### Catarrh in the Head

Suffered with it for Five Years, but Hood's Sarsaparilla Cured. "I had catarrh in my head and suffered with it for five years. I was also troubled with weakness. I have taken Hood's Sarsaparilla and it entirely cured the catarrh, built up my system and did me a great deal of good." W. E. MELLOWAY, Columbia, Missouri. Remember

HOW natural it is to watch him who "climbs" and we wonder if he will reach the top. It is the "survival of the fittest." If you would be at your best you must be healthy. Your body needs to be nourished and refreshed as much as an engine needs fuel to produce steam or you cannot "climb." The great trouble with so many is they cannot take nourishment and digest it. Consequently their engine (or body) cannot run at a high rate of speed. Their food is not digested and converted into good, rich blood. Consequently they fall behind on the upgrade. The trouble is with the whole digestive tract. Not one man in five whose stomach and whole glandular system is in a good healthy condition doing its work properly. The result is he becomes sooner or later in an unhealthy condition. He tries this, that and the other remedy but don't remove the cause and so fails to regain his health fully. His system needs renovating. There is nothing that renovates the whole system and restores the stomach and whole glandular system to a natural healthy condition equal to Dr. Kay's Restorer. It removes the cause by striking to the very root of the matter. This is why it cures such a large variety of diseases which are unable to get help by any other remedy. The cures it has performed are marvelous. Read the following:

From F. K. ... in right side of head and ... I became entirely blind. Dr. Kay's Restorer has done more than all the doctors and patent medicines I ever tried, and I tried a great many. It has helped my eye, head, stomach, and liver, very much and I sleep much better.

Also one from Rev. J. B. Wade, Morrison Col. "I am astonished at the mildness and yet the efficiency of Dr. Kay's Restorer in moving constipation and in producing a regular natural daily discharge. I have been afflicted with constipation for 25 years."

It is sold by druggists or sent by mail for 25 cents. Due to the substitution of it has no equal. Write for our 88 page book. It has 50 valuable recipes and treats nearly all diseases. Address Dr. B. J. Kay Medical Co., Omaha, Neb. We also guarantee Dr. Kay's Lung Balm to cure every kind of cough, influenza or la-grippe. Write for book.

### AN OPEN LETTER TO MOTHERS.

WE ARE ASSERTING IN THE COURTS OUR RIGHT TO THE EXCLUSIVE USE OF THE WORD "CASTORIA" AND "PITCHER'S CASTORIA," AS OUR TRADE MARK. I, DR. SAMUEL PITCHER, of Hyannis, Massachusetts, was the originator of "PITCHER'S CASTORIA," the same that has borne and does now *Chas. H. Fletcher* on every bear the fac-simile signature of *Chas. H. Fletcher*. This is the original "PITCHER'S CASTORIA," which has been used in the homes of the mothers of America for over thirty years. LOOK CAREFULLY at the wrapper and see that it is the kind you have always bought and has the signature of *Chas. H. Fletcher* wrapper. No one has authority from me to use my name except The Centaur Company of which Chas. H. Fletcher is President. March 8, 1897. Samuel Pitcher, M.D.

**STEALING LITTLE ONES.**  
An Industry Which is Showing Signs of Revival.  
Away back in the dark ages when civilization was slow in coming and the barbarities of the vicious members of the human family made innocent people shudder, there were organized bands of ruffians who made it a part of their business to kidnap children and sometimes grown persons, and hold them until various sums of money were extorted from the agonized parents or friends. Of course children were their favorite prey, as they were more easily kept and could not escape without assistance. Terrified into silence, shut up in some interior apartment of a building, or concealed in a cave, many a child has dragged out a wretched existence, frightened, neglected and at last murdered or thrown into dens of vice if the demands of the kidnapers were not complied with. Since the time when Charley Ross so suddenly and mysteriously passed out of knowledge, but few attempts have been made to disturb the quiet of American households in this way. But of late the disposition to extort money in this manner has seemed to be growing, and, in spite of themselves, American parents are feeling more or less concerned because of the dangers that menace their little ones. There is no punishment severe enough for the villain who snatches a child from the heart of a quiet and unsuspecting family. There is a moral and emotional phase to such an act that is by no means met if the miserable wretch ends his life at the hands of a justly enraged mob. There is that, however, in the alertness of the American mind that makes it somewhat difficult for acts of this sort to go unpunished. It is not the easiest thing in the world for men of the sort who do deeds of this kind to escape detection. Such things might have been possible when the country was new and sparsely settled, and when there were unbroken forests an unexplored caverns all about the great hills that environ some of our eastern cities. But the habit of observation is very strong in the average Yankee, and any unusual action or appearance is quite likely to be observed or commented on. There are towns in the vicinity of New York City into which a stranger cannot go and lounge for six hours without the detective force is warned of it and knows his movements thoroughly. If there is the least suspicious action or expression he is not free from espionage as long as he remains. It is greatly to the credit of the men to whom the safety of these places is entrusted that they are rarely mistaken in their estimation of the men they shadow. In one town within six years not a mistake has been made, and dozens of stragglers have been apprehended and either put behind the bars or given to understand that in moving on was their only safety. In the case of the Conway child it was developed upon inquiry that if this scheme worked satisfactorily other children were to be similarly captured and held until money could be extorted from the parents. But the sudden coming to grief of this effort has, it is hoped, shown the persons who contemplate such villainy that the undertaking is altogether too risky to pay. It is a fact that ninety-nine out of a hundred crimes are detected and the criminals are punished. The hundredth escapes sometimes merely by fortunate circumstances, and sometimes because a thorough sifting reveals the fact that the criminal was too close to the household to be prosecuted. The cold-blooded fiendishness of the kidnapper of children is scarcely paralleled by any act in the history of crime. That all efforts should be made to prevent a recurrence of such acts every well disposed member of every community will devoutly wish.—New York Ledger.

**When Trees Go to Sleep.**  
Trees and plants have their regular times for going to sleep, as well as boys and girls. They need the same chance to rest from the work of growing and to repair and oil the machinery of life. Some plants do all their sleeping in the winter while the ground is frozen and the limbs are bare of leaves. In tropical countries where the snow never falls and it is always growing weather the trees repose during the rainy season or during periods of drought. They always choose the most unfavorable working time for doing their sleeping, just as mankind chooses the night, when he cannot see to work. In connection with this interesting fact, a Norwegian observer has made some interesting experiments, in which he has tried to chloroform plants, and he has found that the fumes of this anesthetic or sleep-giver has a marked effect on the plant, making it sleep harder and grow faster when it wakes up.

**Back to the Old Home.**  
J. H. Hairston, a colored convict who recently escaped from the Virginia penitentiary, has just sent a pathetic appeal to the superintendent of that institution to get him back. That official on Tuesday received a telegram from Hairston, dated at Farmville, in which he said: "Please send up here after me at once." This is the first time in the history of the institution in which one of the escaped inmates indicated so much anxiety to return. His wish will be complied with promptly.—Ex.

**Deafness Cannot Be Cured** by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; the cases cut off are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.  
We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
