Barnum's Monkeys

"All well—all happy—lots of fun". That is the regular report from the monkey cage of Barnum's Circus ever since the keepers began dosing the monkeys with Scott's Emulsion. Consumption was carrying off two thirds of them every year and the circus had to buy new ones.

One day a keeper accidentally broke a bottle of Scott's Emulsion near the monkey cage and the monkeys eagerly lapped it up from the floor. This suggested the idea that it might do them good. Since then the monkeys have received regular doses and the keepers report very few deaths from consumption. Of course it's cheaper to buy Scott's Emulsion than new monkeys—and that suits the circus men.

Consumption in monkeys and in man is the same disease. If you have it or are threatened with it can you take the hint?

This picture represents the Trade Mark of Scott's Emulsion and is on the wrapper of every bottle.

RIGHTS OF SCIENTISTS.

They Give Way in Germany Only to Members of the Royal Family.

The street railways of Berlin have recently been fitting their lines with electricity, following years in the wake of those of the United States. The directors of the Reichsanstalt, the imperial physical and technical institute of Germany, feared that the proximity of trolley wires with the magnetic field which would be set up at the passage of every car might interfere with their experiments and they made representations to that effect to the government. In Germany science is esteemed only second to royalty and the government being all-powerful the street railroads were ordered not to place any trolley wires within a kilometer (five-eighths of a mile) of the Reichsanstalt. As a result, and oddly enough it is to an American, when the approach of the imperial mausoleum, the emperor's memorial church and the Reichsanstalt—royalty and science—are run underground and the cars are compelled to cover the intervals by means of power drawn from storage batteries. Asphalt pavements have also replaced the old cobblestones in the streets around the Reichsanstalt to prevent the jar of trucks from influencing the delicate instruments in the buildings.

Saw Death Near.

"It often made my heart ache," writes L. C. Overstreet, Eigin, Tenn., "to hear my wife cough up if it seemed her weak and sore lungs would collapse. Good doctors said that no medicine or earthly help could save her, but a friend recommended Dr. King's New Discovery and persistent use of this excellent medicine saved her life." It is absolutely guaranteed for Coughs, Colds, Bronchitis, Asthma and All Throat and Lung Diseases. 50c and \$1.00 at P. C. Corrigan Trial bottles free.

Preacher Praying; Wife Packing.

A story is told of a conscientious ministerial golfer who had been offered another pastorate, much better than the one he held and with an ideal golf course attached. The family were all enthusiastic players. Happening to call one day at the minister's dwelling a friend of the family and a golfer himself met the daughter in the hall and asked her: "Is your father going to accept the offer?" "Well," the girl replied, demurely, "papa is praying for guidance in the library and mama is up stairs packing."

The Dollar Mark.

The name dollar is a variation of the German word thaler, and the Danish word daler. The name arose about the year 1609 in Germany. The Counts of Schlick were then coining ounce pieces from silver obtained in their mines at Joachimsthal (Jochim's Dale), in Bohemia, which gained such high repute as to become standard coins; whence the name Joachimsthaler, which finally, for shortness, took the form of thaler—literally a "valley piece." The derivation of the dollar mark (\$) has been variously ascribed to (1) a combination of the initials U. S., meaning the United States; (2) a modification of the figure 8, a piece of eight being formerly indicated by the character 8-8; (3) a form of HS, which marked the Roman unit; (4) the contraction of P and S employed in Spanish accounts to indicate peso; (5) a device formerly seen on the reverse of the Spanish dollar, and again since 1848, on the peso duro, representing the Pillars of Hercules, and round each a scroll displaying the inscription "Plus ultra."

Increase of Population.

The increase of population in Europe and North America during the last century has been enormous. France has grown from 25,000,000 to 40,000,000. Germany from 20,000,000 to 55,000,000. Russia (partly from annexation) from 40,000,000 to 135,000,000, the English-speaking population of the British Empire from 15,000,000 to 55,000,000, and the United States from rather over 15,000,000 to nearly 80,000,000. Altogether the growth is, in round numbers, from 170,000,000 to 510,000,000, or the space which, at the beginning of the century, was occupied by one person must now accommodate three.

of grain can be threshed in a day (and threshed perfectly and separated thoroughly, without waste) if you have a Nichols-Shepard Separator. And the straw will be handled easily, without the slightest trouble and almost no litter, if you use the Nichols-Shepard Swinging Stacker. This takes the place and does the work of an independent stacker. It oscillates automatically, is easily swung to right angles with the separator to carry the straw to either stack or barn. This stacker has been demonstrated by thorough and practical tests in the field to be the handiest, most efficient swinging stacker ever attached to a threshing machine.

ARE YOU DEAF? ANY HEAD NOISES?

ALL CASES OF **DEAFNESS OR HARD HEARING ARE NOW CURABLE** by our new invention. Only those born deaf are incurable. **HEAD NOISES CEASE IMMEDIATELY.**

F. A. WERMAN, OF BALTIMORE, SAYS:

Baltimore, Md., March 20, 1901.
Gentlemen:—I have been entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be read at your discretion.
About five years ago my right ear began to ring, and this kept on getting worse, until I lost my hearing in this ear entirely.
I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.
I then saw your advertisement, accidentaly in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain
Very truly yours,
F. A. WERMAN, 720 S. Broadway, Baltimore, Md.

Our treatment does not interfere with your usual occupation. Examination and advice free. **YOU CAN CURE YOURSELF AT HOME** at a nominal cost.

WEBSTER'S INTERNATIONAL DICTIONARY

A Dictionary of ENGLISH, Biography, Geography, Fiction, etc.

What better investment could be made than in a copy of the International? This royal quarto volume is a vast storehouse of valuable information arranged in a convenient form for hand, eye, and mind. It is more widely used as standard authority than any other dictionary in the world. It should be in every household.

Also Webster's Collegiate Dictionary with a Scottish Glossary, etc. "First class in quality, second class in size."
