubles Mrs. Kelley was a sufferer from acute sick headaches. This would come upon her at intervals of about two weeks, continuing for two, three or four days, and she could not get her to keep to her bed. Because of her affliction she was quite unable to do her household work, visit her neighbors or attend church. This worried her greatly, for she is a devout Christian and lives according to her profession. As Rev. H. Burns, pastor of the Congregational Church, to which Mrs. Kelley belongs, said of her one evening at the close of service:

"Mrs. Kelley is indeed a true mother in Israel; she is a Christian and lives according to her profession. As Rev. H. Burns, pastor of the Congregational Church, to which Mrs. Kelley belongs, said of her one evening at the close of service:

"I am sixty years of age, and was born in New York state, where I lived for fourteen years, then removed with my parents to Michigan, living there about the same number of years, then went to Iowa, remaining there till we came here four years ago or more. I have been troubled with headaches regular to my sex for the past twenty-five years. During that time my husband has expended a large amount of money seeing physicians and buying remedies, but I found little relief. Physicians told me the womb was badly diseased and no permanent relief could be afforded till the change of life had fully taken place. In this they, like myself, were disappointed. To add to my other troubles a headache, painfully sickening would come upon me about every two weeks, and would quite discourage me, and for a time ceased doctoring almost entirely; I had lost faith in the science of medicine, both of the old school and new, and cared to expend no more money in that way.

"About a year ago my son read in some newspaper an advertisement of Dr. Williams' Pink Pills, and urged me to try them. I hesitated because I had tried so many patent medicines without securing the much sought and long hoped for relief. But he insisted so strongly that I finally decided to give them a trial. Almost from the first I experienced relief, and after using the first box a change for the better was so apparent that I took courage and continued to use them strictly according to directions, until a short time since. I am so much better, as any one can see, that I have gradually discontinued their use. I take them now, but not regularly. I am a firm believer in Dr. Williams' Pink Pills, and have no hesitancy in recommending them to any who may be similarly afflicted as myself. What they have done for me they will do for others."

Dr. Williams' Pink Pills contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuritis, rheumatism, nervous headache, the after effects of grippe, palpitation of the heart, pale and sallow complexion, all forms of weakness either in male or female. Pink Pills are sold by all dealers, or will be sent post paid on receipt of price, 50 cents a box, or six boxes for \$2.50 (they are never sold in bulk or by the 100), by addressing Dr. Williams' Medicine Company, Schenectady, N. Y.

No Style There.  
Little Miss Brickrow—We're livin' in a very stylish and exclusive boarding house.

Little Miss Backcourt—Huh! You can't make anybody believe that.

Little Miss Brickrow—Why not?

Little Miss Backcourt—You're too fat.

## WHITE TOPAZ.

Beautiful Stones to Be Seen at the Diamond Palace.

Every day in the week and every hour in the day one can see crowds around the show windows of THE CHICAGO DIAMOND PALACE. The cause of it all is the now widely known White Topaz. The White Topaz, or carbonated diamonds, have come to be recognized as the nearest thing on earth to genuine diamonds, so near indeed is it that the proprietors of the DIAMOND PALACE do not hesitate to place real diamonds in their windows amidst their display of White Topaz, and allow the public to pick them out at the selling price of the Topaz.

The latter stones have all the lovely brilliancy of the diamonds, sparkling steadily and with wonderful fire. The thousands of these stones in the windows forms one of the most gorgeous displays and has proven an attraction which is one of the features of Chicago.

In order to find out the advertising medium best suited to their business, this enterprising concern offers to send a genuine White Topaz to all those who will cut out and send them their advertisement, which appears elsewhere in this paper, together with 25c in stamps.

THE DIAMOND PALACE, like all successful institutions, has many imitators, who endeavor to sell cheap rhinestones and other pastes claiming they are topaz. We caution the public to be careful, as THE DIAMOND PALACE, American Express Building, Chicago, are the sole importers of these stones.

Old Phineas Stuart's Fishing Party.  
Phineas Stuart of Livingston county, Mich., has just celebrated the 103d anniversary of his birth by giving a fishing party, at which he himself was present.

Fiso's Cure for Consumption is the best of all cough cures. George W. Lotz, Father, La., August 26, 1885.

Everybody likes fun, but no one has much of it.

To Cure Constipation Forever.  
Take Cascarets Candy Cathartic. 10c or 50c. If C. C. C. fail to cure, druggists refund money.

The dog is mentioned thirty-three times in the Bible

How Successful Farmers Operate This Department of the Farm—A Few Hints as to the Care of Live Stock and Poultry.

### Hyatt on Hard Milking.

X. HYATT, writing in Creamery Gazette, says: Mr. Samuel Fryer, of Plymouth county, Iowa, writes: "I have a two-year-old cow, and when she had a calf last fall I could hardly get the milk out of one teat it milked so hard, and it is still that way. Is there anything that I can do to remedy it?" I know of but one safe way to dilate the valve of the hard milking teat. As soon as possible after the cow calves, milk the teat with a strong hand. Put on all the force that will do. Do not allow the calf to suck the teat, and do not get any milk on the teat. Go to the heifer every hour or two and milk some big streams. Keep the teat dilated until the udder is contracted and again normal. This beats all the rubber plugs and teat dilators man invented, but it does not destroy teats. I believe the good authority, C. P. Goodrich, was right that in 99 cases out of 100 it injures more than it benefits by meddling with their "inside fixings." I go it once more. I have not used a milk tube, plug or teat dilator in twenty years and my mind must change materially if I ever do again. Never milk a hard milking cow with wet teats. It makes them milk harder every year. One of the most valuable cows I have milked so hard when younger if I had not learned how to make her milk easier she must have gone dry. By what is called down in the bones" I can tell (any one can tell if they will try) when a cow is near to calving, and some one should be about to know that she gets assistance in time if needed. More than half of my cows are better for the assistance

hard, and it is still that way. Is there anything that I can do to remedy it?" I know of but one safe way to dilate the valve of the hard milking teat. Tubercula Test in France.  
The French government has recently issued a decree that will affect all shippers of cattle to that country, the order being in effect that no cattle can be imported and retained unless they have been tested on the frontier by the tuberculin test and found free of tuberculosis. This measure has become imperative owing to the prevalence of the above disease among bovine stocks, the serious loss that has resulted to stock owners, and the menace to public

Hall's Catarrh Cure  
Is a constitutional cure. Price, 75c.

Understood at Last.  
An old Scotch lady, who had no relish for modern church music, was expressing her dislike of the singing of an anthem in her own church one day, when a neighbor said: "Why, that is a very old anthem. David sang that anthem to Saul." To this the old lady replied: "Weel, weel, I noo for the first time understand why Saul threw his javelin at David when the lad sung for him."—Exchange.

Educate Your Bowels With Cascarets.  
Candy Cathartic, cure constipation forever. 10c. If C. C. C. fail, druggists refund money.

Many such Furnaces.  
"Furnace" is a geographical name not unusual in the Atlantic coast region just below Mason and Dixon's line. In many instances the actual furnace is a mere tradition, but sixty or seventy years ago many such furnaces were built to smelt the bog-iron ore usual in all that region. It was once profitable to smelt this ore, but the marvelous abundance and cheapness of iron deposits elsewhere have made it impossible to carry on the old furnaces.

Hegman's Camphor Ice with Glycerin.  
The original and only genuine. Cures Chapped Hands and Face, Cold Sores, etc. C. G. Clark & Co., N. Haven, Ct.

Long Reigns in France.  
While the reign of Victoria has been longer than that of any of her predecessors on the English throne, there have been monarchs who have surpassed even her phenomenal record. Louis XIV. of France reigned for seventy-two years and Louis XV., his successor and grandson, held the throne for fifty-nine years. Thus two successive monarchs reigned for the extraordinary period of 131 years.

Mrs. Winslow's Soothing Syrup  
For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25 cents a bottle.

Not a Mascot.  
"What is this I hear about you making a good deal of money at the race track lately? I never would have believed it."

"It is so, though," replied Jonah H. Hoodoo. "There are a half dozen fellows paying me every day not to bet on their horses."—Cincinnati Tribune.

If you are "dead tired" tone up your system with Dr. Kay's Renovator. See ad.

A drunkard's idea of a smart man is one who doesn't touch liquor.

Holds the world's record for long-distance fast running.

It is cool in Colorado.

The real difference between the summer temperature of Colorado and that of Iowa or Nebraska is only about ten degrees.

The apparent difference is about thirty degrees.

July is the best month to visit Colorado. In July the temperature is just right, the mountain resorts filled with pleasure-seekers, and the cost of reaching them little more than half as great as is ordinarily the case.

Write for information about rates and train service. Also for advertising matter descriptive of Manitou, Glenwood Springs, Estes Park, Etc.

J. FRANCIS, General Passenger Agent, Omaha, Neb.

HALL'S Vegetable Sicilian HAIR RENEWER

Beautifies and restores Gray Hair to its original color and vitality; prevents baldness; cures itching and dandruff. A fine hair dressing.

B. P. Hall & Co., Props., N. Omaha, N. B. Sold by all Druggists.

Review believes that mixed flocks of general purpose fowls do not average more than 100 eggs per year per bird, and his belief is based on figures of egg production carefully kept for years. Therefore, select the birds, and choose a special fowl for a special purpose.

The farmer who is feeding a scrub cow and guessing that she pays may be said to be "gambling in stock." It's a sort of board of trade business. That is, she trades a very small lot of poor milk for her board and leaves the dealer short on butter and long on endurance.

Standard Varieties of Chickens Wyandottes.—The Wyandotte is another of the general purpose fowls and is rated next to the Plymouth Rock. From the first they sprang into popular favor and have continued so to the present time. Their origin is comparatively recent, dating back less than twenty-five years. They came originally from the Dark Brahma, Silver Spangled Hamburg, and the Bredas, a French fowl. Not a few authorities say that Wyandottes have

Cochin blood in them, from the fact that their ancestors produced single combs and feathered legs. For general purposes the Wyandotte has proved a success, being of medium size, weighing on an average a pound less than the Plymouth Rock fowl, hardy of constitution, and prolific layers. They are easily cared for and bear confinement well. For table purposes they are of superior worth; their flesh is sweet, juicy, and tender, making excellent broilers and roasters. As layers they are among the best, averaging from twelve to fourteen dozens a year, and as winter layers they do well under ordinary circumstances. There are five varieties of the Wyandotte class, and it is only a matter of opinion as regards a choice of the best. The general characteristics are the same in all, the difference in color of plumage being the only distinguishing mark. The Silver-Laced Wyandotte is of a silvery-white plumage, with regularly marked white lacing on breast and a generous distribution of white and black throughout the entire body. The cock has a silver-white head, rose comb, silver hackle, with a black stripe down the center of each feather; silvery white back; saddle same as hackle; breast black, with white center; tail black; wings half black and half white, or rather, black edged with white; when wing is folded there should be a well-defined bar across the wing; shanks and toes rich yellow, free from feathering. The hen of the Silver-laced variety (fig. 5) is marked similarly to the male, excepting the back and wing, which are whiter in male than in female. The breast of female is of much importance in breeding good birds; the lacing should be large and distinct, the white centers of each feather to be free from black or brown penciling.

The editor of this paper advises his readers that a free package of Peruviana, the best kidney and liver cure on earth, will be delivered FREE to any sufferer, if written for promptly. PERUVIANA REMEDY CO., 286 5th St., Cincinnati, Ohio.

Pacific Level Bottom.  
The bottom of the Pacific between Hawaii and California is said to be so level that a railroad could be laid for 500 miles without the grade anywhere. This fact was discovered by the United States surveying vessels engaged in making soundings with the view of laying a cable.

Shake Into Your Shoes.  
Allen's Foot-Ease, a powder for the feet. It cures painful, swollen, smarting feet and instantly takes the sting out of corns and bunions. It is the greatest comfort discovery of the age. Allen's Foot-Ease makes tight-fitting or new shoes feel easy. It is a certain cure for sweating, callous and hot, tired, aching feet. Try it to-day. Sold by all druggists and shoe stores. By mail for 25c in stamps. Trial package FREE. Address Allen S. Olmsted, Le Roy, N. Y.

It Didn't Fit Anybody There.  
"How do you like your new minister?"  
"Very much, indeed. He preached a stirring sermon to-day."  
"Yes!"  
"Yes! It was a denunciation of the self-righteous, the pharisaical, the envious, the speakers of evil, the covetous, the wealth worshippers—in short it was a fine effort. What a pity that none of the people to whom it was applied were at church to hear it!"—N. Y. Press.

A Stout Hackbone  
Is as essential to physical health as to political consistency. For weakness of the back, rheumatism, and disorders of the kidneys, the tonic and diuretic action of Hostetter's Stomach Bitters is the one thing needed. The stomach is the master of every other organ, and by invigorating the digestion with this preparation, the spinal column and all its dependencies are sympathetically strengthened. The dyspeptic and bilious will find it a pure vegetable stimulant and tonic.

A Marked College.  
Dukane: "The college which will attract the most attention this year does not possess a football team." Gaswell: "Oh, nonsense! 'It's a fact.' 'What college do you refer to?' 'The electoral college.'"—Pittsburg Chronicle-Telegraph.

Probably every man has made an honest effort to talk less, and failed.

FARRELL'S BAKING POWDER IS The best, at half the price; all grocers will refund your money if you are not satisfied.

It is pretty hard to decide on the meanest man you ever knew.

Everyone is more of a crank than he is willing to admit.

A Wax Spring.  
"I believe that Utah will one day produce more mineral wealth than any state in the entire country," remarked a gentleman who had at one time made a tour of the country. "When I was in the then territory, I made a prospecting trip into the Uintah reservation, located in the northeastern corner of the state. During the trip myself and partner came upon one of the most remarkable curiosities in the west, a spring of mineral wax. Enough had bubbled out upon the surface of the ground to have satisfied the demand for ten years. It was then worth \$4 a pound, and was used for the insulation of electric wires, yet there was enough in sight at half the price to have made us two rich for life, if we could have carried it to market. Two things stood in the way—the mandate of the government and the difficulty of transporting the stuff overland some several hundred miles into Provo. One of these days the reservation will be turned into the public domain and the wealth it contains will flow into somebody's pockets. As it is now, not a soul is permitted to trouble a single one of its resources. Well, we passed on and left the spring with a sigh that might have been heard at 'Frisco.'"—New Orleans Times-Democrat.

A Stout Hackbone  
Is as essential to physical health as to political consistency. For weakness of the back, rheumatism, and disorders of the kidneys, the tonic and diuretic action of Hostetter's Stomach Bitters is the one thing needed. The stomach is the master of every other organ, and by invigorating the digestion with this preparation, the spinal column and all its dependencies are sympathetically strengthened. The dyspeptic and bilious will find it a pure vegetable stimulant and tonic.

A Marked College.  
Dukane: "The college which will attract the most attention this year does not possess a football team." Gaswell: "Oh, nonsense! 'It's a fact.' 'What college do you refer to?' 'The electoral college.'"—Pittsburg Chronicle-Telegraph.

Don't Tobacco Spit and Smoke Your Life Away.

Probably every man has made an honest effort to talk less, and failed.

FARRELL'S BAKING POWDER IS The best, at half the price; all grocers will refund your money if you are not satisfied.

It is pretty hard to decide on the meanest man you ever knew.

Everyone is more of a crank than he is willing to admit.

Review believes that mixed flocks of general purpose fowls do not average more than 100 eggs per year per bird, and his belief is based on figures of egg production carefully kept for years. Therefore, select the birds, and choose a special fowl for a special purpose.

The farmer who is feeding a scrub cow and guessing that she pays may be said to be "gambling in stock." It's a sort of board of trade business. That is, she trades a very small lot of poor milk for her board and leaves the dealer short on butter and long on endurance.

Standard Varieties of Chickens Wyandottes.—The Wyandotte is another of the general purpose fowls and is rated next to the Plymouth Rock. From the first they sprang into popular favor and have continued so to the present time. Their origin is comparatively recent, dating back less than twenty-five years. They came originally from the Dark Brahma, Silver Spangled Hamburg, and the Bredas, a French fowl. Not a few authorities say that Wyandottes have

Cochin blood in them, from the fact that their ancestors produced single combs and feathered legs. For general purposes the Wyandotte has proved a success, being of medium size, weighing on an average a pound less than the Plymouth Rock fowl, hardy of constitution, and prolific layers. They are easily cared for and bear confinement well. For table purposes they are of superior worth; their flesh is sweet, juicy, and tender, making excellent broilers and roasters. As layers they are among the best, averaging from twelve to fourteen dozens a year, and as winter layers they do well under ordinary circumstances. There are
