An eloquent essay on "Edmund irke and His Abiding Influence," by O'Connor Power, constitutes one of most interesting numbers in the orth American Review's table of contents for December. This year, which marks the centenary of the death of Edmund Burke, seems a fitting occasion to draw renewed attention to one who may be styled "the greatest of imperial statesmen," and whose influence has been a constant and increasing force in British politics.

"MY WIFE'S LIFE."

How I was the means of saving it.

When the lungs are attacked and the symptoms of consumption appear, then begins the struggle between affection and that destroying disease which slays its thousands annually. It is a happy issue to the struggle when disease is conquered and health restored. Such an issue does not always end the struggle, but it did in the case of Mr. K. Morris, Memphis, Tenn., who saw his wife wasting and weakening and physicians helpless, and then suggested the simple remedy that wrought the cure. He tells the story thus:

"Seven years ago, my wife had a severe attack of lung trouble which the physicians pronounced consumption. The cough was extremely distressing, especially at night, and was frequently attended with the spitting of blood. The doctors being unable to help her, I induced her to try Dr. Ayer's Cherry Pectoral and was surprised at the great relief it gave. Before using one whole bottle she was cured, so that now she is strong and quite healthy. That this medicine saved my wife's life I have not the least doubt. I always keep Dr. Ayer's Cherry Pectoral in the house. Whenever any of my family have a cold or cough we use it, and are

Choir Saug Hymn at Variance With Pastor's Sermon

From the Brooklyn Eagle: In one of our largest churches last evening the pastor, one of the ablest and most eloquent preachers in the United States, delivered a sermon based on the following text: "How precious are thy thoughts unto me, O God! How great is the sum of them! If I should count them, they are more in number than the sand; when I awake, I am stillwith thee."-Psalm exxxix, 17-18. The sermon seemed to make a deep impression upon the attentive congregation, and the closing words of the speaker were peculiarly solemn, having reference to the uninterrupted presence of God, even through sleep and at waking in the morning. The musical director, who regards himself as a large quantity on the philosophy and dramatic effect of music, instead of improvising a selection suited to the spirit of the sermon, simply and with unintelligence, accorded to his programme and the quartet sang in excellent style, "How long, O Lord, wilt thou forget me?" This inquisitive sentence, varied with the more solicitous inquiry, "How long wilt thou hide thyself from was the musical wail that followed the profound pastoral assurance of God's omnipotence, goodness, omnipresence, omniscience and perfect holiness, attributes that are ever active and at no time nor under any circumstances beyond the vision of man. And yet if that pastor would hint at such a ludicrous picture he might be accused of meddling.

PLOVERS RESTING AT SEA.

Pacific Coast Captain Sees Several Swimming Far from Land.

From the San Francisco Call: Up to within a few days of the arrival here from Honolulu of the Oceanic Steamship Company's steamer Australia, Captain Houdlette was the owner of a plover that came aboard while on its way from Alaska to Hawaii. These birds are not web footed, and the captain seems to have solved the problem as to whether they ever rest on the water during their long flight. Captain Houdlette says they do. was during the run from San Francisco to Honolulu that I saw several plovers in the water resting," says he. When the steamer came too near they would rise out of the water with a few flaps of their wings, but, being very tired, they would soon settle back into the water again. In its efforts to get away one of them came on board and it lived until a few days ago. I always thought the birds made a continuous flight of over 2,000 miles, but I am now satisfied that the birds rest on the waves when tired."

Telegraph in the Suez Canal.

A most ingenious system is employed by which the director of the Suez canal can tell at a glance the exact position of all vessels passing through it. A model is placed in the office at Port Said and the whole canal is worked from headquarters by means of the telegraph, the position of each ship being marked by a figure on the model. It is thus made easy to arrange for vessels passing each other.

Seven Million Dollars in Fish Waste. In the United States the fisheries are worth about forty-five million dollars a year. DIPHTHERIA IN WISCONSIN.

Fifty-Three Deaths in One Small Town in Less Than Four Weeks. A preventive and cure for diphtheria, eroup, tonsilitis, quinsy and all throat troubles recently placed upon the market has achieved such marvelous success as to greatly

stir up the medical fraternity. Its power over diphtheria seems almost miraculous, as it stops its spread as if by magic.

Grantsburg, Wisconsin, population less than four hundred, was visited by a terrible epidemic of diphtheria, during which fifty-three of its inhabitants died in less than four weeks. After much urging by the friends of Muco-Solvent, the authorities decided to use it, and thereupon telegraphed for a large supply, which arrived the next day at 4 o'clock, and by 6 o'clock every man, woman and child in Grantsburg were taking Muco-Solvent, with the result that not another death occurred, whereas, up to the very hour its use was commenced, not a day, for two weeks, had passed without from one to five deaths. Many other epidemics have been quickly stamped out by Muco-Solvent, notably at Madison, Polar, Winneconne and Neenah, Wisconsin.

We earnestly advise every mother to procure Muco-Solvent and keep it in the house ready for prompt use for every ill, however slight, especially if accompanied with sore throat, cough or cold, and thus, in many instances, prevent diphtheria or some other serious ailment the presence of which is not even suspected. Pleasant to take. It can be procured by sending the price \$1.00 per bottle) to the Muco-Solvent Company, 356 Dearborn street, Chicago, upon receipt of which they will send it, charges prepaid.

The Academy says that when Rudyard Kipling was a lad he went on sea voyage with his father, Lockwood Kipling, the artist. Soon after the vessel got under Lockwood Kipling went below, leaving the boy on deck. Presently there wa's a great commotion overhead, and one of the ship's officers rushed down and banged at Mr. Kipling's door. 'Mr. Kipling," he cried, "your boy has crawled out on the yardarm and if he lets go he'll drown." "Yes," said Mr. Kipling, glad to know that nothing serious was the matter, "but he won't let go."
