Mary Ellen Lease, the famous Kansas woman politician and populist orator, who is stumping for McKinley this year, is holding republican meetings and joint debates in this congressional district. Mrs. Lease is one of the few American women that is thoroughly posted on political affairs and capable of meeting any speaker on the rostrum. The other day in a debate down about Broken Bow Mrs. Lease caused Mr. Hitchcock of the Omaha World-Herald to withdraw from the arena a crestfallen and vanquished foe.

Ex-Governor Crouse.
He will speak in O'Neill Roosevelt day, Thursday, October 4, in the afternoon. Remember, Col. Roosevelt in the forenoon, ex Governor Crouse after dinner.
While there are all kinds of men in this vain and sinful world and it takes a mighty fine haired one to suit everybody, the inflated individual beneath whose decorations of pride is a heart as vain as human fool can contrive, is the one everybody delights to have around.
The republican electors of Grant township are called to meet in the McKinley and Roosevelt club rooms in the city of O'Neill next Saturday afternoon, September 29, 1900, for the purpose of placing in nomination a township ticket and transacting such other business as may come before the meeting.

Preparations are made for a great time out at William Nollkamper's next Saturday night. Mr. Nollkamper has just completed the building for a large flouring mill and before putting in the machinery will give a dance for the amusement of his friends. The Smith orchestra of O'Neill has been engaged to play for the dance. A number of people expect to go out from town.
Joseph Saunders was run over and instantly killed by a special on the Elkhorn at Ewing last Sunday morning while on his way to church. The accident was witnessed by a large number of people who realized the danger but too late to warn him. Mr. Saunders was seventy-seven years of age and father of the Saunders boys who run the flour mill at Ewing. The funeral was held from the Catholic church at Atkinson Tuesday.
The writer accompanied Postoffice Inspector Swift on a trip through the northern part of the county last Thursday. On all sides are evidences of prosperity. At Turner William Nollkamper is erecting a three-story flouring mill which will be a credit to northern Holt when completed. Mr. Nollkamper expects to equip it with the latest and most improved machinery thereby enabling him to manufacture the finest grades of flour. The mill when completed will cost about \$7,000. This does not look much like the calamity Bryan told us four years ago would befall the country in the event of McKinley's election. False prophet then, can you believe him now?
Every word in the Chinese language has a logical reason for its existence and peculiar formation, and each word consists of either one individual character or a number of them combined in order to make a complete word. Take the word field, a square divided into sections or lots. When the word man is written by the word field the combination makes the word farmer indicating the avocation of a man who is associated with fields and agriculture. Still more suggestive is the Chinese word for truth, sincerity, faithfulness, honesty. It is formed by the combination of a man and a word, thus expressing that one form of honesty consists in a man standing by his word. The word for box is indicated by a square having four sides of equal length, while a prisoner is literally a man in the box, a fact which is often gressomely illustrated in China when a criminal is sentenced to death, and is carried to the place of execution in a square box.—Frederick Poole, in the October Ladies' Home Journal.
Resolutions of Respect.
Whereas, Our Heavenly Father, in his wisdom which passeth understanding, has called to her reward our sister and friend, Ellen Erwin; and
Whereas, We bow with reverence to the will of Him who does all things well, therefore
Be it resolved, That we send to the bereaved husband and children of Sister Erwin the deep and heartfelt sympathy and condolence of the membership of Degree of Honor of O'Neill, Neb., in their bereavement, and as a slight token of our respect and love, that we drape our charter in mourning for a period of thirty days and spread these resolutions on our records.
Singed this 26th day of Sept., 1900.

Sarah Hammond,
Maggie Stannard,

WEBSTER RALLY
WAS A HUMMER
In the language of an ardent O'Neill pop the republican rally at the court house last Saturday evening was a hummer. From early morn until late at night delegations from the honest yeomanry of Holt county kept arriving in the city intent on hearing the gospel of Americanism, truth and righteousness from the lips of one of Nebraska's foremost sons. They heard it. John L. Webster was at his best and entertained for one hour and thirty minutes one of the largest audiences that ever assembled in O'Neill to hear a political address. It was fine. Clear, concise and eloquent English, delivered by a master of the language, conveyed to the audience the sentiments of the orator and the principles of the republican party. Mr. Webster said he was raised a democrat. Took a musket on his shoulder and entered the civil war a democrat, but came out a republican. He reviewed the history of democracy and said it is and always was the opponent of progress, opposed to everything that was good and before completing his address convinced his auditors of the truthfulness of his assertion. He tackled Mr. Bryan's 1896 propheetes and did not throw the mantle of charity over him but proved to his auditors that he was a false prophet. Wrong in '96 why not wrong in 1900? The speaker favored the retention of the Philippine islands. "They are ours by right of conquest and purchase," he said, and more than one pop murmured amen under his breath. The speech was fine and will be productive of much good to the party in this section. Preceding Mr. Webster, Dr. Robertson of Boyd county, candidate for state senator, delivered a few remarks which were well received by the vast audience. The juvenile republican quartette won the plaudits of the assemblage with their campaign songs and O'Neill people hope to be able to hear them often before the close of the campaign.
Although organized for over a year it is not generally known that there is a children's home society in O'Neill. And perhaps there would be nothing said about it now were it not for a recent visit to our city of State Superintendent Rev. E. P. Quivey of the Nebraska Children's Home Society, with headquarters at Omaha. About a week ago Rev. Quivey was in the city. A case was brought to his attention while here which resulted in the removal of a boy, Frank Graham, from the home of a farmer near Page to the children's home at Omaha. The people in charge of the Graham boy were going to have him sent to the industrial school at Kearney, but Rev. Quivey was given charge of the boy. This is two children within the past year that have been sent to the home from here. The object of this society is to take in homeless children and secure for them good homes among the people. It is a state organization but works through local societies and is supported by charity. Mrs. W. T. Evans is president of the local society, Miss Anna Lowrie, secretary and E. H. Benedict treasurer. So that people of this community who know of any children needing a home or want to make a home for any should see either of these officers. The society is of course looking for good homes for children and anybody wanting to take a child into their home has an opportunity to do so, and thus provide for some unfortunate boy or girl.
An exchange says: The great want of this country is for more young men who can be given a command and promptly execute it, without asking how or why. There is something lacking in our educational system when the boys on leaving high school or college are not fitted for practical business life and will not accept that discipline which must be enforced in every line leading to business. The boy who is compelled to earn a living and commences on leaving grammar school will obey quickly without question, but in the majority of cases the advanced student cannot come down to the beginning of things as must be. He wants to be chief manager or president. He has gained false notions of position and is not amenable to business law or order. Many a man amounts to nothing more than a rolling stone through business life because his early training was defective and he will not be under authority of one who has the right to dictate how his work shall be done. No one, boy or girl, man or woman, can have too much education providing it is practical.
Rev. Rominger, the new Methodist pastor, will be here for Sunday services.
