J'NEILL.

NEBRASKA

Raisins are the dried fruit of the grape vine and are produced chiefly in Spain, although vines are cull'vated in many other countries—Italy, California, Australia, Greece. They are usually partially dried on the vines, the stalk being twisted or broken to prevent moisture from reaching them, and the drying is completed in a warm room. They are packed for exportation either in bunches, like the muscatel raisins from Malaga, or loose, as in the case of the Valencia raisins. Sultanas are a small, seedless variety of grape, exported from Smyrna, and currants a still smaller variety, exported from the islands of the Grecian archipelago.

"If people would eat plenty of rice they would not need drugs to make them sleep," said the drug clerk, paus-ing for a moment in putting up a sleep-ing potion for a woman. "There is ing potion for a woman. "There is much said just now about rice as a strengthening food, but few Americans know that it has soporific powers. If properly cooked it has. Rice should be washed many times, until the water no longer appears milky. It should then be soaked a few hours, salted and boiled rapidly about thirty minutes. When cooked in this way it can be eaten each day with relish, and the person who eats it sleeps, and dreams not at all."

It has been stated recently that it was in 1667, at the siege of Candia, in Was in 1667, at the siege of Candia, in Crete, that siege guns were first used. This statement is contradicted, how-ever, by a writer who says that just before the siege of Constantinople a Hungarian or Wallachian cannon Hungarian or Wallachian cannon founder named Uurban cast, in 1452, at Adrianople, a cannon "which remained for many years the wonder of Europe and marks an epoch in the continually increasing power of guns." Urban's cannon was dragged by sixty oxen to Constantinople in 1843 and threw a stone ball of 1,200 pounds weight. It was fired seven times a day and one

In summer time the air used for ven-tilating the house of commons in London passes through blocks of ice. In winter it is heated. In fog the outer air passes through layers of cotton wool inches thick. During forty-eight hours of fog, the cotton wool on one occasion was as black as the back of a chimney. Thanks to these precautions, the house has been absolutely free from mist and the atmosphere is in normal condition while a dense fog prevails side. The normal temperature of house of commons is kept at the level of 62, except in sultry weather, when it is raised to 65 degrees.

Graham Harvey, the composer t "The Glory Song," now being sung at the Torrev-Alexander, is a young man in the early thirties, and was educated at Dulwich college and Cambridge. Of athletic build and happy disposition, he is a great believer in outdoor exercise. Perhaps the only theap musical composition, which gained so much notoriety as "The Glory Song" was "Crossing the Bar," the set-ting to music of Tennyson's famous words. This is sold in hundreds of thousands, although it is Graham Har-vey's boast that he wrote it in a few

At Brookdale, Santa Crux county, Cal., a fine specimen of the sequoia, or redwood tree, was blown over in a reredwood tree, was blown over in a recent storm. This tree is estimated to be over 330 years old. Ten feet from the top of the tree, and a distance of over 165 feet from the ground, was found a hole somewhat less than two feet deep. It had once been the nest of a woodpecker. In this hole had grown a sturdy, three-stalked huckleberry bush, two feet tall. Its roots extending six feet into the heart of the tree, had absorbed the sap of the redtree, had absorbed the sap of the redeberry had hourished and borne fruit.

There are several species of fish, reptiles and insects which never sleep in the whole of their existence. Among fish it is positively known that pike, salmon and goldfish never sleep at all; also that there are several others in the fish family that never sleep more than a few minutes a month. There than a few minutes a month. There are dozens of species of flies which never indulge in slumber, and from three to five species of serpents which also never sleep.

The Chicago Kennel club has sent out notice for its coming bench show that no dogs, other than those entered in the show, will be allowed to visit the building during the show, thus spoiling fond hopes of many people who have always liked to be the shown who have always liked to "just take
Fido to the show and let him see the
others doggles." Guards will see to it that no practical joker smuggles any cats into the armory.

What is said to have proved an effective smoke consumer has been tried in London. The invention comprises a screen of tubular fire bricks, made of special material built up in the furnace in such a position that all the products of the fire pass through the screen. The latter quickly becomes in-ca descent and "flashes" the gases as they pass through, thus preventing the formation of carbon

A New Jersey man has invented a to-acco pipe, the stem and bowl of which are rade of asbestos. Strips of asbestos, of which the pipe is built, are coated with a paste composed of condensed milk and plaster of paris. In order to burn out the paste the pipe is The inventor says that color from light brown to ebony be obtained by varying the heat. ebony can

The British mint has been busily engaged in coining farthings. Until very recently the farthing has been almost an unknown coin in many, perhaps the majority, of the British possessions. They are only coined to encourage thrift in the colonies. By introducing the smallest coin of the real magazete. the smallest coin of the realm a sav-ing can be effected on purchases of small quantities of goods.

The undergraduates of the University of California have started a fund for the establishment of a club house and dormitory for the students of the third government college at Kyoto, in Japan. In this way it is hoped to raise the standard of morals in Japanese stu-dent life, and, at the same time, show the character of California's interest in the people of that empire.

Filomento Rossi, a St. Louis autiquarian, has made a careful study of the origin of the American Indians and has gathered the results of importan researches into a book with an array of facts which seem to substantiate his theory that aborigines sprang from Etruseans and Phoenicians.

Thirty-five years ago W. H. Newman was a brakeman on a southern rail-road at \$2 a day; today he is presi-dent of the great Vanderbilt system, with a salary of \$120,000 a year, a palatial residence in New York and a private car so sumptuously appointed that a king might ervy it.

# THE O'NEILL FRONTIER HUSBAND SHIPPED WIFE AND HER LOVER

Auburn Man, a Respected Farmer, Thus Ends His Domestic Troubles.

#### STRANGLED WITH NECKTIE

Kearney Man Adopts a New Method of Going Over the Suicidal Route in a Plum Orchard Near Omaha.

Auburn, Neb., April 12.-A peculiar story of domestic infelicity comes from Shubert. Hiram Stotts is a highly respected farmer living in the vicinity of that place. He moved there from this

He married a girl who is well known here and whose parents are residents of Colorado and are well connected. Stotts had a hired man named Wilson and recently he had reason to suspect his wife of having intimate relations with the man. He watched them and found that they were making prepara-tions to elope. He confronted the pair with the evidence of their plans and instead of reproaching the wife for her infidelity and going after the hired man with a shotgun for wrecking his home and happiness, he gave them money to go to some distant point where he will never again come in contact with

The woman and her paramour were driven to the depot at Falls City by

Where they have gone is only known to themselves. The sympathy of all the people in the Shubert neighborhood is with the wronged husband. He is a man of fine character and the tragedy that has been enacted in his life is worse than if death itself had entered.

#### STRANGLES WITH NECKTIE.

Kearney Man Suicides, Without an Ap parent Cause, at Omaha,

Omaha, Neb., April 12.-With a German Catholic prayer book in his hand and the stem of a spray of plum blossoms tucked between the leaves beside a baby's picture, Alvis Thiel was found dead. He had knotted a percale neck-tie about his throat and had slipped one end of the strong cloth in a noose about a sapling plum tree that had begun to bloom. As he lay back upon the ground the little tree bent like a bow, and when his lifeless body was discovered by boys, they thought he

was merely asleep.

When the body was cut down by the coroner the lips of the man were purple from strangulation. In Thiel's pocket was an empty purse and a re-ceipt of a labor agency. It is thought he failed to get the employment that he was seeking and had ended his life in a fit of despondency.

The body was discovered by two boys who were playing and digging up wild violets in the vicinity of the plum

In a satchel which lay between Thiel's feet was an honorable discharge paper from the Austrian army. It showed that he had left the army October 8, 1882. It also showed that he was born in 1850. His naturalization papers, taken out at Kearney. April 2, 1890, were also in the grip.

### ARE AFTER MILITIAMEN.

Detectives Seeking Missing Federa

Property at Norfolk. Norfolk, Neb., April 12.-Indictments by a federal grand jury on the charge appropriating government property is a serious situation with which large number of men in Norfolk are just now threatened and, according to Adjutant General Culver, a situation which they cannot escape. The trouble which they cannot escape. The trouble has arisen from the deplorable condition in which the property of Company L. Second regiment, N. N. G., was found by General Daggett, representing the federal government on an inspection tour. So widely scattered are the guns, tents and other belongings of th company that Adjutant General Culver, in his state capacity, was at once called to account and an order immediately followed from his office order-

ing the company mustered out.

Detectives have been sent to Norfolk to search out the missing property and every person in whose possession a sin-gle article is found must, according to the general, be indicted, as no one has a right to hold any federal property of this class. It is feared that more serious trouble may follow for officers directly accountable for the property. The West Point company been ordered mustered out.

Arbor Day Proclamation.

Lincoln, Neb., April 12.—Governo Mickey has issued the following Arbor day proclamation, setting aside Satur-day, April 22, for the planting of trees: "Nebraska has profited much by the institution and observance of The prolific planting of trees by pioneers and by those who came after them has not only changed the aspect of the plains as inherited from nature, but has wrought an important change in climate conditions as well.

Many parts of the state now present the appearance of a well-wooded country, while other portions are responding to the inspiration of example and ar making rapid strides in the same good cause. Through a wise enactment of the legislature a day has been permanently set apart for the purpose of conserving the interests of forestry and perpetuating the precept and example of the early tree planters.

"In harmony with the statute referred to, I, John H. Mickey, governor of the state of Nebraska, do hereby designate Saturday, April 22, 1905, as Arbor day and do earnestly enjoin its proper ob-servance upon all citizens of the com-Let the day be given over monwealth. to the setting of trees, plants and shrubs, to the end that private and public grounds may have intelligent ornamentation and that present as well as future generations may receive the enefit of our toil. John H. Mickey,

"Governor." OUTRAGER SENTENCED.

Pierce, Neb., April 12.—District cour. adjourned after being in session a little over a week. Last week Judge Boyd heard a number of equity cases, and this week was given to cases to be tried by jury. Paul Klawitter, living near Osmend, was convicted of assault on the pehson of Anna Blackwall, a 14-year-old girl living near Osmend. year-old girl living near Osmond. Judge Boyd stated that hereafter the defendant's request for the appointment of counsel in criminal cases would be disregarded and that he would ap-point them, and that in no case could an attorney collect more than \$65 fee for defending the criminal.

FELL DEAD ON GRAVE.

Had Flowers to Decorate Graves of

Husband and Daughter. Ainsworth, Neb., April 12.—Feebly carrying an armful of flowers from her. little homet to the cemetery at the edge of town for the purpose of decorating the graves of her husband and her daughter, Mrs. L. Woodward of this place, 60 years of age, just as she had leaned over to place the bouquet near her husband's slah was seized with a her husband's slab, was seized with a pain in her breast, sank down and died. Almost at the very spot where she succumbed, the remains of Mrs. Woodward were today lowered into the earth and the flowers which she had carried in her last moment on earth for brightening the last resting place of her former mate were placed gently in her own casket.

#### QUEER SITUATION.

Have No Factory, but Nebraska Farm ers Are Raising More Sugar Beets,

Norfolk, Neb., April 12.—Now that the plant of the American Beet Sugar company, which ran for thirteen un-lucky years in Norfolk, has been dismantled and shipped bodily to Colorado, removing from this point the wheels into which they formerly were able to pour their beets, the farmers around Norfolk and throughout northern Nebraska have determined to raise beets on a larger scale than ever, and contracts have already been signed in this immediate vicinity for almost three times the acreage that was produced a year ago. The beets which shall be grown in northern Nebraska during the coming summer will all be shipped to the Leavitt factory at Ames, the capacity of which has been doubled order to handle the crop that from the territory that naturally be

longed to the Norfolk plant.
One of the visible potent reasons for this remarkable increase in beet raising now that a marketing point has been made eighty miles distant is, perhaps, the fact that the Ames factory will this year pay 25 cents per ton more for the roots than were paid by the Norfolk factory in 1904. The Ames people will pay \$5 per ton flat for beets delivered to them at Norfolk, and they will themselves pay the freight from here to Ames. In order to handle the crop they have made arrangements to crop they have made arrangements to establish in Norfolk a way station. The Norfolk factory last year paid \$4.50 flat per ton, with 25 cents extra for hauling to the factory. The Ames people will pay 20 cents per ton extra for siloed beets, which is the same rate paid at Norfolk last year for that class of crop

Why Should Acreage Increase? This, however, does not fully explain just why the acreage should be increased threefold over the contracts that the Norfolk factory was able to secure for 1905, when the American people offered for the coming season \$5 flat, just as the Ames people are doing. It is a fact, nevertheless, that the American Beet Sugar company were able to secure less than 400 acres of beets from this vicinity last year, while the Ames people has already se cured 1,000 from Norfolk alone, with many hundreds of acres more in other portions of this territory. And by in-creasing their price per ton over last year's contracts the Norfolk people were unable to secure enough new con-tracts for this summer to guarantee a three months' campaign.

Factory to Colorado.

As a result of the lack of beets for the Norfolk factory its machinery has gone to Colorado; and now that it has gone, on the same offer the Ames, Neb. factory has had to double its capacity so that it can chop up beets from 13,-000 acres instead of 6,000 it had twelve months ago. The ease with which contracts have been given to the Ames factory is shown by the fact that at Wayne, Neb., in one day 150 acres were

Nothing definite has been done with the 240 acres of land, the boilers and the magnificent buildings abandoned by the sugar plant here and given back to the citizens who donated \$150,000 for a bonus to secure the institution here

as a result of the peculiar situation, the puzzle that is confronting Norfolk is, why weren't the beets raised for the home plant? It is evident from the tripling of acreage that under certain conditions some farmers in this section at least are willing to devote a portion of their time to beet culture. What it is that has wrought the change in so short a time is quite an unknown The question that has natquantity. start a new sugar factory here, or, if managed along different lines during its lifetime in Nebraska, could the Norfolk plant have been made a success'

### CEMENT BOX FOR DEAD. Auburn Genius Invents a Novel Coffin Wrich Will Not Decay.

Auburn, Neb., April 12.—Alfred V. Williams, of this city, is an inventor. After a winter spent in patient experimenting, he has succeeded in inventing a mould for the purpose of casting air. water and ghoul tight coffin boxes out

He has made application of the commissioner of patents at Washington, D. C., to grant him a patent on his invention. In the manufacture of the noulds it is the intention of the ventor to make a coffin vault of ce ment, sand, clay, or any other material, in which the remains of any person who may have passed away will placed, and that it takes the place of the rough pine box that is now used. With this vault the corpses are pre-served from decay, the ravages of the weather and from the depredations of grave robbers

cement yault is east in sections, the tops being arched so as to give the necessary strength, and the tops and lower parts are built separately and tongued and grooved so that with the application of a little fresh cement they will solidify. The sections are easy to handle and the vault can be made at

After seasoning the vault becomes as solid as rock and the grave robber who seeks to penetrate it must blast his way to the remains of the coffin therein, All those who have examined the inven-tion admit that it fills a long felt want. The vaults can be so cheaply and easily made that they will be within the reach

penters and architects in this section of the county. He left this city Tues-day night for Payette, Idaho, where he has accepted a fine position. He was accompanied by his daughter. Miss

#### WANTED INSURANCE POLICY. Joe Robinson Gets Shower of Blows for

Simple Question. Omaha, Neb., April 12.—"Don't mind the \$29, but what are you going to do with that insurance policy?" asked Joe Robinson, of Harlan, Ia., after he had been held up and beaten.

He had arrived in Omaha, and was taking a look about the city when he was robbed. His pockets were rifled, \$20 in cash taken, also an insurance

Two negro suspects were arrested. and were identified by Robinson as the men who held him up.

# STANDARD AGAIN REPLIES TO LAWSON

Says It Never Had Anything to Do With Him, and He's Bad.

DIDN'T ROB THE PUBLIC

Copper Stocks Just Went Down Because of the Decline in the Market Value of Copper, and That Was Explanation.

New York, April 12.- "We do not know Lawson." This is the answer Henry H. Rogers and his associates make for Amalgamated Copper, and it is their denial of the crimes that is charged to it and the Standard Oil clique by Thomas W. Lawson, Following is Rogers' denial of the acquaint-ance and close business relation which Lawson says existed between them at the time the Amalgamated Copper was conceived. It is published in this week's Public Opionion as part of "The Stock Market End of Amalgamated," and Lawson declares it is Rogers' and Rockefeller's own reply to his charges. Absolutely Fictitious.

-The conversations with Mr. Rog ers and others recorded at length by Lawson are absolutely fictitious.
"B-Lawson was never intimately associated, socially or in a business way, with Mr. Rogers or the other gentle-men whose names he has made so free. Only once in his whole life did he cross the threshold of Mr. Rogers' home and that was upon the occasion which he mentions when he called there in 1895 to offer to betray his associate, Addicks. Nor, though he assidiously pressed himself upon him, did he succeed in seeing Mr. Rogers more than a few times in the ten years, 1895 to 1905, for which he claims close confi-

dential intimacy.
"C-He does not possess and never possessed a letter or scrap of writing from any of these gentlemen, with the exception of Mr. Rogers, and from him only a very few brief notes of a commonplace character.

Has No Agreements.

"D-Mr. Lawson was never engaged by the Amalgamated company or by Mr. Rogers to 'boom' Amalgamated stock or to perform any service on behalf of the company. He does not pos-sess, and, accordingly, cannot produce any agreemnt showing such employment by anyone authorized to make it Mr. Rogers never saw Mr. Lawson between the years 1895 and 1898 and in the last named year he saved him from bankruptcy in response to his pleading.
"When the Amalgamated company

when the Amargamated company was organized it was in the name of James Burrage, and Burrage it was, if anybody, who employed Mr. Lawson. If the latter ever advances sufficiently far in his story as to reach these prom-ised 'proofs' which would be receivable in a court of justice and produces a m a court of justice and produces a contract of any kind, supposing he pos-sesses such a paper, it will be found that Burrage, his partner in Tri-Moun-tain and sundry other schemes, is the contracting party of the second part

Was a Lawson Scheme.

"It is, of course, true that Mr. Law son at his own expense, or at the ex-pense of Mr. Burrage and himself, jointly advertised himself and Amalgamated through the length and breadth of New England and elsewhere and iterated and reiterated the statement that 'Standard Oil' was back of it and him; and also that the stock would go to-the Lord alone knows what, and in short, lavished the resources of his exurbent fancy in striving to sell Amalgamated by the self same methods that he has more recently used in the case Trinity Copper, and is now using in the case of copper range to the openly expressed disgust of William A. Paine, the president of that excellent little company. True, it is also, that Amalgamated Copper protested re-peatedly against these tactics and the land booming methods he was using to advance the market price of the stock.

The Losses Explained.

In this Rockefeller-Rogers story of The Stock Market End of Amalgamated." Lawson'ss statements spoken of as "naked truths, clothed in exaggeration and misstatements, cial appeals to class hatred, to the envenomed envoy of the lackwit, the ne'er do well and the prodigal." This reply denies that the men who formed the Amalagamated paid only \$39,000,000 for the properties, which were after-wards turned over to the company on the valuation basis of \$75,000,000. It is admitted, however, that these mer might have made \$10,000,000 in the deal The loss of millions, which the people who invested in Amalgamated Copper stock suffered, are declared to be due to the decrease in the market of copper and the unavoidable value of copper and causes of market fluctuation.

### FOR CONTROL OF PARTY

New York Bosses Platt and Black Saio to Have Formed an Offensive and Defensive Alliance.

New York, April 12.-The Sun, which for years has been friendly to Senator Thomas C. Platt and has supported him in his efforts to lead the republican party in the state, says today that an offensive and defensive alliance has been entered into between the senator and former Governor Frank S. Black, with the object of contesting the control of the party at the next state vention.

Former Governor Black ,was Odell's candidate for senator to succeed Depew this winter, but Depew won, hands down, and the sincerity of Odell's port was questioned by many of Black's friends and others. An alliance with Black would probably give the anti-Odell forces control of the state, though there would be a great fight, as Odell is supposed to have the Harriman support and a powerful element in finan-cial New York.

## THEY'RE AFTER DIETZ.

Visconsin Lumbermen Propose to Break Up His Control of a River If It Is Possible.

Chippewa Falls, Wis., April 12. Mississippi Logging company this afternoon sent a large crew of men to Cameron dam on the Thorn Apple river drive, where a lot of logs has been held up by John Dietz for a year. Dietz offers resistance the crew not attempt the drive until the federal authorities send ample protection.

### JAPAN'S VIEW OF IT.

Justice and the Cause of Future Peace Demand Indemnity.

London, April 11.—Baron Suyematsu, formerly Japanese minister of the interior, has written an article for the Outlook, "War and Indemnity-the Japse Claim.

Japan will carry on the war until Russia consents to indemnity. The baron

A canon of the Japanese bushido is,
"One should not sheath the sword unless one is to totally overcome or has secured equitable satisfaction for one's cause."
This is our ideal in international intercourse. The sword of Japan is drawn, and the aim for which it was unsheathed has scarcely been attained. We want a peace which will secure tranquility in the far east for at least a generation or two. Scion of Aristocracy Chooses for His. peace which will secure tranquility in the far east for at least a generation or two. Scion of Aristocracy Chooses for His. The world should know that in the present war Japan staked her very existence, whereas with the enemy it was a mere war of caprice. Why, then, in case of defeat, should not Russia be made responsible in equitable accordance with the nature of the affair? I believe, therefore, that in case of the adversary asking for peace the satisfaction which she would
