second degree. French killed A. D A REPORT SHOWING THAT IT IS DECREASING.

Auditor Cornell Puts the Reduction at \$500,000 for the Year-Nearly Half of the Decrease Is in the Bonded Debt Which Became Due During the Year.

Nebraska is All Right.

Auditor Cornell has issued a statement for the fiscal year ending November 30, 1897, showing that the sate debt has been reduced over \$500,000 during the year. Nearly half of this reduction was due to the fact that state bonds became due and had to be provided for. The statement of Audior Cornell shows that during the year ending November 30, 11,917 claims amounting to \$1,791,636.63, divided as follows, were adjusted in the auditor's

Efo ts to Release Embezziers.

Friends of Whitney and Mills, the two embezzlers from Harlan county, who are now in the penitentiary, are making a move to secure their release.

IS EBRIGHT SHORT?

The Committee of Investigation Con-Concludes that He Is.

The investigating committee 19

about to submit a report in which a shortage of about \$2,000 will be charged against William Ebright, a former superintendent of the institute for the bind at Nebraska City. The report will show that after Mrs. Ebright had been promoted from matron to assistant superintendent of the institution a young woman who was an inmate was carried on the rolls as matron, and the vouchers at the rate of \$50 per month were drawn in her favor for about eight months. The committee has discovered that the young woman did not receive the money, athough the vouchers are in-

dorsed by her. Another instance is that of a boy inmate who was on the pay roll as a teacher, and whose vouchers were at

the rate of \$25 per month. The boy testifies that he was not employed as a teacher and did not receive this 39.92 money; that he was during that time employed as a bell boy and received 17.62 \$5.00 \$5 per month.

50.00 Two girls reported as teachers, and for whom warants were drawn at the rate of \$30 per month each for two or 34.33 19.09 3.77 three months, testify that they did 6.90 not receive the money.

These items foot up to about \$1,000. According to the committee the other \$1,000 shortage comes from the padded bills made out by a man named Shuman, who operated a drug store at Nebraska City at the time and who furnished the drugs for the institution. Schuman made up his bill at the end of each month, giving the numbers of the prescriptions and making a total charge without item-izing each account. His bills were audited and paid.

books turned over to the committee by the successor of Schuman in the drug business that all the prescriptions made out for private individuals during each month were again charged against the state, the numbers of the prescriptions in the bills rendered at the end of each month being in a majority of cases, as those which had been ordered and paid for by private parties. The overcharge in the drug item is found to amount to about \$1,00 ..

Sheriffs' Fees Reduced.

there is no law for the payment of 75 cents a day for the board of convicts who are kept by sheriffs after sentence, so he will reduce the payment to 50 cents a day except for the first six days. It has been the cus-tom of sheriffs to keep convicts as long as thirty days after sentence is prononunced before taking them to the penitentiary and to draw 75 cents a day from the state as pay for the board of such convicts. Auditor Cornell consulted the attorney general, who gave it as his opinion that the only law governing the matter was section 5, chapter 28, laws of 1895, which provide that 75 cents a day may be drawn for a period of six days, or if longer than that period, then only 50 cents a day. The aud-itor will enforce this rule hereafter. Under this ruling if a sheriff keeps a prisoner six days he may draw \$4.50, but if he keeps a prisoner eight days

iffs. He had decided that the old micage act, under which sehriffs drew 10 cents a mile each way and \$3 a day, was repealed by the act of the late legislature. A sheriff is now allowed actual expenses and \$3 a day.

Relief for the Starving.

Lincoln dispatch: Governor Hol-comb has appointed, the following persons as members of the Cuban relief committee: Rev. H. C. Rowlands, General P. H. Barry and M. D. Welch, Lincoln; J. E. Utt, W. N. Nason, Omaha. The appointment of the committee was prompted by the receipt of the following telegram from York:

Governor Silas A. Holcomb, Lincoln: Central Cuban Relief Committee appointed by President McKinley urge upon your excellency the immediate formation of efficient committees for the collection or funds, food, clothing and medicine in your state for Cuba's starving people to be transmitted free by this committee to Consul General Lee, Havana. May we depend upon your hearty co-operation? W inswer. STEPHEN E. BARTON, Wire

Chairman. In reply to the telegram the gover-

nor sent this answer: Stephen E. Barton, Chairman, New York City: Nebraska will heartily cooperate in providing for the relief of the suffering Cubans. Have just appointed strong state relief committee to take up the work. I feel, however, that I represent the unanimous sentiment of Nebraska people in expressing the opinion that would our national government extend to tue struggling Cuban patriots the recognition to which they are entitled and which humanity demands, these contributions for the starving would be

unnecessary. SIALAS A. HOLCOMB,

Governor.

Bloodhounds in Demand.

Beatrice dispatch: Dr. Fulton's bloodhounds were returned from Liberty today, where they succeeded in locating goods to the value of several hundred dollars which were stolen Thursday night from the store of O. C. Aspinwall by several young men of the place. No arrests were made and an effort was made to hush the matter, it being claimed the offense was the first the young fellows had ever been implicated in and being sons of prom-inent people. It is said that among the stolen property were forty-two watches. Soon after reaching home the dogs were taken on a trip to Lin-coln. During the past eight days these dogs have detected eight persons, fugitives from justice. About ten days ago a magnificent female English bloodhound whom Mr. Fulton had purchased in Michigan escaped from the office of the express company here and was not captured until today, when she was brought in by a man from Holmesville, to whose place she had wandered. Dr. Fu.on values her at \$500. She is a handsome specimen She is a handsome specimen of the breed and is perfectly trained.

The ex-

citement of

the past

few months

has drawn

a great

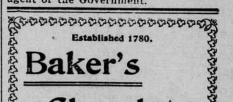

Your blood pure and

many peo-ple to the Canadian Yukon in the search for gold, and has diverted the attention of many others. But in order to get there it is necessary that a man should be possessed of the best of health, strong powers of endu-rance and considerable means. He leaves his wife and his family for a considerable period, and the hardships he has to endure are all unknown to him. Canada has other gold fields, though. They are the fields that produce her golden grain. This year the crop of Manitoba, lying directly north of North Dakota, yielded 21,000,000 bushels of wheat alone. The current price aver-ages 76 cents, which, as a local paper puts it, "makes the product in gold this year, for wheat alone, equal to a value of \$15,960,000." Twenty thousand farmers did this, or an average to each producer of about \$798.

"But these same farmers are not living by wheat alone. This is only one source of revenue to them out of many. They have also beef, butter, potatoes. oats, barley and poultry to sell, and sometimes other things, so that it may be fairly estimated that their incomes will average at least \$1,000 per farmer. Thus Manitoba's fields have yielded this year fully \$20,000,000 in gold, di-vided among 20,000 actual producers, and a general population of about 200,-

After counting the cost of stamp mills, expenses of men, etc., rich as is the Klondike, such vast wealth as is be-ing taken out of the soil in raising wheat in this one province, cannot pos-sibly be secured in any mining district. Of course mining development assists agricultural development, and that is why the Government of Canada feels so much assurance in predicting pros-perity to all who take up farms in Canada. Western Canada today promises more than any other known field that is open to immigration. Farms of 160 acres, capable of producing the hest No. 1 hard wheat, yielding thirty to for-ty bushels to the acre, are given away free. Railways, markets, schools, churches-all are convenient. The Canadian form of government is one of the most liberal known, and a hearty welcome is given to settlers of all nationalities. Already there are many set-tlers gone in from the states, and the reports gone in from the states, and the reports from them are highly favor ole. Those desiring information as to free homestead laws, low transportation rates, etc., will have pamphlets, etc. sent free on application to the Depart-ment of the Interior, Ottawa, or to any agent of the Government.

It has been ascertained from the

At a session of the lower house of the Prussian Diet Herr Koeller was re-elected president by acclamation. He declined the honor, however, and Her. von Kroecher was thn elected president.

A \$25,000 damage suit has been filed against the Pullman Palace Car company by Dr. T. D. Morgn, who claims that he was bitten by a centipede while occupying a berth in one of the company's sleepers.

Mr. Bryan Points to Nebraska. MINNEAPOLIS, Jan. 15 — Fusion of all silver elements in Minnesota is officially indorsed by the state central committee. Chairman Rossing made the announcement emphatically at the Jackson banquet in this city. William J. Bryan in his speech devoted con-siderable time to indorsing the fusion idea and illustrating its efficacy by the results in Nebraska. This is regard-ed as a decisive blow to the adoption of the Ohio plan in Minnecota.

No Danger of an Uprising. WASHINGTON, Jan. 15.—Gen. Brooke at Chicago has telegraphed the war department that his inquiries di-rected to the commanding officer at Fort Reno, I. T., bring the response that there is no danger of an Indian that there is no danger of an Indian rising. The railroad authorities, Gen. Brooke says, made the same report, so he has suspended the orders to the cavalry to proceed to Wewoka. Gov. Barnes, of Okalahoma, has re-ported to Secretary Bliss that the Ind-ian massacre story was wholly faise.

William M. Ervin, a prominent politician from Harlan county, arrived in Lincoln and went to the penitentiary to see Mills. It is said that he was empowered to conduct negotiations so that in case Mills could be released from the penitentiary for a short time \$3,000 would be raised to use in making a compromise settlement with the board of supervisors of Harian county. The friends of Mills seem to have gained the impression that in case such a settlement could be made the sentence of Mills could be revoked. However, when Mr. Ervin arrived at the penitentiary the warden would not allow him to see Mills, having made the rule that the newly registered prisoners LOST AN ARM IN A CUTTER could see no visitors except their regular attorneys. Cobb & Harvey, attorneys of Lincoln, have been employed by the friends of Mills and an attempt will be made to secure the release of the ex-banker on habeas corpus proceedings. The grounds upon which the application is to be filed will be that the supreme court handed down its decision in the case at an "adjourned term" and a test case will be made on this point.

Mercer Opposes Free Seeds.

Washington dispatch: Representative Mercer today made an earnest speech in the house against the pro-vision in the agricultural appropri-ation bill for the distribution of free seeds. He urged that it was a needless expenditure of money, because the object of the law as first passed, was to benefit the farming community by giving to farmers for experiment rare and uncommon varieties of seed, instead of sending thousands of bushels of ordinary and common farm and garden seeds for planting. Mr. Mercer advocates the sending to experi-mental stations by the agricultural department of rare varieties, there to be tested, and if found suitable for cultivation to be afterward distributed from the experimental stations to farmers who would make reports as to the result of their cultivation.

Distribution of Reports.

The state horticultural society sent representatives to Secretary of State Porter to ask for the privilege of dis tributing the printed reports of the so-clety. There is no law governing the heart failure. distribution of these reports except that the volumes shall be delivered to the secretary of state. Secretary Porter agreed to give 4,000 volumes to the society and he will keep 1,000 volumes for distribution. 'ine society claimed it was in a position to distribute the books where they would do the most scod.

Packers are Pleased.

Managers of the packing houses at South Omaha are pleased to learn that the proposed tax of 5 cents per piece for meat inspection has been abandoned by Secretary Wilson of the department of agriculture. According to the plan suggested this tax was to be paid by packers whose meats were inspected for export. It is claimed that the promulgation of such an order would have proved a serious drawback to the packers whose export trade is extensive. This tax, it is claimed, was to have been used to defray the expenses of a microscopical examination.

Wayne dispatch: Hon. J. R. Manning of Carroll, one of the most prominent and well to do men in the county, met with a terribe accident. His right arm was cut off inch by inch to the shoulder in a cornstalk cutter, the help starting up the ma-chine before he knew it. All but one artery was severed and the flesh torn some down his side. He is in a critical condition and it is not expected that he will live. Mrs. Manning was a member of the Nebraska state legislature in the year 1889, and served from the Eleventh senatorial district.

Has Hauled Many Cars.

Engineer Douglas, running between Grand Island and North Plattte, on the Union Pacific, has for the past eleven months kept a record of the rumber of cars hauled by him over that section, and finds that the average is about thirty a day, consisting of 7,240 loaded cars, 3,499 empties, one dead engine, a steam derrick and three consolidated locomotives. His engine is no. 631, one of the standard eightwheelers.

At a recent meeting of the city council of York it was decided to extend an invitation to the Nebraska Volunteer Fremen's association to hold its annual state meeting at York in January, 1899.
