THE BOERS ARE ACTIVE

A Force Under Commandant Voljen Enters Capetown.

KIMBERLY SAID TO BE ISOLATED.

Boers Succeed in Cutting All Railway and Telegraph Lines—A Strong Defending Force at the Modder and Orange River Bridges—Storms Hinder Movements of Army.

LONDON, Oct. 16.—(New York World Cablegram.)—The daily Mail's correspondent at Glencoe camp, Sunday, 10 a. m., says: "Newcastle occupied by the Boers at 5 yesterday afternoon. Force under Commandant Viljoen entered from Spitzkoppe, wher he had been lying. Viljoen sent two messengers to inform the inhabitants that he and party of Boers were about to visit the town but the people need not be alarmed as none would be molested or nothing burned, as their sole purpose was to secure food and forage. That was what was obtained in open shops would be paid for and if anything was taken from the closed stores a careful account would be made.

LADYSMITH, British Colony of Natal, Southeast Africa, Oct. 15.—The last railway train from Newcastle has come in, bringing all the government officials and telegraph instruments. The town had not been captured up to noon today, although the surrounding country was entirely in the hands of the Boers.

We are supposed to be living here in a state of war, but Ladysmith has all the aspects of a peaceful garrison town in England. The Boers show no disposition to attack us. They certainly have missed their opportunity, for now I consider the strength of the British forces in the colony sufficient to resist any possible attack. It is the general wish of officers and men of the imperial troops that the Boers would come on for a rough tussle. The struggle will be hard, but the British expect to win.

Boer patrols were signaled today in the hills about two miles from Newcastle.

Sir Harry Escombe, after premier of this colony, came here yesterday from Newcastle. He says the Boers evidently are in earnest, as was shown by the manner in which 500 men without draught animals, pulled heavy guns to the stations out on Ohgwana mountain, near Majuba Hill.

DEWEY GOES TO WASHINGTON.

Visit to Vermont Home is Ended—Cheered by Thousands.

BOSTON, Mass., Oct. 16.—Amid the cheers of 10,000 people Admiral Dewey departed from Boston tonight on the Federal express for Washington. The admiral spent a very quiet day in the city, retiring. After breakfast he spent some time with his mail and then Governor Rollins of New Hampshire called. Later, accompanied by Lieutenant Brumby, the admiral left Common to the Somerset club, where lunch was partaken of. When the time came to leave the club the crowd was so large outside the Beacon street entrance that the admiral and party stepped out the rear entrance to Branch street. They walked through the public garden and nearly to Copley square, thence back to the Touraine, the admiral apparently not being noticed.

The admiral had expressed a wish to see the Shaw memorial, so he and his friends went again to the Common and afterward viewed the shaft. They again returned to the hotel. They left in a closed carriage for the railway under escort of about twenty mounted police officers. The crowd which followed was a large one and a greater one was at the station. The party went aboard the express, which immediately left, the enthusiastic people running down the track after it.

DISCOVER PLOT IN MANILA.

Outbreak Failed to Materialize Because of Vigorous Action of Authorities.

MANILA, Oct. 16.—The authorities were informed yesterday from reliable sources that an outbreak in the poorer districts of Manila had been carefully planned for daylight on Sunday. It failed to occur, probably on account of the vigorous measures enforced. Many natives of the Fonda district left, taking their valuables.

All the small shops, which the guards usually forced to close at 8:30 p. m., were shut at sunset. A general feeling of uneasiness was apparent. The guards of the city were doubled and a strong force stationed at the slaughter house, the center of an unruly section. Two guns of the Sixth artillery were stationed nearby at a point commanding the native quarter. The commanders of the reserve troops were ordered to be prepared for a call at daylight.

Three native policemen have been arrested on a charge of plotting an uprising. The fact that their comrades informed the authorities of their treachery indicates that the police force is loyal.

American Equal Wage Union.

KANSAS CITY, Mo., Oct. 16.—The American Equal Wage union, recently incorporated under the laws of Missouri, with headquarters in Kansas City, has adopted a constitution and will immediately commence active missionary work.

CROW DOG FACES MORE TROUBLE.

Rosebud Indian Released From One Jail is Handed for Another.

CHAMBERLAIN, S. D., Oct. 16.—Crow Dog, the noted Rosebud Indian, was yesterday released from the Davidson county jail, where he has completed a four months' term of larceny, as the result of a conviction at Deadwood, Deputy United States Marshal Somers at once took Crow Dog in charge and has taken him to Sioux Falls, where he will have to plead to the indictment for cattle stealing before Judge Carland.

Crow Dog is a desperate redskin, and has caused the officers considerable trouble. While incarcerated in the Brule county jail last spring he succeeded in making his escape. He returned to his home on the Rosebud reservation, where he entrenched himself, and stated that he would kill any officer who attempted to arrest him. His arrest, however, was accomplished by strategy. Marshal Somers and Sheriff Miller sent a friend to Crow Dog's house, approaching by the front door, while they worked their way up from the rear.

FOR THE GREATER NAVY.

Officials Now Want Railways, Docks and Other "Incidentals."

WASHINGTON, D. C., Oct. 16.—In his annual report to the secretary of the navy, Chief Constructor Hitchborn lays special stress upon the importance of continuing the work of improving the plants at the various navy yards, inviting particular attention to those at Boston and League Island. A plant is also recommended at Algiers, La., as without it the new dock will be worthless when completed.

Under the head of dry docks the reports point out that the present building program does not affect the two most important navy yards, viz.: New York and Norfolk, at which a new dock of the largest size is urgently needed, in view of the rapid increase of number of battleships in construction.

Marine railways are said to be necessary for the economical handling of torpedo boats, and two such are required at New York and one each at Portsmouth, League Island, Norfolk, Port Royal and Mare Island.

Chaplain Hull of the First Montana regiment gave the volunteers the highest praise.

General Frederick Funston, former colonel of the Kansas regiment, spoke briefly of the campaign and the patriotism exhibited by the American soldiers in the Philippines.

BOERS BESIEGE KIMBERLY.

Massing Forces Around Town Which is Practically Isolated.

LONDON, Oct. 16.—The Daily Mail's Capetown correspondent, telegraphing Sunday evening, says, "Kimberly is besieged, and the Boers are massing in force. The details are obtainable. In force. No details are obtainable."

"The Boers have cut the railway at Belmont, have seized the Spynfontein railway station and constructed fortified earthworks. There are strong forces at Modder bridge and the Orange river bridge.

"The object of these energetic operations is believed to be the capture of Cecil Rhodes. Kimberly is now isolated, both railway and telegraphic communication being cut."

From the stand built on Main street for the president's use the boys were given a hearty welcome and the best of the city, after which a banquet was tendered them."

CONFLICT ON IN THE TRANSVAAL

British Government Declines to Discuss the South African Demands—Martial Law Proclaimed in Pretoria—English Residents Without Permits Must Leave Within Eight Days—Activity on All Sides.

JOHANNESBURG, Oct. 13.—War was declared yesterday. The formal declaration occurred at 10 o'clock this morning.

LONDON, Oct. 13.—Following is the reply of the British government to President Kruger's ultimatum:

Her majesty's government has received with great regret the peremptory demands of the South African republic, conveyed in your telegram of the 9th. You will inform the republic in reply that the conditions named by the South African republic are such that her majesty's government deems it inexpedient to discuss them.

A Pretoria dispatch, dated October 11, sent via Lourenzo, Marzuozas, says telegraphic communication between Natal and Capetown is undoubtedly interrupted. It says:

"Conygham Green this afternoon said goodbye to President Kruger and his officers in his private capacity. He and his staff will leave tomorrow by two special trains. Martial law was proclaimed at 5 o'clock this afternoon and British residents without permits must leave the Transvaal within eight days."

PARIS, Oct. 13.—Secretary Vanderhoeven of the Transvaal European agency officially notified the French government this morning that a state of war between the South African republic and Great Britain exists and has existed since last evening.

ATTITUDE OF UNITED STATES.

Nothing in International Usage to Warrant Mediation.

WASHINGTON, Oct. 13.—The following statement was issued by the state department today: "The president has received a large number of petitions signed by many citizens of distinction requesting him to tender the mediation of the United States to settle the differences existing between the government of Great Britain and that of the Transvaal. He has received other petitions on the same subject, some of them desiring him to make common cause with Great Britain to redress the wrongs alleged to have been suffered by the outlanders, and especially by American citizens in the Transvaal, and others wishing him to assist the Boers against alleged aggression."

"It is understood that the president does not think it expedient to take action in any of these directions. As to taking sides with either party to the dispute, it is not to be thought of. As to mediation, the president has received no intimation from either of the countries that the mediation of both parties there is nothing in the rules of international usage to justify an offer of mediation in the present circumstances. It is known that the president sincerely hopes and desires that hostilities may be avoided, but if, unfortunately, they should come to pass, the efforts of this government will be directed—as they are at present—to seeing that neither our national interests nor those of our citizens shall suffer unnecessary injury."

Live Stock Sanitary Rules.

CHICAGO, Oct. 13.—At today's meeting of the Interstate Association of Livestock boards the report of the committee on quarantine line and open season was presented and adopted. It makes a change in the quarantine line of last year, the counties of Lincoln, Cannon and Cumberland in Tennessee being placed above the line.

The committee also recommended that during the open season, which was fixed from November 1 to January 1, all stock shipped into Missouri, Kansas, western Texas, Oklahoma, New Mexico and Arizona must first be inspected and found to be free from ticks.

Forces in Luzon Advancing.

WASHINGTON, Oct. 13.—The war department today received the following dispatch, dated Manila, October 12:

"Schwan's column is marching on Sapang and Das Marinas today, where opposition is expected. His artillery and wagon transportation is returning to Bacoor by way of Rosario. A column of 500 men is marching from Imus to support Schwan, if necessary. Young, in the north, has occupied Arayat, and supplies are being moved up the Rio Grande by caesoes to that point. Lawton will command the column when full concentration is effected. Young's loss today, one enlisted man, who was wounded yesterday. Insurgents attacked Angeles lines, quickly repulsed; six enlisted men were slightly wounded."

Female Robbers Escape.

TUCSON, Ariz., Oct. 13.—Pearl Hart, the female stage robber, incarcerated here awaiting trial on an indictment in the United States court, broke jail at 3 o'clock this morning by cutting a fifteen-inch opening through the wall, ten feet above the level of her cell floor. It is supposed she had a confederate and is attired in male attire. A few days ago she declared she would never submit to be tried under laws which neither she nor her sex had a voice in making.

HOLD UP NORTHWESTERN.

Five Masked Men Gag Station Agent Chase Train and Blow Express Car.

CHICAGO, Ill., Oct. 14.—The Northwestern limited train leaving Chicago at 10:30 p. m. last night was held up not far from Dekalb, Ill., and robbed. The train is due at Dekalb at 12:29, and the holdup occurred at tower W, three miles from Maple Park, Ill. It is not known whether the robbers secured any great amount of booty. A special train containing a number of armed men and detectives left the Northwestern station in Chicago tonight, bound for the scene of the robbery.

It is said there were five masked men engaged in the operation. The train was flagged, and while two of the men compelled the engineer and fireman to run the engine ahead, the balance of them robbed the train. The train dispatcher's office of the Northwestern in this city admitted the truth of the story to the central police officials.

The robbery was evidently carefully planned. Twenty minutes before the train was due at Maple Park the robbers burst into the station house and presenting revolvers at the head of the station agent, compelled him to remain quiet while they bound him. After tying him fast to a chair they forced a gag into his mouth and left him utterly helpless.

Temple Law Stands.

DES MOINES, Ia., Oct. 14.—The Leader tomorrow will say: "The report that the supreme court decision in the Main case invalidates the Temple amendment is incorrect. The final sustaining of the old law proved the necessity for the Temple amendment, which means another such decision is impossible."

The hissing of Nevada, the American prima donna, by a Barcelona audience recently shows that intense bitterness exists in the breasts of the Spaniards against the people of this country. The insult was more than the singer could stand and she canceled her entire Spanish tour, though she afterward went to Madrid, where she was most cordially received by the queen, who is her great friend, and who was greatly mortified at the rudeness of her subjects in Barcelona.

Orwig's Weekly Patent Office Report.

A simple device frequently invented and brought to us consists in attaching a thread to an envelope so that the end of the thread is exposed and by pulling it the sealed envelope can be opened thereby. Patent No. 114,672 was granted for the said invention May 9th, 1871. Improvements are always in order and in many instances the improvements are more valuable than the original, but it is hard to conceive of a patentable improvement in the manner of applying a thread for an envelope opener and yet some genius may do so and get a valuable patent therefor.

A patent has been allowed to T. H. J. Leckband of Adair, Ia., for an acetylene gas generator. A retort is pivotally and detachably connected with a water tank and water and gas conveying pipes combined therewith so that the flow of water can be arrested while a plurality of pans in the retort are being cleaned and refilled with carbide while gas continues to flow to the burners.
