Makes the food more delicious and wholesome

ROYAL BAKING POWDER CO., NEW YORK

The Devil's Good Point.

There is in Memphis a certain old lady who always has a kind word for everybody, and it matters not what atrocious crime or misdemeanor one may commit this old lady finds some and some way to excuse the perpetrator. Her son, one day, provoked by what he considered undue waste of sympathy, exclaimed in disgust: "Mother, I do believe you would see some good in the devil himself! "Well, my son," quietly and quickly re turned the old lady, "I only wish that you had one half of his perseverance!

The Scent Cure.

Interesting experiments with the odora of herbs have from time to time been made, and it has been are easily destroyed by various amells. The odor of cloves has been known to destroy microbes in thirtytive minutes; cinnamon will kill thyme in thirty-five. In forty-five found effective, while the odor of store. mint has destroyed various forms of microbes in fifty-five minutes, and it odors as an antiseptic. It is now believed that herbs which have been move them with White's Cream Vermifound in Egyptian mummies were fuge. Price 25c .- Corrigan. placed on the bodies more for their antiseptic properties than as mere ornaments or objects of sentiment.

Rays Find False Teeth.

Albert Brown, an aged and paralytic citizen of Paterson, N. J., was out and in a set of false teeth for two days. He swallowed them Sunday, and as he could not speak the whereabouts of the artificial grinders was a mystery. It was decided that since he could not have walked away with them and could not have thrown them away because of his paralyzed condition, he must have swallowed them. The Xrays discovered the missing set or mouth upholstery snugly reposing in the upper part of the esophagus. They were successfully removed and clamped to their proper position .- New York

> SOMETHING NEW IN ORANGES. t Will Enable People to Pick Them

Right in New York. "I am just now hard at work," said a New Orleans promoter, "on one of the biggest, brightest and most spectacular enterprises of the present day. It originates with an extensive orange grower of the lower coast. He suffered severely by the freeze of last season, out he is a man of cast-iron will and unlimited resources, and he has just hought up a scheme to wrest the poils of winter from the clutch of nature. No, that isn't a quotation for the prospectus, it's a simple modest statement of fact. His proposition is to take a number of bearing orange trees and transplant them in cars especially prepared for their reception, making up special trains of say twenty cars apiece, which averaging six trees each, to give them plenty of room, will make 120 trees to the train. While history does not record a succession of such severe winters as the last, still, point, and, by staying always in the warm zone, positively insu- the life and productiveness of the plant. Trees thus treated yield double the usual quantity. But that is not all. As soon as the crop has reached maturity the trains will be run north and the fruit sold direct from the trees. How is that for a large, meaty idea? Isn't it a 'log-loo?' Our Yankee friends, who have never seen oranges growing on anything except a Christmas tree, will have fits of joy and fall over each other to pluck the golden fruit at 50 cents per pluck. It will become a fashion, a fad, a rage! Oranges will enjoy the biggest boom they have had since Nell Gwynne peddled them in the stalls! We will make boodles, barrels, small hogsheads of money! We will become rich beyond the dreams of avarice! We will wrest the spoils of winter fromno, I believe I said that before. Anyhow, without kidding, it's a great scheme. Well, so long. See you when I'm clipping coupons."-New Orleans Times-Democrat.

Many women fail to digest their food, and so become pale, sallow, thin and weak, while the brightness, freshness and beauty of the skin and complexion departs. Remedy this by taking Herbine sfter each meal, to digest what you have eaten. Price, 50c -Corrigan.

Careful Inspectors. In Sweden yarn is not allowed to be sold if it contains .0009 per cent of arsenic. A carpet has been condemned by the inspectors because it contained one thousandth part of a grain of arsenic in sixteen square inches-that is. one grain in a piece of carpet ten feet

DANGER AHEAD.

California's Protest Against Proposed

Reciprocity Concessions. If reciprocity treaties with foreign nations mean the release from restrictive tariff regulations of foreign products which we do not produce, in return for the admission for such of our products into fore'gn territory as they do not produce, no one will deny their wisdom.

On the other hand, if these treaties mean the withdrawal of tariff in such connections. manner as to build up one class of O'NEILL, products in our own country at the expense of another, or the fattening of DR. G. M. BERRY, powerful Eastern corporations by the destruction of protective industries of the country, it is time to call a halt.

The news from Washington that not only the Jamaica reciprocity treaty. but the French reciprocity, contains provisions that strike staggering blows not only to the fruit industry of the Pacific coast, but to our wine industry E. H. BENEDICT. and still other products, at the behest of rich and powerful corporate interests in the East, is amazing and disheartening.

If that is the way the administration and the Republican party interpret the duty they owe to the country, the learn that they are treading the path R. R. DICKSON that leads to disaster the better.

Holt county, Nebraska, at public auction on the 23rd day of June, 1909, at 2 o'clock P. M. of It will not do to lightly put this question aside by saying that California must suffer for the general good. If that were true it might be a good excuse, however lamentable, but it is not.

> Will it be for the common good to shatter the industrial interests of this immense western region that the Standard Oil company, the northwestern millers and greedy importers in the east may fatten?

The Republican party has stood for protection to our growing industries with magnificent results. If it per-300 mits itself to be used by designing men it will basely desert its colors, and will

It is not a question alone of injury to our local interests; the affair as-904 29 sumes a national importance. Should 622 54 the Republican party prove faithless ATTORNEY-AT-LAW | O'NEILL to its trust in California, it will prove faithless in other states.- Los Angeles (Cal.) Express.

Her Desire. From the New York World: Mabel -Did you hear of the fuss over Clara's engagement ring? Belle-No, I wish I had a finger in it.

Wars of European Countries. Turkey has been engaged in war 38 years of the present century, considerably more than one hard of the time; Spain comes next, with 31 years of war; France has 27 years; Russia, 24; Italy, 23; England, 21; Austria, 17; Holland, 14, and Germany, 13.

Much Area, but Few Inhabitants. Russia's Asiatic possessions are three times the size of Great Britain's, but hold only 23,000,000 inhabitants, as compared with England's 297,000,000 subjects.

A Modern Instance.

The wonderful advance made in the science of farming during the last few years is one of the best examples of American progressiveness. A little incident recounted by the Ashtabula (Ohio) Sentinel is characteristic. One evening, a short time ago, a society in Jefferson needed a gallon of cream. The committee called up by telephone the proprietors of a milk farm two miles north of the town, and asked if they could furnish it. The reply was that they could as soon as milking was done. In thirty minutes from the time the call was made, the cream was delivered. The milk had been drawn from the cow, put into a separator, the eream extracted and sent to town by a man on a bicycle. A few years ago the committee would have had to send a boy in the afternoon, "yesterday's milk" would have had to be skimmed, and if the boy had not treed too many chipmunks on the way, he might have got back in time for the festival.
