THE O'NEILL FRONTIER

D. H. CRONIN, Publisher.

O'NEILL, NEBRASKA

"Neckwear made to order" is the sign hanging in the window of a conservative and high-priced haberdashery in Fifth avenue. "We have to do it to save ourselves trouble," one of the clerks explained. "Men used to be content to buy the kind of ties we showed them. But now nine men out of ten have their own ideas as to how they want scarfs made. One man wants a narrow scarf and the other a broad one. Some would be delighted to take a scarf if the material were only made in a different form. The upshot of it is the sale of specially-made ties.

Among the curious features of Chicago's centennial celebration is the alleged discovery that this is not the city's centennial at all. Monroe Nathan Work, a negro student in the University of Chicago, in a thesis on negro real estate holdings in Chicago, puts forward the claim that the first settler was Jean Baptiste Point de Saible, a San Domingo negro, who came into Illinois with the French settlers and built a log cabin on the north bank of the Chicago river in 1777, or twenty-six years before the arrival of John Kinzie's party.

"The Mrs. Theodore Roosevelt" is the name of a new lily which has been hybridized by Joseph Tailby of Wellesley, and received a silver medal from the Massachusetts Horticultural society as being the finest novelty in the way of decorative plants ever hybridized in the United States. The new lily is about two feet high and resembles a sub-tropical plant, having large, dark green, silvery spotted leaves and tall primrose yellow spathes. It is strong and hardy, lives out of doors and is able to reproduce itself from seed.

A man of 80 odd years died last week in New York, leaving written on a small sheet of paper the following: "Personal memoirs. At the age of 30 I gave up dancing; at 40, my endeavors to please the fair sex; at 50, my regard for public opinion; at 60, the trouble of thinking, and I have now become a true sage, or an egotist, which is the same thing. I never meddled in any marriages or scandals; I have never recommended a cook or a physician; consequently I have never attempted the life of any one."

All kinds of people in the United States go abroad. In the second cabin you will find men who work for day's wages, school teachers, clergymen from the country towns and villages, merchants, farmers, mechanics and representatives of every profession and persuasion, who consider it profitable to spend $50 or $60 of their savings for a steamship ticket in order that they may have an opportunity of seeing something of the world.

A surgeon of St. Petersburg has been making some interesting experiments with the Bacquerel rays on the eyes of the blind. He finds that persons who are wholly blind, or those who have only the feeblest possible perception of light, are peculiarly sensitive to the days. In many cases they were able to form visual conceptions of the form of objects, the shadows of which were thrown on a screen by means of the rays.

It has been noticed that dust has a tendency to collect on electric light fittings and wires, and on walls and ceilings near them. The cause is believed to be two-fold—partly the influence of air currents induced by local heating, and partly the electrification of the dust particles, which, when floating in a room, are attracted to the electric conductors on the non-earthed side of an earthed system.

President James J. Hill, of the Northern Securities company, proved himself equal to the emergency when his train was wrecked out in Wisconsin the other day. He peeled off his coat and set to work with the train hands to clear the track, carrying ties, shoveling sand and lending a hand with the heavier pieces of debris whenever his services were required.

Emigration from the Turkish empire is forbidden. No man or woman is permitted to leave a Turkish port without a tschera, or permit, which must be obtained from the police authorities, and under the general instructions and policy of the Turkish government tscheras can not be issued to subjects of the sultan.

The grape cure at Weisbaden has for a long time been an important feature of the autumn season at that famous health resort. The worth of the cure lies in the high per cent. of sugar in the fruit, grapes being from 25 to 50 per cent. sugar, with important elements of acid and water.

Some idea of the size of John D. Rockefeller's mail may be drawn from the fact that 500 letters addressed to him have been received at the Eldorado Springs, Mo., postoffice as a result of a report which was sent out recently that he was going there to drink the waters.

Two mammoth silos have been built on the ground devoted to live stock at the world's fair. The silos are now being filled and the ensilage will be fed to the cows participating in the dairy demonstrations next year. The silos are built of California redwood.

Princess Ferdinand of Roumania has inherited much musical talent from her father, the late duke of Coburg, who was "the fiddling prince of Great Britain." The princess plays the violin well. She has a hobby for collecting perfumery bottles.

Leslie Cahill, 11 years old, of Waltham, Mass., has been appointed soprano soloist of Grace church, the most aristocratic house of worship in New York. The lad is said to possess a voice of remarkable sweetness and range.

Husband—Where did you get that sideboard? Wife—At an auction, for $100. Husband—Awful! I could have bought the same thing for $50. Wife—Well, I wasn't going to let that woman across the way outbid me.

A Nebraska court has held that where a man receives a check in payment of a bill, and lives in the same town with the bank on which the check is drawn, his only safeguard is to cash the check the following day at the latest.

Postmaster Arthur, of Bryn Mawr, Pa., has sent four wagonloads of mail for the girls at Bryn Mawr college. It was second and third-class matter that had arrived at Bryn Mawr during the summer, when the college was closed.

Monsieur Blondlot, a member of the French Academy of Sciences, discovered, not long ago, that invisible rays, capable of penetrating solid substances, are given off from the incandescent mantles of the Welsbach light.

NOTICE OF
DELINQUENT TAX SALE

Notice is hereby given that on November 2d, 1903, that being the first Monday in November, there will be a public auction of all the tracts of lands and town lots in Holt county, Nebraska, on which the taxes are delinquent for any year. That at said sale so much of each tract of land or town lot will be sold as may be necessary to pay the full amount of the delinquent taxes accruing, cost and interest thereon to the date of sale. That such sale will be continued from day to day until all of said tracts of land and town lots shall have been offered. The following is a complete list of the tracts of land and town lots in Holt county, Nebraska, on which there is delinquent taxes.

The amount of delinquent taxes, interest and accruing costs, less advertising for the year 1903 (interest computed thereon up to November 2d, 1903, follows each description).

D. J. Cronin,
Treasurer Holt County, Nebraska.

SHERIDAN TWP.
Twp. 28, Range 14.
