

Two events overshadowed all others in | in Auburn prison on the morning Oct. 29 the first year of the new century. One was the assassination of William McKin-

ley, president of the United States, and the other the death of Queen Victoria, bringing to a close the longest and in the most remarkable many respects reign in British history. Each of the two great English-speaking nations of the world was thus called upon to mourn for its highest representative of authority and to face what at one time might

have been a serious crisis in its affairs; but in neither case was there even the semblance of political or industrial disturbance or of governmental instability. Theodore Roosevelt became president and Edward VII, king precisely in the manner prescribed by law and the close of 1901 finds each country as tranquil and secure as it was twelve months ago.

In the United States the affairs of greatest importance before the public, aside from the murder of the president, were the new Hay-Pauncefote canal treaty, the Schley inquiry, the Supreme court decisions in the insular cases, the formation of the United States Steel corporation and other gigantic combinations of capital, the panic in the New York stock market, and the princely gifts to educational institutions by Andrew Carnegie, John D. Rockefeller, D. K. Pearns and others.

The Year Politically.

Politically, the year in the United States was a rather eventful one. William McKinley began his second term as president of the United States on the 4th of March, when he was inaugurated with Theodore Roosevelt as vice-presi-dent. In September he was stricken down by an assassin and Mr. Roosevelt became the chief executive. No other changes took place at the time, but in December the next sector sector. December the postmaster-general, Charles E. Smith, and the secretary of the treasury, Lyman J. Gage, resigned. Henry C. Payne of Milwaukee was chosen to suc-ceed the former and Leslie M. Shaw, governor of lowa, the latter.

Work of 56th Congress.

Among the important laws enacted at the second session of the 56th congress were these: Reorganizing the army on the basis of a force of from 60,000 to 100,000 men; materially reducing the war revenue taxes; increasing the member-ship of the house of representatives from 357 to 386 by reapportioning the con-gressional districts; abolishing the army canteen. The river and harbor bill, the Nicaragua canal bill and the ship sub-sidy bill were measures that failed to

Our Insular Problems.

Considerable progress toward the settlement of the insular problems was made. The greater portion of the Philippine islands had been brought under complete islands had been brought under complete control early in the year and the capture of Aguinaldo by Gen. Funston March 23 did a great deal to hasten the work of pacification. On the 4th of July civil government was established with Wil-liam H. Taft as the first civil governor. At the same time the military authority in the islands was transferred from Gen. Arthur MacArthur to Gen. A. R. Chaffee. Opposition to United States rule en. Arthur MacArthur to Gen. A. R. haffee. Opposition to United States rule not entirely at an end. In Samar plomen attacked a detachment of the 9th fantry Oct 18 fullion

Roosevelt Becomes President. Theodore Roosevelt assumed the office which

president Sept. 14, the day on McKinley died, taking the oath of office in Buffalo. One of his first public an-nouncements was that the policy of his predecessor would be faithfully executed.

Schley-Sampson Controversy.

Rossia; lo by fire at Cleveland, C., 5 by floods in Louisiana; 7 by explosion at steel works, Youngstown, O.; 5 by fire in Philadelphia, Pa.; 6 by a dynamite explosion in Herkimer, N. Y.; 6 by a hur-The Schley-Sampson controversy as to commander was entitled to the ricane at Villarego-Jilota, Spain, and by fire in Brooklyn, N. Y. credit for the destruction of Cervera's fleet at Santiago reached its cuimination in July when the third volume of Edgar S. Maclay's "History of the United States Navy" was published. In this book the conduct of Winfield S. Schley as comdrowning off coast of Brittany; 6 by mine accident at Newcastle, Colo.; 23 by drowning in the Kulpa River, Croatia mander of the flying squadron was cen-sured in the severest terms. The author 11 by powder explosion at Ripault, France: 32 by a railroad accident near Bucharest; 7 by fire at Naples; 8 by gas ecolosion at Newark, N. J.; 13 by a clouburst in Presidio County, Tex.; 50 by a powder explosion in Cozena, Italy, and 15 by a mine accident at Nanaimo, B. C declared that the admiral was guilty of disobedience of orders in failing to pro-ceed to Santiago when ordered to do so and that the Brooklyn's famous "loop' was the result of his cowardice.

As the historian was connected with the navy department as an employe Admiral Schley could not overlock the charges and on the 22d of July wrote a letter to Secretary Long asking for an investigation. His request was compiled with and a court of three, with Admiral Dewey president, listened to the testimony and the arguments of counsel from Sept. 20 until Nov. 7, when the court took the case under advisement.

In October 74 were lost in a gale on the Japan coast; 20 by a typhoon at Manila; 80 by a tidal wave in the Sea of Marmora, and 11 by flood in Sicily. In November 170 perished by a storm at Lake Baikal, Siberia; 9 by fire at Hurley, Wis; 7 by an explosion at Athens, Greece; 9 by mine accident at Pocahontas, W. Va.; 22 by earthquake at Erzeromi; 29 by mine accident at Tel-luride, Colo.; 8 by a mine accident at Bluefields, W. Va.; 7 by a mine accident at Wilkesbarre, Pa.; 30 by boiler explo-sion at Detroit, Mich.; 76 by railroad disaster at Seneca, Mich., and 15 by drowning in the Hawaiian Islands. In December 25 were killed by a rail-road accident at Kabron, Russia; 20 lost their lives by drowning in Japan; 140 by drowning at Goa, India; 11 by gas explo-sion at Pittsburg, Pa.; 6 by boiler explo-sion at Pittsburg, Pa.; 38 by railroad ac-cident at Altenbrechen, Germany; 6 by railroad accident at Melegenao. Italy; 45 Dec. 13 ...e verdict was announced. was in two parts, the first signed by all the members of the court and the second by Admiral Dewey alone. Rear-Admirals by Admiral Dewey alone. Rear-Admirals Bendam and Ramsay, comprising a ma-jority of the court, condemned Admiral Schley in general terms, but Admiral Dewey in a minority report declared Schley was entitled to the credit for the victory of Santiago.

Secretary Long approved the majority finding and declared that the opinion added by Admiral Dewey was not proper. President Roosevelt ordered the immediate discharge from the employ of the navy department of Maclay and the or-der was carried into effect.

Isthmian Canal Treaty Signed.

sion at Pittsburg, Pa.; 38 by railroad ac-cident at Altenbrechen, Germany; 6 by railroad accident at Melegnano, Italy; 45 by fire at Zacatecas, Mexico; 37 by rail-road accident at Liverpool, England; by mine accident, Hartshorn, I. The loss of life by railroad accidents The outlook for the building of an isth-The outlook for the building of an isth-mian canal in the near future became much more promising when on Nov. 18 Lord Pauncefote and Secretary Hay signed a new treaty on behalf of their respective governments. This agreement superseded the old Clayton-Bulwer treaty and did not contain the objectionable features of the document which was so amecded by the United States senate as was 3,669, as compared with 4,169 in 1900 and 3,696 in 1899. The number of serious-ly injured was 3,265, as compared with 3,870 in 1900 and 3,385 in 1899. amended by the United States senate to be unacceptable to Great Britain. to be unacceptable to Great Britain. Its most salient feature was the implied right of this country to fortify the canal whenever it is built. The agreement was laid before the senate and was ratified by that body Dec. 16 by a vote of 72 to 6. The canal commission appointed to inves-tigate the two available routes—the Nic-aragua and the Panama—reported in favor of the former, and a bill authoriz-ing the building of a ship canal at Nic-aragua was at once introduced in the house of representatives. Late in Decem-ber it was reported from Paris that the French Panama company was willing to A review of the financial history of the past year should make every Ameri-can's heart thrill with pride. For if in 1900 the United States fought its way to a position as the financial leader of the world, the last year saw this country so fortify itself in the first place that its pre-eminence in the financial matters of the world is assured for an indefinite per-iod to come. French Panama company was willing to sell its property and rights for \$40,000,000, and it is, therefore, possible that the and it is, therefore, possible that the claims of the Panama route will receive serious consideration at the hands of congress.

LYNCHINGS IN 1901.

Executions Due to Popular Excitement Show an Increase.

The lynchings reported in 1900 showed an increase of eight over those of 1899. A still further increase must be noted this year- an increase in brutality as well as in number-the record standing 107 in 1899, 115 in 1900 and 135 in 1901. The following table showing the number of lynchings in the last seventeen years may be of value to those engaged in the study of this branch of criminology: 184: 1886, 138; 1887, 122; 1888, 142; 1889, 1885 176 1890, 127; 1891, 192; 1892, 235; 1893, 200; 1894, 190; 1895, 171; 1896, 31; 1897, 166; 1898, 127; 1899, 107; 1900, 115; 190', 135.

The lynchings in the various states and territories were as follows: Ala-bama, 15; Arkansas, 5; California, 6; Colorado, 0; Connecticut, 0; Delaware, 0 Florida, 7; Georgia, 14; Idaho, 1; Illinois 0; Indiana, 1; Iowa, 0; Kansas, 2; Ken-tucky, 7; Louislana, 15; Maine, 0; Mary-land, 0; Massachusetts, 0; Michigan, 0; Minnesota, 0; Mississippi, 16; Missouri, Montana, 4; Nebraska, 0; New Jersey, 0; New Hampshire, 0; New York, 0; Nevada, 0; North Carolina, 1; North Dakota, 0; Ohio, 0; Oregon, 0; Pennsylvania, 0; Rhode Island, 0; South Carolina, 5; South Dakota, 0; Tennessee, 12; Texas, 11; Ver-mont, 0; Virginia, 2; West Virginia, 2; Wisconsin, 0; Washington, 0; Wyoming, 0; Arizona, 1; District of Columbia, 0; New Mexico, 0; Utah, 0; Indian Territory, 1: Oklahoma, 2: Alaska, 0.

Of these lynchings 121 occurred in the South and 14 in the North. Of the total number 107 were negroes, 26 whites, 1 In-dian and 1 Chinaman. The alleged crimes for which they were lynched were as follows: Murder, 39; criminal assault, 19; theft, 12; murderous assault, 9; attempted criminal assault, 8; cattle and horse stealing, 7; complicity in murder, 6; quarrel over profit sharing, 5; arson, 4; sus-pected murder, 3; suspected criminal as-sault, 1; murder and criminal assault, 1; train wrecking, 1; alleged theft, 1; keep-ing a gambling house, 1; suspected of killing cattle, 1; resisting arrest, 1; in-sulting a white woman, 1; burglary, 1; forcing a white boy to commit crime, 1. Deside theme Besides these, 9 were lynched because of race prejudice, 3 for unknown reasons, and there was 1 case of mistaken iden-tity.

FIRE LOSSES WERE GREAT. Year Has Been Very Hard on the In-

surance Companies.

The year has been especially hard on the fire insurance companies, because it has come immediately after another year of disaster. Losess were heavy in 1900, many companies were forced to quit the business, and those that held on did so in the belief that the worst had been passed and that better conditions were inevita-ble. Instead of that the losses for the year in the United States are \$20,000,000 mentor then in 1900 greater than in 1900. The result has been a number of rein-

surances, retirements and amalgamations of companies unprecedented since the year of the Chicago fire, when so many companies were ruined. Fourteen stock companies and eight mutuals have re-tired absolutely from the field, beside a great number of small mutual and assessment companies. Scores of companies have retired from the other West, the South or both, or have materially re-stricted their writings in the sections of the country where they had suffered most

As a result business men needing large amounts of insurance have been unable to get it, and a horde of wildcat com-panies and irresponsible Lloyds have been started, to prey upon the necessities of the people.

The losses for the entire year are put at \$152,084,414, as against \$130,028,000 in 1900,

American Trust, United Box, Board and Paner, United States Shipbulding and the Northern Securities companies.

CHIEF SPORTING EVENTS.

Americans Uniformly Successful Over Their Foreign Opponents.

Sporting events of importance included the races for the America's cup, resulting in another victory for the American yacht the Columbia over Sir Thomas Lip-ton's Shamrock II., Sept. 28 and Oct. 3 and 4; the defeat of an English team of trapshooters by Americans at Hendon, England, in June; the winning of the world's sculling championship by George Towns of Australia at Rat Portage, Ont., Sept. 7, and the decision of the international committee at Paris, May 21, that the next Olympian games are to take place in Chicago in 1904. Pittsburg won the championship in 1994. Pittsburg won the championship in the National Base-ball league and Chicago was first in the American league. In the east Harvard was the undisputed football champion, while in the west the honors were divid-d between Wiscond States while in the west the honors were divid-ed between Wisconsin and Michigan. In horse racing the feature of the season was the trotting of a mile in 2:02¼ by Cresceus at Columbus, O., Aug. 2.

Wars of the World.

The war which has most conspicuously engaged public attention during the year has been the Boer war. It has now as-sumed the form of guerilla warfare, and the new year opens with serious losses inflicted upon British arms. In addition to the South African struggle there has been the customary number of revolu-tions in Central America, and a more or less sanguinary conflict between Venezuela and Colombia. The pending trouble between Argentina and Chile may be settied by arbitration. The Chinese has been closed by treaty. In the Philippines desultory warfare with strolling bands of natives continues. The list of casualties, including killed and wounded, for the year is as follows: Abyssinia, 7,000; South Africa, 5,377; Arabia, 5,144; Venezuela, 2,-583; Colombia, 2,588; China, 1,604; Africa, 1,261; Philippines, 968; Mexico, 421; Corea, 315; Sumatra, 283; Java, 65; Albania, 54; Bulgaría, 44; Macedonia, 24. The total losses for the year are 27,681, as com-pared with 183,878 in 1900.

Strikes Only Slightly Disturbing.

Strikes were a somewhat disturbing factor in the industrial world. May 20 the machinists in some of the largest plants in the country struck for a nine-hour day without reduction in wages. About 20,-600 men went out. In several cases they were successful, but in others their places were filled with other men. On the 15th of July a strike of iron, steel and tin workers was ordered in some of the mills of the United States Steel corporation to compel the adoption of the union scale. Seventy-five thousand men were effected. Growing out of the strike was that or-dered by President Shaffer of the Amal-gamated Association of Iron and Steel Workers, in August. This ended in Sep-tember in failure. Strikes involving riots and loss of life occurred in Albany, N. Y.; in the Telluride mines, in Colorado; among the teamsters in San Francisco and the miners in Kentucky.

7

×

Embezzlements of 1901.

The record of embezzling, forgery, de-faulting, and bank wreckage for 1901 shows a small decrease as compared with that of 1900. The total is \$4,085,569, as com-pared with \$4,660,134 in 1900. The state-ment of dishonesty by months is as fol-lows: January, \$345,186; February, \$75,500; March, \$413,136; April, \$507,185; May, \$268,-074: June \$59,000. July \$179,206. 114; June, \$\$9,000; July, \$179,306; August, \$197,892; September, \$121,400; October, \$698,-232; November, \$458,758; December, \$550,-300

The losses are distributed as follows: The losses are distributed as 1010002. Stolen by public officials, \$696,945; from banks, \$1,513,496; by agents, \$227,700; for-geries, \$354,000; from loan associations, \$266,315; by postmasters, \$18,136; miscel-lancous stealings, \$1,008,977.

Loss of Life by Epidemics.

The loss of life by epidemic diseases has fallen off considerably as compared with 1900. The ravages of the plague have

infantry Oct. 18, killing ten and wou six men. Other less disastrous disastrous encounters have occurred.

Trade with New Possessions.

Under a decision of the United States Supreme court rendered Dec. 2 it was held that the Philippines became domesheid that the Philippines became domes-tile territory immediately upon the rati-fication of the treaty of peace and that in the absence of legislation by congress duties levied upon the products of the islands were illegal. It was further held that the right of congress to pass laws for the regulation of the islands was unrestricted, coming from the constitution Itself. In substance it was held the col-lection of duties on products coming from Porto Rico between the time the treaty of Paris went into effect and the date when the Foraker tariff act became a law was illegal; that the island of Porto Rico is a territory appurtenant and be-longing to the United States but not a part of the United States within the rev-enue clause of the constitution, and that the Foraker act is constitutional.

Relations with Cuba.

The relations with Cuba. The relations to exist between the United States and Cuba were determined, at least temporarily, by the adoption of the Platt resolutions by congress in June. Brieffy, these provide that the govern-ment of the island shall retain its inde-pendence of all foreign countries, that the United States may intervent the temperature of the second secon pendence of all foreign countries, that the United States may intervene to pre-serve such independence, that the acts of the United States during the period of military occupancy shall be ratified, that sanitary plans for the prevention of epi-demics shall be carried out and that this country shall be nermited to huy or base country shall be permitted to buy naval or coaling stations at points to be agreed upon,

On the 21st of February the constitution On the 21st of February the constitution as agreed to by the members of the Cuban convention was signed by the members of that body. It is based large-iy upon that of the United States. Dec. 31 Gen. Tomaso Estrada Palma was elected the first president of Cuba. Free trade between Porto Rico and the United States went into effect July 25, the annious are and the langing of the America

anniversary of the landing of the Ameri can troops on the Island in 1889. Civi Civi government under the provisions of the Foraker act was established in May, 1900, and the first governor was Charles H. Allen. He was succeeded this year by William H. Hunt.

President McKinley's Murder.

The facts in the assassinaton of Presi dent William McKinley are still to too vividly remembered to require extended mention. He had entered upon his sec-ond term under the most favorable ausplees. Everything pertaining to the fu-ture seemed bright with promise when, without a moment's warning, he was shot down by an anarchist. The fatal bullet was fired by Leon Czolgosz while the president was receiving the public in the T mple of Music at the Pan-American mple of Music at the Pan-American sposition in Buffalo on the afternoon of Friday, Sept. 6. He lingered until early on the morning of the 14th of the same month, when he passed away, with the words: "God's will, not ours, be done." The grief of the people was as deep and sincere as it was widespread. Telegrams of condolence came from all parts of the

DISASTERS OF THE YEAR. Record Is Long, and the Number of foreign commerce in merchandise for th fiscal year 1901 showed a decrease of \$26,769,019 in imports and an increase of

Deaths Involved Excessive.

Jacksonville, Fla., was the scene of the most disastrous fire of the year in Amer-ica. The greater part of the city was laid in ashes May 3, causing a total loss the preceding year. Comparing the fig-ures of 1901 with those of 1891, there is a decrease of \$20,744,031 in imports and an increase of \$603,284,181 in exports. The im-ports of the year 1901 were \$823,172,165 and the exports \$1,487,764,991, making the ex-cess of exports over imports \$664,592,826. Both the total exports and the excess of exports provide model and the excess of about \$11,000,000. Another was that in Montreal, Jan. 23. loss was \$2,500,000. Twenty-eight lives were lost by the burning of the Rochester lives (N. Y.) orphan asylum Jan. 8; nineteen persons were killed in a furniture-house fire in Philadelphia, Oct. 25, and 100 or more were lost in a great oil fire at Baku, Russia, Feb. 5. of exports over imports were greater in 1901 than in any preceding year in the

Tornadoes, cyclones and floods were fortunately few in number compared to other years. The worst disaster of this sort was a storm and flood in the Elk-horn valley of West Virginia June 23. Between fifty and sixty lives were lost and property to the value of about \$1,000,-000 was destroyed.

The following is a list of the most prominent disasters in 1901:

history of our commerce. To say that the country has prospered during 1901 is a weak statement of the facts. The floodtide of prosperity has rolled ahead for the past twelvemonth with ever-increasing strength, and with no indications that the ebb is to come. The government's finances have profited much during the past year. Revenues of the government from all sources for the last fiscal year were \$699,316,530.32, and the expenditures for the same period were \$621,538,546.54, showing a surplus of \$77,-717,984.38. Compared with the fiscal year 1900, the receipts for 1901 increased \$29,-In January 10 were killed by an explo sion at Lei-Tung, China; 8 by a fire at Minneapolis; 6 by a railroad accident at Mikala, Austria; 20 by a panic at Tokyo, Japan; 120 by a blizzard in south Russia; 50 by the capsizing of a barge off the coast of Madagascar; 400 by a storm on the coast of Japan; 70 by an explosion at Hang Chow, China; 10 by a boiler ex-plosion at Recklinghauser, Bohemia; and 35 by a hurricane at Trondjhem, Nor

In February 87 persons perished in a mine accident at Durango, Mexico; 332 by a storm on the coast of China; 6 by an explosion at Guilford, England; 7 by an explosion at Genford, Angland, 7 by rallroad accident in New South Wales; 60 by a mine accident in Cumberland, B. C., and 5 at Hermosillo, Mexico; 21 by fre at Tokyo, Japan; 40 by storm at Odessa, Russia; 6 by fire at Birmingham, England; and 32 by a mine accident at Kemmerer Wyo

Kemmerer, Wyo. In March 50 persons were killed by an explosion in China; 7 by explosion in Spain; 30 by a railroad accident at Wa-lovo, Russia; 17 by a mine accident at Yabori, Japan; 10 by mine accident at Yabori, Japan; 10 by mine accident at Gilsenkirche, Prussia; 8 by cyclone in Texas; 16 by a cyclone in Arkansas; 10 by boiler explosion in Chicago; 8 by an avalanche at Lake Cono; 20 by flood in Bolivia: 15 by bursting of a dam at Bo-logna, Italy; 9 by a railroad accident in New South Wales; 18 by cyclone at Bir-mingham, Ala., and 6 by a mine acci-dent in Fayette Co., Ala. In April 26 lost their lives by a mine acci-

humanity. Of the total amount stated above there has been given to educational institu-tions the princely sum of \$68,850,961, to charities, \$22,217,470; to churches, \$6,238, 489; to museums and art galleries, \$11, 133,112; and to libraries, \$15,388,732. In April 26 lost their lives by a mine cident in the Transvaal; 6 by a hotel fire at St. Mary's, W. Va.; 12 by cyclone in the Canary Islands; 25 by an explosion at Griesheim, Germany; 18 by a mine acci-dent at Hornu, Belgium; 20 by a snow Andrew Carnegle, John D. Rockefeller, J. P. Morgan, Jane L. Stanford and others contributed sums running up into the millions. The greatest single contri-bution was that of Mrs. Stanford, who gave the Stanford university property to the value of \$30,000,000. Mr. Carnegle side in Alaska; 1 by a rallroad acci-dent in Pekin; 8 by fire at St. Jean, France; 6 by a rallroad accident at Caledon, South Africa, and 15 by the fall of

church in Albania. In May 35 perished by fire at Amreeli, ndia; 100 by a ferryboat disaster on the the value of \$30,000,000, Mr. Carnegle founded scores of libraries throughout the United States, gave \$10,000,000 to the Scotch universities and offered the same sum to the United States for the cause Duleper River; 7 by fire in Chicago; 6 by an avalanche in Alaska; 130 by a boiler explosion in China; 8 by an avalanche in Switzerland; 7 by a mine accident in Fairmont, W. Va.; 15 by an avalanche at Avacena. Holu; 66 base der der der of higher education. In the west Dr. D. K. Pearsons of Chicago continued his liberal giving to the smaller colleges. ted. Czolgosz died in the electric chair The total contributions made for li-brarles during the year outside of those made by Mr. Carnegie amount to \$2,374,-200. ordinary sum of \$15,237,700.

Life insurance has closed the most pros-perous year in its history. The people have been prosperous and have been in-vesting their money liberally in endowment policies and ordinary life policies for the benefit of their families. It is be leved that the total of new business written during the year by the legal re-serve companies will be \$1,500,000,000, and that their insurance in force will amount to \$7,500,000,000. One company alone has written over \$300,000,000.

BUSINESS OF RAILROADS.

Traffic Receipts Enormous, and Many Miles of New Track Laid.

Keeping pace with the general prospe ity of the country, railway building in the United States during the year 1901 has exceeded that of any previous year since 1890, when 5,670 miles of new lines were completed, and the record for that year might have been surpassed had the steel mills been able to furnish the necessary cars.

The records of the Railway Age for 1901 show that with the returns thus far received not less than 5,057 miles of track have been laid on 332 lines in 43 states and territories.

With the exception of Pennsylvania there has been little building in the Eastern and New England states, but there has been much important work in all other sections of the country, the greatest activity being shown in the southwest. The construction west of the Mississippi River has amounted to 3,187 miles, and the states east of the Mississippi and south of the Ohio have added \$91 miles, making a total of 4,078 miles built in the states south of the Ohio and west of the Mississippi.

Official reports to the interstate com merce commission for the fiscal year ended June 30, 1901, show gross earnings of all the steam railroads in the United States were \$1,578,164,202, or an average of \$8,211 per mile. The previous year the gross earnings were \$1,487,044,814. The ne earnings the past fiscal year were \$553. 007,924, or \$35,577,213 more than in the previous fiscal year. The amount of dividends to stockholders last year was \$121. which is \$13,000,000 more than the 108 637 divident payments the previous year.

BUSINESS CONSOLIDATION

Increasing Tendency Shown to Form Combinations of Capital.

The feature of the industrial situation of the year was the continuation of the tendency to form great combinations of capital or trusts. In the first eight months the aggregate capital of the new corporations organized was \$2,467,355,000 as against \$1,885,650,000 for the same pe-riod m 1990. The most gigantic of the combinations effected was that known as the United States Steel corporation, hav-ing a capital of \$1,100,000,000. Its chief organizer was J. Pierpont Mcrgan. The companies entering the trust were the chief Carnegie, Federal, American Steel and Wire, National Tube, American Bridge, National, American Sheet Steel, American Tinplate, American Steel Hoop, Lake Superior Consolidated iron mines and the Shelby Steel Tube. Some of the other combinations brought about were the Allis-Chalmers, Amalgamated Copper, Am-erican Can, American Locomotive, Amer-ican Plow, Consolidated Tobacco, North

e number of victims in 1901 with 20,000 in 1900. Cholera, however, has greatly decreased in fatality, its victims in 1901 being about 5,000, as compared with about 60,000 in 1900. The total of deaths in 1900 owing to the Indian famine reached the large sum of about 570 600. reached the large sum of about 579.600 It is difficult to make any accurate list of statistics of this kind, but, roughly estimated, the cholera and plague last year claimed about 43,000 victims. No returns have been made of the fatalities by famine in India and Russia.

Legal Executions in 1901.

The number of legal executions in 1901 was 118, as compared with 119 in 1900, 121 in 1899, 109 in 1898, 127 in 1897, 122 in 189 132 in 1895, 132 in 1894, 126 in 1893, and 107

There were 82 hanged in the South and and 47 whites. The crimes for which they were executed were: Murder, 107; crim-inal assault, 9; attempted criminal as-sault, 1; and train robbery, L.

Suicide on the Increase

Suicide continues to increase in the United States. The total number report-ed for the year 1901 is 7,245, as compared with 6,755 in 1900 and 5,340 in 1899. Of this total 5,850 were males and 1,395 females, which curiously shows the same proportion of nearly five males to one female for several years past. Physicians, as usual, head the list among professional men, the record standing: Physicians, 33; attorneys, 10; clergymen, 10; banke journalists, 6; college professors, 1. 10; bankers, 6;

In the Stock Market.

In May a stock panic took place in New York as a result of the efforts of oppos-ing interests to get control of the North-ern Pacific railroad. The stock was cor-nered and forced up to the unheard-of price of \$1,000 a share. While many lost heavily because of the slump in the val-ues of other securities, there were no serious failures and the effect outside of proculative director wave descent speculative circles was exceedingly slight.

Pan-American Exposition.

The Pan-American Exposition opened at Buffalo May 1 and closed Nov. 2. It was a financial failure, due in part to the assassination of the President, but in other respects it was a success. The total attendance was 8,295,073. Stockholders were about \$3,000,000 out of pocket. At Charleston, S. C., the South Carolina Interstate and West Indian Exposition began Dec. 2, to run throughout the winter.

Most Notable Invention

In the way of inventions the most not-able achievement of the year was the successful attempt of Marconi to signal accessful attempt of Marconi to signal across the Atlantic ocean by means of wireless telegraphy. The test was made Dec. 12 between a point on the Cornwall coast and St. John's, N. F., and the letter "S" was repeatedly sent and received was repeatedly sent and received.

Chicago Stock Yard Receipts.

Nineteen hundred and one in the live-stock trade has been one of the greatest years in Chicago's history. The combined receipts of all kinds of live stock during the year reached 16,257,000 head, valued at \$291,800,000, both being the largest on record, with the valuation over \$22,000,000
