Mr. Bryan says Cleveland's candid-  
acy is a comedy. Mr. Bryan's was a  
double tragedy.

The theory of the scientific relation  
of alfalfa, "certain" fungus and prairie  
dogs is a little mysterious to say the  
least.

There may have been something in  
the name that a Missouri Pacific train  
from St. Louis to Kansas City should  
be wrecked at "Deadman's Curve"  
and a number of passengers killed  
and wounded.

A recent census of Chicago gives  
the city a population exceeding 2,200,  
000, and it takes over 7,000 licensed  
saloons to feed the liquor appetite,  
which keeps a pretty even pace with  
the population.

The United States entering horri-  
fied protests against sinister racial  
wrongs ten thousand miles away  
with the blue smoke of burning  
negroes curling skyward every few  
days at home is about as consistent  
as some other things in this vain and  
sinful world.

Justice Brewer of the United States  
supreme court, is quoted as saying:  
"Every man who participates in the  
lynching or burning of a negro is a  
murderer pure and simple." The  
courts looking at it in that light, the  
next step in ridding the country of this  
specie of anarchy is to apprehend the  
participants.

Crab Orchard News: The law mak-  
ing it a misdemeanor punishable by a  
fine and imprisonment for a minor to  
use tobacco in any form, went into  
effect July 1. It is also contrary to  
the law to sell or furnish a minor  
with tobacco in any form. This is  
pretty tough on the kids, who have  
already formed the habit, but it's dol-  
lars to cigarette stubs that the law  
will not be enforced in ninety-nine  
cases out of a hundred.

Your liberal estimate is yet too  
small. 'Tis a fool law that no minion  
thereof has any intention of ever en-  
forcing. Ninety-nine out of a hundred  
tobacco devotees began before the  
Nebraska voting and smoking age  
and another precept added to the  
statutes will hardly eradicate an  
evil that continues to be inculcated  
by example.

Omaha Bee: Nebraska's state treas-  
urer is again facing the prospective  
dilemma of having more money in the  
permanent school funds on hand than  
he can find places of investment war-  
ranted by law. The constitutional  
provision relating to the investment  
of school money should be extended  
to include approved bonds legally  
issued by cities and school districts in  
the state that have not defaulted on  
interest. With such a provision the  
state treasurer would have no repeti-  
tion of his present embarrassment  
and both the state and the municipal  
subdivisions would be the gainers in  
the interest saving, which they would  
divide, instead of donating as now to  
eastern bond brokers.

The esteemed Independent is touch-  
ed in a very tender spot whenever tax  
lien foreclosures are mentioned. The  
Independent editor's name has been  
attached to a great many of these tax  
cases, but The Frontier wouldn't sug-  
gest that this is why the Independent  
jumps to its feet to call the supreme  
court down for expressing an opinion  
which militates against the foreclosures  
as they have been in Holt county.  
The tax payers are familiar with the  
scandalous land grabbing carried on  
by the syndicate of populists at O'Neill  
under the pretext of collecting taxes,  
when hundreds of acres were wrong-  
fully acquired at a very nominal

figure, and the syndicate, after getting  
much of the vacant land under its  
control, demanding trust prices from  
farmers and stock men; they are  
familiar with the excessive and uncal-  
culated for costs in these cases, and now  
that the supreme court points out  
clearly that "the remedy for the en-  
forcement of taxes upon real estate  
by foreclosure of the tax deed or tax-  
sale certificate is adequate and suffic-  
ient, and must therefore be regarded  
as exclusive" the Independent's de-  
fense sounds all the more absurd.

A North Dakota editor writes:  
"Drink water and you get typhoid,  
drink milk and you get tuberculosis,  
drink whisky and you get jimjams,  
eat whitt flour and get appendicitis,  
eat soup and get Bright's disease, eat  
beef and encourage apoplexy, eat  
oysters and acquire toxemia, eat meat  
of any kind and get indigestion or  
some kind of germ disease, eat vegeta-  
bles and weaken the system, eat des-  
serts and take on paresis, smoke  
cigars and secure catarrh, drink coffee  
or tea and obtain nervous prostration,  
drink wine and get the gout. In order  
to be entirely healthy one must eat  
nothing, drink nothing, smoke noth-  
ing, and before breathing one should  
see that the air is properly sterilized."

### NEBRASKA NEWS NOTES.

An Hastings tailor died the other  
day from cigarette smoking.

William Rhea, the young man who  
murdered the Snyder saloon keeper  
and who has been in the state peni-  
tentiary since 1901, was executed  
July 10.

Alice Freeman, an eight year old  
girl, fell from the window on the third  
floor of a bank building in Beatrice  
Monday and was caught by two pass-  
ersby before striking the pavement.  
A distance of fifty feet and neither  
the rescuers nor the little girl were  
injured.

The Howells Journal says that some  
may doubt the statement that there  
is money in poultry, but J. W. Kucera  
of Stanton county is not of the num-  
ber. Wednesday he marketed a dozen  
spring chickens that weighed an even  
thirty-four pounds and brought him  
fifteen cents per pounds—\$5.10 isn't  
bad for a dozen spring chickens.

Another Nebraska coal find has  
been made, this time in the hills of  
Cass county near Plattsmouth, and  
the owner of the farm whereon the  
find was made is J. W. Thomas. The  
vein is three feet thick where visible.

Levi Eddy, a notorious character,  
72 years old, who lived in Norfolk  
nineteen years, a man of one-time  
wealth, but penniless because of con-  
tinued drunkenness for many years,  
Friday morning fell through a hole  
from a hay loft, where he had gone to  
sleep off his last spree, and broke his  
neck.

A. G. Clark, a farmer living near  
Craig, almost clipped off one of his  
little two-year-old son's feet with a  
mowing machine. The little fellow  
jumped out of the tall grass imme-  
diately in front of the machine. Be-  
fore the machine could be stopped an  
artery had been severed and the bone  
of the ankle cut through.

Adolf Kaplan, a young Bohemian  
aged 18, who came from his native  
land but a short time since and was  
employed on the farm of Prokop Castek  
near Schuyler, died from sunstroke  
last Thursday. He was in the field  
alone with a team cultivating corn.  
A young girl went out with lunch for  
him and found him lying dead behind  
the cultivator, where he had fallen.

Three members to represent Nebras-  
ka in the joint boundary commission  
authorized by the state of Nebraska  
and South Dakota in the location of a  
dividing line between the two com-  
monwealths were appointed today by  
Governor Mickey. The choice of the  
executive fell upon C. J. Swanson of  
Oakland, Dr. F. O. Robinson of Hart-  
ington and E. A. Lungberg of Wayne.  
The appointments were made by vir-  
tue of an act passed by the last legis-  
lature, similar action having been  
taken by the lawmakers of South  
Dakota. The commissioners are to  
receive \$10 per day for not more than  
thirty days as compensation.

Hastings Tribune: Theodore Burr  
of Juniata is lying in the county  
bastile in this city awaiting trial at  
the next term of the district court on  
the charge of stealing goods and cash  
from his father's store in Juniata.  
Young Burr is a graduate of the  
Juniata high school and in that town  
is regarded as being a very bright  
young man, and his downfall is there  
universally regretted. The elder Burr  
purchased the business at Juniata a  
short time ago supposedly to give to  
his son, however, he continued it on  
his own name and employed the young  
man as clerk. Valuables disappeared

from time to time until at last un-  
doubted evidence pointed to the  
young man as culprit. His father  
then gave him a stated number of  
days to leave the country, and on his  
failure to do so he was apprehended.  
He was testified against by his father,  
mother, and sister.

address W. E. West, agent, or Fred  
Rogers, G. P. A., Sioux City.

### Danger of Colds and Grip.

The greatest danger from colds and  
grip is their resulting in pneumonia.  
If reasonable care is used, however,  
and Chamberlain's Cough Remedy  
taken, all danger will be avoided.  
Among the tens of thousands who  
have used this remedy for these dis-  
eases we have yet to learn of a single  
case having resulted in pneumonia,  
which shows conclusively that it is a  
certain preventive of that dangerous  
disease. It will cure a cold or an at-  
tack of the grip in less time than any  
other treatment. It is pleasant and  
safes to take, or sale by P. C. Corri-  
gan.
