CLARK IS FOR WAR

READY AND ANXIOUS TO WIPE OUT SPAIN.

He Makes a Speech in the House of Breezy Character-He Arraigus the Administration - Spain Insults Our Flag, Maltreats Our Citizens and Does About as She Pleases.

The Cuben Debate.

WASHINGTON, Jan. 21 .- Before the Cuban debate was resumed in the house yesterday Mr. Lacey (rep., Ia.), chairman of the committee on public lands, called up a bill to extend the public land laws of the United States to Alaska and to grant a right of way under certain restrictions to any railroad organized under the laws of any state in the union. It was explained that the right of way grant was 100 feet on each side of the road, but that all mineral deposits were specifically reserved. Without completing the consideration of the bill it went over and the house went into committee of .-e of the diplomatic and consular appropriation bill.

Mr. Clark (dem., Mo.). opened the Cuban debate with one of his characteristic, breezy speeches. He said in

If Spain does not bring the war to a speedy conclusion the United States ought to expel her from the western hemisphere. There can be not doubt as to what has been our traditional for-eign policy. What our foreign policy is under the McKinley administration, like the peace of God, passeth all understanding. In these days of Mc-Hannaism our foreign policy is so feeble, so cringing, so cowardly, that even old and decrepit Spain insults under the right conditions.
our flag, maltreats our citizens and Mr. Morgan defended the present searches our ships with perfect impunity, and President McKinley, instead of sending men-of-war to protect our honor, assert our supremacy and teach the insolent and impotent dons a lesson they would never forget, passed the hat around and invites the American people to contribute alms for starving and dying Cubans!

It is high time that we served p'ain and emphatic notice on all kings, emperors and potentates that the navies of transatlantic powers shall not used as collection bureaus for for questionable debts, as was done a year or two ago at Corinto, and as was done a month or so ago in Hayti. The Cuban case is this: For three years the insurgents have fought with a courage and suffered, with a fortitude that has challenged the admiration of the w orld-save and except the Mc-Kiniey administration. Three or four hundred thousand people—some of the papers say 600,000—have died; men, women and children, as much martyrs in the cause of liberty as was Warren or any other hero who died that we might be free—and yet the McKinley administration lifts not its finger to stay the slaughter and can think of nothing more effective for their relief than to pose as the big beggarman. The party of Sumner, Chase and Seward, which proudly vaunted itself as the friend of man, has become the ally of pestilence and arson, famine, devastation, rape and murder!

To every suggestion that we should re-enter upon a vigorous and foreign policy we are met with the hysterical shrick that we are advocating war. It is not true, but suppose it were? There are some things worse than war deplorable as war unquestion-ably is—and one of them is to pray the cry baby act until we are despised of all nations and kindreds and

Now that we number 70,000,000 souls ing an insult or demanding reparation for an injury. Such a contemptible and pusilianimous policy is enough to make Grant, Sherman, Sheridan, Dupont, Farragut and Porter restless in their coffins!

My republican frends I invite you to lay aside the weight that is holding you down, asert your rights, come out on the side of eternal justice and human liberty, thereby demonstrating that you are worthy of the high vocation wherein you are called. We democrats and populists stand here ready to remove from America her great re-We on this side will contribute 152 votes. ANNEXATION BEAUTIES.

Senator Morgan Continues Debate & Mic Hawailan Treaty.

WASHINGTON, Jan. 21.—Senator Morgan continued his speech in adocacy of the ratification of the Hawalian annexation treaty in the executive session of the senate. He announced at the conclusion that he probably would require one more day n which to complete his presentation of the subject.

Senator Morgan dealt with the questions of the agricultural and commercial possibilities of the island, with the character of the present government and with the position of the natives on the subject of annexation. He repeated his assertion that President Cieveland was favorable to the acquisition of the islands, and expressed the opinion that it was his intention to have restored the queen and to have negotiated with her a treaty of an-nexation. He also expressed the opinion that Mr. Cleveland would nevhave taken such a positive position as he did take against the Dole government and in opposition to annexation, but for the antagonistic and miswhole and resumed the consideration leading report of Commissioner Blount.

The senator was interrupted at this point by two or three senators who are opposed to the treaty, who wanted to know if it was not true that Mr. Cleveland had withdrawn the treaty for annexation made by the Harrison administration. He admitted that this was the case, saying that it was a matter of record, but he still contended that under conditions entirely to his liking Mr. Cleveland would have supported annexation. Mr. Morgan had been convinced from private interviews with Mr. Cleveland that he not only believed in the wisdom of annexation of Hawaii, but that he would also have recommended the annexation of Cupa

government of Hawaii in strong terms and eulogized Mr. Dole as one of the most competent rulers of the time. He controverted the idea that the present government was, as had been charged, a missionary government, claiming that it was in every way staunch and enterprising and abreast of the times. Speaking of the resources of the islands, Mr. Morgan said they were manifold, and that the time would come when they would produce enough coffee to supply the demands of all the people of the United States, while the sugar production had already reached

its limit. He concluded that the resources of the country were such as to insure a very prosperous future and predicted that Honolulu would some time in the not distant future attain to great commercial importance, equal in all probability to that of Hong-Kong or other cities of equal magnitude.

The Senatorial Bribery Charges.

COLUMBUS, O., Jan. 21.-The senatorial bribery investigation was not before the senate yesterday as expected. The crowds waited in vain during the morning session for a report from the committee consisting of Senators Burke, Finck, Robertson, Long and Gar field, that had held unusual sessions the last two nights.

At its sessions Tuesday and Wednesnights the senate committee appointed to investigate the charges of Representative Otis of Cincinnati that he had been offered \$1,750 by H. H. Boyce to vote for Hanna had before it Samuel Pentland, proprietor of the Neil house, where Senator Hanna had his headquarters; S. M. Dunlap, manager of the Western Union Telegraph company; W. F. Truesdale, manager of the Postal Telegraph company, and P. M. Ross, manager of the telephone com-pany. Last night S. D. Hollenbeck of nardon, auditor of Geagua county taunted, kicked or cuffed into resent- and a member of the republican state executive committee, was also before the committee. All of the witnesses refused to answer questions, because their attorneys had advised them that the committee had no jurisdiction un-

der the senate resolution on which it was proceeding. The committee has a report to present to the senate recommending the arrest and punishment of these five witnesses for contempt. It is delayed because of the sickness of Mr. Hollenbeck, who was allowed last night to return home on account of his illness. As the five names are included in one contempt resolution it was decided by the committee touay to wait till Mr. Hollenbeck can return and appear before the bar of the senate.

Strange Case of Lunacy.

WASHINGTON, D. C., Jan. 21.-Hallett Kilbourne, one of the oldest and best known business and newspaper men of Washington, tomorrow will be examined in lunacy proceedings with a view to his confinement in an asylum. His mania is suicide and unknown to any except his physicians and his immediate family, he has made a half dozen attempts at self-destruc-tion in the last week. He twice tried chloroform, once gas, and at other times tried to throw himself from the windows of his home. He is perfectly sane on all other subjects, but is suffering from intermittant melancholia. The proceedings are with his full knowledge and after conference with friends.

the national Cuban relief comm.ttee named by the president has issued the following appeal to Nebraska people: To the People of Nebraska: A lew years ago, owing to a continued and unpresedented drouth, our tate suffered severely from the failure of crops; and much suffering for the necessities of life threatened our people. We tenderly remember the sympathy and material help we received from other states. Thousands of our people wara cheered and supported by contributions of money, food and clothing. These remembrances will never be effaced from the grateful hearts of Nebraskans. Last year, our excellent governor was the first of the chief magistrates of all the states to appeal in behalf of the starving millions in India. So generously did our prople respond that hundreds of car loads of corn, and thousands of dollars in money were sent to the land of suffering and death. So abundant were do:a-

President McKin'ey has appo'n ed a central relief committee, located in New York, to organize expeditions of relief. And his excellency, Governor Holcomb, appea's to the citizens of N braska to co-operate with the plans of the president, to send money, medi-cine, food and clothing to the starving people of Cuba. He has appointed the undersigned as a relief commission for Nebraska to solicit, receive and for-ward contributions in ac ordanc; wi h the directions of the governor. Mayors of cities and towns, and chief officers of villages and townships are urgently requested to organize relief committees in their respective cities, towns and villages, throughout the state, to receive subscriptions and contributions, and forward the same through this commission, either at Lincoln or at Omah, for which prompt acknowledgment will be mad

All citizens desirious of aiding this enterprise of rity and chaity may forward their donations to the secre ary, or any other member of the comm'ssion most convenient. Contributions of money, shelled corn, wheat, cannod goods, light clothing for both sexes and all other necessities of life, will be accepted and forwarded free of charg

At the meeting of the State Horticultural society in Lincoln the reports of the secretary and treasurer showed that while there is now on hand over \$1,000, being a part of the balance carried since the time when the society got an appropriation of \$\text{P2,000}, and which was reinforced last year by \$800 received from the State Agricultural society, there is now on hand but \$1,168.78 to pay the expenses and premiums for the coming year, with only the \$1,000 state appropriation to be received in October after the premiums are paid. No money is to be received from the Agricultural society this year, and the prospect is that at the commencement of next year the balance will be almost all gone. A summary of the report shows that from June, 1897, to June, 1898, makes the following showing: Balance on hand, \$1,178.25; cash from former secretary, \$14; September 27 Agricultural society, \$800; October 9 cash from state appropriation, \$1,000; December 30, cash from C. H. Barnard, memberships, \$58; total, \$1,880.47; balance on hand January 11, 1898, \$1,168.78.

A noteworthy article upon "The Capture of Government by Commercialism," by John Jay Chapman, opens the February Atlantic. Mr. Chapman believes that recent misgovernment in the United States is but a chapter in the history of commerce. He shows how since the war of 1861 the salient fact is the growth and concentration of capital; how capital has contributed to and supported both po-litical parties alike, for its own purposes, and has thereby caused and stimulated the rise and growth of po-litical "bosses." He points out how the revolt from "boss rule." denced in the recent New York campaign, indicates the awakening of a conscience and a demand for better things, which is the first step in shaking off the shackles of the boss and the regeneration of the nain which conclusion from eutirely different premises he strikingly coincides with the deduction drawn by Mr. Edward M.
