Let us settle the whole controversy by awarding first honors to the men behind the guns.

The Nebraska State Record by F. A. Harrison is a warm republican paper just started at the capital. Mr. Harrison is about as well posted on Nebraska politics as anybody and is able to get out an interesting political quote from the supervisor record F, paper.

The Stuart Ledger is trying the "reformed" mode of spelling. It is extremely doubtful if the transition in spelling will ever be universal and complete as the authorities on the lettering of words have a habit of doing it the same old way.

There is no doubt that Governor Savage will be retired politically upon the expiration of his term of office and there is less doubt that the governor will grieve any over it. The next rebublican convention will make a grand stand play denouncing the sentiments that three-fourths of the people of Nebraska believe at heart to be right.

Dr. James Edwin Russell has offered himself as a subject to be placed upon the altar of human vivisection in the interests of a so-called science. We can see no possible advantage to this branch of "science" in this sacrifice. Any man that will make such an offer has a sprinkling of disorders in the mental regions that unfits him for the proper gyrations at each prob of the surgeon's knife.

To be in sympathy with the pardon of Joe Bartley doesn't imply sympathy with the practice of embezzling. The opponents of Governor Savage dare not say that he and those who agree with him are in favor of looting the public treasury or that they commend the misguided conduct of Bartley in the least. Pardon does not approve of sin. "He hath removed our sins from us as far as the east is from the west." Does that approve the past misdeeds? To remove implies taking away, obliterating the guilt. It is just as safe to trust the man who is ready to extend pardon as the other class.

Gentlemen: - Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion. About five years ago my right car began to sing, and this kept on getting worse, until I lost my hearing in this car entirely. I underwent a treatment for catarrh, for three months, without any success, consulted a num-ber of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever. I then saw your advertisement necidemally in a New York paper, and ordered your treat-ment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased car has been entirely restored. I thank you heartily and beg to remain Yey truly yours. If A. WERMAN, 750 S. Brondway, Baltimore, Md.
