

Mrs. Francis Podmore, President W. C. T. U., Saranac Lake, New York, Owes Her Health to Lydia E. Pinkham's Vegetable Compound. Read Her Letter.

"DEAR MRS. PINKHAM: - For several years after my last child was born I felt a peculiar weakness, such as I never had experienced before, with severe pains in the ovaries and frequent headaches.

"I tried the doctor's medicines and found it money worse than wasted. A friend who had been cured through the use of Lydia E. Pinkham's Vegetable Compound advised me to try it. I did so, also your Sanative Wash, and I must say I never experienced such relief before. Within six weeks I was like another woman. I felt young and strong and happy once more.

"This is several years ago, but Lydia E. Pinkham's Vegetable Compound is my only medicine. If I ever feel bad or tired a few doses brings instant relief."-MRS. FRANCIS PODMORE.

THE LIVE STOCK MARKET.

Cattle-Cattle receipts were far from being excessive, and as packers all seemed to have liberal orders the market was lively from start to finish and everything was disposed of in good season. There was very little change from yesterday, however, in the prices paid. A fair pro-portion of the offerings consisted of beef steers. There were none too many to meet the requirements of the local trade, so that sellers had no trouble in disposing of what they had at good, steady prices. The more desirable grades, of course, were in the best demand, but still even the common kinds moved quite freely at fully as good prices as were paid yesterday. Buyers were also anxious for cow stuff, and particularly for the better grades. They were all out early looking for the kinds that are good enough to sell from \$4.00 up, and it did not take sellers long to dispose of such kinds. Bulls, veal calves and stags also commanded just about steady prices. Good stuff sold freely, while common kinds were more or less neglected. There were comparatively few stock cattle in the yards. Good feeders in particular were very scarce, so that anything showing quality and flesh was picked up in a hurry at good, steady prices, no matter whether the cattle were heavy or light.

Hogs-Receipts of hogs were not heavy. but the market opened a little easier. In extreme cases sales were made that were a nickel lower, but the market soon firmed up and the bulk of the hogs sold at right around steady prices. As the morning advanced trading became more active and toward the close sales were that were stronger than yesterday. The bulk of the offerings was disposed of in good season, but, as is generally the case, a few light loads were left until the last, and on such kinds the market was slow. The bulk of the good weight hogs sold from \$6.05 to \$6.15, medium weights went from \$5.95 to \$6.05, and the light hogs sold from \$5.90 down.

INSURRECTION IS EXPIRING.

Acting Governor Wright Thinks End of War is Near.

MANILA, March 8 .- Acting Governor Wright says the province of Morong and the entire province of Rizal was never more peaceful than they are now and that the recent occurrences were due to the influence of insurrectionists who had been driven from Laguna and Batangas prov-

The utterances of Senor Ampil, the former president of the town of Cain-and fame, has been published by the tra, Morong, who was recently captured by insurgents and subsequently es-ed by insurgents and subsequently escaped, are classed by Mr. Wright as being unreliable and as merely the remarks of a man half crazed with terror. The action of the band which captured Ampil is clearly due to a personal vendetta. The constabulary have already dispersed the band and captured many arms and have completely broken the power of Montalon, the old Ladrone chief, who for years was the terror of the province. Mr. Wright feels satisfied, from conversations which he has had with General Bell and others, that the insurrection is expiring.

The Times, says Prof. Goodwin Smith in the March Atlantic, after a little wavering carried its vast power to the side of the south, whose cause it embraced with an intensity, not to say with a fury, surprising in comparison with the sure-footed discretion usually characteristic of its manage-ment. To the last it persisted with unabated confidence in assuring its readers of southern victory. from Grant's lines before Petersburg, Richmond was almost in sight, and it was evident that the next move on the board would be checkmate, the Times continued to give ear to the asseverations of Mr. Spence that the triumph of the south was at hand. The Times really represented only the wealthier and more aristocratic class in England. In America it was taken as representing the whole nation.

OST people think catarrh is a disease confined to the head and nose. Nothing is farther from the truth. It may be that the nose and throat is the oftenest affected by catarrh, but if this is so it is so only because these parts are more exposed to the vicissitudes of the climate than the

other parts of the body.

Every organ, every duct, every cavity of the human body is liable to catarrh.

A multitude of ailments depend on catarrh. This is true winter and summer. Catarrh causes many cases of chronic disease, where the victim has not the slightest suspicion that catarrh has any-

thing to do with it.

The following letter which gives the experience of Mr. A. C. Lockhart is a case in point:
Mr. A. C. Lockhart, corner Cottage St.

and Thurston Road, Rochester, N. Y., in a letter written to Dr. Hartman, says the following of Peruna:

nounced my trouble a species of dyspepsia and advised me, after he had treated me about six months, to get a leave of absence from my business and go into the country. I did so and got temporary relief. I went back to work again, but was taken with very distressing pains in my

temporary relief. I went back to work again, but was taken with very distressing pains in my stomach.

"I seldom had a passage of the bowels naturally. I consulted another physician with no better results. The disease kept growing on mo until I had exhausted the ability of sixteen of Rochester's best physicians. The last physician advised me to give, up my work and go south after he had treated me for one year.

"I was given a thorough examination with the k-ray. They would not even determine what my trouble was. Some of your testimonals in the Rochester papers seemed to me worthy of consideration, and I made up mny mind to try a bottle of Peruna. Before the bottle was half gone I noticed a change for the better. I am now on the litth bottle, and have not an ache or pain any where. My bowels move regularly every day, and I have taken on eight teen pounds of flesh. I have recommended Perun a to a gent many people."—
