

HAPPY AND HEALTHY.

A BEAUTIFUL CANADIAN GIRL SAVED FROM CATARRH OF THE LUNGS BY PE-RU-NA.

MISS FLORENCE KENAH.

Miss Florence E. Kenah, 434 Maria street, Ottawa, Ont., writes:

"A few months ago I caught a severe cold, which settled on my lungs and remained there so persistently that I became alarmed. I took medicine without benefit, until my digestive organs became upset, and my head and back began to ache severely and frequently. I was advised to try Peruna, and although I had little faith I felt so sick that I was ready to try anything. It brought me blessed relief at once, and I felt that I had the right medicine at last. Within three weeks I was completely restored and have enjoyed perfect health since."

"I now have the greatest faith in Peruna."

F. E. KENAH.

WOMEN should beware of contracting catarrh. The cold wind and rain, slush and mud of winter are especially conducive to catarrhal derangements. Few women escape.

Upon the first symptoms of catching cold, Peruna should be taken. It fortifies the system against colds and catarrh.

The following letter gives one young woman's experience with Peruna:

Miss Rose Gerbing is a popular society woman of Crown Point, Ind., and she writes the following:

"Recently I took a long drive in the country, and being too thinly clad I caught a bad cold which settled on my lungs, and which I could not seem to shake off. I had heard a great deal of Peruna for colds and

catarrh and I bought a bottle to try. I am pleased that I did, for it brought speedy relief. It only took about two bottles, and I considered this money well spent.

"You have a firm friend in me, and I not only advise its use to my friends, but have purchased several bottles to give to those without the means to buy, and have noticed without exception that it has brought about a speedy cure wherever it has been used."—Miss Rose Gerbing.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

INSIST ON GETTING IT.

Some grocers say they don't keep Defiance Starch because they have a stock in hand of 12 oz. brands, which they know cannot be sold to a customer who has once used the 16 oz. pkg. Defiance Starch for same money.

THOSE WHO HAVE TRIED IT will use no other. Defiance Cold Water Starch has no equal in quantity or quality—16 oz. for 10 cents. Other brands contain only 12 oz.

Caesar's death was doubtless the result of too many Roman punches.

To the housewife who has not yet become acquainted with the new things of everyday use in the market and who is reasonably satisfied with the old, we would suggest that a trial of Defiance Cold Water Starch be made at once. Not alone because it is guaranteed by the manufacturers to be superior to any other brand, but because each 16c package contains 16 ozs., while all the other kinds contain but 12 ozs. It is safe to say that the lady who once uses Defiance Starch will use no other. Quality and quantity must win.

THE LIVE STOCK MARKET.

Latest Quotations from South Omaha and Kansas City.

SOUTH OMAHA.

CATTLE—There was a moderate run of cattle in the yards. As is apt to be the case toward the end of the week the demand was not quite as brisk, but still the prices paid for desirable grades were not much different from those in force yesterday. The beef steer market could be quoted a little slow, but about steady. Handy weight cattle of fair to good quality sold without much difficulty at steady prices. Heavy cattle, however, were rather neglected, and sellers found it a difficult proposition to get what they considered steady prices for that class. The cow market was also about steady. There was not the activity in the trade, though, that characterized the market earlier in the week, and in some cases salesmen thought they did not get quite as much for their cows as they ought to have. As a general thing, though, the prices paid looked just about as good as those of yesterday. The bull market was just about steady today, and veal calves also commanded as good prices as were paid yesterday. There were scarcely enough stockers and feeders in the yards to make a market, and as speculators sold out practically all the cattle they had on hand yesterday, they were willing to pay about steady prices for desirable grades.

HOGS—There was quite a run of hogs here and, as other markets were quoted lower, prices here also suffered a decline. Packers started in to buy their hogs 50¢100 lower, but sellers would not take off that much, and as a result the market was very slow from start to finish. In some cases packers raised their bids and bought the hogs only a big nickel lower, while in others they succeeded in getting the hogs 50¢100 lower. It was a rather uneven market and it was late before a clearance was made. Medium weight hogs sold largely around \$6.55. Good heavy hogs sold from \$6.85 to \$6.95.

SHEEP—Choice lambs, \$6.50, 6.75; fair to good lambs, \$5.50¢6.25; choice Colorado lambs, \$5.50¢6.00; choice lightweight yearlings, \$5.50¢6.00; choice heavy yearlings, \$5.50¢6.05; fair to good yearlings, \$5.00¢5.50; choice wethers, \$5.25¢5.50; fair to good, \$4.75¢5.25; choice ewes, \$4.50¢4.75; fair to good ewes, \$3.75¢4.25; feeder lambs, \$4.75¢5.50; feeder yearlings, \$4.25¢4.75; feeder wethers, \$4.00¢4.65.

FIGHT A BATTLE IN SALVADOR.

Bonilla Defeats Sierra and Trouble is Now Supposed to Be Over.

WASHINGTON—A cablegram received Friday at the navy department from Admiral Glass announces the arrival of this flagship and the Boston and Marblehead at La Union, Salvador. He said that communication by telegraph with Amapala was interrupted and reported further as follows:

"Battle on the main land on February 22 has taken place, resulting in the total defeat of Sierra, who escaped with three or four hundred men. Bonilla is in pursuit. The capital is in the possession of the latter's adherents. The fighting is supposed to be practically over. All is quiet here. The American interests are undisturbed."

THE MEN AND WOMEN

Who Enjoy the Choicest Products of the World's Commerce.

Knowledge of What is Best More Important Than Wealth Without It.

It must be apparent to every one that qualities of the highest order are necessary to enable the best of the products of modern commerce to attain permanently to universal acceptance. However loudly heralded, they may not hope for wide-wide preeminence unless they meet with the general approval, not of individuals only, but of the many who have the happy faculty of selecting, enjoying and learning the real worth of the choicest products. Their commendation, consequently, becomes important to others, since to meet the requirements of the well informed of all countries the method of manufacture must be of the most perfect order and the combination the most excellent of its kind. The above is true not of food products only, but is especially applicable to medicinal agents and after nearly a quarter of a century of growth and general use the excellent remedy, Syrup of Figs, is everywhere accepted, throughout the world, as the best of family laxatives. Its quality is due not only to the excellence of the combination of the laxative and carminative principles of plants known to act most beneficially on the system and presented in the form of a pleasant and refreshing liquid, but also to the method of manufacture of the California Fig Syrup Co., which ensures that uniformity and purity essential in a remedy intended for family use. Ask any physician who is well informed and he will answer at once that it is an excellent laxative. If at all eminent in his profession and has made a special study of laxatives and their effects upon the system he will tell you that it is the best of family laxatives, because it is simple and wholesome and cleanses and sweetens the system effectually, when a laxative is needed, without any unpleasant after-effects. Every well-informed druggist of reputable standing knows that Syrup of Figs is an excellent laxative and is glad to sell it at the regular price of fifty cents per bottle, because it gives general satisfaction, but one should remember that in order to get the beneficial effects of Syrup of Figs it is necessary to buy the genuine, which is sold in original packages only; the name of the remedy—Syrup of Figs and also the full name of the Company—California Fig Syrup Co.—printed on the front of every package.

Alaska and the Salad.

At a recent function in Washington John W. Foster, the diplomat and ex-secretary of state, was sent by Mrs. Foster to get her some salad. He procured a plate of the dainty and was returning with it when some one asked him a question about the Alaska boundary. Mr. Foster has a fad on that subject. He began to talk earnestly. Then he gesticulated. The result was that the salad slid gracefully off the plate and landed full on the front breadth of Mrs. Foster's magnificent dress. The conversation about the Alaskan boundary ended right there.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

20 Feeds Makes one Pound.

The opportunity you have been waiting for has arrived. Progress and improvement are the watchwords of the twentieth century, and the old style of selling stock foods through traveling agents at an enormous expense, should give way to the more modern plan of being sold by the mail order method at a less expense.

Did you ever stop to think what makes the ordinary stock foods cost what they do to you? If not, we will try to explain. Agents selling stock foods to the farmers direct, through the country with a team, receive a commission of 33 to 50 per cent on all sales, and in addition to this there are other expenses, such as salary to block salesmen, state managers, and the cost of large lithographs, issued by some stock food people. All this expense is added to the cost of the food which the farmer is expected to pay. It causes an expense of \$75.00 to \$80.00 per ton to sell stock food by the old methods.

When an agent tries to interest you in stock foods you have to take his word in regard to the merits of the food. Why is not the word of a responsible firm, in writing, much better than the verbal contract generally made with a traveling agent? By dealing direct with us you will save this expense that is added to the cost of the food that is purchased through canvassers. By cutting down this expense we are able to give you a food the quality of which is much superior to the ordinary run of stock foods which, if sold under the old methods, could not be sold at anywhere near the price we are now offering it to you for mail orders.

OLIVE-FOOD is superior and entirely different to the ordinary run of stock foods, and is guaranteed to be free from Antimony, Nux-Vomica, Saltpeter, Copperas and all other injurious ingredients that are so often used.

WE WILL GIVE \$1,000.00 IN GOLD to any chemist in the United States who can find any trace of the above articles in Olive-Food. Write for circulars.

That Olive-Food is superior to all other foods now on the market our testimonials will show. Write for folders, testimonials, etc., etc. (Buy direct from the manufacturer.)

In feeding Olive-Food to hogs we guarantee to remove worms, thus preventing three-fourths of the diseases of swine. Olive-Food is a flesh producer and stock conditioner, and by its use 10 to 20 per cent more flesh will be put on the animal, putting him in a more prime condition without increasing the amount of corn and other feed you are now using and at the same time promote a healthy growth.

As to our responsibility we refer you to any bank in the United States, to Bradstreet or Dunn agencies.

Now here is where we are going to save you the expense of the traveling agent, the block salesman, the state manager and the cost of lithographs. For all orders received by mail, we will deliver Olive-Food, prepaid to your nearest railroad station, at the following prices. (Money saved by buying from the manufacturer.)

50 Pound Drums, 7c Per Pound.	Delivered at your railway station in the following states: Iowa, Nebraska, Kansas, Missouri, Minnesota, South Dakota.	THE BEST STOCK FOOD MADE IN THE WORLD AND AT THE LOWEST PRICE. ORDER TO-DAY. 3 PER CENT OFF FOR CASH.
100 " " 6 1/2c "		
200 " " 6c "		
1000 " " 5 1/2c "		
2000 " " 5c "		

And if your order is accompanied with an acceptable bank reference as to your financial standing, we will ship you any amount of food, at the above prices, on 60 days' time without interest. When cash accompanies the order a discount of 3 per cent will be allowed off the above prices. In neighborhoods where three or four parties are feeding stock, it would pay some one to get up a club and order in ton lots and then divide it among the parties that have clubbed together. In this way you will be buying food at the lowest possible price. Ask for our guarantee on our printed folder and we believe you will be convinced that you run no risk in buying Olive-Food by mail. Our guarantee is better than a guarantee given you by traveling agents. Ours is in writing while theirs is merely a conversation.
