FARM HOUSE AND CONTENTS BURNS UP

While John Maring and Family Are Away, Fire Breaks Out.

BEGIN SEPTEMBER 1

Telephone Company Preparing to Begin Operations Then—Connect at Ewing First.

Fire destroyed the house on T. A. Pickering's farm two miles south of Emmet Monday afternoon. John Maring and family resided on the place previous to the fire. The fire left them destitute of a home and destroyed all their clothing, bedding and household goods. There was no one at home at the time of the fire and the origin of it is a mystery. Mr. Maring was away haying and the rest of the family had gone to a neighbors. Besides the property of Mr. and Mrs. Maring's, \$54 in money, a gold watch and some clothing belonging to Miss Atkinson, who was there visiting, was also destroyed. The loss on the house will be between \$600 and \$700. Mr. Pickering tells us, with \$300 insurance. The fire was discovered by Mr. Uhler, who was working in a hay field not far away, but he could not get there in time to save anything. Mrs. Maring says there was no fire in the stove when they left and is at a loss to account for the fire. A milk house near the main building was also burned.

"We will commence work September 1," said Secretary Weekes of the Holt County Telephone company yesterday when asked about the proposed line from O'Neill.

"Manager Lane of the Nebraska Telephone company will be in the city tonight," continued Mr. Weekes, "when arrangements will be made for connection with the Nebraska line at Ewing. The line will be completed to Ewing first and then the work of poleing and wiring to Atkinson will begin. We will probably build to Chambers then."

Asked if the franchisees for the proposed routes had been granted Mr. Weekes responded that they had. "The material for the line has been shipped and will arrive in a few days. The company will employ its own workmen for the building of the lines and the superintendency of the work will be in charge of H. N. Hough of Pawnee City. It will take from sixty to ninety days to complete the system. Local telephone exchange will not be put in at first."

As to extending the line into Boyd county Mr. Weekes said there would be nothing done in that direction at present.

Last week R. H. Jenness visited Elk Point, S. D., for the purpose of inspecting a gas plant which has just been put in by the city. It is owned by the town and cost about \$5000. The Weisbach burner is used. They have about 175 residence and business lights and twenty-five street lights. There is no better light made. It is also used for cooking. The cost is about one-half cent a light. It is known as the cold process. It is very simple, and consists in the main of air pumps and a governor. Air is forced through several chambers of the generator, and passed through gasoline. This is kept up till the air is converted into a dry hydrocarbon gas. From the generator it passes into a dryer, where all the moisture which might remain is thoroughly scrubbed and washed out. One gallon of gasoline will produce about 250 cubic feet of gas, or 1800 gallons. The amount of oil is very small compared to the amount of gas produced. It is in operation in many towns in Iowa and Minnesota, and gives entire satisfaction. They give a twenty-four hour service, which beats electric light plants usually put in small places.

A little patch of onions yields greater returns on the investment than most any other product of the ground. Michael Gallagher, one of the successful farmers and gardeners of the Elkhorn and living just east of town, expects to harvest \$500 worth of onions this year. Mr. Gallagher has a strong crop.

Stuart Herald: One of the largest land sales ever made in Holt county was transacted by Royal Hudspeth Monday. He sold the Soll Ritts ranch to John Titus of Massena, Iowa, the cost being \$22,000. This ranch is one of the best ranches in Nebraska and Mr. Titus can readily start in as one of the promising cattlemen as he has everything to make him one on this ranch. Mr. Ritts does not intend leaving the country, but will stay right here.

Stuart Ledger: The township board is receiving bids for road work. This is to be confined mostly to the road on the section line between ranges 15 and 16, between Stanton's bridge and the south line of the township, a distance of about 7 miles. This line was once graded nearly all the way through but it was washed out by the recent rains. It is to be put in first class condition. About 80 feet of tressel work is to be put in on the south side of the Stanton bridge where high waters have always made the roads impassable.

Stolen: An Irishman who was out of work went on board a vessel that was in the harbor and asked the captian if he could find him work on the ship. "Well," said the captain, at the same time handing the Irishman a piece of rope, "if you can find three ends to that rope you shall have work." The Irishman got hold of the rope and showing it to the captain, said: "That's one end, your honor." Then he took hold of the other end and said: "And that's two ends your honor." Then taking hold of both ends of the rope he threw it over board, saying, "And faith there's another end to it, your honor." He was immediately engaged.

A Tragedy.

An O'Neill bachelor, out of patience with the flies which invaded his room got two sheets of sticky fly paper, which he placed on chairs near the window. Returning late that evening he forgot the tanglefoot and sat down in one of the chairs. He soon got up and proceeded to pick the paper off the south end of his trousers. As it was a bad place to get at, he took the pants off, and while cleaning them unconsciously sat down in the other chair and then stood up and meditated.

Visitors to the county court room yesterday afternoon looked awry at a coil of heavy rope laying on the floor and wondered who had been hung. It was only the mute testimony in a case of the state of Nebraska against Edward Tierney, who was arrested at the instance of Mark Murphy and it was charged that he had stolen the rope which lay at the feet of the judge. The defendant proved to the court that he had bought the rope at McCafferty's, and was discharged.

Battle Creek Enterprise: Last Monday the drug store of T. L. White passed into the hands of T. M. Morris, formerly of Meadow Grove, and the stock is now being invoiced by Messrs. White and Morris, assisted by Harry Barnes. The new proprietor is by no means a stranger in this community. He conducted a drug store at Meadow Grove for some time, retiring last February. He is a thorough pharmacist and will conduct the business in the same careful manner which has characterized the retiring management. The new firm will be known as Morris & Co., a name adopted by the senior Morris, now dead.

Mr. Guy M. Green and Miss Eva Lewis were united in marriage at Meadow Grove on Monday. The groom is quite well known at O'Neill, having come here first about twelve years ago and again last spring after being away for several years. He has been employed on the Independent since March and ranks among the capable printers and newspaper men of the state. The bride is a Meadow Grove lady and a stranger here, but is highly spoken of among her friends and acquaintances. They arrived in the city Tuesday evening and will make their home in the northern part of the city. The Frontier wishes the genial Guy and his estimable bride nothing but happiness.
