**Shafter's Cows in the Pound.**  
General Shafter owns three Jersey cows which roam at will over the Presidio reservation. Several times the animals have wandered beyond the reservation, but until the other day were found and returned by people who knew to whom they belong. One day of last week they failed to return to be fed and milked and a search party eventually found them in the public pound, along with a lot of other beasts. The poundmaster refused to release the cows until his fee of \$3 per cow was paid.

Corbett, of Charlestown, Mass., who has just been admitted to the Massachusetts bar, is but little past 21 years old, and is said to be the youngest woman ever admitted to the practice of law. **Century's Service by Father and Son.**  
William Barrow, timekeeper at Gillo's cabinet works, Lancaster, England, has been in the employ of the firm for sixty-six years. Although over 80 years of age, he is still active, being invariably the first on the premises every morning and the last to leave at night. His father held the keys before him, having joined the house of Gillo's in 1801, so that the present year crowns "a century of service" by father and son.

**Just a Spite Case.**  
Mrs. M. A. Radcliffe of Denver, Colo., who was arrested on charge of illegal voting, has been discharged by the court, not a particle of evidence being presented. It was a case of anti-suffrage spite, and the accusers were raked over for their meanness. So the case of the first woman ever charged with illegal voting turns out a boomerang.

**Charleston Wants the Liberty Bell.**  
The managers of the South Carolina exposition, to be held in Charleston, opening next December, have asked to have the Liberty bell in Independence hall, Philadelphia, loaned to them for exhibition during the continuance of the fair. They plead that it would excite patriotic enthusiasm.

**Consolation and Comfort.**  
Who is it that does not wish to be out in the open air or alive in some field of sport, whether it be with the bat, rod or gun; whether we go coasting over the hills and vales on the wheel or sailing over rough waves or into serene coves, it is all sport, and the springing muscles seem to need it. It is bound to happen that some mishap will occur. Thus it is that we have sprains in abundance. Light sprains, sprains that cripple, sprains that give great pain, sprains that rob us of sleep, but sportsmen of all kinds have come to know that there is nothing better than the old reliable St. Jacob's Oil. Have it with you for use; you may rely on its cure of the worst sprain and restoration to the comforts of life.

She declares her intention of sticking to her business until she can command a salary as large as any man in her line west of the Missouri river.

**FINDS BOGUS SODA FLAVORS.**  
Artificial Compound Is Made to Take the Place of Vanilla.

The chemist and the prevention of sale of adulterated and impure food have put their rejected brand on another favorite beverage. Patrons of the soda fountain who have been taught to ask for lemon or vanilla flavoring, for the alleged reason that those syrups were less liable than others to adulteration, will be surprised at the assertion that there is no extract for which substitutes are more often used than vanilla. This is said on the authority of the Massachusetts board of health. The true vanilla bean costs from \$12 to \$16 per pound, and were there no substitute it could not be used so freely and so extensively as at present. Vanillin, the active property of the extract, can be made from other substances at a cost of about \$2 per gallon. The artificial compound is chemically identical with the vanillin found in the true vanilla extract and therefore has come to be used extensively by manufacturers and dealers. It has been made for commercial purposes from turpentine, but more satisfactory results are obtained from oil of cloves or benzoic acid, and it is now extracted chiefly from these. It is considered harmless when taken in small quantities and has been found to possess certain medicinal properties. Experiments on frogs with large quantities have, however, caused spinal convulsions. There is some comfort for confirmed soda water drinkers, and a general warning for others, in the further statement by the Massachusetts authorities that the metallic contamination of the water used in a glass of soda is far more detrimental to health than any adulteration of the flavoring sirup.—Chicago Chronicle.

**A SPORTING PARSON.**  
He Boldly Declares That Betting Is Not Intrinsically Sinful.

In a recent issue of the London Church Times a Church of England clergyman, signing himself "Sporting Parson," has a long letter, in which he asks whether gambling is really a sin, and comes to the conclusion that it is not. To drink wine or beer in moderation is not, he says, a sin, neither is gambling conducted in the same way and within one's means. As an undergraduate he used to attend Newmarket out of sheer love of horse-flesh, and at the university steeplechase bets, and the reckoning up of their gains and losses added much to the fun of the day. Same with cards—always for small sums. When ordination came round, and he had to make his first confession, he had many grave sins to admit, but he did not regard them as breaches of the commandments. The "Sporting Parson" grants, however, that "a great deal of play may be justly discouraged on the ground of its being a fatuous if not a ridiculous and contemptible amusement, and therefore deleterious in the same way as it is deleterious to eat the skins of baked potatoes the hurt of one's digestion." Let us (he concludes) do all we can to check the evils of gambling, but do not let zeal outrun discretion and say that to bet is intrinsically sinful, as that is not true, and no cause, however good, can be really helped forward by anything that is untrue or even exaggerated.

**NEWEST FOOD WHIM.**  
Vital Stuff Is the Sort to Take into Your System.

We are told that in order properly to support life it is essential to feed on vital food. By vital food, apparently, is meant food that in some sort lives. Nothing must be cooked, for "fire destroys life;" but anything may be sun-dried, for "the sun imparts life." All meat is rigorously excluded from this new dietary, on the ground that flesh implies the loss of life to the animal, and therefore, by metaphorical implication, to the man who consumes it. But on this theory it would surely be permissible to eat, for instance, fresh oysters. As they have a larger share of vital force than, shall we say, a cabbage stalk, they ought to impart a greater degree of vital force to their consumer. The chief merit of this strange system lies in the necessity it lays upon its supporters to consume large quantities of fruit. It is probable that the ordinary man's diet would, from the point of view of health, be greatly improved if he ate something like 20 times as much fruit as he does.

**Farmhand Goes for a Fortune.**

Peter N. Oague, a farmhand who has worked near Piedmont, S. D., for several years, left for Denmark, to take possession of his share of a fortune amounting to \$11,000,000. For 20 years relatives of the man have been looking for him. He dropped his last name when he came to America and was known as Peter Nelson. By accident he learned of his good fortune. He showed important papers proving his identity. He is related to some of the wealthiest men in Denmark, including some of the officers of the army. After he had purchased his ticket here for Denmark he was nearly penniless.

**Showman Punished for Faking.**

A mob at Wichita, Kan., wrecked the tent of Hi Ki, a wild man, because he didn't eat raw liver, as the bills said he would do. And a local police judge upheld the act, on the ground that when people pay out good money to see a man eat raw liver, they have the right to see him eat raw liver or know the reason why.

**BISHOP GRANT, OF INDIANAPOLIS.**  
Bishop A. Grant of Indianapolis, Ind., writes the following letter:  
Indianapolis, Indiana,  
3349 N. Pennsylvania Street.  
Peruna Medicine Co., Columbus, O.:  
Gentlemen—"I have been using Peruna for catarrh and can cheerfully recommend your remedy to anyone who wants a good medicine."—A. Grant.

Prominent members of the clergy are giving Peruna their unqualified endorsement. These men find Peruna especially adapted to preserve them from catarrh of the vocal organs which has always been the bane of public speakers, and general catarrhal debility incident to the sedentary life of the clergyman. Among the recent utterances of noted clergymen on the curative virtues of Peruna is the above one from Bishop Grant.

**Jackson in "Mythology."**

The Memphis Commercial-Appeal has been delving into the life of Andrew Jackson with startling results. A correspondent writes to the paper that its legend "giving the pedigree of Jackson, running back many centuries to the Scottish kings, making of him a descendant of Sir Robert Bruce, is the boldest venture into the unknown past to be found in historic mythology."

**Rose Bush 100 Years Old.**

A rose bush that has attained the age of 101 years is one of the interesting sights at the old Salem homestead in Middle Haddam. The bush was planted in the year 1800 by Mrs. Lucilla Hurd, and it is stated on good authority that it has borne roses every year for 100 years. Mrs. Hurd, who planted the rose bush, was 94 years of age when she died.

**The Museum's Rich Endowment.**

It is now estimated that the Metropolitan Museum of Art in New York will get about \$6,000,000 from the estate of Jason S. Rogers, of Paterson, N. J., the odd old fellow who used to talk with Di Censola by the hour about the finances of the museum, but never in twenty years asked a question about the contents of it.

**Easy Come, Easy Go.**

The man who creeps along bent over, with his spinal column feeling in a condition to snap like a pipet stem at any minute, would readily give a great deal to get out of his dilemma, and yet this is only the commonest form by which lumbago seizes on and twists out of shape the muscles of the back. This is commonly known as backache, a crick in the back, but by whatever name it may be known, and however bad it may be, 10 minutes vigorous rubbing with St. Jacob's Oil on the afflicted part will drive out the trouble and completely restore it. It is a thing so easily caught, it may be wondered at why there is not more of it, but because it is so easily cured by St. Jacob's Oil may be the very reason that we hear so little of it.

Every man knows worse of himself than he knows of others.

**Writes His Recommendation for the Famous Catarrh Remedy, Pe-ru-na.**

The day was when men of prominence hesitated to give their testimonials to proprietary medicines for publication. This remains true today of most proprietary medicines. But Peruna has become so justly famous, its merits are known to so many people of high and low station that none hesitates to see his name in print recommending Peruna.

The following letters from pastors who use Peruna speak for themselves:  
Rev. E. G. Smith, pastor of the Presbyterian Church, of Greensboro, Ga., writes:

"My little boy had been suffering for some time with catarrh of the lower bowels. Other remedies had failed, but after taking two bottles of Peruna the trouble almost entirely disappeared. For this special malady I consider it well nigh a specific."—Rev. E. G. Smith.

Rev. A. S. Vaughn, Eureka Springs, Ark., says: "I had been prostrated by congestive chills and was almost dead; as soon as able to be about, I commenced the use of Peruna. I took five bottles; my strength returned rapidly and I am now enjoying my usual health."—Rev. A. S. Vaughn.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.
