## BIGLIN

... is here with the celebrated McCORMICK, first on the ground to pave the way that the timid may follow. Never in the history of this famous machine was she more perfect or presented a more splendid appearance for beauty and strength. The many hundreds now in use in this immediate territory is sufficient guarantee that they are the best, and only reliable machine for the careful buyer to invest in. McCormick has also placed on the market a Queen of Hay Rakes which will be a credit as a companion to their mower, which is the acknowledged leader in the hay field.

We have also added to our list of world beaters in the machinery line the famous Aultman & Taylor Thresher, which, with the renowned Moline Plow goods, consisting of riding and walking plows, cultivators, harrows, listers, corn-planters—in fact everything used on the farm—we stand easily at the top and hold this position undisputed. In wagons we have the celebrated Fish Bros. wagon, made at Racine, Wis. All other wagons bearing the Fish name are frauds and not reliable.

### Labor Day cele

At a regular meeting of Mark Good-han Post, No. 24, G. A. R., it was unanimously carried that we call a mass meeting to celebrate Labor Day under the auspices of said Grand Army Post and Veterans of '61 to '65.

In accordance with said resolution we hereby invite, call upon, and urge the citizens of the South Fork country in particular, and the county of Holt in general, with the adjoining counties of Wheeler and Garfield to meet with us at Chambers, on Monday, the 4th day of September, 1899, that being a national day set apart to dignify and exalt labor.

Man is generally conceded the noblest work of the Creator, and as labor is decidedly the most noble occupation of the creature man, it is meet and proper that we meet together in mass convention to honor and glorify labor.

The meeting will be on the fair grounds and will be accompanied with an immense picnic dinner. The Chambers Cornet Band will enliven the meeting with some of their most charming music. The triple Quartet will discourse some of their magnificent songs.

There will be public speaking interspersed with recitations and declamations. By order of

Wm. LELL,  
R. D. PARSONS, Adj. Commander.  
(County papers please copy.)

### No Right to Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly, and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50 cents at P. C. Corrigan's drug store.

Mr. John Mathias, a well known stock dealer of Pulaski, Ky., says: "After suffering for over a week with flux, and my physician having failed to relieve me, I was advised to try Chamberlain's Colic, Cholera and Diarrhoea Remedy, and have the pleasure of stating that the half of one bottle cured me." For sale by P. C. Corrigan.

### Delivered the Goods.

The statement that Rudyard Kipling had received a shilling a wor for a story in an English magazine induced a wag to write him and in close a shilling postal order. "Hearin, that wisdom was being retailed at shilling a word," writes the joker, "I enclose a shilling for a sample." Kipling kept the order and sent back the word "Thanks."

### Danger Everywhere.

Harry, aged 6, was busy polishing his skates when his mother said: "You had better stay off the ice, Harry." He read an account in the paper this morning of a little boy who was drowned while skating. "Yes," replied Harry, "and only last week I read of another little boy who was run over and killed by a cable car while on his way to Sunday-school. So what's fello to do, I'd like to know."

live. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended, and I decided to try it. I soon noticed a change for the better; by its continued use a complete cure was brought about and it is now perfectly healthy.—C. L. Boggs, Stumptown, Gilmer Co., W. Va. For sale by P. C. Corrigan.

A report has reached Astoria, Ore., that nearly if not all the output of the Chinook salmon hatchery has been lost for the past season. The superintendent or his assistant left the hatchery for two days, and the supply of water became clogged up and the spawn were without water for that time and exposed to the air. From the best information possible, the work of the hatchery for the past year has been lost, meaning that the carelessness of employes of the hatchery has lost several million young fish, including the 200,000 eggs recently sent from the government hatchery at Battle Creek, Cal.

### First Weather Prophecy.

The first attempt at scientific forecasting of the weather was the result of a storm which during the Crimean war, November 14, 1854, almost destroyed the fleets of France and England. As a storm had raged several days earlier in France, investigations were made, which showed that the two were in reality one storm, and that its path could have been ascertained and the fleet forewarned in ample time to reach safety.

### Secured License Too Soon.

At Columbus, Kan., the other day a young man took out a license to marry a girl of his acquaintance, and not until the fact that the license had been issued appeared in the papers did it occur to him to ask the young woman whether she would have him. She not only refused to marry him, but has brought suit to recover heavy damages.

### A New Infection.

Mamma—What is Willie crying about? Bridget—Shure, ma'am, he wanted to go across the street to Tommy Green's. Mamma—Well, why didn't you let him go? "They were having charades, he said, ma'am, and I wasn't shure as he'd had 'em yet."

### Vitality of Snails.

The snail is blessed with great powers of vitality. A case is recorded of an Egyptian desert snail which came to life upon being immersed in warm water after having passed four years glued to a card in the English Museum. Some species, in the collection of a certain naturalist, revived after they had apparently been dead for fifteen years; and snails, having been frozen for weeks in solid blocks of ice, have recovered upon being thawed out. The eggs are as hard to destroy as the snail itself. They seem perfectly indifferent to freezing, and have been known to prove productive after having been shriveled up in an oven to the semblance of grains of sand.

### Individual Consumption of Air.

It is computed that when at rest we consume 500 cubic inches of air a minute. If we walk at the rate of one mile an hour we use 800; two miles, 1,200; three miles, 1,600; four miles, 2,000. If we start out and run six miles an hour we consume 3,000 cubic inches of air during every minute of the time.

### Ample Grounds.

"Yes," said DeAuber, "I am firmly wedded to my art." "Well," replied his friend, "art might get a divorce on the grounds of incompatibility."

### Apple Jack.

A. J. Beveridge, the newly elected Senator from Indiana, was nicknamed "Apple Jack" by his fellow-students in De Pauw University. It is said that his first fame as an orator was brought about in a novel way. It was advertised in an Indiana town that ex-Governor Beveridge of Illinois would deliver an address. When young Beveridge arrived and saw the flaming posters he did not wish to speak, but finally decided to make the best of it. When the crowd first saw the boy orator they laughed, but as he warmed up their laughter changed to cheers, and right there he made his public reputation as an orator. He has ever since been in great demand. He is a young athletic man, full of vigor and with a mind of his own.

### PHILOSOPHICAL FRENCHMEN.

Give the Impression of Being the Happiest People in the World.

The more nations I make the acquaintance of, the more deeply confirmed I get in this conviction, that the Frenchman, with all his faults and shortcomings, is the happiest man in the world, says the North American Review. Of course, the wealthy classes have everywhere found the way of enjoying life, more or less; but to the observer of national characteristics these classes are uninteresting. Good society is good society everywhere. For a study, give me the masses of the people. And it is among the masses in France that, after all, I find the greatest amount of happiness. The Frenchman is a cheerful philosopher. He knows best of all how to live and enjoy life. Moderate in all his habits, he partakes of all the good things that nature has placed at his disposal, without ever making a fool of himself. He understands temperance in the true acceptance of the word, which means, not total abstinence, but moderation. When you say that a country has a temperate climate you do not mean that it has no climate at all; you mean that it has a climate that is neither too hot nor too cold. We have no tectotaters, because we practically have no drunkards. A Frenchman would be as astonished to find that the law prevented him from enjoying a glass of wine, because a few imbeciles use wine to get drunk with, as he would to find that the law forbade him to use knives in his quiet and peaceful home, because there are a few lunatics who use knives to commit suicide with or kill their fellow creatures.
