BIGLIN

... is here with the celebrated McCORMICK, first on the ground to pave the way that the timid may follow. Never in the history of this famous machine was she more perfect or presented a more splendid appearance for beauty and strength. The many hundreds now in use in this immediate territory is sufficient guarantee that they are the best, and only reliable machine for the careful buyer to invest in. McCormick has also placed on the market a Queen of Hay Rakes which will be a credit as a companion to their mower, which is the acknowledged leader in the hay field.

We have also added to our list of world beaters in the machinery line the famous Aultman & Taylor Thresher, which, with the renowned Moline Plow goods, consisting of riding and walking plows, cultivators, harrows, listers, corn-planters—in fact everything used on the farm—we stand easily at the top and hold this position undisputed. In wagons we have the celebrated Fish Bros.' wagon, made at Racine, Wis. All other wagons bearing the Fish name are frauds and not reliable.

PHILOSOPHICAL FRENCHMEN.

Give the Impression of Being the Happiest People in the World. The more nations I make the acquaintance of, the more deeply confirmed I get in this conviction, that the Frenchman, with all his faults and shortcomings, is the happiest man in the world, says the North American Review. Of course, the wealthy classes have everywhere found the way of enjoying life, more or less; but to the observer of national characteristics these classes are uninteresting. Good society is good society everywhere. For a study, give me the masses of the people. And it is among the masses in France that, after all, I find the greatest amount of happiness. The Frenchman is a cheerful philosopher. He knows best of all how to live and enjoy life. Moderate in all his habits, he partakes of all the good things that nature has placed at his disposal, without ever making a fool of himself. He understands temperance in the true acceptance of the word, which means, not total abstinence, but moderation. When you say that a country has a temperate climate you do not mean that it has no climate at all; you mean that it has a climate that is neither too hot nor too cold. We have no teetotalers, because we practically have no drunkards. A Frenchman would be as astonished to find that the law prevented him from enjoying a glass of wine, because a few imbeciles use wine to get drunk with, as he would to find that the law forbade him to use knives in his quiet and peaceful home, because there are a few lunatics who use knives to commit suicide with or till their fellow creatures.
