Priests and Preachers in Anthracite Region Counsel With Parishioners.

## PULPIT IS DIVIDED IN SYMPATHIES

How Sunday Was Spent by the Men Interested in the Labor Struggle—The Day Passes Quietly, but Trouble is Looked for Some Day This Week.

HAZLETON, Pa., Sept. 24.—There is absolutely no change in the coal strike situation in the Lehigh valley today and the customary Sunday quietude prevailed. This afternoon the employes of the Calvin Jardee mine met at Lattimer and the United Mine Workers held mass meetings at Epley and Beaver Meadows. Tonight the presidents of the three anthracite districts, comprising the entire hard coal fields of Pennsylvania, had a conference with President Mitchell for the purpose of discussing the situation as it now prevails in the anthracite region.

During normal times a colliery here and there works on Sunday, but today not a pound of coal was mined in the Hazleton region. Today the twenty-five or more towns in this region were quiet.

Many miners, accompanied by their families, visited neighboring villages to see relatives or friends, as is their custom on Sunday, while most others remained indoors at their homes.

All the mining towns had their full quota at the churches and it was a subject of remark by strangers now in the region that an unusually large proportion of the population attended church. The women and children, however, were in a vast majority. The Catholic faith is the dominating denomination in the coal region.

Three of the deputies who were sworn in by Sheriff Harvey of Luzerne county and who are sons of prominent Wilkesbarre families were arrested last night at Freeland on the charge of highway robbery. They are Hamilton Farnam, VanBuren B. Howard and A. R. Shoemaker, Jr. The men are accused of robbing a Polish liquor dealer of \$187 in cash. There are two sides to the story. The Polanders say he was delivering beer at highland and he consented to let them ride in his wagon to Freeland. At the outskirts of that place, he claims, the men assaulted him and took the money from his pocket.

The other story is to the effect that the Polanders demanded a fee for bringing the deputies to Freeland and not getting it he set up the cry that he had been robbed. A crowd soon gathered and the deputies were taken into custody and given a hearing before a justice of the peace, which lasted until 2 o'clock this morning. The "squire" committed the three men, but instead of locking them up at Freeland the accused were driven thirty miles over the mountains to Wilkesbarre, where they arrived at daylight this morning. This was done in order to prevent the possibility of the men being taken from the local lockup by a crowd which was still waiting to see what disposition was to be made of the deputies. There is an exceedingly strong feeling against deputies in this region, he they accused of crime or not. The three men were released on bail after their arrival at Wilkesbarre.

The United Mine Workers' organizers spent the day in various parts of this district looking after the interests of their organization. They consulted the leaders of local unions and urged mine workers who have not yet struck to leave their work.

Benjamin James of the national executive board said today that he expected the number of strikers will be greatly increased tomorrow. He predicts that a number of mines which have been running pretty full during the last week will be tied up completely tomorrow.

**HOBSON DEEPLY GRIEVED.**  
Naval Constructor Says that Remarks on Dewey Were Misquoted.

MONTREAL, Sept. 24.—Lieutenant Hobson arrived in this city this evening. He was shown the answer made by Admiral Dewey to the interview with Vancouver. He said he was deeply grieved that Admiral Dewey had taken the matter up in the way reported. He declared that he was not responsible for the statement made in the Vancouver interview. He had been approached by a reporter and in the course of a conversation had stated that the Spanish ships had been sunk because the plugs were drawn by the Spaniards. He explained that it was impossible to sink a ship by hitting it above the water line. Admiral Dewey, had, however, compelled the Spaniards to sink their ships and that was just as effective as sinking them with shells. Personally he had the highest possible respect for Admiral Dewey and his great achievement and he greatly regretted that anything had been attributed to him which might tend to destroy the glory of the admiral's deeds.

**Annexation of Mexico.**  
MEXICO CITY, Sept. 24.—An article in a Los Angeles paper advocating the annexation of Mexico to the United States causes the Mexican Herald to deny that Americans in this country are conspiring against the political integrity of Mexico.

**Cloudburst Does Damage.**  
SAN ANTONIO, Tex., Sept. 24.—A cloudburst in the valley of the Neches river Saturday night did much damage to property, and also, according to reports received here, resulted in loss of life on the ranches in that vicinity. The Neches Auvalde rose twenty-five feet in two hours' time and broke telegraph communication. A number of ranches were inundated and one English sheepman, Ethelbert McDonald, together with some Mexican sheep herders, are said to have lost their lives on a ranch in the mountains near Brackett.

# AMERICAN REPLY IN LONDON.

English Papers Think the United States Values China's Good Will Too Highly.

LONDON, Sept. 24.—The morning papers are too fully occupied with the general election campaign to bestow much attention on the Chinese problem. The Standard, which discusses editorially the replies of the United States government, says: "The policy thus laid down implies the existence at Washington of a very exaggerated estimate of the good will of the Chinese rulers. It is to be feared that the action of the United States will tend to weaken the influence of the allies, and for this reason it is greatly to be regretted."

According to the Pekin correspondent of the Daily News, wiring September 16, the Chinese declare most positively that the emperor will in no case return to the imperial palace in Pekin, as they hold that it has been desecrated by the intrusion of barbarians. This irreconcilable attitude receives confirmation in many reports emanating from Shanghai. One of these is that as a reply to the denunciation of Prince Tuan and others by the viceroys an imperial edict, dated September 17, deals more leniently with the Boxer movement and reminds the people that both the Boxers and Chinese Christians are Chinamen, who shall receive imperial protection if they quietly disperse to their homes. The edict points out that it is impossible for the imperial government to distinguish between good and bad Boxers. It says that if the rebel Boxers still continue to assemble they will be dealt with summarily.

Another report says that the edict frankly declares that no executions can be sanctioned until an adequate inquiry has been made.

Further indications that Prince Tuan has resumed his former ascendancy are found in the Shanghai reports of his promotion and in the statement from the same quarter that General Tung Fuh Siang has been appointed generalissimo of the northern Chinese armies and Prince Chang, general commander-in-chief of the Boxers, has been made a grand councillor. It is also reported that Loh, former governor of Kiang Su province, a Manchurian and bitterly anti-foreign, has been appointed to succeed Li Hung Chang at Canton.

According to various accounts of the Pei Tang affair the Chinese had anticipated that the allies would attack in force. The Britishers and others who left Tien Tsin with the intention of cutting off the retreat of the Pei Tang garrison, arrived too late. They were only half way to their destination when the forts were captured.

The Tien Tsin correspondent of the Standard explains that the Russians refused to provide trains for this force, but gave the Germans and Austrians ample notice and railway accommodations.

Advices to the Standard from Shanghai place the losses of the allies before Pei Tang at 300, principally due to the explosion of mines, one of which, 200 yards long, exploded like an earthquake, killing and wounding large numbers and literally blowing two mounted officers to pieces.

**Porto Rico Wants Pay.**  
HAVANA, Sept. 24.—Porto Rico's demand on Cuba for the repayment of more than \$2,500,000 advanced to Spain to conduct military operations against Cuba, has been the source of considerable amusement. Cubans are asking why they should repay these funds lent to the enemy for the express purpose of subduing them.

General Wood will return the document forwarded from Washington to Governor Allen of Porto Rico, together with a memorandum, couched in diplomatic language, pointing out that he is unable to take any action in the matter.

**In Quest of Millions.**  
SAN FRANCISCO, Cal., Sept. 22.—Three Russians, named Marie Gurcho-witch, Jel Fieldman and Robert Schoub, have reached this city in search of a phantom fortune of \$35,000,000. Eight years ago they saw in the Warsaw Courier a statement that one Yeakob Masek Harowitz, whose heirs they claim to be, had died in America, leaving the sum mentioned. Later the story was repeated by a dying millionaire in Chentchin, and search is being made for the treasure.

**Soldiers Sick in China.**  
WASHINGTON, Sept. 24.—Acting Surgeon General Bache of the army received today the following cablegram from Surgeon Perley at Nagasaki: "Will send forty-one, including three officers, to the United States; eighty-four remaining. One hundred and forty-one sick in hospital at Pekin; 125 at Tien Tsin, many of them mild."

**Terrible Storm on the Fishing Banks.**  
ST. JOHNS, N. F., Sept. 24.—An unknown American fishing vessel foundered on the Grand Banks last week and all of her crew, about twenty in number, perished. The French "banker" Thornly foundered and fourteen of her crew were drowned, while six escaped. The schooner Eddie lost three men.

**British Reason for Staying.**  
LONDON, Sept. 21.—It was explained today at the British foreign office that "it was found inexpedient for the powers to accept the Russian withdrawal proposition," as they had reliable information that "the Boxers were ready to reoccupy Pekin as soon as the allies retired."

**NEW HONORS FOR BOXERS.**  
Prince Tuan and Kang Yi to Be Elevated to Higher Positions.  
SHANGHAI, Sept. 24.—It is believed in official circles here that Prince Tuan has been or will be promoted to membership in the grand council and that the taotai of Shanghai will be appointed provincial judge with the notorious Boxer, Kang Yi, as his deputy here. The foreign officials are understood to be protesting to the Yang Tse viceroys against these appointments.

# TURNED OVER TO DEARING.

Long Contest at Feeble Minded Institute is Ended.

LINCOLN, Neb., Sept. 24.—The long and tiresome fight for control of the institution for feeble-minded youth at Beatrice has been finally settled, and Dr. C. E. Coffin and Secretary Jewell, who received the institution from Dr. Lang, as representatives of Governor Poynter, turned the institution over to Dr. W. H. Dearing, the new superintendent. There has been more or less trouble at this institution for the last six or eight years.

Some time ago Governor Poynter became dissatisfied with the management of the institution under the superintendency of Dr. Lang, and appointed Dr. Dearing. Lang took the controversy into court and Judge Stull granted him a temporary injunction and upon the case coming up to be heard on its merits the judge decided in favor of Dr. Dearing and against Dr. Lang. Lang then appealed the case to the supreme court, but Judge Stull granted a peremptory writ of mandamus ousting Dr. Lang from the control of the institution and commanding him to turn it over to his successor, Dr. Dearing.

**In the Dark as to the Law.**

OMAHA, Sept. 24.—Judge Shiras of the United States district court decided the case of Thomas L. Sloan against the United States in favor of the defendant on a motion to dismiss for want of jurisdiction. In rendering this decision the court certified the case to the United States supreme court for the purpose of securing final decisions upon some questions where the law is ambiguous. The first question propounded to the supreme court by the district judge is whether he was right in dismissing the case, as he asks whether the act granting the lands in severalty to the Omaha Indians confers jurisdiction upon the circuit court to determine such cases as may be presented under its terms, and whether the court would have jurisdiction when the suit is brought against the United States alone to the exclusion of the Indian tribe and all other persons.

The Farmers' Supply Association of Lincoln, Neb., is now ready for business. It will pay every farmer who is in need of anything in the house or on the farm to write to this association for prices, as their object is to get everything from the manufacturer to the consumer at actual cost, plus the expense of handling the goods. They carry a full line of groceries, furniture, carpets, stoves, and harness, as well as all farm supplies. Located at the corner of 13th and O streets, No. 130 N. 13th street, Lincoln, Neb.

**A Swindler Overhauled.**

TRENTON, Neb., Sept. 24.—Word reaches here that D. O. Whitford, under a number of aliases, has been captured by the chief of police of Lincoln. Whitford spent a number of days here and succeeded in getting a loan of \$100 from W. O. Robinson, president of the State bank and giving a mortgage upon cattle he professed to own.

**Thieves Rob a Tailor.**

LAIR, Neb., Sept. 24.—Thieves entered the shop of J. P. Johnson, merchant tailor, and stole two valuable overcoats that were left for repair. Entrance was effected through a rear window and the thieves were evidently scared away, as they did not attempt to get into the front room, in which Mr. Johnson had a large stock of goods for gents' furnishings.

She visited a number of the local stores and at each place wanted to purchase the entire stock. Several years ago the unfortunate woman's mind became unbalanced and she was taken to the asylum at Lincoln, but was soon after discharged as cured. She has since married and is the mother of a small child.

# THE STATE BAR ASSOCIATION.

Committee Appointed to Make Arrangements for Legislation.

LINCOLN, Sept. 22.—The Nebraska State Bar Association held an adjourned meeting in representative hall at the state house and after a discussion lasting several hours authorized four special committees to draft bills covering the various phases of law reform. These bills will be submitted to the association at its January meeting and if satisfactory they will be presented to the legislature. They are to provide relief for the supreme court, means for raising the standard of legal education and other legislation affecting the profession.

Numerous plans for relieving the judges of the supreme court and disposing of the accumulated litigation pending before that tribunal were discussed. It was generally believed that the condition of the court could not be permanently improved except by constitutional amendment. Edward P. Smith, on behalf of the committee on judicial administration, recommended the passage of a bill creating a board of six commissioners. Judge Wakeley of Omaha thought a legislative commission comprised of regularly appointed commissioners or judges of the district court might temporarily relieve the court.

Dean M. B. Reese of the committee on legal education recommended legislation requiring a higher general education preliminary to the study of law and an extension of the university law course from two to three years.

**Taking Dead Man's Belongings.**

FREMONT, Neb., Sept. 22.—Sheriff Kreader went to Omaha and returned with Harry McDaniels, who is wanted on the charge of appropriating to his own use some clothing, money and jewelry belonging to a man who recently died here by the name of B. F. Wright. No trace of his people could be found, but as he was known to be a member of the Elks at Cripple Creek his effects were left with a committee of Elks of Fremont. McDaniels happened to be in town at the time and he represented himself as an Elk. He took personal charge of Wright's belongings and was found in Omaha with his overcoat, Elk pin and \$12.20 of his money.

**Hay Barns and Contents Burn.**

AURORA, Neb., Sept. 22.—A fire broke out in the hay barns of the B. & M. stock yards of this place. Employes were loading hay into the barns which contained between eighty and ninety tons of baled hay. One of the "rakers" who piled the hay in the barn was lying down with his lantern beside him, waiting for another load, when some of the hay fell over, broke the lantern and thus the fire was started. There were about thirty-two carloads of horses in the yards adjoining the barns, as well as some cattle, but these were kept well out of the way and no loss will be occasioned by them.

**Pay High for Their Clock.**

PLATTSMOUTH, Neb., Sept. 22.—The supreme court has handed down a decision compelling the commissioners of Cass county to pay the Seth Thomas Clock company for the clock which adorns the court house tower. The clock was purchased by the company through one Wickersham and County Clerk Frank Dixon issued a warrant to him for the payment, but instead of sending the money to the company he appropriated it to his own use. The original cost of the timepiece was \$980, but after paying the company that amount again with interest and the cost of the suit the clock will have cost the county \$3,000.

**Escaped From the Flood.**

FREMONT, Neb., Sept. 22.—The only Fremont people or former residents of this city known to have been in Galveston, Tex., during the storm of week before last were James Clark and family, who recently removed to that city. Their friends here were unable to get any word from them and it was feared that the entire family were among the dead. This week a letter was received from Miss Annie Clark by a friend of the family stating that they all escaped uninjured after some very exciting experiences in the water and darkness.
