Gentlemen :- "A few years ago I had to give up social life entirely, as my health was completely broken down. The doctor advised a complete rest for a year. As this was out of the question for a time, I began to look for some other means of restoring my health.

"I had often heard of Peruna as an excellent tonic, so I bought a bottle to see what it would do for me, and it certainly took hold of my system and rejuvenated me, and in less than two months I was in perfect health, and now when I feel worn out or tired a dose or two of Peruna is all that I need."-Mrs. I. E. Finn.

### Catarrh Causes Female Diseases.

America is the land of nervous women. The great majority of nervous women are so because they are suffering from some form of female disease. By far the greatest number of female troubles are caused directly by catarrh. These women despair of recovery. Female trouble is so common, so prevalent, that they accept it as almost inevitable. The greatest obstacle in the way of recovery is that they do not under-stand that it is catarrh which is the source of their illness.

In female complaint, ninety-nine cases ont of one hundred are nothing but catarrh. Peruna cures catarrh wherever located

Waters Rush Upon the People While They are Sleeping-Lose All Their Belongings and Are Glad to Escape With Their Lives.

ENID, Okla.-Hundreds of persons were rendered homeless and property damage estimated at \$300,000 was done in the Enid bottoms alone by the cloudburst that struck west of this city at midnight Saturday night. The aggregate damage will doubtless be raised much higher by losses sustained between Enid and the seat of the storm. At 12 o'clock a bank of water three feet high and 200 feet wide swept down through the bottoms, carrying houses and everything before it. It came down upon Enid without warning while most of its citizens were asleep. Within a few minutes 100 houses were partly or completely submerged. Rescuers went to work immediately and all night labored industriously saving persons from perilous positions and aiding those driven from their homes.

# WHAT THE TREATY CONTAINS.

Some of the Features of the Cuban Agreement. WASHINGTON .- These provisions,

among others, are succinctly stated in the Cuban contract: "Cuba is never to enter into any

eign power which will impair or tend to impair its independence. The government is not to assume nor contract any public debt to pay the interest upon which and to make reasonable sinking fund provision for the ultimate payment of which the revenue of the island, after paying the gov-

ernment expenses, shall be inadequate. "Cuba consents that the United

States may intervene for the preservation of the Cuban independence. Cuba ratifies all acts of the United States in Cuba during the military occupation. Cuba will make provision for the sanitation of the cities of the island to the end that a recurrence of epidemic and infectious diseases may be prevented."

# THEIR SIGNATURES ARE PLACED

All Provisions of Platt Amendment Are Incorporated-Objections Made Are All Overcome-An Urgent Message from President Palma.

HAVANA-The permanent treaty between the United States and Cuba, in which is incorporated all the provisions of the Platt amendment, was signed Friday afternoon.

The signing of the treaty took place at 4:30 at the office of the secretary of state. The signers were Secretary of State Zaldo and United States Minister Squiers, who constituted special plenipotentiaries for that purpose. Senor Zaldo and Mr. Squiers simply met, accompanied by their secretaries, and the signing was accomplished and copies of the treaty exchanged within a few minutes.

The permanent treaty contains no provision for its abrogation and no extraneous conditions of any kind. It simply incorporates the entire Platt amendment into the form of a treaty. The length of time consumed by the negotiations was principally due to the fact that the Cuban government desired to include in the treaty various extraneous conditions, especially one to the effect that there should be no intervention into Cuban affairs by the United States, except through the intervention of the United States. All these conditions were rejected.

The Associated Press' correspondent saw a number of senators with respect to the ratification of the naval stations treaties during this session of congress, but they were not inclined to be communicative. It remains evident that there is a tendency to allow the treaties to go over this session

An urgent message from President Palma, which will accompany the sending of the treaty to the senate, will have a strong effect.

Senor Sanguilly, the most active opponent of the treaties with the United States, said he would oppose the permanent treaty, because under it the United States, being the stronger power, could itself decide when intervention was desirable, regardless of the wishes of Cuba. Other senators say that the paragraph relating to the Isle of Pines should have been eliminated.

It is now expected that an agreement covering the details of the United States naval stations will be reached by President Palma and United States Minister Squiers within three weeks.

Dogs Smell Death. There's an old superstition that a howling dog in front of the house of an ill person portends death. One prominent physician believes absolutely in it. The physician has a wonderfully acute sense of smell. Frequently, he says, he can foretell the comingof deatn within twenty-four hours of the patient's demise. Within two days of death, he says, a peculiar earthy odor becomes noticable about a person about to die. He tells of one case where he became aware of the peculiar odor while talking to an apparently

healthy man. That night the man dropped dead of heart disease. The physician is far from attributing ---e peculiar manifestation to other than physiological reasons. His own sense of smell is abnormally acute.

## How Mark Twain Proposed.

Mrs. Samuel Clemens was Miss Olivia Langdon. For some years before she met Mr. Clemens, she had been confined to her bed with what was believed to be an incurable disease; but she was at length miraculously restored to health. The cure was the sensation of Elmira, N. Y., and young clemens, then a newspaper reporter, was sent there to interview Miss Langdon on her recovery. He obtained the interview for his newspaper, and brought back impressions of more value to himsen. Miss Langdon's parents were at first strongly opposed to the young newspaper man, and, for his part, his timidity, so it is solemnly said, stood in the way of the progress of his suit. But finally he screwed up courage to speak to Mr. Langdon, and one morning timidly. entered his future father-in-law's private office, where that man was seat-ed at work. "Mr. Langdon-have you -noticed anything - between-your daughter-and-me?" "No," should the objecting parent, wheeling sharply around so as to get a full view of his visitor. "Well," said the young man, as he turned to the door, ready for instant flight, "if you-keep-a-sharp -lookout-you-WILL!"

In a lecture delivered to students of Columbus university, Judge Cox of the United States circuit court, told of a young lawyer who came before the supreme court to argue a case in which he was also defendant. Adessing the court, he referred to the old French adage declaring that he who argues his own case has a fool for a client. After the case had been heard he left for his home in St. Louis, asking a friend to notify him by wire when the decision was handed down. This was the pithy telegram he re-ceived: "Old French adage attirmed."
