**Is It Right**  
For an Editor to Recommend Patent Medicines?

From Sylvan Valley News, Brevard, N. C.: It may be a question whether the editor of a newspaper has the right to publicly recommend any of the various proprietary medicines which flood the market, yet as a preventive of suffering we feel it a duty to say a good word for Chamberlain's Colic, Cholera and Diarrhoea remedy. We have known and used this medicine in our family for twenty years and have always found it reliable. In many cases a dose of this remedy would save hours of suffering while a physician is awaited. We do not believe in depending implicitly on any medicine for a cure, but we do believe that if a bottle of Chamberlain's Diarrhoea remedy were kept on hand and administered at the inception of an attack, much suffering might be avoided and in very many cases the presence of a physician would not be required. At least this has been our experience during the past twenty years. For sale by Corrigan.

**Wigg:** "They say the cycling craze is over." **Wagg:** "Yes, the fellow who takes his girl out on a tandem must take a back seat."

**White Man Turned Yellow.**  
Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was yellow jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful stomach and liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all stomach, liver and kidney troubles. Only 50c. Sold by Corrigan, druggist.

**Was It a Miracle?**  
"The marvellous cure of Mrs. Rena J. Stout of consumption has created intense excitement in Cammack, Ind." writes Marion Stuart, a leading druggist of Muncie, Ind. "She only weighed 90 pounds when her doctor in Yorktown said she must soon die. Then she began to use Dr. King's New Discovery and gained 37 pounds in weight and was completely cured." It has cured thousands of hopeless cases, and is positively guaranteed to cure all throat, chest and lung diseases. 50c and \$1.00. Trial bottle free in Corrigan's drug store.

**An Epidemic of Diarrhoea.**  
Mr. A. Sanders, writing from Coconut Grove, Fla., says there has been quite an epidemic of diarrhoea there. He had a severe attack and was cured by four doses of Chamberlain's Colic, Cholera and Diarrhoea remedy. He says he also recommended it to others and they say it is the best medicine they ever used. For sale by Corrigan.

**It Saved His Leg.**  
P. A. Danforth of LaGrange, Ga., suffered for six months with a frightful running sore on his leg; but writes that Buekian's Arnica Salve wholly cured it in five days. For ulcers, wounds, piles, it's the best salve in the world. Cure guaranteed. Only 25c. Sold by Corrigan, druggist.

**The Appetite of a Goat.**  
Is envied by all whose stomach and liver are out of order. But such should know that Dr. King's New Life Pills, give a splendid appetite, sound digestion and a regular bodily habit that insures perfect health and great energy. Only 25c. at Corrigan's drug store.

Children often cry, not from pain, but from hunger, although fed abundantly. The trouble arises from inanition; their food is not assimilated, but devoured by worms. A few doses of White's Cream Vermifuge will destroy the worms, when the children will begin to thrive at once. Price, 25 cents.—Corrigan.

If the stomach, liver and bowels fail to perform their functions regularly and naturally, the blood becomes contaminated with impurities, and the whole system is in consequence debilitated. **Ambassadorial Uniforms.**  
Charlemagne Tower, who left Vienna last summer to become ambassador at St. Petersburg, recently gave his first large official reception, on which occasion the American diplomats wore their new uniforms for the first time. American diplomats have, until now, at all times and in all places always appeared in ordinary full dress, uniform not being considered necessary. The change came about in the following manner, says London Modern Society: In the month of August last year, when Prince Vladimir Alexandrovich and his consort, Princess Maria Pavlovna, celebrated their silver wedding, they gave a garden party, to which every one who was invited was requested to come in full dress. The American diplomats shook their heads. For them full dress meant evening dress, and evening dress at a garden party could not be right. They had no uniforms, so the frock coat must be worn. Thus equipped the Americans repaired to the garden party, the only ones of their kind. Every one was surprised, most of all the princess herself, who, it is said, criticized the ambassador for appearing in that attire. The latter, in self-defense, assured his hostess that in Europe it was customary to wear a frock coat at garden parties. "In Europe, did you say?" was the astonished answer. "Are we, then, in Asia?" The answer is well known, but as soon as possible the uniforms for the American diplomats were forthcoming, made after the usual pattern, and in future they will be spared all embarrassment on that point.

**Ruin of a Siberian Market Town.**  
Sometimes it is sheer pigheadedness which proves the ruin of a city. There is a Siberian market town in the district of Smeinsk which rejoices in the extraordinary name of Schemonajewskoje. At present the grass grows in its streets and the weekly market is a thing of the past. All its grown-up male inhabitants are in jail. Their offense is that they openly defied the authorities in refusing to repair the highway on which the town is built. Warning after warning proved of no avail, and at least three threats became reality. The town has, of course, received its death blow.

**Columbus and the Egg.**  
Columbus, having promised to stand an egg on end, failed at the first trial, but he reversed the egg, and it balanced perfectly. "Tell me, Chris," said King Ferdinand, "why did you turn the egg over?" "Because, your majesty, the chicken could not stand on its head." It is said that Columbus got the idea of discovering America from this incident. But, of course, theories are not always what they are cracked up to be.

### THIS IS A MAN'S METHOD.

His Way of Making a Carpet Bargain While His Wife Was Away.

"I want both my upper and lower halls recarpeted," was the remark Charles J. Jones of East Walnut Hills made to a well-known carpet man; "and I'm going to move out of the house until you finish the work! I'll leave the choice and color to you! My wife is out of town, you see, and I want to surprise her upon her return. There is only one condition to this bargain: I must ask you, as we are old friends, to give me a small figure in the carpet." "All right!" said the carpet man. And Charles Jones stayed away from home for two days, while the carpet man's hirelings banged away with their hammers, and he hugged himself as he thought of the surprise that was in store for his wife when she returned. Last Thursday the carpet man called Jones up by telephone and announced that the carpet was laid. "It's dark green!" said the carpet man. "I'm glad of that!" answered Jones. "And as small a figure as is consistent with the carpet!" roared the carpet man. "I'm gladder than ever!" said Jones. That evening he visited his home, and was satisfied that the carpet was a peach. The next morning he met the carpet man. "How much do I owe you?" inquired Jones. "It is \$98.65," said the carpet dealer. "What?" yelled Jones. "Where's the small figure you and I agreed on?" "Why, on th' border of th' carpet!" said the amazed dealer. "It's a morning glory vine with pink an' white flowers! You've got a bargain at that figure!"—Philadelphia Inquirer.

### WAGERS TO AVOID.

Bets That Are Sure Things to One Side as Indicated Here.

Bets to be avoided by those who are cock-sure they can do all things are those relating to athletic feats. It would seem that a good runner could easily give fifty yards in a hundred to a man who was doing the fifty by hopping on one leg. But few runners, if any, can afford to give that amount of start to any man who is at all strong on his legs. For the first five yards or so they go at practically the same pace, so that to run ninety-five yards while his opponent is hopping forty-five he has to go more than twice as fast, and it is a weak man indeed who cannot hop fifty yards in ten seconds. An ordinary wooden match is easily broken in the fingers, but although there are many who will bet they can do it, none succeed in accomplishing the task if the match is laid across the nail of the middle finger of either hand and pressed upon the first and third fingers of that hand, despite its seeming so easy at first sight. No one can crush an egg placed lengthwise between his clasped hands—that is, if the egg be sound, and has the ordinary shell of a hen's egg. It is safe to bet a man that he cannot get out of a chair without bending his body forward, or putting his feet under it, if he is sitting on it, not at the edge of it. Another equally certain wager is that a man cannot stand at the side of a room with both his feet touching the wainscoting lengthwise. It is safe to bet any man, save one who is blind, that he cannot stand for five minutes without moving if he is blindfolded.—New York Times.

### About Thermometers.

Of all liquids used in thermometers, mercury is the most useful, because it is easily obtained pure and because its expansion between—36 and 100 degrees centigrade is regular, that is, proportional to the degree of heat. But for temperatures below—36 degrees centigrade (—32.8 Fahr.) the alcohol thermometers must be used, since mercury solidifies at—40 centigrade. The alcohol thermometer is especially used for low temperatures, for it does not solidify at the greatest known cold. It is as a rule reliable, but the law of expansion of alcohol in glass at low temperatures is not known with such precision as to make the lowest readings entirely trustworthy. This, of course, applies to the best thermometers, those in the manufacture of which the greatest precautions have been taken. In making the cheap thermometers no such care is taken, and the result is that while two or more of them may agree at or about the freezing or the boiling points, which are the standards, there may be very wide divergences at intermediate temperatures or at temperatures below freezing.

### When the Exposition Is Over.

Although the Paris exposition is still unfinished, arrangements have already been made for its demolition. Was it sentiment or business which has intrusted this work to a foreigner? For the contract for dismantling the buildings has been made with the Chicago House Wrecking company, which took down the buildings after the great world's fair at Chicago. It has been calculated that something like 75,000,000 feet of lumber will be available for sale after the close of the exposition, and it is probable that every foot of it will find a ready purchaser.—London Chronicle.

### Columbus and the Egg.

Columbus, having promised to stand an egg on end, failed at the first trial, but he reversed the egg, and it balanced perfectly. "Tell me, Chris," said King Ferdinand, "why did you turn the egg over?" "Because, your majesty, the chicken could not stand on its head." It is said that Columbus got the idea of discovering America from this incident. But, of course, theories are not always what they are cracked up to be.
