HON. M. P. KINKAID, M. C.—CANDIDATE FOR REELECTION

INTENSE activity and more accomplished in the brief period of eleven months than had been done in as many years previously for western Nebraska, is the record of Judge Kinkaid in the national house of representatives expressed briefly.

The record of Judge Kinkaid, who was unanimously renominated by the republicans of the Sixth congressional district, is his best recommendation to the voters. It is a record in which the most astute political opponent has not been able to find a flaw.

Judge Kinkaid was elected to congress in November, 1902; took his seat in that body at a special session one year later. In the make up of the committees he was assigned to those on insular affairs and Pacific railroads; introduced a bill to allow settlers on the old Fort Randall reservation another homestead right; originated and secured the enactment of the 640-acre homestead law; secured numberless pensions for the old soldiers of the district; got a little over a township reserved from the public domain for the Fort Niobrara military post; secured the opening to settlement under the section homestead law of nearly two townships in Box Butte county that had been held for resurvey. Besides the judge has kept up the regular departmental work of the district, of which there is a great deal, and takes an active interest in the wishes and claims of the people of the district of all conditions and shades of political belief.

Republicans are fortunate in having the judge in the party; the people are fortunate in having him in congress. Let us keep him there.

South Omaha Market
South Omaha, Sept. 29.—We have had the heaviest receipts of the season so far this week, there being about 28,000 cattle here for the first three days. Prices held up fairly well till Wednesday. Speculators had their pens filled and could take no more; this caused a sort of a glut and anything but choicest kinds were hard to dispose of except at a sacrifice.

Corn-fed—Choice steers \$5.50 to \$5.90; fair to good, \$4.50 to \$5.40; cows and heifers, \$3.00 to \$4.00.

Grassers—Hay-fed, \$4.00 to \$4.40; choice killers \$3.50 to \$3.75; choice feeders, \$3.40 to \$3.60; good feeders, \$2.90 to \$3.25; stockers, \$2.50 to \$3.00; good cows and heifers, \$2.50 to \$3.00; cutters, \$2.15 to \$2.50; canners, \$1.50 to \$2.00; bulls, \$1.75 to \$3.50; veal, \$3.50 to \$5.50.

Hog receipts light and the market generally advancing but weaker the last two days. Range \$5.65 to \$5.90.

We have had heavy receipts of sheep again, breaking the record of the yards, but the demand is so great that the market has held nearly steady.

Weekes began an action in the District Court of Holt county, Nebraska against you, the object and prayer of said petition being to obtain judgment against you for the sum of \$225 with interest at 10 per cent from September 14th, 1904 on a certain promissory note given by you to the plaintiff Weekes for \$440 dated October 15th, 1901, due in one year after date; plaintiff alleging in said petition that he is the owner of said note and that the same is due and unpaid.

You are further notified that on the same day the plaintiff Weekes filed an affidavit for an order of attachment against you alleging as a grounds therefore that you are both non residents of the state of Nebraska and that on the same day a writ of attachment was issued and that on the 9th day of September, 1904, the sheriff of Holt county, Nebraska, by virtue of said writ of attachment levied the same upon the following described real estate as your property, to wit:

Lot two (2) block A Millard's addition to the city of O'Neill, and the southeast quarter and the southwest quarter of the Northeast quarter of Section thirty one (31), and the southwest quarter of the Northwest quarter of Section thirty-two (32) all in Township twenty nine (29), North of Range eleven (11), Holt county, Nebraska; and that said writ of attachment was returned September 21st, 1904. Plaintiff prays that he may have judgment against you for the above amount and that the attached property be sold to satisfy said judgment and costs. You are required to answer said petition on or before the 7th day of November, 1904.

R. H. DRICKSON,

For Sale—Full blood red Jersey hogs.—B. A. Johring. 8-10

The Frontier can supply manifold paper for office use in any size or quantity.

Dr. Corbett will be in his dental office and gallery from the 23d to 30th of each month. 17-1f

The bunch of twenty-four head of stolen or stray horses Sheriff Hall took up some week ago southwest of O'Neill have all been claimed by the owners.

"The burdens of life and what to do with them" is the topic for the Presbyterian pulpit next Sabbath evening. Service begins 7:30. Offering for home missions.

Rev. Amos Fetzér departed the first of the week for Bancroft, his new pastoral charge. Rev. Mead, the new Methodist pastor for the O'Neill church, arrived here last Friday.

The weather this fall could not be made to order any better. With no frost as yet to amount to anything, the corn crop has thoroughly matured. So far as vegetation is concerned a freeze up can come any time without damage.

Hogs at \$5.20 the hundred pounds are pretty good property. In fact, the products of the farm all bring good prices and with fairly good crops and large acreage the thrifty husbandman finds things coming pretty much his way right now.

Mrs. J. J. Butler and Miss B. Kennedy of Lincoln were O'Neill visitors Tuesday. Mrs. Butler is the wife of one of the original incorporators of the townsite of O'Neill. They have property interests here and Mrs. Butler was up looking after the same.

There will be the usual heavy demand for Elkhorn valley hay this year. It is considered superior to any other wild hay and always finds a ready sale. As an illustration, M. M. Sullivan shipped the Union Stock yards at South Omaha a car of hay the first of the week and got a telegram back to ship them 500 cars between now and January 1.

We heard of a man the other day who was using as an argument for county division a tale to the effect that the county did not own the court-house. If it doesn't own it, there is a big rent bill that ought to be figured in when the division is made.

Next Sunday will be rally day with the Presbyterian Sunday school. A musical and literary program has been prepared for the occasion to be rendered at 10:30 in the morning. An invitation is extended to all to attend, especially parents of scholars in the school.

Berle Martin is over from Bonesteel with his arm in a sling. It comes in a sling by no unlawful means or belligerent conduct. He met with an accident while up a telephone pole adjusting the wires which put his shoulder out of place and made him temporarily a cripple.

W. J. Bryan will address the people of Cedar county at Randolph October 5, the second day of the Randolph fair. The fair association tried to secure the O'Neill band to furnish music for the occasion but owing to the business engagements of some of the members, the band was unable to accept the invitation.

Democrats positively deny that there is anything to the story that a petition has been circulated by certain members of the Bryan school calling a conclave for next month to unite themselves with the pops of Holt county to down Parker. Until further developments, then, the incident will be considered closed.

The almost unprecedented fruit crop all over the country this year has had the effect of cleaning out the glass jar market. There has been an unusual heavy demand all summer for jars and other vessels for storing away fruit for the winter, until every available thing in this line has been bought up. O'Neill grocerymen were cleaned out of jars ten days ago and can procure no more as the wholesale and manufacturers are out.

The rising feminine generation in O'Neill is taking to horseback riding. They hang a foot on each side of the horse just like the boys; which same is the latest and best method of meeting the bumps of the saddle regularly.

Lead Daily Call: The Curts Dramatic Co. played here the first three nights this week to packed houses, giving entire satisfaction. They are the best of the kind that comes up this line of road and we can safely recommend them to our patrons. At the Opera-house Oct. 3-4-5.

The republican headquarters just east of Hotel Evans has been put in inviting condition, the room furnished with chairs, tables, papers and other reading matter and the walls and windows decorated with pictures and flags. This will be the official headquarters of the Roosevelt and Fairbanks club of O'Neill but it is not designed to exclude anyone from making themselves at home there any time they see fit.

The longest ears of corn on exhibition in the palace of agriculture at the world's fair were raised within the corporate limits of St. Louis and are displayed in the Missouri exhibit. The display consists of three ears of yellow field corn, two of which were 17 inches long, while the other lacked but a fraction of an inch of that length. Accompanying the corn was a challenge to all other exhibitors in the palace of agriculture to produce ears that would outmeasure the city product.

It is somewhat remarkable when you stop to reflect what the soil of mother earth will produce. The agricultural editor estimates that an acre of ground can be made to produce better than \$100 in products suited to this latitude in one season. His estimate is based on a little personal experience. From a patch of ground 30x80 feet himself and better half garnered garden products to the value of about \$13, actual market value. This, of course, was husbandry on a very limited scale, but it served to

demonstrate the willingness of nature to produce for man. Aside from the dietary blessings such labor yields, there is a genuine pleasure in spending an hour or two every day among the plants and products of nature during the producing season of the year.

Stray or stolen, on Sept. 8, 1904, from Harry Weekes' place 2 miles south of O'Neill, one bay mare 8 years old, weight about 1200; scar on left shoulder caused from thistle; one brown gelding coming three years old, weight about 850. Liberal reward for their return or information leading to their recovery.—John Skirving. 13-3

In 1842 a Russian farmer named Bokareff conceived the idea of extracting oil from the seed of the sunflower. His neighbor told him it was a visionary idea and that he would have his labor for his pains. He persevered, however, and from that humble beginning the industry has expanded to enormous proportions. Today more than 7,000,000 acres of land in Russia are devoted to the cultivation of the sunflower. Two kinds are grown, one with small seeds which are crushed for oil, and the other with larger seeds, that are consumed by the poorer people in enormous quantities.

Mriages

Tuesday morning at the Catholic church in this city occurred the wedding ceremony uniting Mr. Peter Donohoe and Miss Hanna Morrison as husband and wife. Both bride and groom are well known to O'Neill people and in the immediate vicinity northwest of here where they have lived for years. Mr. Donohoe is one of the most substantial farmers and stockmen of this section and he found a very worthy helpmate in Miss Morrison.

Wednesday County Judge Morgan issued the license and performed the ceremony uniting in marriage the following couples: Charles Buckman and Miss Mary Wright of Atkinson; Albert Brodie of Orchard, son of Wilson Brodie of Dustin, and Miss Zala Manning of Ewing.
