Wayne Democrat: The story goes that a passenger on the "Hartington branch" was kicking to the conductor about the infamous train service and the snail-like pace of the train when the gentleman up and tells him if he didn't like the way the train was run he could get out and walk. "I would," said the passenger, "but the folks wouldn't be expecting me home so soon."

How dear to my heart is the old yellow pumpkin, when orchards are barren of stuffing for pies; when peaches and apples have both been a failure, and berries of no kind have greeted the eyes. How fondly we turn to the fruit of the cornfield—the fruit that our children are taught to despise, the old yellow pumpkin, the mud-covered pumpkin, the big bellied pumpkin that makes such good pies.—Swiped.

Once more the spotted cow called Pig, once more the black boar speck, are laid to rest beside the axe, that hit them in the neck. Through two campaigns they've wildly pranced, and did their best, I trow; yet failure always dogs the pig, likewise the spotted cow. Their rest should be their final rest; as mascots they're a fraud; they have not helped the G. O. P. while kept above the sod. Yet when another campaign comes, some vandal hands will dig, from out their graves the black boar cow, likewise the spotted pig.—Walt Mason.

An eminent English surgeon says that a kiss on the lips ought to be felt for at least twenty minutes afterwards, and that kissing produces a sensation which the system requires to keep it in a healthy state. We are glad to hear it. Kissing is a tingling stimulant that pervades a man from his scalp to his toe nails. A long drawn ecstatic kiss makes him feel as if the world were whizzing both ways at once. When his lips meet the moist warm ones of a sweet woman—when soul mingles with soul—then comes exquisite touches of tenderness and heaven is not far off. It's nice medicine, says the West Point Republican.

Of the 1,326 men who composed the regiment, one officer and 26 men gave up their lives for their country's sake. Companies F and H were the only two companies in which there were no deaths. The men who composed the regiment are scattered far and wide. While many have returned to their homes and the employment they left on joining, others have rejoined the army and are rendering service in other regiments.

OBITUARY.

E. L. Coburn, one of the best known and most highly respected citizens, passed peacefully away at his home in Atkinson, last Thursday, November 10.

Mr. Coburn came to Holt county, Nebraska, nineteen years ago with his family and settled on a farm one mile from what was then called Greeley (now Phoenix), and resided there with his family until last September when he moved to Atkinson his family thinking it might be better for him to get away from the work and worry of the farm, but no earthly power can stay the hand of death. It came so swiftly and silently that it was a shock to his family and friends. He had been ill for some time with what was supposed to be cancer of the stomach, was able to be around the house and not many days before his death was down town chatting with his friends. He was a staunch republican in politics and looked forward with great eagerness to election day, but when the day came was hardly able to cast his vote.

He will be missed most where he was known best, among his old friends and neighbors, whom many can truly testify that he helped many of them over hard places during the old pioneer days. He had many warm friends and his house was always open to receive and welcome them. He was a quiet, modest man, unassuming in his every day life, outspoken and firm in his convictions, honorable and truthful in all his dealings with mankind.

Mr. Coburn was born in Cabot, Vermont, January 20, 1833. When twenty-one years of age he went to Paris, Wisconsin, his parents moving there soon after. He enlisted in the war of the rebellion as First Lieutenant in the Thirty-third regiment, Wisconsin volunteers; was married February 21, 1866, to Flora W. Gaylord. Four children were born to them, three sons and one daughter. Besides his family, he leaves two sisters, in Wisconsin and one brother in Laurel, Neb. Though not a member of any church he believed in and respected religion and religious people and contributed to the cause whenever an opportunity presented.

The funeral occurred Sunday, the services being held at the Presbyterian church, and were conducted by Rev. F. D. Haner, assisted by Rev. R. A. Ball. Many of his old friends and neighbors were present to pay their last tribute to a worthy neighbor, kind counselor and sincere friend. **

RAILROAD NEWS.

Sioux City Times: Chicago, Nov. 19.—Special: A secret meeting of the executive committee of the Credits Commutation company, of Sioux City, is being held in room 130 of the Auditorium hotel in this city. Only one member of the committee is absent. The counsel of the company is present. D. L. Plumer, of Wausau, Wis., president of the company, is presiding over the session. The question under discussion is said tonight to be the future of the Sioux City, O'Neill and Western and Sioux City and Northern railroads, properties in which the Credits Commutation company are largely interested. After a long, close session the members of the committee had dinner this evening and afterward in the lobby of the hotel met Chicago capitalists, who might have been representing railroad companies. It was rumored that the committee during the day discussed whether the company should redeem the two railroads, which by a recent decision of the United States supreme court practically have gone to J. Kennedy Todd, of New York, the eastern broker of James J. Hill, president of the Great Northern railroad.

It has been suggested as a remote possibility that the Sioux City, O'Neill and Western might be sold to the Chicago and Northwestern, and it seems to be a positive impression that if the Credits Commutation company does not redeem the Sioux City and Northern this road will pass to President Hill and become a part of the Great Northern line to connect in Omaha with some road for the gulf. In answer to all questions President Plumer said, "There is nothing for the press."

400 PRETTY HOMES AND GARDENS.

How general the use of photography is coming to be adopted by the modern magazine as a means of illustration is shown in the announcement of The Ladies' Home Journal that it is about to publish six new, distinct series of articles which will include not less than 400 photographs. The idea of the magazine is to present one hundred of the prettiest country homes in America; to encourage artistic architecture; one hundred of the prettiest gardens, to encourage taste in floriculture; seventy churches decorated for festive occasions of all kinds, such as weddings, Christmas and Easter services, etc.; some forty of the prettiest girls' rooms in this country; twenty-five floral porches and vine-clad houses; and the story of the native wild flowers in America told in seventy-five photographs. Over 8,000 photographers, in every part of the country, were employed by the magazine to get these pictures, and several thousands of dollars were paid in prize awards for the best photographs. The choice came out of over 10,000 photographs received by the magazine.
