

PROVERBS

"When the butter won't come put a penny in the churn," is an old time dairy proverb. It often seems to work though no one has ever told why.

When mothers are worried because the children do not gain strength and flesh we say give them Scott's Emulsion.

It is like the penny in the milk because it works and because there is something astonishing about it.

Scott's Emulsion is simply a milk of pure cod liver oil with some hypophosphites especially prepared for delicate stomachs.

Children take to it naturally because they like the taste and the remedy takes just as naturally to the children because it is so perfectly adapted to their wants.

For all weak and pale and thin children Scott's Emulsion is the most satisfactory treatment.

We will send you the penny, i. e., a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

SCOTT & BOWNE, Chemists, 409 Pearl St., N. Y. 50c. and \$1.00; all druggists.

In arranging for your Christmas presents I wish to suggest Photographs. There is nothing more appropriate. Corbett's make them at \$1.00 per dozen for quarter cub, \$2.00 per dozen for half cub, oval, \$3.00 per dozen full cub, ovals. 16-1f

GIANT RAILROAD TRUST

All Systems of Country to Be Controlled by One Vast Combine.

STANDARD OIL BEHIND SCHEME

Details of Great Plan Said to Be Working Out Slowly But Surely and May Be Consummated.

Omaha Bee: If what a Chicago Sunday paper says is true a railroad combination of such magnitude that its contemplation staggers and bewilders the senses is being developed by the financial giants of this country and the details already have reached a point where it is believed there is no longer a doubt of the realization of the stupendous scheme. The alleged plan has under consideration the amalgamation of all the railroad corporations of the country into one gigantic system.

It is said the Standard Oil interests, headed by a dozen eastern Napoleons of finance, are backing the scheme. They expect, with their almost unlimited wealth, to control all the railroad systems of the country and prevent competition among the various lines.

The plan is to divide the railroads of the country into a few groups or systems, each one of which is to own a substantial interest in the stocks and securities of every other big group or system. In other words all the proposed groups or systems would be under the one control but grouped into systems for purposes of easy management. Each group would be represented on the various boards of directors.

The combination is to control over one hundred and sixty thousand miles of railroad valued at five billion dollars. It will see to it that all the roads are managed economically with the rates kept up to as high a figure as the tariff will permit in order to pay good dividends on the enormous capitalization. The recouping of the systems has been going on for some time but the plans are not complete. Most of the American roads are identified by strong traffic agreements with other roads, but a few still maintain their independence. Among these are the Lackawanna, the Great Western, the Minneapolis, St. Louis & Iowa Central, the Lehigh and the Moffat road.

The San Pedro road which Senator W. A. Clark of Montana started to build from Salt Lake City to the Pacific coast was intended to be an independent line. He started east from the coast. The Oregon Short Line, a Harriman road, was started west to head him off. They met at Calientes, Nev., and locked horns in a canyon in the mountains. There the two interests were chained tight and fast but Senator Clark finally succumbed and Harriman secured control of his road and it is being rapidly completed.

The Vanderbilts control many of the New England roads. J. Pierpont Morgan controls many of the Southern lines. The Illinois Central is classed with the Harriman system. The Rockefeller millions, the wealth of the Moore brothers, of the Goulds, of J. J. Hill, of Harriman and the syndicate which he represents, all these moneyed interests are more or less intermingled in the various railroads interests of the country.

It is said that B. B. Stickney, president of the Great Western, which is owned by foreign interests, was approached more than a year ago to ascertain if his road is in the market and the terms upon which the control of the road would be secured. The Santa Fe also is owned largely by foreign capital, but it is believed this system could be secured and taken over. It certainly is in no position to make a long fight against the interests which would be pitted against it.

It is reported that the Rockefeller and Harriman interests have secured large holdings of stock in the Santa Fe. The Harriman syndicate controls a vast system of railroads between the Mississippi and the Pacific coast; the Vanderbilts and the Standard Oil company, back of which are the Rockefellers, control vast systems in the east; the Moore brothers ramify the middle west and extend east and west with their vast interests; J. J. Hill controls the Northern Pacific system and he is behind the Burlington system. The Northwestern, which is now talking of building to the coast, is backed by the Vanderbilt millions. What is to prevent the plans of these financial monarchies from going through? They are already more or less interested in each other's property. Each money power owns more or less of the securities of its competitor and rival. A combination of all these interests would permit the reduction of many expenses, would permit more economical management, besides the curtailing and cutting of corners which would mean greater dividends.

Besides the railroads, the combination would have an interest in the steamboat monopolies of the Atlantic and the steamship interests of Hill and

THERE ARE NO CROOKED ROADS

to be traversed by those who want to bank with us and learn about our methods. Ask the Bank Examiner how we stand and you won't want to go further. You can check at sight on your deposits and they will be promptly paid over. It's one straight road that leads on to prosperity—when your patron of ours. Our investments are among the wisest and best that can be placed. All this helps add security to our depositors. Come in and be one of them.

O'NEILL NAT'L BANK

Harriman on the Pacific. In short, if the present plans do not fail, it will give the new railroad colossus a grip on two-thirds of the world and that the combination will be formed is now almost certain.

From South Africa New Way of Using Chamberlain's Cough Remedy.

Mr. Arthur Chapman writes from Durban, Natal, South Africa, says: "As a proof that Chamberlain's Cough Remedy is a cure suitable for old and young, I pen you the following: A neighbor of mine had a child just over two months old. It had a very bad cough and the parents did not know what to give it. I suggested that if they would get a bottle of Chamberlain's Cough Remedy and put some upon the dummy teat the baby was sucking it would no doubt cure the child. This they did and brought about a quick relief and cured the baby. This remedy is for sale by P. C. Corrigan.

The Nebraska experiment station conducted experiments using poison to destroy prairie dogs. Interest in the subject has increased since then, owing to the spread of the pest and to legislation. The very successful formula issued by that station has been modified by other workers and made somewhat less expensive. However, since dogs will not eat poison freely at all seasons of the year, and since many object to the use of poison, the authors have introduced the use of two very cheap substances for fumigation. These are volatile hydrocarbon oils obtained at gas works. A number of towns have been successfully exterminated by means of these substances.

Chamberlain's Cough Remedy is Pleasant to Take.

The finest quality of granulated loaf sugar is used in the manufacture of Chamberlain's Cough Remedy, and the roots used in its preparation give it a flavor similar to maple syrup, making it quite pleasant to take. Mr. W. L. Toderic, of Poolesville, Md., in speaking of this remedy, says: "I have used Chamberlain's Cough Remedy with my children for several years and a truthful way it is the best preparation of the kind I know of. The children like to take it and it has no injurious after effect. For sale by P. C. Corrigan.

Kansas City Star: The tone of the southern press is to the effect that the south can stand it if the rest of the country can, because cotton is high and prosperity is general. There seems to be this difference between the north and south: The people in north found inspiration in the conditions from which the south draws only consolation.

Disastrous Wrecks.

Carelessness is responsible for many a railway wreck and the same causes are making human wrecks of sufferers from Throat and Lung troubles. But since the advent of Dr. King's New Discovery for Consumption, Coughs and Colds, even the worst cases can be cured and hopeless resignation is no longer necessary. Mrs. Lois Cragg, Dorchester, Mass., is one of many whose life was saved by Dr. King's New Discovery. This great remedy is guaranteed for all Throat and Lung diseases by P. C. Corrigan. Price 50c, and \$1.00. Trial bottle free.

The annual earnings of the poultry industry of the United States are two hundred and ninety millions dollars.

Doesn't Respect Old Age

It's shameful when youth fails to show proper respect for old age, but just the contrary in the case of Dr. King's New Life Pills. They cut off maladies no matter how severe and irrespective of old age. Dyspepsia, Jaundice, Fever, Constipation all yield to this perfect Pill; 25c at P. C. Corrigan, drug store.

The Frontier \$1.50.

A Continual Strain
Many men and women are constantly subjected to what they commonly term "a continual strain" because of some financial or family trouble. It wears and distresses them both mentally and physically, affecting their nerves badly and bringing on liver and kidney ailments, with the attendant evils of constipation, loss of appetite, sleeplessness, low vitality and despondency. They cannot, as a rule, get rid of this "continual strain," but they can remedy its healthdestroying effects by taking frequent doses of Green's August Flower. It tones up the liver, stimulates the kidneys, insures healthy body functions, gives vim and spirit to one's whole being, and eventually dispels the physical or mental distress caused by that "continual strain." Trial bottle of August Flower 25c; regular size, 50c. At all druggists.

The United States government is now laying a cable from Seattle to various points on the Alaska coast. Sitka and other important points will be connected as far as the military stations on Behring Sea at the mouth of the Yukon. The cable will be over thirteen hundred miles in length.

Not A Sick Day Since.

"I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which relieved me. One day I saw an ad. of your Electric Bitters and determined to try that. After taking a few doses I felt relieved, and soon thereafter was entirely cured, and have not seen a sick day since. Neighbors of mine have been cured of Rheumatism, Neuralgia, Liver and Kidney troubles and General Debility." This is what B. F. Bass, of Fremont, N. C. writes. Only 50c at P. C. Corrigan druggist.

Word and Works: An apple kept in a cake box will keep a rich cake moist and fresh for a long time. Remove the apple when it is withered.

Only Makes a Bad Matter Worse.
Perhaps you have never thought of it but the fact must be apparent to every one that constipation is caused by a lack of water in the system, and use of cathartics like the old fashioned pills only makes a bad matter worse. Chamberlain's Stomach and Liver Tablets are much more mild and gentle in their effect, and when the proper dose is taken their action is so natural that one can hardly realize it is the effect of a medicine. Try a 25 cent bottle of them. For sale by P. C. Corrigan.

A democrat of Joplin, Mo., rolled a peanut on the sidewalk for two blocks with a pin to pay an election bet.

A Runaway Bicycle

Terminated with an ugly cut on the leg of J. B. Orner, Franklin Grove, Ill. It developed a stubborn ulcer unyielding to doctors and remedies for four years. Then Bucklen's Arnica Salve cured. It's just as good for Burns, Scalds, Skin Eruptions and Piles. 25c, at P. C. Corrigan drug store.

A destructive snow storm swept over the New England states Monday

Special Excursion Rates to Chicago and to St. Louis via Chicago.

Via the North-Western Line. Excursion tickets will be sold daily until Nov. 30th, inclusive, with favorable return limits. Apply to agents Chicago & North-Western R'y.

LEAVENED BREAD

Has Been Man's Constant Mainstay From Time Immemorial.

Some writer has said that "The first miller emerging from his savage state, with no thought save hunger, plucked the wheat from the stock, and, using his teeth for millstones, ground the first grist for a customer who would not be denied—his stomach." Thus gaining experience by test in the food line, it would be only natural for this miller to lay up a quantity of grain against an hour of need. Just when he commenced grinding his wheat in the rude stone mortar and moistening the flour preparatory to baking it in the ashes of his camp fire, and just when it was found that an old piece of dough in a fresh batch made it better or "leavened" it, is beyond the reach of historians. Certain it is that though the principle was the same thousands of years ago as it is to-day, it has remained for the makers of Yeast Foam to supply a yeast with all the true leavening powers minus the properties that produce sour, "runny" or soggy bread. This is the yeast that took the first grand prize at the St. Louis Exposition, and revolutionizes the bread making in every home where it is used because much better bread can be made with it from any flour.

Yeast Foam is purely vegetable, being made of the best malt, corn, hops and other healthful ingredients. The factory is also the cleanest and best equipped in the world. This yeast is the only kind that preserves in the bread all the delicious flavor and nutritive value of the wheat. The bread made with it is always sweet and wholesome and stays moist until used. Forty loaves of bread can be made from one 5c package. The makers of Yeast Foam are giving out a new book called "Good Bread; How to Make It." This little book, invaluable in its way, has twenty-six illustrations in colors, and tells how to make all kinds of bread, biscuits, buns and rolls, as well as containing other recipes which will be found invaluable in the home. The way of preparing the different recipes is very clear and comprehensive. The book will be sent free to any one sending their name and address, with a request for same, to the Northwestern Yeast Company, Chicago, Ill. Every woman who bakes should secure a copy.
