

Society Woman Raises Truck.

Near the pretty little town of Derby, Conn., is a farm which is managed by a gifted society woman who in her day has figured conspicuously in most European courts. The woman is Miss Frederica Sanford, daughter of Henry S. Sanford, at one time United States minister to Belgium. Miss Sanford personally supervises and works the place, raising "garden truck" and chickens. These she takes to Derby regularly, finding ready sale in the markets and hotels for all she can offer. Her widowed mother and her younger sister, Wilhelmina, live in the old Sanford homestead in town. Here Miss Sanford generally passes her nights, but from early spring till late in the fall she is up and away to her truck farm at daylight, often remaining there till sundown. In this way she makes a comfortable if simple living for the family, besides being able to indulge in some of the elegances.

Fighting Temperature is 85.

Professor Dexter, of the University of Illinois, has been investigating the effects of weather on morals and finds that the desire to fight rises with the thermometer, but stops at 85 degrees; wits after that as the mercury rises. Assault cases are therefore commoner in summer than in winter. Drunkenness, however, lessens with summer and increases with the coming of cold. Suicides are at a minimum on bright days with a high barometer and increase as the wind rises.

A FEARLESS PHYSICIAN.

Benton, Ill., Sept. 30th.—Much comment has been caused by the action of Dr. R. H. Dunaway, a physician here who for over a year past has been recommending Dodd's Kidney Pills to those of his patients who suffered from Rheumatism, Bright's Disease, Diabetes or other Kidney Troubles. Dr. Dunaway also published an open letter last May stating positively that he himself had been cured of Diabetes by Dodd's Kidney Pills, and that, after he had concluded he was going to die. He is a well man today and says he feels it his duty to do as he has done and is doing because Dodd's Kidney Pills saved his life.

Swiss Anti-Swearers.

In Switzerland and Italy good people go about with little cards containing pledges against swearing. These are presented whenever the bearers hear some one indulging in profanity. The penalty for violating the pledge is a small self-imposed fine, to be paid to charity.

The way for a man to keep a secret from a woman is not to let her guess there is a secret to keep.

Brooklyn, N. Y., Sept. 30th.—Information has been received regarding the wonderful curative powers of the Garfield Headache Powders; people everywhere are using them and writing the manufacturers of the good results obtained.

A Big Tree for St. Louis.

An effort is to be made to remove a large red oak tree from the wildest section of Arkansas to Forest park, St. Louis, for the Louisiana Purchase exposition. The tree is 160 feet high and 12 feet in diameter at the base. A double tramway will be built from the tree to the river, where it will be floated and towed to St. Louis. The tree will be dug up by the roots instead of being cut down, and none of the branches will be trimmed.

Says He is 126.

Dr. Charles Smith, a physician of Philadelphia, contends that he was born in Cairo, Ill., in 1775—126 years ago. He says that he can produce indisputable proof that he was more than 30 years old when he was graduated at the medical college at Jena in 1808.

Schmidt, Champion Rifle Shot.

Private Schmidt, of Company D, Fourteenth United State infantry, now camped at the rifle range near Mount Clemens, Mich., made a score at shooting at 600 yards that broke the record of the whole army. The target was a dummy man. Nineteen out of twenty of his shots took effect, any of which would have caused instant death in a living man, while the twentieth shot would have inflicted a serious or fatal wound. Schmidt's achievement is said to be not only unparalleled in United State army rifle shooting records, but also without precedent.

A Bishop's Plain Talk.

Bishop W. A. Candler has been talking to the St. Louis Southern Methodist ministers on the higher criticism and the tendency of ritualism in the church. He deprecates special musical programs and paid choirs and soloists. The higher criticism, he declares, insists on "a sort of polka dot revelation."

THE LIVE STOCK MARKET.

Latest Quotations From South Omaha and Kansas City.

SOUTH OMAHA.

Cattle—The receipts of cattle were not very heavy as compared with those of the last several days. Packers seemed to have quite liberal orders, and as a result the market was active and fully steady on all desirable grades. The supply of cows and heifers seemed light after the big runs of the last few days, as there were only about thirty-five cars on sale. Buyers took hold with considerable life and paid just about steady prices for anything at all good. The medium grades were a little dull, as has been the case all the week, and on such kinds the market was barely steady. Bulls, calves and stags sold again today in just about the same notches they have for several days. Heavy feeders are still in good demand and steady prices were paid for all that were offered if the quality was satisfactory. Western range beef steers were rather scarce and the few that were offered sold at good, steady prices.

Hogs—There was a light run of hogs, but owing to the fact that Chicago and other markets were quoted lower prices at this point took a drop. Packers started in bidding 57 1/2c lower, and the first hogs sold mostly at 56.72 1/2c and 56.75. After the first run the feeling improved a little and the market was not over 5c lower, with the long string going at 56.75. The choice loads sold from 56.75 to 56.55 and the common grades went from 56.72 1/2c down. At those prices the hogs changed hands quite rapidly and it was not long before the bulk was disposed of.

Sheep—The supply of sheep and lambs in sight this morning was fairly liberal for this time of the week. The demand, however, was apparently equal to the occasion, as just about steady prices were paid for anything at all desirable. Trading was fairly active in both sheep and lambs, and the bulk of the offerings was disposed of in good season. Some of the coarse and common stuff was neglected by both packers and feeder buyers and was hard to dispose of, but aside from those the market was in good shape. The demand for both feeder sheep and lambs continues active and strong prices are being paid for desirable grades.

KANSAS CITY.

Cattle—Corn-fed steers were steady to 10c higher; heavy feeders were steady; others were weak to 10c lower; corn-fed steers, \$3.80@4.30; fair to good, \$3.00@3.50; stockers and feeders, \$2.70@4.25; western fed steers, \$5.00@6.40; western range steers, \$3.50@4.75; Texans and Indians, \$2.75@3.70; Texas cows, \$2.10@3.00; native cows, \$2.65@4.25; heifers, \$3.00@3.50; canners, \$1.25@2.50; bulls, \$2.25@4.00; calves, \$3.00@5.50.

CZOLGOSZ'S NERVE FAILS HIM

Collapses When Being Taken From the Train to the Penitentiary.

AUBURN, N. Y., Sept. 28.—Czolgosz, President McKinley's murderer, in the custody of Sheriff Caldwell of Erie county, and twenty-one deputies, arrived in Auburn at 3:15 a. m. The prison is only about fifty yards from the depot. Awaiting the arrival of the train there was a crowd of about 200 people. Either from fear of the crowd, which was not very demonstrative, or from sight of the prison, Czolgosz's legs gave out and two deputy sheriffs were compelled to practically carry the man into the prison. Inside the gate his condition became worse and he was dragged up the stairs and into the main hall. He was placed in a sitting posture on the bench while the handcuffs were being removed, but he fell over and moaned and groaned, evincing the most abject terror. As soon as the handcuffs were unlocked the man was dragged into the principal keeper's office. As in the case of all prisoners, the officers immediately proceeded to strip him and put on a new suit of clothes. During this operation Czolgosz cried and yelled, making the prison corridors echo with evidence of his terror. The prison physician, Dr. John Gerlin, examined the man and ordered his removal to the cell in the condemned row, which he will occupy until he is taken to the electric chair. The doctor declared that the man was suffering from fright and terror; but said that he was shamming to some extent.

The collapse of the murderer was a surprise to every one. En route from Buffalo he showed no indication of breaking down. He ate heartily of sandwiches and smoked when not eating. He talked some and expressed regret for his crime. He said: "I am especially sorry for Mrs. McKinley." He reiterated his former statement that he had no accomplices and declared that he never had heard of the man under arrest in St. Louis, who claimed to have tied the handkerchief over his hand, concealing the pistol with which the president was shot. He says the handkerchief was not tied. He went to the Temple of Music, arranged the handkerchief so as to hide the weapon and then took his place in the crowd.

All But Two Represented.

WASHINGTON, Sept. 28.—All but two of the South American republics have appointed their representatives to the Pan-American congress to be held October 21 in the City of Mexico. Those two countries are Honduras and the Dominican republic. Their representatives will be appointed before the congress meets. Delegates from the United States are Henry G. Davis of West Virginia, William I. Buchanan, Iowa, and four others.

\$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

Horse Meat Isn't the Thing.

Scientific investigators in Europe, after thorough tests of a horseflesh diet, say that this sort of meat, when the use of it is continued for a long time, tends to lessen the weight of the consumer, whether man or beast. These physiological sages have come to the conclusion that the choicest steaks and roasts from the fattest colts and fillies are inferior to beef or veal, mutton, lamb or ham in sustaining vital force and preventing a decline in strength.

A Life Saver at 80.

Leland Stanford's Latest Trouble.

The latest excitement at Leland Stanford university is over the felling of the great live oak shading the walk between Robie and Encina halls, which in 1895 was dedicated to the memory of "the first and most famous class that Stanford has graduated," as the San Francisco News Letter calls it.

The King Doesn't Kiss.

Many stories are related of the young king of Spain. At a recent function, in which only young people joined, a pretty girl of 16, who had danced several times with Alfonso, presented her cheek to him for a salute. Instantly he straightened up and extended his hand to her. "I don't kiss girls," he said; "they kiss my hand instead; I am your king."

The Invitation Misunderstood.

The widow of a prominent member of a sporting club who recently died is much incensed, it is said, over the officiating priest's choice of words at the funeral obsequies. The club members are heavy drinkers, and it is well known that on their excursions in a body their favorite drink is beer. By invitation of the widow they were in attendance at the funeral, and at the close of the ceremony the reverend father brought down upon himself the wrath of the widow and marred the solemnity of the occasion by requesting that the members of the club would now pass around the beer.

"Not in the Trust."

This is a favorite expression with persons who have goods on hand that they wish to sell to the public. But their goods are not always good. Neither have they a right at all times to claim that they are "not in the trust." As a matter of fact they generally are in the trust. Trusts know the advantage of advertising their goods as "not in the trust." It helps them to sell an inferior article that they may pay dividends on watered stock. The Defiance Starch company has no false stock on which to pay dividends. They simply manufacture the best starch that is made anywhere in the world, and sell 16 ounces for ten cents.
