Barnum's Monkeys

"All well—all happy—lots of fun". That is the regular report from the monkey cage of Barnum's Circus ever since the keepers began dosing the monkeys with Scott's Emulsion. Consumption was carrying off two thirds of them every year and the circus had to buy new ones.

One day a keeper accidentally broke a bottle of Scott's Emulsion near the monkey cage and the monkeys eagerly lapped it up from the floor. This suggested the idea that it might do them good. Since then the monkeys have received regular doses and the keepers report very few deaths from consumption. Of course it's cheaper to buy Scott's Emulsion than new monkeys—and that suits the circus men.

Consumption in monkeys and in man is the same disease. If you have it or are threatened with it can you take the hint?

This picture represents the Trade Mark of Scott's Emulsion and is on the wrapper of every bottle.

American Printing Cheaper.

According to a correspondent, a representative of a provincial printing firm called on a London firm which distributed circulars from which the printer's name had been removed. An estimate was prepared on the basis of a small turn over profit which, considering that the works were situated in a rural district forty miles from London, on a rental which in the city would not pay the ground rent, was much below what would be possible for a London house. Indeed, the representative was confident of obtaining an order, but was thoroughly nonplussed when told the price quoted was considerably above that now paid. The firm's printing was done in the United States, the orders being given in such quantities as to insure the lowest freight charges, and after adding the latter, including delivery to the door, the cost turned out to be considerably below that of the lowest estimate yet received from any British firm.

A Woman's Awful Peril.

"There is only one chance to save your life and that is through an operation" were the startling words heard by Mrs. J. B. Hunt of Lime Ridge, Wis., from her doctor after he had vainly tried to cure her of a frightful case of stomach trouble and yellow jaundice. Gall stones had formed and constantly grew worse. Then she began to use Electric Bitters which wholly cured her. It's a wonderful Stomach, Liver and Kidney remedy. Cures Dyspepsia, Loss of Appetite. Try it. Only 50 cts. Guaranteed. For sale by P. C. Corrigan

A Devotee of Archery.

Lady Onslow, in "Country Life," claims for archery that it is older than the "royal and ancient" game of golf, as wholesome an exercise, if not as athletic, as tennis, more elegant than croquet and more enthralling than any of these when once the initial difficulties have been overcome.

Saw Death Near.

"It often made my heart ache," writes L. C. Overstreet, Elgin, Tenn., "to hear my wife cough until it seemed her weak and sore lungs would collapse. Good doctors said she was so far gone with Consumption that no medicine or earthly help could save her, but a friend recommended Dr. King's New Discovery and persistent use of this excellent medicine saved her life." It's absolutely guaranteed for Coughs, Colds, Bronchitis, Asthma and all Throat and Lung diseases. 50c and \$1.00 at P. C. Corrigan Trial bottles free

Winter Reading on the Farm.

Long evenings are here again and naturally one thinks of a good family agricultural weekly, because its regular visits are welcomed by the whole family.

The Twentieth Century Farmer is out of the rut in which most agricultural papers travel. This is true particularly of the splendid illustrations from photographs taken by their own artists and special articles by the best known and most practical men in every branch of agriculture, such as N. J. Harris, secretary of the Iowa Seed Corn Breeders' association; H. W. Campbell, the authority on soil culture; James Atkinson of the Iowa experiment station at Ames, Ia; Frank G. Carpenter, famous for his letters of travel; C. R. Thomas, secretary American Hereford Breeders' association; B. O. Cowan, assistant secretary American Shorthorn Breeders' association; Dr. A. T. Peters, Nebraska experiment station; E. F. Stephens, president Nebraska Horticultural society; Woman's Department, conducted by Mrs. Nellie Hawks, Friend, Neb.; J. J. Edgerton of the Iowa Experiment Station will answer all questions relating to live stock matters.

This is a weekly agricultural family paper, in which the farmer's wife is particularly interested on account of the pages devoted to her particular interests. In fact, there is no paper published either in the east or west that meets so well the wants of the western farmers and stock raisers and their families. If you do not get it send 10 cents for a ten weeks' trial subscription to The Twentieth Century Farmer, 2269 Farnam street, Omaha, Neb., and you will have an opportunity to become acquainted with it. A dollar will bring it for a whole year.

Remarkable Duel with Sabers.

A remarkable duel with sabers was fought recently at a quiet spot on the estate of Count Rodocanachi, near Leghorn. The combatants were Signor Gino Ferrini of Leghorn, and Lieutenant Re Rivera, of the artillery. The combat began at 1:30 and closed at 3:10 p. m. Fighting thus lasted exactly two hours. There were seventy-two "rounds" or assaults, and the "halts" altogether made a total of twenty minutes. Although actually thrusting and slashing at each other for an hour and forty minutes, both combatants escaped with slight cuts.

A Big Stack

of grain can be threshed in a day (and threshed perfectly and separated thoroughly, without waste) if you have a Nichols-Shepard Separator. And the straw will be handled easily, without the slightest trouble and almost no litter, if you use the Nichols-Shepard Swinging Stacker. This takes the place and does the work of an independent stacker. It oscillates automatically, is easily swung to right angles with the separator to carry the straw to either stack or barn. This stacker has been demonstrated by thorough and practical tests in the field to be the handiest, most efficient swinging stacker ever attached to a threshing machine. Like every other feature of the

Nichols-Shepard SEPARATOR

it is strongly and durably made, without any intricate parts to break or get out of order. All the advantages of the Nichols-Shepard Separator and the Nichols-Shepard Traction Engine are fully described and illustrated in our free catalogue. Write for it.
