## STRIKE THREATENED

COTTON MILLS OPERATIVES MAY QUIT.

They Vote to Recommend a General Strike, and if the Unions Accept the Advice Every Factory Will Close Its Doors-Stern Measures to Bring the Manufacturers to Terms.

### A Crisis in New England.

BOSTON, Mass., Feb. 14.-At a meeting yesterday in this city of fifty-five representatives of textile unions in New England it was unanimously voted to recommend that all unions call out the operatives in every cotton mill in New England.

The meeting was practically the outcome of the recommendation which President Gompers made to the Federations of Labor last Sunday, in which he urged the different unions to unite on some settled policy regarding the mill situation in England.

At that meeting a committee of four was appointed to take charge of the matter, and after a conference this committee recommended that a general meeting to be held to take definite action.

The representatives of the various nationial textile associations assem-bled in the Wells Memorial hall and for four hours discussed the situation from every standoint. The primary object of the meeting was to devise some method of rendering assistance to the New Bedford strikers.

It was pointed out that if the strikers at New Bedford could hold out for four weeks without receiving more than 20 cents per operative per week in the way of outside assistance other mill operatives could stand a similar strain, and that if all went out, it would precipitate a crisis that would have to be met within a short time by the manufacturers. It was also shown that the mule

spinners were in excellent condition as regards funds; that the United Textile Workers and the New England Federation of Weavers were also in god condition, but that the rest were short of funds.

These questions were also discussed, and at length the matter was put to a vote, no one being registered against the motion that the different unions should order a general strike in every cotton mill in New England until a satisfactory adjustment of wages would be arranged.

It now remains for the various national unions to take action on the recommendation, but what this action will be is a matter of conjecture. If all should acquiesce and vote to strike, 147,000 operatives would undoubtedly cease work and the manufacture of cotton goods throughout New England would be at a standstill.

If, on the other hand, only a few unions should vote to strike the refusal of the others would still keep a large portion of the mills in operation.

Inasmuch, however, as the meeting was the outcome of President Gomplers' suggestion, and as he admonished the members of the Federation of Labor to join hands and assist the New Bedford strikers, it seems probable that nearly every union will carry out the recommendations, and that one of the greatest strikes in this country is impending.

#### Spain is Surprised.

MADRID, Feb. 14 .-- (New York Cable gram.)-Sensation and surprise is caused in Madrid by New York telegrams stating that the American goverriment expected more satisfaction the conduct of the late Spanish minister. According to the late Spanish official version, the cabinet considers the prompt acceptance of the resignation of de Lome quite sufficient satisfaction for America, the letter to Canalejas not being an official, but purely a private act, royal decrees simply accepting de Lome's resignation and appointing a successor being gazetted shortly afeterward. The Sanish minister of foreign affairs, in a note replying to the Woodford communication of February 10, will place on record what was stated in the interview with Woodford, namely, how much the Spanish government regretted the conduct of de Lome, and its sincere desire that the incident should not alter the present friendly relations and the course of land in Argentine, a suburb. His claim commercial negotiations to which the Sagasta cabinet attaches much importance. For the present it seems likely that Duke Arcos, Spanish minister to Mex-ico, will be promoted to Washington. He married an American, speaks English and could reach Washington rapidly. His credentials could be rapidly. sent immediately on his arriving at Washington. All rumors about sending Spanish ironclads and torpedo boats to Cuban waters are premature.

the fertile lands of Western Canada, which were made at the several state and county fairs in some of the Western states this fall, have awakened considerable interest in the lands which the Canadian Government has opened for settlement, and which are given free to settlers. The agents of the government, who are to be found in these states, are flooded with inquiries regarding the conditions on which these lands may be secured. Large numbers have located on these lands during the past year, and send back to their friends most encouraging reports. They say they have entered on an era of prosperity, and are well pleased with both the agricultural possibilities and the climate. The provinces of Manitoba, Assinaboia and Alberta are specially adapted to diversified farming In some parts the country is specially adapted to stock raising, and it is being profitably pursued. In these parts snow seldom remains a week at a time, the warm breezes from the ocean affecting the climate thus favorably. When the desirability of these lands is fully known there will be a rush such as has scarcely ever before been known. Information as to low railway rates, illustrated pamphlets, etc., will be forwarded with pleasure by the Department of the Interior, Ottawa, Canada, if you are not in possession of the name of an agent of the government.

## LETTERS FROM THE RESTORED.

Many Wonderful Cares Recorded, Hop-

ing that Others May Be Benefited. The manufacturers of the remedy called "5 drops," which is guaranteed to cure rheumatism, neuralgia, asthma, and kindred ailments, have received thousands of letters regarding their medicine, many of which have been published. The following is a sample of these letters:

#### Oct. 10, 1897, 630 Main St., Springfield, Mass.

Dear Sirs-I can not express my gratitude to God, also to you, for the benefit I am receiving from "5 drops." I walk around my room without a crutch, which I have had to use a long time. I firmly believe that with faith, patience and perseverence, "5 drops" will get the better of all diseases. My doctor says it is indigestion has made me bloat so, but his medicine does not seem to reach my case. Respectfully yours, Mrs. A. Spring.

The producers of "5 Drops," who are the Swanson Rheumatic Cure Co., 107-169 Dearborn street, Chicago, have decided to continue for another 30 days an offer which they made some weeks ago, namely, to send a sample bottle of "5 Drops," prepaid, for 25 cents. They state that this is done as they know even a sample bottle will convince one of the value of their remedy Also, large bottle, 300 doses, for \$1.00, and for the next thirty days, three bot-

Rev. J. D. DeTar, pastor of M.E. church, Spring Hill, Iowa, writes: "Many winters have I coughed all winter long. Last fall I took cold and began what I supposed was a winter of coughing. I concluded to try pr. Kay's Lung Balm. I felt at once that it touched a place in my malady that nothing else had ever done. I can now preach without coughing. Ican cheerfully say that Dr. Kay's Lung Balm has been a freat help to me. I thas no bad effect upon the stomach." I twill cure every kind of cough. If you have any lung or throat trouble or any disease write us and give out symptoms and we will send tree advice by our physician and a valuable 65 age book with 55 recipes giving various methods of treatment of nearly all dis-eases. Will also send a free sample of Dr. Address Dr. B. J. Kay Medical Co., (West-en Office) Omaha, Net.

How It Was Stamped Out, After the

Modern Treatment Had Falled. Thirty-three cases of diphtheria were reported at Winneconne, Wisconsin, and the schools were closed.

Of the thirty-three cases twelve were subjected to so-called modern treatment; four of the twelve thus treated died, a death rate of 331-3 per cent. Mr. J. Ulrich, a resident of Winneconne, had observed the marvelous success Muco-Solvent had met with and in his enthusiastic way induced many mothers to use it. His own family was one of the first infected, Muco-Solvent being used to the exclusion of everything else with splendid results.

Compared with other treatments, Its success was so very pronounced, that Muco-Solvent was generally adopted, with the result that by its use alone the other twenty-two cases recovered, not one proving fatal where Muco-Solvent was depended on.

We recommend its presence in every home, for all throat troubles. In averting developments of diphtheria, scarlet fever and croup, it is unequalled. Upon receipt of the price, \$1 per bottle, the Muco-Solvent Company, 356

The Handsomest Calendar of the Year. The Youth's Companion Souvenir Calendar for 1898, which is a series of charming figure pieces, faithfully copied in twelve colors and embossed in gold, is recognized as the richest and most costly calendar ever produced in a large quantity. To buy and reproduce famous paintings involves an expenditure which could not be borne unless, as in this case, the enterprise is sustained by the approval of more than 500,000 yearly subscrib-ers. Every new subscriber to The Companion for 1898 receives this beautiful Calendar without additional charge. For the volume for 1898 more than two hundred of the most prominent men and women of both conti-nents have contributed. Full prospectus for the 1898 volume and sample copies of the paper sent upon request. THE YOUTH'S COMPANION. 205 Columbus Ave., Bos: On
