

### Two severe cases of Ovarian Trouble and two terrible operations avoided. Mrs. Emmons and Mrs. Coleman each tell how they were saved by the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I am so pleased with the results obtained from Lydia E. Pinkham's Vegetable Compound that I feel it a duty and a privilege to write you about it.  
"I suffered for more than five years with ovarian troubles, causing an unpleasant discharge, a great weakness, and at times a faintness would come over me which no amount of medicine, diet, or exercise seemed to correct. Your Vegetable Compound found the weak spot, however, within a few weeks—and saved me from an operation—all my troubles had disappeared, and I found myself once more healthy and well. Words fail to describe the real, true, grateful feeling that is in my heart, and I want to tell every sick and suffering sister. Don't dally with medicines you know nothing about, but take Lydia E. Pinkham's Vegetable Compound, and take my word for it, you will be a different woman in a short time."—Mrs. LAURA EMMONS, Walker-ville, Ont.

### Another Case of Ovarian Trouble Cured Without an Operation.

"DEAR MRS. PINKHAM:—For several years I was troubled with ovarian trouble and a painful and inflamed condition, which kept me in bed part of the time. I did so dread a surgical operation.  
"I tried different remedies hoping to get better, but nothing seemed to bring relief until a friend who had been cured of ovarian trouble, through the use of your compound, induced me to try it. I took it faithfully for three months, and at the end of that time was glad to find that I was a well woman. Health is nature's best gift to woman, and if you lose it and can have it restored through Lydia E. Pinkham's Vegetable Compound I feel that all suffering women should know of this."—Mrs. LAURA BELLE COLEMAN, Commercial Hotel, Nashville, Tenn.

It is well to remember such letters as above when some druggist tries to get you to buy something which he says is "just as good." That is impossible, as no other medicine has such a record of cures as Lydia E. Pinkham's Vegetable Compound; accept no other and you will be glad.

Don't hesitate to write to Mrs. Pinkham if there is anything about your sickness you do not understand. She will treat you with kindness and her advice is free. No woman ever regretted writing her and she has helped thousands. Address Lynn, Mass.

**\$5000 FORFEIT** if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness. Lydia E. Pinkham Medicine Co., Lynn, Mass.

# Practical Farm Notes

### The Windsor Cherry.

The Windsor cherry, shown in the illustration, is of comparatively recent introduction, yet old enough to have been thoroughly tested in nearly every section of the country where cherries may be grown to advantage. In only one section has it failed and that in the northwest, where it is almost impossible to carry any variety but the Early Richmond through the severe winter. The tree is a vigorous grower, the fruit large, firm, juicy and

several seasons thereafter. Nitrogen is one of the plant foods that must be cautiously handled when applied to fruit growing soil and there are few soils in good condition which require more than 100 pounds of nitrate of soda yearly. Potash, however, is greatly needed by most fruits and may be applied in large quantities with much danger to the tree or to the soil, although the better way to use it, either the sulphate or muriate, is in lots of 100 to 150 pounds per acre each and every year. Applied in this way fruit raised on fairly good soil will give better results for less expense than by heavier applications at longer intervals.

### Look Out for Swindlers.

The crop of swindlers working in farming districts has been greater than ever this spring. Here are two of the latest. A number of men are working in different states selling a stock remedy on this plan. They appoint a local agent and offer to supply him with a stock of the remedy to be paid for after it is sold, but they require signature to a contract ordering about \$100 worth of the stuff to be shipped prepaid. At the end of a month the farmer agent is notified that he is indebted to the concern for the amount of the contract (which by the way is in the hands of the swindler, the former agent having been given no duplicate) and suit is brought for a smaller amount so as to keep it in a lower court. The farmer generally pays or compromises. The other swindler offers to set out an acre or more of trees and take half his pay from the crops of fruit. His scheme is to ask about one-half acre, then the tract is worth on the plea that they are some new and wonderful variety and hence are sold at half (?) price, the other half to be paid, as stated, from the fruit. Suffice it to say this swindler having collected his price for the trees, which are generally of inferior sorts, never turns up for his share of the crops. Better confine purchases to local dealers or to men who advertise in papers of reliability and let general agents with wonderful propositions alone.

### Destroying Cabbage Worms.

If the worms appear while the plants are very small the best thing to kill them is white hellebore (obtainable at any drug store), used either by dissolving one ounce in each two gallons of water and spraying or sprinkling the plants or by applying it dry, dusting it on. As the plants get older and larger the best remedy for the worm is the common insect powder known as pyrethrum, which is best applied by mixing one pint of it with two quarts of coarse flour in a cloth bag for a day and then apply with an insect bellows. The house found on cabbage is best destroyed by applications of tobacco water, which is made by using one pound of tobacco stems in four gallons of water and adding enough hot water to make all hot. Let the mass stand until the water is cold, strain and add soft soap at the rate of two pounds to each fifty gallons of the infusion. Apply with a sprayer or a spraying pump.

### Care of Horses Necks.

Nine out of every ten farm horses suffer from abrasions of the skin on the neck during the spring work and this is so severe in many cases as to keep the horse from doing a full day's work. Try this plan of treating the farm horse during the season of hard work. After feeding the horse brush off all the perspiration with a soft brush or, better still, wipe it off with a large cloth. Then, with tepid water, sponge the neck and head and wipe dry with a clean cloth. If the shoulders show indications of soreness rub over them a little vaseline and let it remain over night. See that the collar worn fits well and after taking it off wipe it thoroughly with a damp cloth and hang it where it will be thoroughly dry in the morning. It will pay well to take this little additional care of the horse during the working season if at no other time.

### Fruit Packages of the Season.

Everything points to a general adoption of the box as the package to be used by orchardists the coming season and apples of good quality will be packed in them to the exclusion of barrels, especially where a discriminating market is being catered to. The berry basket of the season is made of paper and it is sold at a price which greatly reduces the loss of the grower which has been quite a sum on this item. The crate of paper is also shown, but it looks too light and is still an experiment. A few grape baskets of paper are also on the market but offer the same objection as the berry crates. A start along the right road has been made, however, and fruit growers will be glad to encourage manufacturers. A point which all fruit growers should bear in mind is that the city resident has little room for storage and hence will pay much higher prices in proportion for good fruit in small packages than ordinary fruit in large packages. They will also pay more for a dozen fresh eggs neatly packed in a clean box than they will for the same number more or less soggy taken from a bushel basket. Try it and you'll see it is so.

### Two Handy Farm Tools.

The illustration shows two tools that will be found exceedingly useful and they are easily made by the handy man. The wheel marker will be found most useful in the garden for marking vegetable rows. It is made by taking an old wheel of convenient size and after making holes

through the tire between each spoke set in three holes pegs of hard wood. Then make a handle of a half inch piece of board, having it about two and one-half inches wide, and fasten it to the hub of the wheel with a bolt. Fasten it loosely so that it will revolve easily. Finish the handle with a strong crosspiece so that it may be readily pushed. The little tool in the corner is homemade dibble fashioned from the end of an old fork or shovel handle and sharpened to the proper point. This little tool will save lots of hard wear on the hands.

### Plant Foods for Fruits.

While it is, of course, recognized that the soil must contain the three plant foods in more or less varying quantities, more or less of one of the three must be applied yearly for the best results. Undoubtedly there is much fertilizer extravagantly used and generally because the grower does not understand the value of regular applications, but puts on great quantities one season and none at all for

## U. S. SENATOR FROM SOUTH CAROLINA Recommends Pe-ru-na For Dyspepsia and Stomach Trouble.

EX-SENATOR M. C. BUTLER

Catarrh of the Stomach is Generally Called Dyspepsia—Something to Produce Artificial Digestion is Generally Taken.

Hence, Pepsin, Pancreatin and a Host of Other Digestive Remedies Has Been Invented.

These Remedies Do Not Reach the Seat of the Difficulty, Which is Really Catarrh.

E. U. S. Senator M. C. Butler from South Carolina, was Senator from that state for two terms. In a recent letter to The Peruna Medicine Co. from Washington, D. C., says:

"I can recommend Peruna for dyspepsia and stomach trouble. I have been using your medicine for a short period and I feel very much relieved. It is indeed a wonderful medicine besides a good tonic."—M. C. Butler.

The only rational way to cure dyspepsia is to remove the catarrh. Peruna cures catarrh. Peruna does not produce artificial digestion. It cures catarrh and leaves the stomach to perform digestion in a natural way. This is vastly better and safer than resorting to artificial methods or narcotics.

Peruna has cured more cases of dyspepsia than all other remedies combined, simply because it cures catarrh wherever located. If catarrh is located in the head, Peruna cures it. If catarrh has fastened itself in the throat or bronchial tubes, Peruna cures it. When catarrh becomes settled in the stomach, Peruna cures it, as well in this location as in any other.

Peruna is not simply a remedy for dyspepsia. Peruna is a catarrh remedy. Peruna cures dyspepsia because it is generally dependent upon catarrh.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

### The Glover Burglar.

London News: The plain and simple means of "getting round" the finger mark experts of Scotland Yard has at last commended itself to the burglar mind. In evidence given in a case at Windsor on Saturday it was made plain that the cracksmen who made a haul of jewelry at Lady Mary Currie's some months ago had worn gloves all through the operation. The panels and panes of glass examined through the optical microscope showed no tell tale traces of the presence of any well known practitioner, but merely a number of blurred marks. So another detail is added to the already large outfit of the modern burglar, who will now carry his gloves along with his list slippers, his keys, his drills, his saws, his centerbit, his glasscutter, his wrench, his dynamite, his lantern, his revolver and so forth. It is a business that calls for some capital.

### Time to Act.

When the back aches and you are a lways tired out, d e p r e s s e d and nervous—when sleep is disturbed by pain and by urinary ills, it's time to act. The kidneys are sick. Doan's K i d n e y Pills c u r e sick kidneys quickly and permanently. Here's proof:

Mrs. W. S. Marshall, R. F. D. No. 1, Dawson, Ga., says: "My husband's back and hips were so stiff and sore that he could not get up from a chair without help. I got him a box of Doan's Kidney Pills. He felt relief in three days. One box cured him."

A FREE TRIAL of this great kidney medicine which cured Mr. Marshall will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. Sold by all dealers; price 50 cents per box.

Terrible (When Father Kicked). "Poor Harold can't sit down." "Why not?" "Splinters!" "How's that?" "His girl's old man's got a wooden leg."

### Could You Use Any Kind of a Sewing Machine at Any Price?

If there is any price so low, any offer so liberal that you would think of accepting on trial a new high grade, drop cabinet or upright Minnesota, Singer, Wheeler & Wilson, Standard, White or New Home Sewing Machine, cut out and return this notice, and you will receive by return mail, postpaid, free of cost, the handsomest sewing machine catalogue ever published. It will name you prices on the Minnesota, Singer, Wheeler & Wilson, White, Standard and New Home sewing machines that will surprise you; we will make you a new and attractive proposition, a sewing machine offer that will astonish you.

If you can make any use of any sewing machine at any price, if any kind of an offer would interest you, don't fail to write us at once (be sure to cut out and return this special notice) and get our latest book, our latest offers, our new and most surprising proposition. Address SEARS, ROEBUCK & CO., Chicago.

Biff! Bang! "Cholly is going to enter the automobile race." "Do you think he'll be in the van at the finish?" "No; in the ambulance."

The most happy are not those who are always seeking self pleasure.
