Leaders Claim Hidden Strength.

Monessen early yesterday morning and the United States Steel corporation expects to add that plant to the number four hours. The Carnegie properties also resumed last night without a and that fact, joined with the promise of an early start at Monessen, leads the steel officials here to take a very hopeful view of the situation. The strikers claim that men enough to start the Monessen mills cannot be obtained and that they have not yet shown their hand. At Duquesne and other Carnegie plants they promise that de-

velopments will indicate their strength to better advantage.

It was anticipated that there would be trouble' when the non-union men reached Monessen, for the strikers were watching the railroads and rivers and had expressed a determination to prevent the entrance of the strikebreakers. The men who were handling the movement for the steel corporation successfully veiled their action, however, and had their charges safely within the plants hours before it was known definitely by anyone on the outside that the men had arrived. They were brought to Monessen by special train and were landed at 4 o'clock in the morning. It is not known how many men were in the party or where they were obtained. The mills are guarded and the men

will be kept on the premises until all danger of trouble ceases. Bunks for have sold their bodies in advance of about fifty men have been erected and large quantities of food have been purchased for them. A fence has been thrown around the property and guards posted to keep out all intruders. The strikers will undoubtedly make an effort to induce the strikebreakers to quit and the fear is expressed that there will be trouble if any demonstration is made against the men or property. The situation there is regarded as very delicate.

The steel managers may succeed in getting another mill on tomorrow at the Painter plant. Two mills were union men and part of another crew was gotten together last week. Just as soon as enough men are available Eben L. Boyce was executed at Ta- the third mill will be started.

Bethlehem Steel Company Buys the Bethlehem Iron Company.

PHILADELPHIA, Aug. 19.-At meeting of the stockholders of the Bethlehem Steel company today it was decided to ratify the purchase of the Bethlehem Iron company and to issue \$7,500,000 bonds, the purchase price of the iron company. There was not a dissenting vote, 236,443 shares out of a total of 300,000 being represented. The meeting was the result of the recent meeting at which the stockholders of the Bethlehem Iron company voted to sell their holdings in the company. It was denied that the purchase was a part of the Vickers-Maxim-Cramp deal to secure control of the two companies named.

It was authoritatively announced today that within ten days the control of the Bethlehem Steel company and the Bethlehem Iron company will be assumed by President Schwab of the United States Steel corporation. Mr. Schwab holds an option on the stock of the company at \$24 a share, which expires August 26. More than 240,000 shares out of a total of 300,000 are now in the vaults of the Girard Trust company, which acts as trustee in the transaction.

Alaskan Passenger Steamer Jalanda Crashes Into an Iceberg.

VICTORIA, B. C., Aug. 19 .- The steamer Islander, the crack passenger steamer of the Alaskan route, operated by the Canadian Pacific Navigation company of this city, struck an iceberg off Douglas island at 2 o'clock on the morning of Thursday last and went to the bottom, carrying down from sixty-five to eighty souls, including passengers and members of the crew. Some of the survivors arrived here this evening by the steamer Queen. They report that as the vessel went down its boilers exploded, causing the death of many who might have escaped. Captain Foote was on the bridge when the vessel struck and stayed there and went down with the ship.

There was \$275,000 in gold on the steamer, \$100,000 of which was carried by passengers. H. H. Hart, who has spent sixteen years in the Klondike, lost \$35,000 in dust.

Some say that Captain Foote reached a raft, but that when he saw the extent of the disaster ne jumped overboard.

No accurate list of dead will be available until the arrival of the purser on the steamer Farallon.

THE STATE FAIR IN SEPTEMBER

Good Crops or Poor Crops, It is Going to Be a Hummer

LINCOLN, Aug. 19 .- For thirty-two years past, good crops or poor crops, the Nebraska state board of agriculture has annually presented to the public at its fairs the products, resources and possibilities of this won derful young state, the flower of the "new west," a region of country known until a few years ago comparatively as a barren waste. These products have been found, on actual examination, without superiors anywhere, both as to quality and yield. This year corn and vegetables have been badly scorched in some parts of the state, it is true, and yet in many other parts they are good. Small grain was never better.

The fair management is going right along with the fair as usual. September 2 to 6 is the date of the fair and on that occasion one of the largest crowds ever on the grounds is confidently expected. The management has improved the grounds lately purchased by the state by the expenditure of \$18,000 for permanent improvements. The wing of Horticultural hall, destroyed by a wind storm, will be rebuilt. A new woven wire fence has been placed around the whole grounds, all the old buildings have been repaired, painted and put in the best condition.

September 5 is Woodmen day and on that occasion the handsomely uniformed drill teams will contest for prizes ranging from \$25 to \$75., Three prizes will be given for the best drilled teams. There are 40,000 Woodmen in Nebraska and a host is expected on that day.

Secretary Furnas announces that the outlook for exhibits was never better. Let the people all attend this great fair and with their families spend a few days' recreation profitably and pleasantly.

CATTLE DIE FROM ANTHRAX.

State Veterinarian Called But Could Do Nothing for Them.

PENDER, Neb., Aug. 19.-Fred Smith, a farmer one mile from Fred Gilster's, lost four head of cattle from anthrax. Mr. Smith did not realize the fearfulness of the disease and skinned one of the cows. He let his hogs have the carcass and inside of two hours forty-five hogs were dead. His big dog ate a portion of the carcass and died in a few minutes. Mr. Smith cut his finger while skinning the creature and when he reached town his hand was swollen stiff. He was persuaded to go to a physician for treatment. The doctor is unable to say whether he can save him, but the swelling seemed to be checked somewhat before he left town for home.
