The Discovery of the Day.

Aug. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's New Discovery is the only thing that cures my cough, and it is the best seller I have." J. F. Campbell, merchant of Safford, Arizona, writes: "Dr. King's New Discovery is all that is claimed for it; it never fails, and is a sure cure for consumption, coughs and colds. I cannot say enough for its merits." Dr. King's New Discovery for consumption, coughs and colds is not an experiment. It has been tried for a quarter of a century, and today stands at the head. A USEFUL INVENTION.

Designed to Prevent Water Pipes From Bursting in Winter.

A gentleman living in Peckham, England, has invented and patented an ingenious method of preventing water pipes from bursting during frosty weather, says Invention. It consists in a length of elastic substance covered by thin (sheet or tinned) lead, the combination forming a thin rod more pliable than an ordinary one. The rod, when inserted inside the piping, becomes compressed by the expansion caused by the freezing of the water, thus relieving the piping of the strain which would otherwise burst it. The elastic substance is prepared cork, the great durability and elasticity of which are too well known to need any comment.

The inventor has performed a series of experiments by artificial freezing which, he states, proves beyond doubt that this method will be an effectual preventive during any frost, even when the lightest piping is used. The rod can be easily inserted inside piping and will pass easy bands.

"He married a widow, ma'am" replied Beany Bloombumper.—Life.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; a sediment or settling indicates kidney or bladder trouble.

The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney and bladder remedy, is soon realized. If you need a medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and a pamphlet, both sent free by mail. Mention THE FRONTIER and send your address to Dr. Kilmer & Co., Binghamton, N. Y. What pleasure is there in life with a headache, constipation and biliousness? Thousands experience them who could become perfectly healthy by using DeWitt's Little Early Risers, the famous little pills.—Hershisier & Gilligan.

Whooping cough is the most distressing malady; but its duration can be cut short by the use of One Minute Cough Cure, which is also the best known remedy for croup and all lung and bronchial troubles.—Hershisier & Gilligan.

PLAYING CARDS.

Very Little Authentic History and Much Mystery About Them.

The origin of playing cards has been and still is a disputed point. Some historians credit them to the Chinese, who, by the way, invented or popularized many of the ingenious devices now in common use. Some antiquarians attribute them to the Hindoos, who are very skillful players at a card game in which ninety-six cards are used, which makes eight suits of twelve each. The story that cards were introduced into Europe for the diversion and amusement of Charles II, the mad king of France, has long since been disproved. They made their appearance in Holland, Britain, Spain and France long before the demented monarch was born, a fact which the editor of "Notes for the Curious" in the St. Louis Republic says he can prove to the satisfaction of certain behind-the-times cyclopedic makers, if they care to change the old stereotyped falsehood. The early European packs contained fifty-six cards instead of fifty-two, the extras being the "cavaliers" who stood between the queens and the knaves. Besides these, the early Western devotees of the game often used as many as twenty cards with the same power that the "joker" of the present pack has. Some writers claim that Western Europe was the first to use wood or ivory in place of paper for cards, but Captain Dubois mentions a thirteenth century pack of Chinese cards "carved the one and the other from wood; the figures on the same being carved also instead of painted in nutfall, which is most common."

There was a great deal of history in the game of cards as originally intended. The four kings represented David, Alexander, Caesar and Charlemagne. The queens were Esther, Judith, Palais and Argia. During the time of the American Revolution the soldiers whiled away the hours of camp life with cards which had the pictures of Washington, Franklin, Adams and Lafayette in place of the kings. A pack of these historic oddities is now worth many times its "weight in gold."
