## SEVERE KIDNEY AND BLADDER TROUBLE

### HALF OUR ILLS ARE CATARRH.

Thousands of People Have Kidney Trouble and Don't Know It is Catarrh.

Mr. David L. Jaycox, Chaplain of the 1st U. S. Cavalry, and Chaplain G. A. R. 865 Broadway, Oakland, Cal., writes:

"I am an old war veteran. I contracted severe bladder and kidney trouble. I spent hundreds of dollars and consulted a host of doctors, but neither did me any good."

"Peruna has proven the best medicine I ever used. My pains are gone and I believe myself to be cured. I feel well and would not be without a bottle in time of need for ten times its cost."

They have done it with every conceivable drug, have consulted all the schools of medicine. It was not until Peruna came into use, however, that these old soldiers found a remedy that would actually cure them.

**More cases of catarrh of kidneys and bladder have been cured by Peruna than all other medicines combined.**

Hundreds of war veterans have kidney and bladder trouble.

**Impure drinking water, sleeping on the ground, and all manner of exposures to wet and cold weather produced catarrh of the kidneys and bladder.**

### BURRO SERVES AS A GUIDE.

Life of Traveler in Mohave Desert Saved by Keen Scented Tribes.

Chicago Chronicle: The burro, veritable ship of the western desert, will live longer without water and scent it further than any other known animal except the camel. As an example of the keen scent of the burro for water, Arthur J. Burdick relates in "The Mystic Mid-Region" the experience of two prospectors named Peterson and Kelly. A few years ago they attempted to cross the Great Mohave desert on foot, with a burro to carry their supplies.

In passing from oasis to oasis they lost their way and the supply of water became exhausted. To be lost in the desert is a terrible thing, and anxiety, coupled with thirst and the intense heat, drove Peterson insane. He left his companion and fled, shrieking across the plain. Kelly peeked the burro and went after Peterson to bring him back, but was unable to overtake him.

He returned to the trail to find that his burro had broken his tether and was moving across the desert at a leisurely pace. He followed, but the animal was so far in the lead and he was so exhausted from his efforts to overtake Peterson that he could not come up to the burro.

Night came upon him and it soon became so dark that he could not distinguish the burro. He had to follow it by the footprints in the sand. When it became too dark to distinguish the footprints Kelly still staggered on in sheer desperation.

By and by his heart gave a great throb. Before him, outlined against the sky and seemingly suspended in air, was a form which he knew to be either his burro or an apparition. He hurried forward, and lo! standing upon a sharp rise of ground and facing him was his lost burro! The burro seemed to be awaiting him, for when he came upon the animal turned and led the way down the incline to a spring of living water.

#### Admirable Feature.

#### \$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

#### Not Applicable to Women.

Houston Post: "I wonder why Osler did not advise the chloroforming of women when they get to be sixty years old?" "He probably knows that women never get that old."

#### Effects of Prosperity.

In the six years of the country's greatest prosperity, from 1897 to 1903, average prices of breadstuffs advanced 65 per cent., meats 23.1 per cent., dairy and garden products 50.1 per cent and clothing 24.1. All these were products of the farmer and stockman who profited more than any other class of the community by these advances. The miner benefited 42.1 per cent by that advance in the average price of metals. The only decrease in the average prices of commodities in that period was in railway freights, which decreased from .708 per ton-mile in 1897 to .763 in 1903, a loss of 4.4 per cent. The report of the Interstate Commerce Commission shows that the average increase in the pay of railroad employes in that period was a trifle above 8.5 per cent.

#### Wifely Anxiety.

Chicago Tribune: "Doctor, my husband is dreadfully troubled with sleeplessness. What is good for it?" "You might try reading him to sleep," madam. "What would be the use of that, doctor? I try to talk him to sleep every night and it doesn't do a bit of good."

# WOMEN NOT TRUTHFUL

**His Statement Has Been Unjustly Made, Because Modest Women Evade Questions Asked By Male Physicians.**

An eminent physician says that "Women are not truthful; they will lie to their physician." This statement should be qualified; women do tell the truth, but not the whole truth, to a male physician, but this is only in regard to those painful and troublesome disorders peculiar to their sex.

There can be no more terrible ordeal to a delicate, sensitive, refined woman than to be obliged to answer certain questions when those questions are asked, even by her family physician. This is especially the case with unmarried women.

Is it any wonder, then, that women continue to suffer and that doctors fail to cure female diseases when they cannot get the proper information to work on?

This is the reason why thousands and thousands of women are now corresponding with Mrs. Pinkham. To her they can and do give every symptom, so that she really knows more about the true condition of her patients, through her correspondence with them than the physician who personally questions them.

If you suffer from any form of trouble peculiar to women, write at once to Mrs. Pinkham, Lynn, Mass., and she will advise you free of charge.

The fact that this great boon, which is extended freely to women by Mrs. Pinkham, is appreciated, the thousands of letters received by her prove. Many such grateful letters as the following are constantly pouring in.

**Ask Mrs. Pinkham's Advice—A Woman Best Understands A Woman's Ills.**

Mrs. Ella Lee, Frankford, Ind., writes Dear Mrs. Pinkham:— "I want to thank you for what your medicine has done for me. "Three years ago I had inflammation of the ovaries and ulcers on my womb. I was under the doctor's care for about three months, and the only time I was not in pain was when under the influence of morphine. The doctor finally said I never would be better, and would be an invalid the rest of my life. I had given up in despair, but one evening I came across one of your advertisements and decided to write you for advice. I did so and commenced to take Lydia E. Pinkham's Vegetable Compound. I began to improve at once, and today I am a well woman, and I know it is all due to your advice and medicine.

Mrs. J. H. Farmer of 2809 Elliott Avenue, St. Louis, Mo., writes: Dear Mrs. Pinkham:— "I cannot thank you enough for what your advice and medicines have done for me. They have done more good than all the doctors I ever had.

"For the last eight years I have suffered with female troubles; was very weak; had nervous prostration, and could not do my work; but I am happy to say Lydia E. Pinkham's Vegetable Compound has made a different woman of me. I am in perfect health and have gained in weight from 98 pounds to 122 pounds."

No other medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record for actual cures of female ills as has Lydia E. Pinkham's Vegetable Compound.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

### A 480-ACRE FARM YIELDS 25 PER CENT PROFIT IN A YEAR.

What a Mercer County (Ohio) Farmer Received from One Year's Crop. Extracts from an interesting letter from P. H. Rynhard, of Starbuck, Manitoba, Canada, gives an excellent idea of the prosperity of those who have gone from the United States to Canada. He says:

"I bought, August, 1903, 480 acres of land, paying \$12,000 for it. We threshed 2,973 bushels of wheat and between 1,200 and 1,300 bushels of oats and barley from 200 acres. But part of the wheat went down before billing and was not harvested except for hay. The crop was worth at threshing time \$3,000. Besides 120 acres laying idle except a timothy meadow which is not included in this estimate. Counting the value of the product and the increase of value of land will pay me more than 25 per cent on the investment. Two brothers in the same neighborhood bought 160 acres each six years ago. They have not done a single thing to this land except to fence it and break and cultivate about one-half of it. Harvested last year 28 bushels wheat per acre. This year 27 bushels per acre. They can get any day \$25 per acre. These are only a few of many hundreds of such chances. It looks like boasting, but truth is justifiable and the world ought to know it, especially the home-seeker. I know of quite a few farmers that have made fortunes in from 10 to 20 years, retired with from \$20,000 to \$100,000.

Writing concerning another district in the Canadian West, S. L. St. John says: "Dear Sir—I have to inform you that I have just returned from the Carrot river country in Saskatchewan, where I located land of the very finest black vegetable loam, which I am proud of, and will move in the spring. Farmers are still plowing there. A mild climate and beautiful country to behold. Cattle are fat and running outside. Wood and water good. Saw oats weighing 42 pounds to bushel. Potatoes large and well ripened; also wheat that brought their \$2 cents. The country exceeded my expectations. Saw oats in stock, thicker on the ground than appears in many of the illustrations sent out in descriptive pamphlets. I have been in many Western States, but the soil excels any I ever saw."

The Canadian Government Agents at different points report that the inquiries for literature and railroad rates, etc., to Western Canada are the greatest in the history of their work.

Not a Juggler. Chicago Record Herald: "We're awfully glad you can be here to dinner with us, Uncle Thomas. What's the matter?" "I guess I better wait for the second table, Mary. You see, I never eat with two knives and forks and three or four spoons to waist before, and I'm afraid I might spill things."

"Dr. David Kennedy's Favorite Remedy saved my life! I had dyspepsia and kidney disease." Eschator Albert Merritt, Park Place, N. Y. 61 a bottle.

Impossible. Atlanta Journal: "Here! I'm tired calling for that money, pay up." "Impossible! Doctor Osler says a man's worth nothing after forty."
