

CONGRESSMAN ALDRICH ENDORSES THE TONIC, PERUNA.

Says: "It Will Build Up a Depleted System Rapidly."

Hon. W. F. Aldrich, Congressman from Alabama, writes from Washington, D. C.

"This is to certify that Peruna, manufactured by The Peruna Medicine Co., of Columbus, O., has been used in my family with success. It is a fine tonic and will build up a depleted system rapidly. I can recommend it to those who need a safe vegetable remedy for debility."—W. F. Aldrich.

H. S. Emory, Vice Chancellor and Master of Arms, K. P. S., of Omaha, Neb., writes from 213 North Sixteenth street, the following words of praise for Peruna as a tonic. He says:

Catarrh of Stomach.

"It is with pleasure I recommend Peruna as a tonic of unusual merit. A large number of prominent members of the different Orders with which I have been connected have been cured by the use of Peruna of cases of catarrh of the stomach and head; also in kidney complaint and weakness of the pelvic organs.

"It tones up the system, aids digestion, induces sleep, and is well worthy the confidence of sufferers of the above complaints."—H. S. Emory.

Nervous Debility.

Everyone who is in the least degree subject to nervousness, sleeplessness, prostration, mental fatigue or nervous debility in any form, finds the hot weather of June, July and August very hard to bear, if not dangerous.

Hon. W. F. Aldrich.

The only safe course to take is to keep the blood pure, digestion good, and sleep regular. No remedy equals, in all respects, Peruna for these purposes. If the system is run down and weakened by catarrh, Peruna renovates and rejuvenates the nerves and brain.

A book on the catarrhal diseases of summer will be mailed to any address, upon request, by the Peruna Medicine Co., Columbus, Ohio.

The above testimonials are only two of 50,000 letters received touching the merits of Peruna as a catarrhal tonic. No more useful remedy to tone up the system has ever been devised by the medical profession.

THE CORONATION

KING WILL BE READY TO GO THROUGH WITH SAME.

HE IS NOW ABLE TO WALK

The Important Event of Installing a Ruler Officially Announced—Unless Something Unforeseen Happens It Will Occur on August 9.

LONDON, July 30.—The latest and most reliable information indicates that King Edward's doctors were not mistaken in fixing August 9 as the date upon which his majesty could be crowned.

The sinister rumors which have pervaded all classes for the last few days now appear to have lost that semblance of probability which made even the members of the cabinet nervous lest another postponement of the coronation might be necessitated.

The apprehension that King Edward would be unable to stand the strain of the coronation ceremony has been greatly lessened by the announcement that his majesty is now permitted to use his feet and with the aid of a stick has done a little walking. Another late telegram from Cowes, saying that nearly all the restrictions have been withdrawn, has been welcomed as evidence that the late ominous conclusions were drawn without considering the doctors' conclusions.

King Edward sat smoking on the deck of the royal yacht and watched the races of the small yachts off Cowes. Those who drew inferences from the fact that the invitations to Westminster abbey were not dated have had their fears dissipated by the proclamation published in the Gazette tonight fixing August 9 as the date for the coronation, which is altogether of more importance than what might have or might not have appeared on the cards of invitation.

The king and Queen Alexandra will leave Buckingham palace on August 18 for the royal yacht, where the fleet will pass in view.

On his return to the royal yacht the king is expected to take an extended cruise to the northward and to spend several weeks at Balmoral, where preparations for the arrival of their majesties have already been commenced.

Sir Joseph C. Dimsdale, the lord mayor of London, expects the king to visit the city of London the week ending October 11, when a great luncheon will be held in the Guild hall, which is to be followed by a royal procession through the south of London.

All these plans may not be carried out to the letter, but their arrangement, combined with the emphatic optimism of the king's physicians, is generally taken as insuring, so far as human foresight can be relied upon, the king's coronation for August 9. It is perhaps significant that Queen Alexandra, the prince of Wales and other members of the royal family were all ashore today playing lawn tennis and hockey.

Botha gives good advice. Says Boers Must Drop Politics and Make Themselves Happy.

CAPE TOWN, July 30.—Generals Delarey and Botha were given an ovation at Stellenbosch. They were driven to the town hall and each of the two carriages was drawn by sixty students. At a luncheon which followed the students acted as waiters.

General Botha, in a feeling address, said the day of surrender was the most painful of his life, but now that it had been done, he prayed earnestly that his hearers should consider it God's will. Although Afrikaner nationality, in a manner, had been buried, it would remain the most complete factor in the social life of South Africa.

Delarey's Daughter Weds.

CAPE TOWN, July 30.—The Hero worship of the Boer commanders was strikingly illustrated at the marriage of General Delarey's daughter to his secretary, Ferrola, at the Dutch Reformed church. The approaches to the edifice were packed and the congregation cheered Generals Botha, Dewet and Delarey as they entered the church. Dewet was carried from the church on the shoulders of his more enthusiastic admirers.

New Home for Removed Indians.

Los Angeles Cal., July 30.—William A. Jones, United States Indian commissioner, is here on business connected with the removal of the Warner Ranch Indians to another home. He has reviewed the work of the local commission appointed to select a suitable location for the little band of now homeless natives and has wired to Washington his approval of the recommendations made. It is expected that action will be taken on the report within a few days.

Ancient English Bibles.

Though the Bibles used at modern coronations are lost to the public, England possesses in the Cottonian Library a volume asserted to have been used at the coronation of English sovereigns 300 years before the stone now in the coronation chair was brought to England from Scotland. It is a Latin manuscript of the four gospels, on which the tradition asserts the ancient kings of England took their coronation oaths.

All Caused by a Cat.

A curious accident was caused recently by a cat climbing a pole of the Buffalo and Lockport Electric railway. While attempting to walk along the feed wires her tail touched one of the 22,000 volt Niagara transmission lines. The cat was instantly killed, but a short circuit was caused by the body falling across the wires; this resulted in shutting off the power at Niagara for two hours. Several electric railways and lighting systems in western New York were without power.

The next day another cat in Utica, N. Y., prowling around the power house in Utica, also caused a short circuit, which resulted in blowing out several fuses, and the cars were stalled for some time. The cat, however, was not injured and still lives.

Physicians Puzzled.

St. Aubert, Mo., Aug. 4th.—Mr. E. R. Langendorfer of this place suffered very severely with a peculiar case of Kidney Trouble which completely baffled the skill of the local physicians and instead of getting any better he was gradually growing worse. He says: "A friend advised me to take Dodd's Kidney Pills and after I had used two boxes I was entirely cured and have not since had the slightest symptoms of the return of my trouble."

"I had tried all the surrounding physicians but they did me no good and instead of getting better I grew worse till I used Dodd's Kidney Pills. I can sincerely say to everyone suffering with Kidney Trouble that Dodd's Kidney Pills will cure them for they cured me satisfactorily and completely when all the doctors had failed."

Lighthouse Keeper Forgotten. Lighthouse keepers on Percy island, off the coast of Queensland, in 1900 were forgotten for months by the government authorities. The food supply of Percy Island is supposed to be delivered once a quarter, but no food arrived at the island after the first week in June until a British sloop chanced to pass in October. The islanders, twenty in number, were delirious from lack of food, but managed to hail the vessel, which left behind an ample supply of provisions, and reminded the Queensland government of the lighthouse men whose existence it had forgotten.

Lotta Uses the Brush. Lotta, the popular little actress of years ago, has developed into quite a clever artist, and puts in much of her time at the easel. Her efforts are usually devoted to landscape work and her canvasses are always presented to grateful friends.

The trunk line of the Union Pacific passes across the State of Nebraska, and it is a valuable property. The figures presented show that it pays taxes amounting to \$473.22 per mile in the State of Nebraska, and through the payment of this amount of tax in this state, it made the average tax per mile \$262.79 on the whole line of road in the year 1900. The Inter-State Commerce Commission reports show that the average tax paid by railroads in Nebraska was \$198.86 and the average west of the Mississippi was but \$171.45. These figures show that in Nebraska the Union Pacific Railroad pays much more tax than the average railroad pays, and it pays much more proportionate taxes than it should pay.

The tonnage given the Union Pacific in 1900

amounted to 548,206 tons of freight for each mile of railroad, and for purposes of comparison, we will compare with the Pennsylvania railroad system, the greatest freight carrying roads in the world—a system of roads that handled in 1900, 3,250,587 tons of freight for each mile of road (nearly six times the tonnage of the Union Pacific).

The wildest western boomer would not compare the Union Pacific with the Pennsylvania system of railroads. The Pennsylvania railroad system having net earnings of \$30,440,621.19 in 1900, while the Union Pacific earned but \$9,071,606.79, and still this great system of railroads running through the States of Pennsylvania, New York, New Jersey, Maryland, Delaware and Virginia, paid but \$307.49 tax per mile in 1900.
