## BIGLIN

... is here with the celebrated McCORMICK, first on the ground to pave the way that the timid may follow. Never in the history of this famous machine was she more perfect or presented a more splendid appearance for beauty and strength. The many hundreds now in use in this immediate territory is sufficient guarantee that they are the best, and only reliable machine for the careful buyer to invest in. McCormick has also placed on the market a Queen of Hay Rakes which will be a credit as a companion to their mower, which is the acknowledged leader in the hay field.

We have also added to our list of world beaters in the machinery line the famous Aultman & Taylor Thresher, which, with the renowned Moline Plow goods, consisting of riding and walking plows, cultivators, harrows, listers, corn-planters—in fact everything used on the farm—we stand easily at the top and hold this position undisputed. In wagons we have the celebrated Fish Bros.' wagon, made at Racine, Wis. All other wagons bearing the Fish name are frauds and not reliable.

#### Independent:

We understand that at the July meeting of the board of supervisors arrangements will be made and contracts let for some court-house improvements. It is the intention to take out all of the old stoves and put in either a steam or hot air heating plant. The rooms will be repaired and other improvements and repairs made. The building is getting to look pretty dilapidated for the seat of government of a wealthy and progressive county like Holt and the move for more comfort and a better appearance is timely.

#### Ewing Advocate:

## The Nichols-Shepard TRACTION ENGINE

Nothing that helps to make a perfect road and thresher engine has been left out or slighted in the construction of the Nichols-Shepard Traction Engine. Everything has been done that science, skill and experience could suggest to add to its effectiveness, power, durability and safety from explosion and fire. The boiler is of the very best selected steel, thoroughly well made and provided with every approved safety appliance. The fire-box is surrounded by water—top, bottom and sides. The draft-damper is so made that sparks and ashes can't drop out, and the smoke-stack is fitted with patent bonnet and spark-arrester. Every part is strong, durable and is thoroughly tested. Detailed descriptions and many illustrations of the Nichols-Shepard Traction Engine and of the Nichols-Shepard Separator and other threshing machinery are contained in large catalog—mailed free.

#### O'Neill people in particular and Holt county people in general will be interested in the following, which was sent to the dailies Monday from Chicago: "Donald McLean, the railroad promoter, fell over the balustrade on the fourth floor of the Palmer house yesterday afternoon, landing on the stone flagging two floors below. His thigh was badly injured and his skull fractured and late last night he died of his injuries."

Donald McLean was known through this section for his connection with the Short Line, he being the founder of the road. Mr. McLean's most cherished plan was to see the completion of the line to the Pacific coast and many people have had faith in his ability to complete the project. Just the past week McLean was seen in Chicago by members of the railway committee of the Sioux City Commercial association and told them he would surprise them some day by getting the road through. McLean was probably 65 years of age. His wife died at their home in New York City some years ago. A daughter lives in Chicago but the railroad promoter made his home at hotels.
