To My Many Friends-I am pleased to make a report to you of the pleasant visit my wife and I had in Western Canada.

We visited the territorties of Alberta, Assiniboia, and Saskatchewan, and found them far surpassing our imagination, but little did I expect to find such rich, loamy soil, so much of it, and so uniform in its level prairie lay. I do think the soil of Canada as a rule equals if not excels the finest prairie farm lands of Indiana. These lands are immense in their richness, and when once the sod is rotted and pulverized, it is as pliable and as easily cultivated as Indiana sandy

Western Canada, from my point of view, offers as fine opportunities for mixed farming as any place in my knowledge. The long, sunshiny days, as the weather is dry and invigorattogether with the rich soil, produce ing, and in a great many places farmvery fine wheat, oats, barley, flax and ers and herders allow their stock to other cereal products. #### THE LIVE STOCK MARKET.

Latest Quotations From South Omaha and Kausas City.

SOUTH OMAHA.

Cattle-There was not a heavy run of cattle on sale, which gave sellers a good opportunity to boost prices a little, particularly on the better grades. Packers took hold in good shape, and so also did feeder buyers, so the market ruled active, everything being sold in good season There were not more than ten or a dozen cars of corn-fer steers in the yards, and as packers all wanted a few the market was active and steady to strong prices were paid. The cow market was also acttry excels as a grazing or ranching ive and as there were only about a dozen cars in the yards buyers had to pay high er prices in order to get what they wantgrass, having an abundance of rain to ed. Bulls, calves and stags were also in keep it fresh. They also have plenty good request at strong prices where the quality may be reached at a depth of from 20 for stockers and feeders seemed to be in to 40 feet. From this you can see excess of the supply today, as is shown there can be plenty of hay mown for by the fact that the market was active winter feeding, and I have had reand strong to 10c higher than yesterday on cattle of good quality. The fleshy liable farmers to tell me that their feeders continue in the best demand, but stock will feed on hay alone, and be ready for market in the spring. Upon they show quality.

Hogs—There was a slight run of hogs. stockers are now selling freely where

but as other markets were quoted fully 5c lower the trade at this point started cline. Packers wanted to buy their hogs at from \$6,321/2 to \$6,371/2 and a few loads sold that way. Sollers, however, were pretty firm in their views and finally packers raised their bids and the market took on more life and kept getting better as the morning advanced. The bulk of all the hogs went from \$6.35 to \$6.40, and on the close the market was just about steady with yesterday, the decline of the morning being regained.

#### Bound to Have Their Morning Kiss.

It is not often that a fond young couple will repeatedly expose selves to the ridicule of hundreds of people for the pleasure of a kiss, but such is the case with a young man and a young woman who part a few moments before 7 o'clock each morning at a prominent Philadelphia corner, according to a local account. The young man is a tall, handsome fellow, who seems to think there is no prize in the world half so fine as the little woman who clings affectionately to his They invariably stop at the corner for a few moments' chat before parting, and the sad look on both their faces is almost enough to break the iceman's heart. When it is nearly time for the whistle to blow the young man takes his darling tenderly in his arms and plants on her pretty lips a long, lingering kiss. Numerous remarks, such as "Oh, baby!" and "Does you lub your honey?" are cast at the couple from the mill windows, but does not seem to affect the young man's nerve in the

#### Sandals May Become Popular.

The fashion of sandal-wearing is said to be growing popular in Eng-land. The chief objection urged against the fashion is that it enlarges the feet-permits them to spreadbut this, it is claimed, is an error; the wearing of sandals merely allows the feet their proper development. It will in variably be found that the person with neat, well-shaped hands has feet to correspond. In allowing the feet to have the free play that nature intended them to have is apt to make them large and ungainly, then sailors, who spend most of their time and do most of their work on bare feet, and who hitherto have always been famous for their neat and well-shaped ones, will have to abandon their claim to this coveted possession. Every one will allow that sandals are the cool est foot covering for summer, but doubtless most people will be surprised to hear that it is claimed that they are the warmest wear in winter If persons suffering from cold feet or chilblains would wear sandals over good thick woolen socks, it is said they would soon find themselves cured of these afflictions.

#### Would Resurrect the Whigs.

One Alabama man is crying aloud for an enforced resurrection of the whig party. As for the past he is of the opinion that, had the country taken the advice of Clay and Webster fifty years ago, the war between the states would have been prevented and some plan would have been discovered which a large part of the people of African descent could have been returned to Africa. And for the future he would have this revivified whig party nominate in 1904 ex-Speaker Inomas B. Reed of New York for president and General Joseph Wheeler of Alabama for vice president.
