PIONEER

HARDWARE

For a quarter of a century I have been in O'Neill in the Hardware and Implement business, and am here yet, with a carload of new Implements for the spring trade. Following is a partial list of goods carried by me:

**John Deere Plows; Buggies, Planters, New Pivot Tongued Cultivators, Riding and Walking Listers, Discs and Seeders**

These goods are beautiful in construction, durable and have no equal. The Moline wagon, none better on wheels, having many points superior to any wagon on the market. The celebrated Champion binders, mowers and hay rakes. I also handle bale ties. In the stove line I carry the best known steel range, the great ajestic; also many other makes of stoves and ranges. I am the only dealer west of Norfolk who carries the Stransky Steel Ware, every piece warranted for five years. I also handle enameled ware. I have the Lisk and Elliott anti-rust tinware, none better. For any rusty piece returned I will gladly give a new piece. Nickel plated copperware, such as tea and coffee

pots, tea kettles and other articles in profusion. Anything you want in silverware, cut glass, glassware or Rogers 1847 table cutlery. In the cutlery line I carry no imported goods, nothing but the products of American factories and American workmanship. I have all grades, from the cheapest to the best. I have the Sioux City garden seeds; also other garden and field seeds, such as millet, clover, etc. I have the best kerosene, the "Eocene," gasoline, machine oil, and axle grease. A very nice line of sewing machines. In barb wire I have the genuine Glidden, no imitation, every pound warranted to run one rod.

It is always my aim to treat customers in the best possible manner and to give them honest labor and good goods for every dollar they may think well to turn my way. If you cannot give me all your trade, give me what you can, and it will be appreciated. I will say in conclusion that no man in my line will give you any more for you dollar than I will and my guarantee or warrant I will make good.

**HAVE GOOD ROADS IN GEORGIA**  
2,000 Miles of Them Built in Ten Years  
Largely by Convict Labor.

In improving its highways the state  
of Georgia now leads the rest of the  
South. Nearly 2,000 miles of graded  
roads have been built in the state in  
the last ten years and under a law  
passed in 1891 the various counties  
now raise \$400,000 annually for road  
making and mending.

The state now permits the employ-  
ment of chain gangs of misdemeanor,  
convicts on road making as a relief to  
hired free labor. The convicts are  
quartered in movable camps and dur-  
ing the winter in county barracks,  
which have all the conveniences of a  
well regulated prison.

The only persons in the state who  
object to this method of improving the  
highways are the convicts and the  
opinion does not count.

**Coal in New Mexico.**  
It is alleged that the coal deposits of  
New Mexico are as extensive as the  
deposits of Pennsylvania and West  
Virginia combined. Veins of good  
bituminous coal exist in various parts  
of the territory of a thickness of from  
six to fifteen feet. In San Juan county  
the veins have the extraordinary thick-  
ness of from twenty-five to forty feet.

Whooping Cough.  
A woman who has had experience  
with this disease, tells how to prevent  
and dangerous consequences from it.  
She says: Our three children took  
whooping cough last summer, our  
baby boy being only three months old,  
and owing to our given them Cham-  
berlain's Cough Remedy, they lost  
none of their plumpness and came out  
in much better health than other  
children whose parents did not use  
this remedy. Our oldest little girl  
would call lustily for cough syrup be-  
tween whoops.—Jessie Pinkey Hall,  
Springville, Ala. This Remedy is for  
sale by P. C. Corrigan.

**New York May Yet Catch Up.**  
A few evenings ago the Vienna pub-  
lic took a noisy farewell of the horse  
trams in the Ringstrasse. The two  
last cars, which started in opposite di-  
rections, were hung with blue lamps  
and decorated with flags and greenery.  
The oldest drivers were on the seats,  
and the oldest conductors in the wag-  
ons. Both cars were crowded to the  
utmost possible extent, and the police  
for once closed their eyes to over-  
crowding. Songs were sung and hur-  
rahs given for the horses, while the  
noise brought the guests out of cafes,  
windows were thrown open and hand-  
kerchiefs waved. New York still re-  
tains the distinction of having more  
horse car mileage than any other city  
in the world.—New York Tribune.

**The Pope's Sweet Tooth.**  
His Holiness the Pope has a passion  
for sweets and is never without a small  
box of bonbons—usually some variety  
of chocolate drops—in his pocket.  
Until his severe illness in the spring  
of 1899 the Pope had hardly been ailing  
after his accession to the papal chair  
and he is said to have declared that  
"since I have been Pope I have had no  
time to consult doctors, and so I have  
always been well."

When you wake up with a bad taste  
in your mouth you may know that  
you need a dose of Chamberlain's  
Stomach & Liver Tablets. They will  
clean your stomach, improve your  
appetite and make you feel like a new  
man. They are easy to take, been  
sugar coated, and pleasant in effect.  
For sale by P. C. Corrigan.

**Bicyclists Rode Into Molasses.**  
Three bicyclists had an unusual ex-  
perience the other evening. They were  
riding along on smooth asphalt, when,  
in crossing the shadows of some trees,  
as they thought, all were thrown vi-  
olently to the ground. They felt a soft,  
gummy substance covering the pave-  
ment, which held fast their clothing  
and hands. After some effort the men  
tore themselves loose. They had rid-  
den into a pool of molasses.

You will never wish to take another  
dose of pills if you once try Cham-  
berlain's Stomach & Liver Tablets.  
They are easier to take and more  
pleasant in effect. They clean the  
stomach and regulate the liver and  
bowels. For sale by P. C. Corrigan.

**Not Taught That Way.**  
It is difficult for nations to get away  
from the aboriginal idea that the sur-  
est way to have peace is to jar the  
enemy into a comatose condition.

**Too Bad About "Same."**  
A humorous fellow of literary pro-  
clivities is showing a card that he re-  
ceived from a publisher, and his reply  
thereto:  
Dear Sir: We have given your mss.  
our careful reading, but regret that we  
cannot use same. Please call for same,  
or we will return same at your ex-  
pense by express. Thanking you for  
submitting same to us, and trusting to  
hear from you at once regarding same,  
we are, etc.

Gentlemen: Thank you all the same  
for reading same and giving me an  
opportunity to reclaim same. I shall  
call for the same to-morrow, etc.

**Blood.**

We live by our blood, and on  
it. We thrive or starve, as  
our blood is rich or poor.

There is nothing else to live  
on or by.

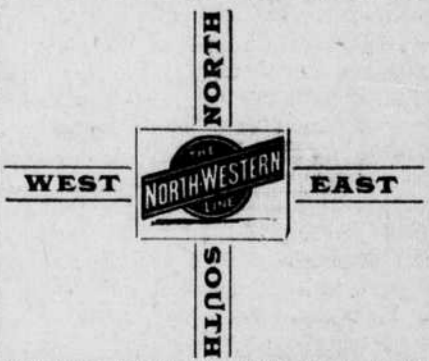

When strength is full and  
spirits high, we are being re-  
freshed, bone muscle and brain,  
in body and mind, with con-  
tinual flow of rich blood.

This is health.

When weak, in low spirits,  
no cheer, no spring, when rest  
is not rest and sleep is not  
sleep, we are starved; our blood  
is poor; there is little nutri-  
ment in it.

Back of the blood, is food,  
to keep the blood rich. When  
it fails, take Scott's Emulsion  
of Cod Liver Oil. It sets the  
whole body going again—man  
woman and child.

If you have not tried it, send for free sample,  
its agreeable taste will surprise you.
