A Night of Terror.

"Awful anxiety was felt for the widow of the brave General Burnham of Machias, Me., when the doctors said she would die with pneumonia before morning" writes Mrs. S. H. Lincoln, who attended her that fearful night, but she begged for Dr. King's New Discovery, which had more than once saved her life, and cured her of consumption. After taking, she slept all night. Further use entirely cured her." This marvelous medicine is guaranteed to cure all throat, chest and lung diseases. Only 50c and \$1. Trial bottles free at P. C. Corrigan's drug store.

Coal in China.

Professor Drake estimates that within the 150 square miles around Tse-chau there are about three thousand million metric tons of coal, and it must be remembered that this area is only a little of the ragged edge of the great coal fields of Shan-si. Most of Shan-si has been found underlaid by large coal beds. Richtofen estimates that the anthracite coal alone of Shan-si amounts to 630,000 million tons, and that the coal area is greater than that of Pennsylvania.

Recognizing the danger to property from the presence of a large number of impetuous and idle Frenchmen, the government of British Guiana has approved of a small expenditure from the treasury to enable some of these men to leave the colony.

Poland is the only conquered nation in this century prior to the present event in South Africa whose conquerors have offered no terms but annihilation to the vanquished.

Mexico Buys American Books. Mexico buys more American books than does France, and nearly as many as Germany. Much of this trade is due to the large resident American population to be found in Mexican cities and to the demand from mining camps where Americans are living, and not a little is due to the growing spread of English among the Mexican people.

Architect of Dewey Arch.

Charles Rollinson Lamb, the architect of the Dewey arch in New York city, is a grandson of Charles Rollinson, who was the most prominent steel engraver of his time, and who, when the committee waited upon him to engrave the set of gold buttons for the suit in which the first president of the United States was to take his oath of office, did the work and refused compensation, saying the honor was sufficient.

SUNDAY SCHOOLS.

They Originated in Milan, Italy, Under Cardinal Borromeo. Sunday schools originated in Milan, Italy, under the direction of Cardinal Borromeo, in 1580. By his aid and influence numerous schools for the dissemination of theological information of a rudimentary character were established. About the middle of the next century Rev. Joseph Alleine inaugurated Sunday schools in London, and between 1760 and 1763 a number of Sunday schools were started in various parts of England and Scotland by Rev. David Blair and Rev. Theophilus Lindsey. Robert Raikes of Gloucester lent valuable aid in establishing Sunday schools in the vicinity of his home, where he was the publisher of the Gloucester Journal. In 1781 he paid rent for suitable rooms and halls, and in them installed poor women as instructors, to whom he paid a shilling a day each for teaching poor children a fundamental knowledge of Christianity. His efforts had great influence; other philanthropists followed his example, and soon Sunday schools began to spring up in most of the larger towns of England. The first Sunday school in America was started in Hanover county, Virginia, in 1786, under the leadership of Bishop Asbury.—New York Weekly.
